Methodology

All data is based on the most current data available at the time of the drafting of this report (unless otherwise indicated). All dollar amounts in the tables are expressed in Canadian dollars, unless otherwise indicated.

Ginseng and Herbs and Spices

Ginseng and Herbs and Spices are considered to be horticultural products. Statistics for these commodities were not available for the release of this brochure. A brochure for only these commodities will be available after the release of this brochure. Future releases of the Statistical Overview of Canadian Horticulture will contain data for these commodities.

Farm Cash Receipts and Production Values

Farm Cash Receipts and production values reported in the tables are obtained from Statistics Canada but are compiled from different sources. Production values are expressed as remuneration obtained at the "Farm Gate" and are concerned with gross returns to growers, while Farm Cash Receipts represent the cash income received from the sale of agricultural commodities as well as direct program payments made to support the agricultural sector. Farm Cash Receipts are estimated using both administrative and survey sources of data.

Trade Data

Import and export data is based on the following Harmonized System Codes (H.S. Codes):

Vegetables: Includes fresh, frozen, dried and provisionally preserved vegetables. Greenhouse vegetables included unless otherwise indicated. These vegetables fall under the following H.S. Code headings for imports and exports: 0702, 0703, 0704, 0705, 0706, 0707, 0708, 0709, 071021 to 071090, 0711, 07122000 to 07129020, 0712909090 and 0714.

Processed Vegetables and Vegetable-based Beverages: Includes vegetables that are canned, and are pulp, pastes, purée, sauces and juices. These processed vegetables fall under the following H.S. Code headings for imports: 200110, 20019010, 2001909020 to 2001909099, 2002, 2003, 200490, 200510, 200540 to 200599, 200950, 20098020, 20099040 and 210320. For exports, processed vegetables fall under the following H.S. Code headings: 2001, 2002, 2003, 200490, 200510, 200540 to 200599, 200950, 20098031, 20098039 and 210320.

Potatoes and Potato Products: Includes fresh and frozen potatoes, potato flour, flakes, starch and prepared potatoes. Imports and exports fall under the H.S. Code headings 0701, 071010, 0712909010, 1105, 110813, 200410 and 200520. H.S Code 0712909010 is also included.

Greenhouse: Export H.S. Codes include 07020010, 07070010 and 07096010.

Fruit: All imports and exports H.S. Codes fall under Chapter 08 of the Customs Tariff.

Processed Fruit and Fruit-based Beverages: Processed: Includes fruit that are canned, and are pulp, pastes, purée, sauces, juices and alcohol. These processed fruit fall under the following H.S. Code headings for imports: 2001.90.90.10, 20060010, 20060020, 2007, 2008, 2009.11 to 2009.49, 2009.61 to 2009.80.19, 2009.90.10 to 2009.90.30, 2204, 2205, 2206.00.11 to 2206.00.49, 2208.20, 2208.90.41, 2208.90.49 and 2208.90.92. For exports, processed fruit fall under the following H.S. Code headings:

2006, 2007, 2008, 2009.11 to 2009.49, 2009.61 to 2009.79, 2009.80.40, 2009.90.00, 2204, 2205, 2206 and 2208.20.

Ornamentals: All imports and exports H.S. Codes fall under Chapter 06 of the Customs Tariff.

Honey: All imports and exports H.S. Codes fall under heading 0409.

Maple: All imports and exports H.S. Codes fall under heading 170220.

Horticulture: Combination of the H.S. Codes from the above sectors with the exception of Vegetables – Processed and Fruit - Processed.

For the tables concerning the top 10 countries showing import growth volume by sector (Table 14 to Table 20), the import data presented only shows countries where there was positive growth (greater than zero percent) between 2006 and 2010. The data is sorted on 2010 volume.

Sources

Certain tables indicate publications with multiple time periods (for example: Statistics Canada (23-221-X, 2007, 2008, 2009, 2010). In these instances, the most recent publication does not provide data for all the time periods listed in the table. Therefore, the data for a missing time period is provided by most up-to-date publication that includes that missing time period.
