Renseignements généraux

Les renseignements que contient le présent volume de la série des Répertoires géographiques du Canada ont été réunis au moyen d'une banque de données informatisée. Cette automatisation facilitera la révision et la mise à jour des renseignements pour les éditions suivantes. La conception et la présentation matérielle ont été établies, en grande partie, grâce aux commentaires des usagers.

Comme nous voulons demeurer réceptifs aux besoins de nos clients, nous vous invitons à nous faire connaître vos observations sur ce volume. Vos suggestions et critiques concernant le style et la présentation du contenu de ces volumes peuvent nous être adressées à:

Section de la toponymie
Division des services de géographie
Centre canadien de cartographie
Énergie, Mines et Ressources Canada
615, rue Booth, 6^e étage
Ottawa (Ontario) K1A 0E9

Prière d'adresser vos questions relatives aux noms, à la politique et aux pratiques concernant l'origine et l'usage des noms géographiques ou la terminologie à:

Foreword

This third edition of the Gazetteer of Canada: Alberta supersedes the 1974 edition. As a result of new trends in toponymy in Alberta, this volume contains 9 000 entries, compared to 7 800 in 1974. As well, this edition includes the new designation "Former Locality" to describe places that were once populated. In this way, these historical names remain in the official records.

Geographical names in Alberta become official by a process of review and recommendation by the Historic Sites Board of Alberta (composed of members of the public interested in the preservation and protection of historical resources) and then ratification by the Minister of Alberta Culture and Multiculturalism. These decisions are forwarded to the Secretariat of the Canadian Permanent Committee on Geographical Names for inclusion in the National Toponymic Data Base. All name submissions are subjected to rigorous documentary and field research in order to determine local usage, and must be in keeping with the "Principles for Naming" as outlined by Alberta toponymic authorities, and approved by the Historic Sites Board of Alberta.

In Alberta, geographical naming is a complex exercise that serves more than simple cartographic expediency. Indeed, toponymy provides a critical insight into Alberta's history and settlement patterns and presents, in the names themselves, perhaps the most striking public evidence of Alberta's cultural and ethnic diversity. Place names appearing on any map must not only conform to details of the physical landscape, but also reflect the cultural landscape of those who settled and stayed in Alberta. These considerations create the philosophical basis for geographical naming in Alberta.

The work carried out by the Secretariat of the Canadian Permanent Committee on Geographical Names and the Toponymy Section, Canada Centre for Mapping, in the production of this edition is gratefully acknowledged.

Alberta Culture and Multiculturalism
Edmonton, 1988*

Avant-propos

Cette troisième édition du Répertoire géographique du Canada: Alberta remplace et annule l'édition de 1974. À la suite des nouvelles tendances qui ont caractérisé la toponymie en Alberta, 9 000 entrées ont été regroupées dans le présent volume, par opposition à 7 800 en 1974. De plus, la nouvelle désignation "Ancienne localité" décrit les endroits qui étaient peuplés auparavant; ainsi, ces noms historiques pourront être conservés dans les dossiers officiels.

L'officialisation des noms géographiques en Alberta débute lorsque le Historic Sites Board de l'Alberta (composé de particuliers qui s'intéressent à la conservation et à la protection des ressources historiques) étudie et recommande les noms, et se termine avec la ratification de ceux-ci par le ministre albertain de la Culture et du Multiculturalisme. Les toponymes ainsi choisis sont communiqués au Secrétariat du Comité permanent canadien des noms géographiques, qui les ajoute à la Base nationale de données toponymiques. Tous les noms proposés font l'objet de recherches documentaires poussées et d'études détaillées sur le terrain afin que soit déterminé l'usage local; ils doivent également être conformes aux principes de dénomination adoptés par les autorités toponymiques albertaines et être approuvés par le Historic Sites Board de l'Alberta.

En Alberta, la toponymie est un processus complexe qui ne satisfait pas uniquement à des besoins cartographiques. En effet, elle aide à mieux connaître l'histoire de l'Alberta et les tendances qui ont caractérisé l'établissement des gens dans la province; elle présente, de par les noms eux-mêmes, sans doute la preuve la plus marquante de la diversité culturelle et ethnique de la province. Les noms d'endroits qui paraissent sur toute carte doivent correspondre non seulement aux particularités de l'environnement local, mais aussi au milieu culturel de ceux qui se sont établis pour de bon en Alberta. Ces considérations sous-tendent la désignation des noms géographiques dans la province.

Nous remercions vivement le Secrétariat du Comité permanent canadien des noms géographiques ainsi que la Section de toponymie du Centre canadien de cartographie pour leur contribution à la production de cette nouvelle édition du Répertoire.

