Wage Settlements Covering 500 or More Employees

August 2010

Major collective bargaining settlements reached in the month of August 2010 provided base-rate wage adjustments averaging 1.5% annually over the contract terms. The results are based on a review of 11 agreements and cover 33,940 employees.

When the parties to these settlements previously negotiated, contract durations averaged 37.4 months and the resulting wage adjustments averaged 3.8%, compared to the 1.5% in their current round of settlements and average contract durations of 39.9 months.

Wage adjustments averaged 1.4% in the public sector and 1.9% in the private sector where the largest concentration of employees (69.8%) was in the public sector. The lowest average wage adjustment in the public sector was due in part to the Regional Health Authorities of Manitoba settlement and 11,000 nurses with wage gains averaging 1.1% and the Government of Nova Scotia and 7,700 administrative and service employees settling for a wage adjustment averaging 1.0%. These 2 agreements together accounted for 79% of the employee coverage in the public sector and 55% of the employee coverage in all the August settlements. In the private sector, the United Parcel Service Canada Ltd. agreement provided 5,600 employees with an average annual adjustment of 2.1%. This agreement alone accounted for 54.7% of employees in this sector.

On a jurisdictional basis, Ontario registered the largest average wage adjustment at 3.1% (a single construction agreement covering 760 employees). The smallest average wage adjustments were recorded in both New Brunswick and British Columbia at 1.0%. In the federal jurisdiction, 3 agreements provided 7,080 employees with an average wage adjustment of 2.0% (includes Canadian Freightways, United Parcel Service Canada Ltd. and TELUS Communications Inc.).

On an industry basis, the largest average wage adjustment was in the construction sector, at 3.1%. The lowest average adjustment was reported in the manufacturing sector, at 1.0%.

In August, 75% of employees received average annual wage increases in the 1.0 to 1.9% range. The remaining 25% of employees received wage increases at or above 2.0%.

For major settlements to date in 2010 (January to August), wage adjustments are averaging 2.0%. The upcoming Government of Quebec's tentative settlements (average annual adjustment of 1.2%) will exert more downward pressure on the aggregate average annual wage figure when they ratify.

In the following tables, COLA is the abbreviation for Cost-of-Living Allowance.
