

# Farm debt outstanding

# **Agriculture economic statistics**

November 2004

Statistics Canada Agriculture Division Farm Income and Prices Section

Catalogue No. 21-014-XIE is a semi-annual publication available free on the Internet at http://www.statcan.ca

# **Highlights**

# Farm debt outstanding increasing steadily

At December 31, 2003, farm debt outstanding rose 7.2% to \$47.7 billion, continuing the steady upswing since 1993. Both mortgaged and non-mortgaged debt rose, by 7.0% and 7.3%, respectively. Since 1986, non-mortgaged debt has been larger than mortgaged debt. In 2003, non-mortgaged debt rose to \$25.0 billion, while mortgaged debt rose to \$22.7 billion.

Most non-mortgaged debt was owed to chartered banks (59.1%) and credit unions (22.8%). Major holders of mortgaged farm debt were Farm Credit Canada (37.9%), chartered banks (26.2%), private individuals (15.0%), credit unions (8.5%) and provincial government agencies (6.0%).

Farm debt in Canada was 22.4% over the previous five-year average, from 1998 to 2002. In 2003, all provinces except Newfoundland and Labrador increased their debt load. Increases ranged from 4.9% in Quebec to 16.7% in New Brunswick. In Newfoundland and Labrador debt decreased 2.1% in 2003.

# Note of Appreciation

Canada owes the success of its statistical system to a long standing co-operation between Statistics Canada, the citizens of Canada, its businesses, governments and other institutions. Accurate and timely statistical information could not be produced without their continued co-operation and goodwill.

# **Symbols**

The symbols described in this document apply to all data published by Statistics Canada from all origins including surveys, censuses and administrative sources, as well as straight tabulations and all estimations.

- not available for any reference period
- .. not available for a specific reference period
- ... not applicable
- 0 true zero or a value rounded to zero
- 0s value rounded to 0 (zero) where there is a meaningful distinction between true zero and the value that was rounded
- p preliminary
- r revised
- x suppressed to meet the confidentiality requirements of the Statistics Act
- E use with caution
- F too unreliable to be published

## Standards of service to the public

Statistics Canada is committed to serving its clients in a prompt, reliable and courteous manner and in the official language of their choice. To this end, the agency has developed standards of service which its employees observe in serving its clients. To obtain a copy of these service standards, please contact Statistics Canada toll free 1 800 263-1136.

## Concepts and Methods

#### Introduction

This publication is part of a series of bulletins that also includes:

- Net farm income Agriculture economic statistics (21-010-XIE),
- <u>Farm cash receipts Agriculture economic</u> statistics (21-011-XIE),
- <u>Farm operating expenses and depreciation charges Agriculture economic statistics (21-012-XIE)</u>,
- Value of farm capital Agriculture economic statistics (21-013-XIE),
- <u>Direct payments to agriculture producers -</u> <u>Agriculture economic statistics (21-015-XIE),</u>
- Balance sheet of the agriculture sector -Agriculture economic statistics (21-016-XIE),
- Agriculture value added account Agriculture economic statistics (21-017-XIE),
- <u>Farm business cash flows Agriculture</u> <u>economic statistics (21-018-XIE).</u>

This particular publication presents national and provincial estimates of farm debt outstanding, by type of lender from, 1971 to date. The impact of including Newfoundland and Labrador estimates beginning in 1981 was minor as it represented only 0.08% of the total debt outstanding.

All series can be obtained free on the internet at the Statistics Canada web site (<a href="www.statcan.ca">www.statcan.ca</a>). Notes on concepts and methods are also included for each data series.

The electronic publication is first available in June. It includes preliminary estimates for the calendar year just ended. The following January, the publication is resissued with revisions to the preliminary estimates. Revisions to the June issue can extend back two years, while those in January generally apply to three years. The date provided at the top right corner of each table is the last time that a revision was made to that table.

Most data appearing in this publication are available through the Canadian Socio-Economic Information Management System (CANSIM), Statistics Canada's corporate computerized data base network and information retrieval service.

The Client Services, Agriculture Division, Statistics Canada can be contacted at 1 (800) 465-1991 or by email at <a href="mailto:agriculture@statcan.ca">agriculture@statcan.ca</a> for further information and/or to obtain data in a different medium.

Statistics Canada is committed to ensuring that there is no disclosure of confidential material and therefore all data are subjected to restrictions prior to release.