Preface

In 1897, the Geographic Board of Canada, later the Canadian Board on Geographical Names, was established by Order in Council and authorized to rule on all questions of geographical nomenclature affecting Canada. The Board was reorganized as the Canadian Permanent Committee on Geographical Names in 1961, and its present membership and functions are defined by Order in Council P.C. 1969-1458. The Committee is comprised of twenty-three members and is guided by established principles.

Names approved by the Committee are published in the Gazetteer of Canada series, of which the present volume lists all the currently and previously approved names in Alberta. The Committee welcomes reliable information concerning additions and corrections to Canada's geographical names. After approval, such names will be included in future editions of the gazetteer series.

The cooperation of the Government of Alberta has been essential to the accuracy and completeness of this volume. The assistance of Committee member, Frits Pannekoek, and Geographical Names Programme Coordinator, Aphrodite Karamitsanis, is gratefully acknowledged.

*J. Hugh O'Donnell
Chairman
Canadian Permanent Committee on
Geographical Names
Ottawa, 1988*

Préface

En 1897, la Commission de géographie du Canada, devenue par la suite la Commission canadienne des noms géographiques, était instituée par décret du conseil et investie du pouvoir de statuer sur toutes les questions relatives à la nomenclature géographique du Canada. La Commission a été réorganisée en 1961 sous le nom de Comité permanent canadien des noms géographiques, dont la composition et les fonctions actuelles sont définies par le décret CP 1969-1458. Le Comité comprend vingt-trois membres. Ses décisions sont fondées sur des principes établis de nomenclature.

Les noms approuvés par le Comité sont publiés dans la série des Répertoires géographiques du Canada dont le présent volume contient tous les noms, auparavant et maintenant approuvés, pour l'Alberta. Le Comité accueille favorablement tout renseignement valable qui concerne des additions et des corrections à apporter aux noms géographiques du Canada. Une fois approuvés, ces noms seront inclus dans les éditions suivantes de la série.

La collaboration du gouvernement de l'Alberta a été essentielle à la réalisation et à la précision du présent volume. Le Comité remercie M. Frits Pannekoek, membre du Comité, et Mme Aphrodite Karamitsanis, coordinatrice du Programme des noms géographiques de l'Alberta.

*J. Hugh O'Donnell
Le Président du
Comité permanent canadien
des noms géographiques
Ottawa, 1988*

Committee Membership

The Canadian Permanent Committee on Geographical Names is composed of representatives from Federal Government Departments concerned with mapping, archives, translation, defence and Indian lands, and appointed representatives from each province and territory of Canada.

Federal Members

O'DONNELL, J.H.

Chairman, Canadian Permanent Committee on Geographical Names, Ottawa. K1A 0E9

WALLOT, J.-P.

National Archivist, National Archives of Canada, Ottawa. K1A 0N3

LANDRY, A.

Assistant Under Secretary of State, Official Languages and Translation, Secretary of State, Ottawa. K1A 0M5

O'BRIEN, L.J.

Director General, Canada Centre for Mapping, Department of Energy, Mines and Resources, Ottawa. K1A 0E9

SWAN, G.

Director, Lands Directorate, Reserves and Trusts Branch, Department of Indian Affairs and Northern Development, Ottawa. K1A 0H4

CARNEY, Col. D.T.

Director of Cartography, National Defence Headquarters, Ottawa. K1A 0K2

DOUGLAS, R.G.

Directeur, Direction du patrimoine, ministère du Tourisme, Whitehorse (Yukon). Y1A 2C6

FREEMAN, R.

Toponymiste, Culture et Communications, Yellowknife (Territoires du Nord-Ouest). X1A 2L9

Autre représentant

LAPIERRE, A.

Président, Comité consultatif de la recherche toponymique.

Principles of Nomenclature

The principles of nomenclature which guide the decisions of the Canadian Permanent Committee on Geographical Names are summarized as follows:

1. Names created by legislation are accepted by the Committee.
2. First consideration is given to names with well-established local usage. Unless there are good reasons to the contrary, this principle prevails.
3. Names for facilities established by postal authorities, railway companies and major public utilities are accepted, if they are in keeping with the other principles. Such agencies are encouraged to have open communication with the appropriate names authorities.
4. A name decision for a physical or cultural feature should specify the geographical limits of the feature to which the name applies. Future approval of different names with the same generic for a part of the same feature should be avoided.
5. The application of a personal name is not made unless it can be demonstrated that exceptional circumstances exist and it is in the public interest to do so.
6. Where no local names are in use, preferred sources for names are: descriptive names appropriate to the features; pioneers, explorers and historical events connected with the area; names from native languages formerly identified with the general area; and names of persons who died during war service.
7. Names should be euphonious and in good taste.
8. A name is usually adopted in a single language form, and where possible, written in the Roman alphabet. Other forms in use may also be sanctioned by the appropriate names authority. A name derived from languages other than English or French should be written in the best recognized orthography. Names of selected geographical entities of "Pan-Canadian" significance are recognized in both English and French for use on federal maps and in federal texts.
9. The spelling and accenting of names are in accordance with the rules of the language in which they are written.
10. Names of the same origin applying to various service facilities in a community should conform in spelling with the official name of the community. Names with the same specific for associated features should agree in form and spelling.

