The logo features a red outline of a Canadian maple leaf positioned above a grey globe. The globe is oriented with its top hemisphere facing downwards, showing latitude and longitude lines. To the right of the graphic, the text "Canadian Topographic Maps/Cartes" is displayed in a large, bold, sans-serif font. Below this, the words "topographiques du Canada" are written in a smaller, lighter grey font.

- The area shown on the map represents 500 meters above sea level.
- The contour interval is 500 meters.
- The magnetic compass may be erratic in this region.

- The approximate mean magnetic declination for the center of the map in 2010 was 27°04' (483 mils).

The diagram illustrates the relationship between geographic coordinates and UTM grid coordinates.

True North-Nord géographique is indicated by a vertical line.

Grid North-Nord du quadrillage is indicated by a line rotated 90 degrees relative to the True North line.

1°37' (28 mils) is the angular distance between the True North and Grid North lines.

100 000 metre Square Identification identifies a square area on the grid.

Identification du carré de 100 000 mètres identifies the same square area.

MQ is the identifier for the UTM grid square.

Transverse Mercator Projection, **Projection transverse de Mercator**, **North American Datum 1983**, and **Système de référence nord-américain 1983** define the coordinate system.
