Under the authority of the *Pest Control Products Act*, Health Canada's Pest Management Regulatory Agency (PMRA) has established maximum residue limits (MRLs) for cyprodinil in or on various fruits, vegetables and herbs to permit the import and sale of foods containing such residues.

Corresponding MRLs were proposed in the consultation document published on 28 February 2012, Proposed Maximum Residue Limit PMRL2012-03, *Cyprodinil*. The PMRA received no comments in response to this consultation.

To comply with Canada's international trade obligations, consultation on the proposed MRLs was also conducted internationally by notifying the World Trade Organization, as coordinated by the Standards Council of Canada. No comments were received as a result of the World Trade Organization consultation.

The following MRLs take legal effect as of the publication date of this document and either replace or are in addition to MRLs already established for cyprodinil.

Established Maximum Residue Limits for Cyprodinil

Common Name	Residue Definition	MRL (ppm)	Food Commodity
Cyprodinil	4-cyclopropyl-6-methyl- <i>N</i> -phenyl-2-pyrimidinamine	170	Dried parsley leaves
		60	Citrus oil
		35	Fresh parsley leaves ^a
		15	Herbs (Crop Subgroup 19A; dried leaves, except parsley)
		10	Leaves of root and tuber vegetables (Crop Group 2) ^b
		3.0	Herbs (Crop Subgroup 19A; fresh leaves)
		1.8	Kiwifruit
		1.2	Avocados, black sapotes, canistels, mamey sapotes, mangoes, papayas, sapodillas, star apples
		1.0	Tomato paste
		0.75	Root vegetables except sugar beet (Crop Subgroup 1B, except carrot roots) ^c
		0.7	Cucurbit vegetables (Crop Group 9)
		0.6	Lemons, limes
		0.45	Tomatoes, tomatillos

ppm = parts per million

^a MRL replaces the previously established 30 ppm MRL.

^b MRL replaces the previously established 9.0 ppm MRL for turnip tops and adds MRLs for the remaining food commodities in the crop subgroup.

^c Carrot roots are excluded from this MRL action as a 0.75 ppm MRL is already established for the commodity.

MRLs are established for each commodity included in the listed crop groupings in accordance with the Residue Chemistry Crop Groups webpage in the Pesticides and Pest Management section of Health Canada's website.

A list of pesticide MRLs established in Canada, as of the date indicated, can be found on the Maximum Residue Limits for Pesticides webpage in the Pesticides and Pest Management section of Health Canada's website.
