Wage Settlements

Covering 500 or More Employees

October 2007

Major collective bargaining settlements in October 2007 provided base-rate wage adjustments averaging 3.4% annually over the contract term. The results are based on a review of 16 settlements and cover 39,950 employees.

When the parties to these settlements previously negotiated, the resulting wage adjustments averaged 2.4%, lower than in their current settlements. Contract duration in October 2007 averaged 41.1 months, compared to 41.9 months in the previous round of settlements.

Wage adjustments in the public sector averaged 3.8% for 26,800 employees in 10 agreements; private-sector wage adjustments averaged 2.5% for 13,150 employees in 6 agreements.

Two relatively large education-sector settlements in Alberta and Saskatchewan had an impact on the public-sector figure. One in Alberta involved the University of Calgary providing 2,150 faculty members with wage adjustments averaging 5.0% and

the other with the Government of Saskatchewan which provided 12,000 elementary and high-school teachers with wage gains of 4.2%. These two agreements accounted for slightly over a third of the total employee coverage in October settlements. Excluding these 2 agreements, the

remaining 8 public-sector settlements averaged increases of 3.1% and the remaining 14 major settlements (both sectors) averaged increases of 2.8%.

On a jurisdiction basis, wage adjustments ranged from a low of 1.3% in Ontario, to a high of 5.0% in Alberta. The largest concentration of employees (30%) was in Saskatchewan where wage adjustments averaged 4.2%.

On an industry basis, wage adjustments ranged from a low of 2.2% in manufacturing, to a high of 3.9% in education, health, and social services. The largest concentration of employees (48.9%) was also in the education, health, and social services sector.

Just over 40% of employees covered in October settlements received adjustments in the 2.0 to 2.9% range while 3.9% received wage adjustments below that range, 19.9% received adjustments in the 3.0 to 3.9% range, 30% received adjustments in the 4.0 to 4.9% range, and 5.4% of employees received increases of 5.0%.

Wage adjustments in base rates for the first 10 months of 2007 (January to October) averaged 3.3%: 3.4% in the public sector and 3.1% in the private sector.
