Under the authority of the *Pest Control Products Act*, Health Canada's Pest Management Regulatory Agency (PMRA) has added new uses on cucurbit vegetables (Crop Group 9) and greenhouse vegetables to end-use products containing technical grade propamocarb hydrochloride. The specific uses approved in Canada are detailed on the product labels of Tattoo C Suspension Concentrate Fungicide (cucurbit vegetables) and Previcur N Aqueous Solution Fungicide (greenhouse cucumbers, peppers and tomatoes), *Pest Control Products Act* Registration Numbers 24544 and 26288, respectively.

Corresponding maximum residue limits (MRLs) were proposed in the consultation document published on 13 July 2011, Proposed Maximum Residue Limit PMRL2011-29, *Propamocarb Hydrochloride*. The PMRA received no comments in response to this consultation.

To comply with Canada's international trade obligations, consultation on the proposed MRLs was also conducted internationally by notifying the World Trade Organization, as coordinated by the Standards Council of Canada. No comments were received as a result of the World Trade Organization consultation.

The following MRLs take legal effect in Canada as of the publication date of this document and either replace or are in addition to the MRLs already established for propamocarb hydrochloride.

Common Name	<b>Residue Definition</b>	MRL (ppm)	Food Commodity
Propamocarb hydrochloride	propyl [3-(dimethylamino)propyl] carbamate hydrochloride	2.5	Cucurbit vegetables* (Crop Group 9)
		0.01	Bell peppers, tomatoes

## Established Maximum Residue Limits for Propamocarb Hydrochloride

The MRL replaces the previously established 2.0 ppm MRL for cucumbers and includes all other group commodities.

MRLs are established for each commodity included in the listed crop grouping in accordance with the Residue Chemistry Crop Groups webpage in the Pesticides and Pest Management section of Health Canada's website.

A complete list of all pesticide MRLs established in Canada can be found on the Maximum Residue Limits for Pesticides webpage in the Pesticides and Pest Management section of Health Canada's website.
