## Note of appreciation

Canada owes the success of its statistical system to a long-standing partnership between
Statistics Canada, the citizens of Canada, its businesses, governments and other
institutions. Accurate and timely statistical information could not be produced without
their continued cooperation and goodwill.

## Data quality, concepts and methodology

Data quality

## Highlights

- The operating revenues of the private radio broadcasting sector totalled $\$ 1.6$ billion in 2012 , up a modest $0.3 \%$ from 2011. The majority of these revenues (98\%) were from advertising.
- The profit margin before interest and taxes was $19.7 \%$ in 2012 , up from $19.4 \%$ in 2011 , with profits totalling $\$ 320$ million.
- Ontario's private radio broadcasters remained the most profitable in the country. Despite a small $2.2 \%$ decline in operating revenues and an even larger $3.1 \%$ decrease in operating expenses, Ontario's private radio stations posted their best profit margin before interest and taxes in the last 12 years (24.7\%).
- In 2012, ethnic radio stations reported the highest rate of operating revenue growth, at $4.7 \%$, compared with $0.3 \%$ for English-language stations and -0.4\% for French-language stations.

## Private radio broadcasting

## A year of stabilization for the radio industry

The operating revenues of the private radio broadcasting sector totalled $\$ 1.6$ billion in 2012, up a modest $0.3 \%$ from 2011. The majority of these revenues (98\%) were from advertising.

The annual growth rate for 2012 was the lowest since 2000, except for 2009, when revenues were down $5.3 \%$ compared with 2008 because of the economic slowdown. After the 2010 recovery, the growth rate of radio broadcasting revenues stabilized.

The profit margin before interest and taxes was 19.7\% in 2012, up from $19.4 \%$ in 2011, with profits totalling $\$ 320$ million. The industry has still not returned to the level of profitability it had before the 2008 economic slowdown.

## FM and AM radio

For the FM radio sector, operating revenues edged $0.7 \%$ higher to $\$ 1.3$ billion in 2012 , up $\$ 9$ million. Although expenses rose just $0.2 \%$ in 2012 , FM radio's profit margin before interest and taxes has still not returned to its pre-recession levels. The profit margin for 2012 was $21.8 \%$, up slightly compared with 2011 (21.4\%).

The number of FM radio stations continued to increase in 2012, as 11 new stations were added. Since 2000, 294 new FM radio stations have gone on the air in Canada.

The number of $A M$ radio stations continued to decline in 2012, as there were five fewer stations than in 2011. Since 2000, there are 110 fewer stations on the AM band in Canada. Many of them moved to the FM band, and the least profitable ones went out of business.

In 2012, the operating revenues and expenses of AM radio stations were both down $1.6 \%$ compared with 2011, falling to $\$ 307$ million and $\$ 274$ million respectively. The profit margin before interest and taxes remained above the $10 \%$ threshold, at $10.7 \%$.

## Ontario stations still the most profitable in Canada

Ontario's private radio broadcasters remained the most profitable in the country. Despite a small $2.2 \%$ decline in operating revenues and an even larger 3.1\% decrease in operating expenses, Ontario's private radio stations posted their best profit margin before interest and taxes in the last 12 years (24.7\%).

In Alberta, private radio stations' profit margin before interest and taxes grew from 19\% to $21.2 \%$ in 2012. This performance was attributable to a large increase in revenues (+3.4\%) and restraint in expenses (+0.5\%) in 2012. This growth made Alberta's radio broadcasters the second most profitable in Canada.

After two consecutive annual increases, the profit margin of Manitoba's private radio stations before interest and taxes declined to $16.8 \%$ in 2012 , compared with $20.5 \%$ in 2011 . This decrease was attributable to a sharp rise in expenses, up $6.6 \%$ from 2011. Saskatchewan's radio broadcasters remained the least profitable in the provinces, reporting a profit margin of 11\% before interest and taxes, down from 11.8\% in 2011.

The profitability of private radio stations in the Atlantic region has been declining steadily for the last seven years. The profit margin of the region's private radio stations before interest and taxes fell from $27 \%$ in 2005 to 14.6\% in 2012.

## Ethnic radio stations still growing

In 2012, ethnic radio stations reported the highest rate of operating revenue growth, at $4.7 \%$, compared with $0.3 \%$ for English-language stations and $-0.4 \%$ for French-language stations.

For English-language radio, profits before interest and taxes rose $1.0 \%$ to $\$ 274$ million, compared with $6.8 \%$ for French-language stations (\$40 million) and 37.9\% for ethnic stations (\$6 million). Profit margins were 20.9\%, 15\% and $12.9 \%$ respectively in 2012.

1. The 2009 data is not comparable to previous years data. As a result of re-organizations and changes in accounting practices, some respondents have modified the way they are declaring their results.
Note(s): Totals may not add due to rounding.

## Data quality

The statistics presented in this publication are for the Radio Broadcasting industry (51511) as defined in the 2007 North American Industrial Classification System (NAICS).

The annual survey on which this publication is based is sent to all organisations licensed by the Canadian Radio-television and Telecommunications Commission (CRTC) to operate conventional radio or television programming undertakings. The survey of conventional broadcasters is conducted jointly by Statistics Canada and the CRTC.

The data presented in this publication are of good quality and can therefore be used with confidence. This assessment is based on available data accuracy measures and the judgment of the analysts involved in this survey. These statistics are, however, subject to revision. Revisions are usually the result of late receipt of information, of re-filing by respondents of previously submitted data, or of detection of errors after publication of data. They typically do not have a material impact on the preliminary results. Past revisions generally accounted for less than $1 \%$ of the value for key variables such as total revenues, salaries and wages and number of employees. Users interested in learning more about the concepts, methodology and data quality of the broadcasting surveys can visit Statistics Canada's web site at www.statcan.gc.ca. Definitions, data sources and methods are available for most surveys. The survey title is Radio and Television Broadcasting Survey (ID 2724).