Principes de nomenclature

Résumé des principes de nomenclature qui orientent les décisions du Comité permanent canadien des noms géographiques:

1. Le Comité reconnaît les noms créés par une loi.
2. Les noms qui sont depuis longtemps implantés dans l'usage local ont la priorité. Ce principe doit prévaloir à moins de bonnes raisons contraires.
3. Les noms d'installations établis par les autorités postales, les compagnies de chemins de fer et les principaux services publics sont acceptés pourvu qu'ils soient conformes aux autres principes. Ces organismes sont encouragés à communiquer librement avec les autorités toponymiques compétentes.
4. Une décision prise à la suite d'une proposition de nom pour une entité naturelle ou un élément anthropique doit préciser les limites géographiques de l'entité ou de l'élément auquel le nom se rapporte. Par la suite, on évitera d'approuver des noms différents comportant le même générique pour désigner une partie de la même entité.
5. L'emploi d'anthroponymes (noms de personnes) est interdit, à moins que l'on ne fasse état de circonstances exceptionnelles et qu'il n'y aille de l'intérêt public.
6. Lorsqu'aucun toponyme local n'existe déjà, les toponymes choisis devraient être de préférence des noms descriptifs convenant aux éléments considérés, des noms de pionniers, d'explorateurs ou d'événements historiques qui ont un lien avec la région, des noms tirés des langues autochtones assimilés autrefois avec la région environnante, ou encore des noms de personnes mortes à la guerre.
7. Les noms doivent être euphoniques et de bon goût.
8. De façon générale, un nom est adopté dans une seule forme linguistique, et autant que possible, écrit dans l'alphabet romain. D'autres formes peuvent aussi être sanctionnées par les autorités toponymiques compétentes. Un nom dérivé d'une langue autre que le français ou l'anglais doit avoir la meilleure orthographe reconnue. Les noms de certaines entités géographiques d'intérêt pancanadien ont, dans les deux langues officielles, une forme consacrée qu'il faut respecter sur les cartes et dans les textes produits par le gouvernement fédéral.
9. L'orthographe des noms géographiques ainsi que l'emploi des accents appropriés sont conformes aux règles de la langue utilisée.
10. Les noms de même origine donnés à diverses installations de service dans une localité, doivent avoir une orthographe conforme à celle du nom officiel de la localité. Les mêmes spécifiques qui se retrouvent dans des noms différents employés pour désigner des entités parentes ou voisines doivent respecter une orthographe unique.

11. Duplication of names to the extent that confusion may result should be avoided.
12. A geographical name usually includes both a specific and a generic element. The generic term should be appropriate to the nature of the feature and will be recorded in English or in French, by the names authority concerned.
13. Qualifying words such as "upper", "west branch", and "nouveau" may be used in an area to distinguish two or more features with identical specific forms.
14. Except where local and historic usage dictates, the official approval of a name of a minor feature is guided by the relative significance of the feature, the familiarity of the name, and the scale of mapping available.

11. Le double emploi d'un nom doit être évité lorsque ce nom peut prêter à confusion.
12. De manière générale, un toponyme comprend à la fois un terme spécifique et un terme générique. Le générique devrait correspondre à la nature de l'entité géographique qu'il désigne et doit être enregistré en français ou en anglais par l'autorité toponymique compétente.
13. On peut utiliser des termes qualificatifs tels que "upper", "west branch", et "nouveau" pour distinguer deux ou plusieurs entités comportant des formes spécifiques identiques.
14. Sauf lorsque l'impose l'usage local et historique, l'approbation officielle de noms pour de petites entités s'appuie sur l'importance relative de l'entité, son usage et l'échelle des cartes disponibles.

Procedures Concerning the Submission of Geographical Names

Proposals

Except in exceptional circumstances, the Committee itself does not initiate naming. Most new names approved by the Committee are submitted by the general public and by organizations. Such names should be for specific geographical features.

Individuals or organizations contemplating the publication of geographical names should submit proposals well in advance of publication dates. The consideration of new names may require considerable time, particularly when local investigation is required. The publication of unauthorized names will not necessarily result in official recognition.

Descriptive names, local names and names relating to the history of an area are preferred. The following information accompanied by adequate documentation will facilitate prompt decisions:

- (a) location by latitude and longitude, specifying map consulted;
- (b) identification on a map indicating precise extent of the feature;
- (c) photographs or sketches;
- (d) reasons for proposals;
- (e) origin.

Changes

Reliable, preferably documented, information concerning corrections in the use, spelling or application of toponyms on maps and charts is welcomed by the Committee.

Inquiries

Inquiries concerning geographical nomenclature in Canada, proposals concerning new names, or changes in the form, spelling or application of existing names may be submitted in writing to:

Executive Secretary
Geographical Names
6th Floor, 615 Booth Street
Ottawa, Ontario
K1A 0E9
Telephone: (613) 992-3405

Inquiries about names in Alberta may be addressed to:

Historic Sites Service
Alberta Culture & Multiculturalism
8820 - 112th Street
Edmonton, Alberta
T6G 2P8
Telephone: (403) 427-2022

Directives pour la présentation de noms géographiques

Propositions

À moins de circonstances exceptionnelles, le Comité n'amorce pas lui-même le mécanisme de désignation des lieux. Les nouveaux noms approuvés par le Comité sont pour la plupart proposés par un particulier ou par un organisme. Ces noms doivent s'appliquer à des éléments géographiques précis.

Les particuliers ou les organismes qui envisagent de faire publier des noms géographiques doivent présenter leurs propositions longtemps à l'avance. L'examen des nouveaux noms peut demander du temps, surtout s'il faut procéder à des enquêtes sur place. Un nom ne reçoit pas forcément la sanction officielle parce qu'il a déjà été publié.

Il faut proposer de préférence des noms descriptifs, d'usage local ou des noms qui évoquent une page de l'histoire de la région. Il est souhaitable de soumettre au Comité les renseignements suivants et la documentation pertinente; les décisions n'en seront que plus rapides. Ces renseignements sont:

- (a) la latitude et la longitude du lieu considéré, en indiquant la carte consultée;
- (b) l'identification de l'élément sur une carte en indiquant son étendue exacte;
- (c) des photographies ou des croquis;
- (d) les raisons motivant la proposition;
- (e) l'origine.

Modifications

Le Comité accueille favorablement tout renseignement sûr, et de préférence documenté, relatif aux corrections à apporter à l'utilisation, à l'orthographe ou à l'application de toponymes sur les cartes géographiques.

Demandes de renseignements

Les demandes de renseignements concernant la toponymie du Canada, les propositions de nouveaux noms ou les modifications à apporter à la forme, à l'orthographe ou à l'application de noms existants doivent être présentées par écrit au:

Secrétaire exécutif

No de téléphone: (403) 427-2022

Explanatory Notes

Incorporated Entities

City	A community of over 10 000 inhabitants, incorporated by Order in Council.
Town	A community of at least 1 000 inhabitants, incorporated by Order in Council.
Village	A community containing at least 75 occupied dwellings, incorporated by Order in Council.
Summer Village	A community containing at least 50 seasonally occupied dwellings, incorporated by Order in Council.
Municipal District	A rural unit which may include farmlands, as well as unincorporated communities such as hamlets, but which does not have responsibility for school administration.
County	A rural unit having responsibility for school administration.

Unincorporated Entities

Improvement District	A rural unit managed by the Government of Alberta.
Urban Community	A named part of a city or town, without definite limits.
Settlement	A legally-designated land subdivision, usually with a scattered population. Metis settlements are included in this category.
Hamlet	A place usually containing eight or more occupied dwellings and at least one retail business outlet.
Locality	A place with scattered population or less than eight occupied dwellings.
Former Locality	A place usually uninhabited or with a very small, scattered population. (Names are not shown on current National Topographic System maps).

Notes explicatives

Agglomérations constituées en corporation

Cité	Une collectivité de plus de 10 000 habitants, constituée en corporation par décret du conseil.
Ville	Une collectivité d'au moins 1 000 habitants, constituée en corporation par décret du conseil.
Village	Une collectivité composée d'au moins 75 habitations occupées, constituée en corporation par décret du conseil.
Village estival	Une collectivité composée d'au moins 50 habitations saisonnières, constituée en corporation par décret du conseil.
District municipal	Une unité rurale qui peut comprendre aussi bien des terres agricoles que des collectivités non constituées en corporation telles que les hameaux, mais qui n'est pas responsable de l'administration scolaire.
Comté	Une unité rurale responsable de l'administration scolaire.

Agglomérations non constituées en corporation

District d'urbanisation	Une unité rurale administrée par le gouvernement de l'Alberta.
Collectivité urbaine	Une partie dénommée d'une cité ou d'une ville; ses limites ne sont pas définies.
Établissement	Une subdivision territoriale désignée par la loi, normalement avec une population clairsemée. Les établissements métis sont de cette catégorie.
Hameau	Un endroit composé normalement d'au moins huit habitations occupées et d'au moins un point de vente au détail.
Localité	Un endroit où la population est clairsemée ou occupe moins de huit habitations.
Ancienne localité	Un endroit normalement inhabité ou avec une très faible population clairsemée. (Les noms des anciennes localités ne paraissent pas sur les cartes du Système national de référence cartographique actuel.)

Post Office	A Canada Post designation, listed where the post office name differs from the name of the place where it is located.	Bureau de poste	Une désignation de Postes Canada. Les noms des bureaux de poste ne sont donnés que lorsqu'ils diffèrent de ceux des endroits où les bureaux sont situés.
Former Post Office	Name retained for a post office now closed. (Names are not shown on current National Topographic System maps).	Ancien bureau de poste	Le nom d'un bureau de poste maintenant fermé. (Les noms des anciens bureaux de poste ne paraissent pas sur les cartes du Système national de référence cartographique actuel.)
Railway Point	A named point or intersection of tracks, as designated by a railway company. Formerly approved names may indicate "station" or "junction".	Point ferroviaire	Un point ou une intersection de chemin de fer dénommé, tel que désigné par une société ferroviaire. Les anciennes désignations approuvées peuvent être celles de "gares" ou de "jonctions".
Canadian Forces Base, Station, Training Area	An established base, station or training area for operations of the armed forces.	Base, Station, champ de manoeuvre et/ou tir des Forces canadiennes	Base, station, champ de manoeuvre et/ou tir établis pour les activités des Forces armées.

Alphabetization

All elements of a community or locality name constitute a single proper name and are, therefore, alphabetized letter by letter. In previous editions of the Gazetteer of Canada Series, these names were shown in upper case (for example, CALGARY and MEDICINE HAT), in order to distinguish them from physical or cultural features. However, in this edition, these names are shown in both upper and lower case in order to reflect their approved form.

The names of most physical and cultural features consist of a specific, for example, Darwin in Darwin Lake and Deroches in Lac Deroches; and of a generic, for example, Pass in Kicking Horse Pass and National Park in Banff National Park.

The names of these features are listed letter by letter, so that Hollies Creek precedes Hollis Coulee, and Bank Creek precedes Bankfoot Creek. Exceptions to this arrangement are:

- a) when a generic precedes the specific, as in Mount Olympus, the name is listed in the gazetteer as Olympus, Mount;
- b) when the name begins with a definite article, as in The Sharp Hill, it is listed as Sharp Hill, The. This also applies to names whose elements are wholly approved in French, such as the lake known as Lac la Nonne, which is listed as Nonne, Lac la;
- c) when French particles such as "à" or "des" occur in physical and cultural names, they are placed with the generic, resulting in listings such as Bosche, Roche à and Arcs, Lac des.

Classement alphabétique

L'ensemble de la dénomination d'une collectivité ou d'une localité est traité comme un nom propre et donc classé par ordre alphabétique, lettre par lettre. Les noms de lieux étaient écrits en majuscules (par exemple, CALGARY et MEDICINE HAT), dans les éditions précédentes du Répertoire géographique du Canada en vue de les différencier des éléments physiques ou culturels. Toutefois, ils sont écrits en majuscules et minuscules dans la présente édition de façon à refléter leur forme officielle.

Les noms de la plupart des éléments physiques et culturels sont constitués d'un nom propre, le spécifique, comme Darwin dans Darwin Lake et Deroches dans Lac Deroches; et d'un générique, comme Pass dans Kicking Horse Pass et Parc national dans Parc national Banff.

Ces noms complets d'éléments sont utilisés lettre par lettre pour le classement alphabétique. C'est ainsi que Hollies Creek vient avant Hollis Coulee, et Bank Creek vient avant Bankfoot Creek. Il y a toutefois des exceptions à cette règle:

- a) quand le terme générique précède le nom propre, comme dans Mount Olympus, le nom est inscrit et classé comme Olympus, Mount;
- b) quand le nom commence par un article défini, comme dans The Sharp Hill, il est inscrit et classé comme Sharp Hill, The. Les noms qui sont approuvés complètement en français, comme Lac la Nonne, sont inscrits comme Nonne, Lac la;
- c) lorsque le nom d'un élément physique ou culturel contient une particule, comme "à" et "des", cette particule accompagne le générique, de sorte que le nom est classé comme Bosche, Roche à et Arcs, Lac des.

Identical names are listed in ascending order of latitude.

Where an abbreviation is used, such as "St.", the alphabetical arrangement proceeds as though the abbreviated word were spelled in full, for example, St. Brides (Loc.) precedes Saint Cyr, Lac and St. Vincent (Loc.) precedes Sakayo Lake.

Language Treatment

The material in this gazetteer is presented in a manner designed to serve the needs of both English and French-speaking readers in a single volume.

Names are recorded as approved by the provincial authority and recognized as official by the Canadian Permanent Committee on Geographical Names.

A glossary of generic terms is included. The definitions in the glossary are given in both English and French, as are all other general notes and explanatory items in the text.

In some instances, when the name does not contain a generic term, or the generic term used does not convey the nature of the feature represented, an explanatory descriptive term is given in brackets, in both English and French, e.g. Committee Punch Bowl (Lake-Lac); La Corey (Loc.); Twins, The (Peaks-Pics) and Merlin Castle (Mountain-Montagne).

Map Reference

The purpose of this column is to assist the user when a map is required. The map is at the 1:50 000 scale, being the largest scale of the National Topographic System available for all of Alberta. By referring to the map index inside the back cover of the gazetteer, the user can readily determine in what area of Alberta a particular feature is located.

It should be noted that some of the names in the gazetteer may not be found on the referenced 1:50 000 map. This may occur because of congestion of named features, the small size of the named feature at that scale, or because the name was approved after the publication of the current edition of the map.

Les noms identiques sont classés par ordre croissant de latitude.

Lorsque l'on utilise une abréviation telle que "St", le classement alphabétique s'effectue comme si le terme abrégé était écrit en toutes lettres. Ainsi, St. Brides (Loc.) vient avant Saint Cyr, Lac et St. Vincent (Loc.) vient avant Sakayo Lake.

Usage linguistique

Les renseignements contenus dans le présent répertoire sont présentés de manière à pouvoir répondre en un seul volume aux besoins des lecteurs francophones et anglophones.

Chaque nom est indiqué sous la forme linguistique approuvée par le délégué de la province auprès du Comité permanent canadien des noms géographiques. Cette forme correspond normalement à l'usage local le plus courant.

Le Répertoire comporte un glossaire des termes génériques. Les définitions y sont données en français et en anglais; il en va de même pour toutes les autres notes générales et explicatives qui se trouvent dans le corps du texte.

Parfois, lorsque le nom ne comporte pas de terme générique ou lorsque le terme générique utilisé ne définit pas la nature de l'élément représenté, un terme descriptif explicatif est indiqué entre parenthèses, en anglais et en français; par exemple: Committee Punch Bowl (Lake-Lac); La Corey (Loc.); Twins, The (Peaks-Pics); et Merlin Castle (Mountain-Montagne).

Région cartographique

Cette colonne a pour but d'aider l'utilisateur appelé à se servir d'une carte. Elle renvoie aux cartes à 1/50 000, la plus grande échelle représentée au Système national de référence cartographique couvrant la province de l'Alberta. En se reportant à la carte-index placée à la fin du répertoire, l'utilisateur peut déterminer rapidement dans quelle partie de l'Alberta se trouve l'élément qui l'intéresse.

Certains noms du présent répertoire peuvent ne pas être indiqués sur les cartes actuelles à 1/50 000. Ce peut être dû à l'encombrement de la carte par les noms d'éléments, à la dimension réduite de l'élément à cette échelle, ou au fait que le nom de l'élément n'a été approuvé qu'après la publication de l'édition actuelle de la carte.

Categories of Names

There are four categories of names in this gazetteer:

- Approved names in good standing;
- Equivalent French forms for names of geographical features of pan-Canadian significance;
- Cross-reference names that have been changed to new names as indicated;
- Rescinded names (i.e. names no longer officially recognized, but for which no new names have been substituted).

These categories are distinguished by type style and format.

Catégories de noms

Il y a quatre catégories de noms dans le présent répertoire:

- Noms approuvés et reconnus;
- Équivalents français de noms d'entités géographiques d'intérêt pancanadien;
- Renvois à de nouveaux noms tels qu'ils sont indiqués;
- Noms supprimés (c'est à dire ceux qui n'ont pas été remplacés par de nouveaux noms).

Ces catégories sont indiquées au moyen d'une typographie d'une présentation matérielle différente.

