- ". "Fatal collisions" include all reported motor vehicle crashes that resulted in at least one death, where death occurred within 30 days of the collision, except in Quebec (eight days).
- "Personal injury collisions" include all reported motor vehicle crashes which resulted in at least one injury but not death within 30 days of the collision, except in Quebec (eight days).
- 3. "Fatalities" include all those who died as a result of a reported traffic collision within 30 days of its occurrence, except in Quebec (eight days). 4. "Serious Injuries" include persons admitted to hospital for treatment or observation. Serious injuries
- were estimated from 1990 to 2009 because several jurisdictions under-reported these numbers 5. "Total Injuries" include all reported severities of injuries ranging from minimal to serious.
- * Data for Nunavut are not reported for 2001, except for fatalities.
- Revised.
