PREFACE

Recognizing the need for a publication that would list sources of financial aid available to graduating high school students proposing to enter Canadian universities, the National Federation of Canadian University Students undertook, at its annual meeting in December 1953, to begin compilation of such a catalogue.

During 1954, NFCUS groups at the various universities gathered the information and the Economics and Research Branch of the Department of Labour added further material and classified the entries. Finally, the catalogue was edited in the Higher Education Section, Education Division, Dominion Bureau of Statistics, and prepared for publication by the Bureau.

The awards listed are limited to entrance scholarships and bursaries valued at $100 or more. It should be noted that many of the institutions listed also have various loan funds that are available to deserving applicants. Most of the major universities are represented in this catalogue: it is hoped that wider coverage will be possible in subsequent revisions.

An attempt has been made to indicate which of the awards are open to students from other countries.

HERBERT MARSHALL,
Dominion Statistician.

PRÉFACE

Reconnaissant la nécessité d'une publication qui contiendrait une liste des sources d'aide pécuniaire que peuvent obtenir les finissants des écoles secondaires désireux de s'inscrire aux universités canadiennes, la Fédération nationale des étudiants des universités canadiennes, à sa réunion de décembre 1953, a entrepris de dresser un catalogue de ce genre.

En 1954, des groupes de la FNEUC des diverses universités ont réuni les renseignements et la division de l'Économique et des Recherches du ministère du Travail y a ajouté quelques renseignements et a classé le tout. Enfin, le catalogue a été édité par la Section de l'enseignement supérieur, Division de l'éducation, Bureau fédéral de la statistique, et préparé en vue de sa publication par le Bureau.

La liste se limite aux bourses d'entrée et aux bourses d'une valeur de $100 ou plus. Il faut remarquer que plusieurs des institutions énumérées disposent aussi de fonds de prêt offerts aux candidats méritants. La plupart des grandes universités figurent à ce catalogue; il est à espérer qu'un relevé plus complet paraîtra dans les éditions subséquentes.

Le catalogue tente aussi d'indiquer lesquelles de ces bourses sont offertes aux étudiants des autres pays.

INTRODUCTION

Method of Listing Awards:

Information on the awards listed is printed in the language of instruction (English or French) of the institution under which they appear. Entries are grouped by institution; institutions are grouped by province. Entries for each institution are in the following four general categories:

A. **National**: Awards open to students throughout Canada.

B. **Provincial**: Awards open to students from one province only (usually the province within which the institution is located—some awards from Maritime institutions are for more than one Maritime province and are included in this category).

C. **Regional**: Awards open to students from specified localities within a province (usually the province within which the institution is located).

D. **Restricted**: Awards open to certain specified groups of students.

Two indexes facilitate reference. The first lists the above categories of awards by province and institution; the second lists the awards by name and by awarding agency.

General Notes on Awards Listed:

Unless otherwise specified, awards are tenable only at the institution under which the entry appears.

The closing date for application means the date by which completed application forms, official reports of standing, and other supporting documents must be in the hands of the awarding bodies. Such being the case, initial contact should be made as early as possible before the closing dates in order to allow a sufficient interval for any exchange of correspondence and for the collection and forwarding of the necessary documents. As in most cases no personal interview is possible prior to the granting of the awards, applications and other material should be as complete as possible.

Addresses of Institutions Included:

The names and addresses of the institutions included in this catalogue appear below. They are

INTRODUCTION

Mode de groupement des bourses:

Les renseignements sur les bourses paraissent dans la langue d'enseignement (anglais ou français) de l'institution sous laquelle elles figurent. Les bourses sont groupées par institution, et les institutions, par province. Les bourses de chacune des institutions se répartissent entre les quatre catégories générales suivantes:

A. **Nationales**: Bourses accessibles à tous les étudiants canadiens.

B. **Provinciales**: Bourses accessibles aux étudiants d'une seule province (habituellement, la province où se trouve située l'institution. Certaines bourses des institutions des Maritimes s'adressent à plus d'une province Maritime et paraissent dans cette catégorie).

C. **Régionales**: Bourses accessibles aux étudiants de certaines localités déterminées dans une même province (habituellement la province où se trouve l'institution).

D. **Exclusives**: Bourses accessibles à certains groupes déterminés d'étudiants.

Deux index facilitent la consultation du catalogue. Le premier donne la liste des diverses bourses par province et institution: le deuxième, d'après le nom de la bourse et celui de l'organisme que la décerne.

Renseignements généraux sur les bourses du catalogue:

Sauf indication contraire, les bourses ne s'obtiennent qu'aux institutions sous le nom desquelles elles paraissent.

La date limite de demande signifie la date à laquelle les formules dûment remplies, les rapports académiques officiels et autres documents à l'appui doivent parvenir aux organismes donateurs. En conséquence les démarches initiales doivent être faites le plus tôt possible avant la date limite de façon à jouir d'un interval le suffisant pour tout échange de correspondance et pour le rassemblement et l'expédition des documents nécessaires. Comme dans la plupart des cas il ne peut y avoir d'entrevue personnelle avant l'octroi des bourses, la demande et les autres documents doivent être aussi complets que possible.

Adresses des institutions figurant au catalogue:
