Director, Census of Industry and Merchandising: W. H. Losee
Chief, General Manufactures Branch: A. Cohen

The Dominion Bureau of Statistics presents herewith the first of a series of quarterly reports showing the current production of the main items in the secondary textile field. All products listed are arranged to show as much detail as possible on a regional basis without divulging the confidence of the firms submitting reports. It is to be noted that all data are compiled on a commodity basis irrespective of industrial classification, and that they are to be considered as preliminary and subject to revision.
