Under the authority of the *Pest Control Products Act*, Health Canada's Pest Management Regulatory Agency (PMRA) has granted full registration to technical grade ametoctradin and the end-use products Zampro Fungicide and BAS 650 00 F Fungicide for use in Canada on various food commodities. The specific uses approved in Canada are detailed on the labels of Zampro and BAS 650 00 F Fungicides, *Pest Control Products Act* Registration Numbers 30321 and 30322, respectively.

Corresponding maximum residue limits (MRLs) were identified in Proposed Maximum Residue Limit PMRL2012-06, *Ametoctradin*, published on 6 March 2012. The PMRL referenced the consultation document, Proposed Registration Decision PRD2011-25, *Ametoctradin*, posted to the Health Canada website on 19 December 2011. The PMRA received no comments in response to the consultation under PRD2011-25.

To comply with Canada's international trade obligations, consultation on the proposed MRLs was also conducted internationally by notifying the World Trade Organization, as coordinated by the Standards Council of Canada. No comments were received as a result of the World Trade Organization consultation.

The following Canadian MRLs for ametoctradin take legal effect as of the publication date of this document.

Established Maximum Residue Limits for Ametoctradin

Common Name	Residue Definition	MRL (ppm)	Food Commodity
Ametoctradin	5-ethyl-6-octyl[1,2,4]triazolo[1,5- <i>a</i>]pyrimidin-7-amine	50	Leafy Brassica greens (Crop Subgroup 5B); spinach
		40	Leafy vegetables, except Brassica (Crop Group 4, except spinach)
		20	Green onions (Crop Subgroup 3-07B)
		10	Hops
		9.0	Head and stem Brassica (Crop Subgroup 5A)
		8.0	Raisins
		4.0	Small fruit vine climbing, except fuzzy kiwifruit (Crop Subgroup 13-07F)
		3.0	Cucurbit vegetables (Crop Group 9)
		1.5	Bulb onions (Crop Subgroup 3-07A); fruiting vegetables (Crop Group 8-09)
		0.05	Tuberous and corm vegetables (Crop Subgroup 1C)

Common Name	Residue Definition	MRL (ppm)	Food Commodity
	5-ethyl-6-octyl[1,2,4]triazolo[1,5- <i>a</i>]pyrimidin-7-amine, including the metabolite 7-amino-5-ethyl-[1,2,4]triazolo[1,5- <i>a</i>]pyrimidine-6-hexanoic acid	0.02	Eggs; fat, meat and meat byproducts of cattle, goats, hogs, horses, poultry and sheep; milk

MRLs are established for each commodity included in the listed crop groupings in accordance with the Residue Chemistry Crop Groups webpage in the Pesticides and Pest Management section of Health Canada's website.

A list of pesticide MRLs established in Canada, as of the date indicated, can be found on the Maximum Residue Limits for Pesticides webpage in the Pesticides and Pest Management section of Health Canada's website.