Examples:

Approved Name	High River (Town-Ville)	82 L/12	50° 35'	113° 52'
Pan-Canadian French Equivalent Name	Paix, Rivière de la – also-aussi – Peace River	74 L/14	59° 00'	111° 25'
Cross-reference Name	<i>Deer Creek Trail</i> – see-voir – Mountain Trail	83 E/10	53° 35'	118° 55'
Rescinded Name	* <i>Glenhewitt</i> (Loc.)	83 A/12	52° 40'	113° 58'

Exemples:

Nom approuvé	High River (Town-Ville)	82 L/12	50° 35'	113° 52'
Forme française des noms d'intérêt pancanadien	Paix, Rivière de la – also-aussi – Peace River	74 L/14	59° 00'	111° 25'
Renvoi	<i>Deer Creek Trail</i> – see-voir – Mountain Trail	83 E/10	53° 35'	118° 55'
Nom supprimé	* <i>Glenhewitt</i> (Loc.)	83 A/12	52° 40'	113° 58'

Glossary of Generic Terms

Basin	- Bowl-shaped head of a valley in foothills or mountains.
Bay	- Water area in an indentation of the shoreline of lakes or large rivers.
Beach	- Gently sloping shore of unconsolidated material along the margins of a lake or river.
Bend	- Distinct curve in a water body.
Bluff	- Headland, cliff, or river bank with a steep face.
Bottom	- Level land of a valley floor.
Brook	- Small watercourse, often tributary to a river or creek.
Buffalo Jump	- Vertical side of a coulee, hill, or river bank. Place where Prairie Indians killed herds of bison by driving them over steep cliffs.
Butte	- Conspicuous isolated hill with steep sides and a flat top.
Canal	- Artificial waterway.
Canyon	- Deep narrow valley with precipitous walls.
Cape, Cap	- Prominent elevated projection of land extending into a body of water.
Cascade	- Series of stepped waterfalls.
Cave	- Natural subterranean chamber open to the surface.
Channel	- Narrow stretch of water, either an inlet or a connection between two bodies of water.
Chenal	- Natural or man-made navigable waterway between land or shoals.
Chutes	- Narrow and fast flowing descent of a watercourse confined within steep banks.
Cliff	- High steep face of rock and/or unconsolidated material.
Coulee, Coulée	- Usually steep-sided valley or ravine.
Creek	- Watercourse, usually smaller than a river.
Crossing	- A place suitable for traversing a body of water.
Dam	- Artificial structure to control water flow and flood waters.
Depression	- Low-lying land surrounded by higher land.

Glossaire des termes génériques

Basin	- Partie amont d'une vallée, en forme de cuvette, dans le piémont ou la montagne.
Bay	- Partie d'un lac ou d'un grand cours d'eau occupant une échancrure du littoral.
Beach	- Partie du rivage d'un lac, ou d'un cours d'eau, de faible pente et constituée de matériaux non consolidés.
Bend	- Inflexion dans le tracé d'une étendue d'eau.
Bluff	- Cap, falaise ou rive présentant une face abrupte.
Bottom	- Fond plat d'une vallée.
Brook	- Petit cours d'eau qui, souvent, se jette dans un autre cours d'eau.
Buffalo Jump	- Versant vertical d'une coulée, d'une colline ou d'une rive. Lieu où les amérindiens des Plaines tuaient des troupeaux de bisons en les faisant sauter à bas de falaises escarpées.
Butte	- Colline isolée aux versants raides et au sommet plat.
Canal	- Voie d'eau artificielle.
Canyon	- Vallée profonde et étroite aux versants escarpés.
Cape, Cap	- Saillie de terre élevée qui s'avance dans une étendue d'eau.
Cascade	- Chute d'eau comportant plusieurs paliers.
Cave	- Cavité naturelle souterraine et ouverte sur l'extérieur.
Channel	- Bande d'eau étroite et allongée, qui prolonge une étendue d'eau ou qui met en communication deux étendues d'eau.
Chenal	- Voie navigable naturelle ou aménagée entre des terres ou des hauts-fonds.
Chutes	- Partie d'un cours d'eau étroite et enserrée entre des berges abruptes, où l'eau tombe brusquement.
Cliff	- Paroi abrupte et élevée, constituée de roc ou de matériaux non consolidés, ou des deux.
Coulee, Coulée	- Vallée ou ravin aux versants habituellement raides.
Creek	- Cours d'eau généralement plus petit qu'une rivière.
Crossing	- Endroit permettant de traverser une étendue d'eau.
Dam	- Obstacle artificiel pour contrôler l'affluence d'eau et d'eau de crue.
Depression	- Creux dans la surface d'un terrain.