### Concepts

The farm debt series measures debt outstanding to agricultural producers as of December 31 of each year. This approach presents a problem as some institutions provide data based on a fiscal year ending March 31. For these institutions, the debt outstanding at the fiscal year-end, March 31, is used to represent the debt at December 31 of the previous year. The impact of this procedure is believed to be minor.

The estimates are produced by province and by class of lender. These classes include: chartered banks; federal government agencies; provincial government agencies; credit unions; private individuals and supply companies; insurance, trust and other companies; and advance payment programs. Loans which are merely guaranteed by an institution are not included in the debt outstanding estimate for that institution.

#### Methods and Data Quality

Data on farm debt outstanding provided by the Bank of Canada, Farm Credit Canada and the provincial and federal agencies are considered to be of very good quality at the provincial and national levels.

Data on farm debt outstanding provided by credit unions are considered to be of good quality at the national level. Except for the Atlantic provinces, the mortgage component of farm debt outstanding to credit unions is considered to be of good quality. The non-mortgage component of farm debt outstanding to credit unions is considered weak in the Atlantic provinces, Ontario and British Columbia. The Farm Financial Survey, which is conducted every two years until 2001 and annually since 2002, was used to estimate debt outstanding to private individuals and supply companies, and insurance, trust and other companies. Advance payments are considered loans made to farmers since no transaction occurs at the time of the advance. These data are supplied by the Canadian Wheat Board and Agriculture and Agri-Food Canada and are considered of good quality at both the national and provincial levels.

Revisions to this series are minor (historically, at the Canada level, any revision to the total debt outstanding in this publication has been less than 1%), and are primarily due to amended data being received from one or more of the agencies. To comply with our publishing schedule, there is occasionally need for an organization to provide us with preliminary year end figures, which are revised in the subsequent issues. Revisions are also made to the private individuals and supply companies, and insurance, trust and other company data once the results of the Farm Financial Survey (FFS) become available.

The Bank of Canada provides information on debt outstanding for **chartered banks**. The Bank of Canada supplies non-mortgage debt at the provincial level, and mortgage debt at the Canada level. Provincial estimates are then calculated based on the distribution pattern of non-mortgage loans.

There are several sources of information on debt outstanding for **federal government** agencies. Farm Credit Canada (FCC) provides estimates of loans outstanding made under the Farm Credit Corporation Act. Loan information is also provided by the Business Development Bank of Canada and Veterans Affairs Canada.

Information is also gathered from many provincial agencies. Newfoundland government Development Loan Board, Prince Edward Island Lending Agency, Nova Scotia Farm Loan Board and New Brunswick Agriculture Development Board information is obtained from the administrative data held by these agencies. In Quebec, Farm Credit Act ("Loi du crédit agricole") loan information regarding debt outstanding is mainly obtained from their annual report. The rest of the farm credit programs offered by the Quebec government are all of a guarantee nature; the province simply guarantees the borrower an interest rate or the lender against defaults. The lenders are commercial banks and Information about the Ontario Junior near banks. Farmers Establishment Program and the Ontario Tile Drainage Debenture Program is obtained from the Ontario Ministry of Agriculture and Food. The Manitoba Agricultural Credit Corporation and the Agricultural Credit Corporation of Saskatchewan both report loan Alberta Agriculture Financial information directly. Services Corporation and British Columbia Ministry of Finance and Corporate Relations loan information is obtained from the administrative data of these two agencies. Alberta Treasury information is obtained directly from that agency.

Estimates of agriculture debt outstanding to **credit unions** are based on provincial data supplied by the Industrial Organization and Finance Division (IOFD) of Statistics Canada. IOFD conducts quarterly surveys and publishes this information at the Canada level in <u>Quarterly Financial Statistics for Enterprises</u>, Statistics Canada Catalogue No. 61-008-XIE.

The category "private individuals and supply companies" includes credit owed to machinery and finance companies, dealers, stores and private individuals. Information regarding this type of credit is based on the Farm Financial Survey (FFS) (formerly FCC survey).

**Insurance, trust and other unclassified** company estimates are based on information from the Farm Financial Survey (formerly FCC survey).

Advance payments estimates are derived from data supplied by the Canadian Wheat Board (CWB) and Agriculture and Agri-Food Canada. These payments are a type of loan made to farmers since no transaction occurs at the time of the advance. Prior to 1971 the estimates are included in cash receipts under the category "CWB net cash advances".

#### How to obtain more information

Inquiries about this product and related statistics or services should be directed to Client Services and Marketing Unit, Agriculture Division, Statistics Canada at 1 800 465-1991 or by email: agriculture@statcan.ca
