Under the authority of the *Pest Control Products Act*, Health Canada's Pest Management Regulatory Agency (PMRA) has granted full registration to technical grade diflufenzopyr-sodium and the end-use product Overdrive Herbicide for use in Canada on pasture and rangeland grasses and non-cropland sites.

Corresponding livestock maximum residue limits (MRLs) were identified in Proposed Maximum Residue Limit PMRL2011-45, *Diflufenzopyr*, published on 17 November 2011. MRLs are established for the acid, diflufenzopyr, rather than the sodium salt. The PMRL referenced the consultation document, Proposed Registration Decision PRD2011-05, *Diflufenzopyr-sodium*, published on 30 May 2011. The PMRA received no comments in response to the consultation under PRD2011-05.

To comply with Canada's international trade obligations, consultation on the proposed MRLs was also conducted internationally by notifying the World Trade Organization, as coordinated by the Standards Council of Canada. No comments were received as a result of the World Trade Organization consultation.

The following MRLs take legal effect in Canada as of the publication date of this document and are in addition to the MRL already established for diflufenzopyr in or on corn.

## **Established Maximum Residue Limits for Diflufenzopyr**

Common Name	Residue Definition <sup>a</sup>	MRL (ppm)	Food Commodity
Diflufenzopyr	ufenzopyr  2-[(1 <i>E</i> )-1-[2-[[3,5-difluorophenyl) amino] carbonyl]hydrazinylidene]ethyl]- 3-pyridinecarboxylic acid, including metabolites convertible to pyrido[2,3- d]pyridazin-5(6 <i>H</i> )-one, 8-methyl-, expressed as diflufenzopyr	0.5	Meat byproducts of cattle, goats, hogs, horses and sheep
		0.2	Fat and meat of cattle, goats, hogs, horses and sheep
		0.05	Milk

The residue definition identified in the preceding PMRL has been modified somewhat to accurately reflect Chemical Abstracts Service (CAS) nomenclature.

A complete list of all pesticide MRLs established in Canada, as of the date indicated, can be found on the Maximum Residue Limits for Pesticides webpage in the Pesticides and Pest Management section of Health Canada's website.
