

Migratory Birds Hunting Regulations, 2014–2015

Summary

The information presented here is a summary of the law. If there is a discrepancy between the law and this summary, the law prevails. For complete information on fines, general prohibitions, permitted hunting methods and equipment, the requirement to have adequate means to retrieve birds immediately, restrictions on the use of bait, the description of hunting zones and other restrictions on hunting, please refer to the *Migratory Birds Convention Act, 1994* and *Migratory Birds Regulations*. These, along with other useful information for hunters, can be found on the Environment Canada website (www.ec.gc.ca), or you may contact:

Hunting Zones

Hunters are advised to pay particular attention to the Alberta Hunting Guide to ensure that they are hunting for the correct species in the correct wildlife management unit during the permitted times and dates. Note that these zone numbers do not correspond to regions as presented in the Guide.

You are required to possess a valid federal Migratory Game Bird Hunting Permit with a Canadian Wildlife Habitat Conservation Stamp to hunt migratory birds in Canada. This permit and stamp are valid in all provinces and territories. Most provinces and territories have additional licence requirements for hunting migratory birds and/or to carry firearms. To know what you require, and if there are further restrictions for hunting migratory birds, please verify the applicable regulations for the province/territory where you will be hunting. Note that all required permits and licences must be in your possession while you are hunting.

Consultation Process and Migratory Birds Regulatory Reports

The hunting provisions of the *Migratory Birds Regulations* are reviewed by Environment Canada, with input from the provinces and territories, as well as a range of other interested stakeholders. Environment Canada has developed a consultation process for establishing hunting regulations for migratory birds, and publishes the Migratory Birds Regulatory Report Series that can be found on the Environment Canada website (www.ec.gc.ca).

IMPORTANT UPDATES TO THE HUNTING REGULATIONS FOR ALBERTA

Introduction of a special spring conservation harvest for Snow Geese and Ross's Geese: Snow Geese and Ross's Geese may be harvested province wide from March 15 to June 15, 2015.

Increase in the daily bag limit for any combination of Snow Geese and Ross's Geese: Bag limit is 50, and there is no possession limit.

Increase in the daily bag limit for White-fronted Geese for non-residents of Canada: Bag limit is 5, and the possession limit is 15.

For complete details regarding the 2014–2015 hunting season, please refer to the Open Season and Bag and Possession Limit tables below.

Waterfowler Heritage Days provide young hunters under the age of majority with the opportunity to practise hunting and outdoor skills, learn about wildlife conservation, and reinforce safety training in a structured, supervised environment. Licensed adult hunters who serve as mentors have an opportunity to pass on their considerable skills and knowledge by offering guidance and advice to younger hunters. The following rules are in effect:

- to participate, young hunters under the age of majority do not require the federal Migratory Game Bird Hunting Permit;
- young participants must comply with all existing safety and licensing requirements found in the *Firearms Act* and provincial hunting regulations;
- participants must be accompanied by a licensed mentor over the age of majority; and
- mentors may not hunt or carry a firearm, and may accompany no more than two young hunters.

In Alberta, **non-toxic shot must be used** to hunt migratory birds. Within National Wildlife Areas, the possession of lead shot is prohibited for all hunting, including the hunting of migratory birds and upland game birds. Hunters should consult provincial or territorial regulations for additional restrictions.