Dome	- Mass of rock or ice with rounded top, elevated above the surrounding terrain.	Dome	- Masse de roche ou de glace au sommet arrondi, qui domine le terrain environnant.
Draw	- The upper part of a stream valley or coulee, providing access to higher ground.	Draw	- Partie amont d'une vallée fluviale ou d'une coulée, qui s'ouvre sur un terrain plus élevé.
Eddy	- Small whirlpool in a watercourse, running contrary to the direction of the current.	Eddy	- Petit tourbillon dans un cours d'eau, qui se déplace dans le sens contraire à celui du courant.
Elbow	- Sharp turn in a watercourse.	Elbow	- Inflexion raide dans le tracé d'un cours d'eau.
Falls	- Perpendicular or steep descent of water.	Falls	- Rupture de pente perpendiculaire ou brusque d'où tombe une masse d'eau.
Fen	- Waterlogged ground.	Fen	- Terrain détrempé.
Flat	- (i) Almost level land, usually found along a valley. - (ii) Level area of land usually composed of fine material, extending from the shore.	Flat	- (i) Terre presque horizontale qui longe habituellement une vallée. - (ii) Prolongement plat d'un rivage généralement constitué de matériaux fins.
Foothills	- Hilly transition zone between a mountain range and a plain.	Foothills	- Région au relief ondulé qui marque la transition entre une plaine et un ensemble montagneux.
Ford	- Shallow part of a watercourse that may be crossed on foot, on horseback, or by land vehicle.	Ford	- Partie peu profonde d'un cours d'eau qui peut être traversée à pied, à cheval ou au moyen d'un véhicule à moteur.
Forks	- Junction of two streams; a confluence.	Forks	- Jonction de deux cours d'eau; confluence.
Gap	- Narrow opening through a ridge or mountain chain.	Gap	- Ouverture étroite dans une élévation de terrain ou une chaîne de montagnes.
Glacier	- Mass of permanent snow and ice flowing from an area of snow accumulation on higher ground.	Glacier	- Masse de neige et de glace éternelles s'écoulant d'une zone d'accumulation de neige située dans une région élevée.
Group	- Collective term for a cluster of similar topographic features (e.g. peaks, mountains).	Group	- Collectif désignant une réunion d'accidents géographiques de même nature (p. ex. des pics ou des montagnes).
Grove	- Small wooded area.	Grove	- Petit terrain boisé.
Gulch	- Deep, steeply graded, V-shaped declivity, sometimes containing a stream.	Gulch	- Entaille profonde, à pente raide et en forme de V, parfois traversée par un cours d'eau.
Head	- High, prominent land feature extending into a lake.	Head	- Saillie de terre élevée qui s'avance dans un lac.
Hill	- Elevation of terrain rising prominently above the surrounding land.	Hill	- Élévation de terrain se détachant nettement du relief environnant.
Hotsprings	- Site of a natural flow of hot or warm water issuing from the ground.	Hotsprings	- Point d'apparition, à la surface du sol, d'eaux souterraines chaudes ou tièdes.
Icefield	- Irregularly shaped mass of permanent snow and ice, generally forming the accumulation area of two or more glaciers.	Icefield	- Masse de neige et de glace éternelles, de forme irrégulière, qui sert généralement de zone d'accumulation à deux ou plusieurs glaciers.
Indian Reserve	- Tract of land set apart for the use and benefit of a particular Indian band.	Indian Reserve	- Voir Réserve indienne.
Inlet	- Elongated body of water extending from a lake.	Inlet	- Étendue d'eau allongée qui prolonge d'un lac.
Island	- Land area surrounded by water or marsh.	Island	- Masse de terre entourée d'eau ou de marécages.

Lake, Lac	- Inland body of standing water.	Lake, Lac	- Nappe d'eau dormante dans les terres.
Loch	- Variant of "lake".	Loch	- Variante de "lake".
Lookout	- Elevation from which the surrounding terrain can be viewed.	Lookout	- Hauteur d'où il est possible d'observer le terrain environnant.
Marsh	- Area of low-lying land, often flooded and usually characterized by growth of grass and reeds.	Marsh	- Terrain bas, souvent inondé, où croissent habituellement de l'herbe et des roseaux.
Meadow	- (i) Low-lying flat, seasonally wet grassy area. - (ii) Alpine or sub-alpine treeless area characterized by seasonal grasses and wild flowers.	Meadow	- (i) Terrain bas et plat, inondé de façon saisonnière et occupé par une végétation herbeuse. - (ii) Région sans arbres de type alpin ou subalpin, caractérisée par la présence de fleurs sauvages et d'herbes saisonnières.
Mount, Mountain, Mont, Montagne	- Mass of land prominently elevated above the surrounding terrain, bounded by steep slopes and rising to a summit and/or peaks.	Mount, Mountain, Mont, Montagne	- Élévation de terrain aux versants raides se détachant du relief environnant et se terminant par un sommet ou un ou plusieurs pics.
Muskeg	- Waterlogged swamp with deep accumulation of organic material.	Muskeg	- Marécage occupé par une épaisse accumulation de matières organiques.
Narrows	- Constricted section of a water body.	Narrows	- Partie resserrée d'un cours d'eau.
National Park	- Legally defined land area, under federal jurisdiction for camping, outdoor recreation and preservation of wildlife.	National Park	- Voir Parc national.
Parc national	- See National Park.	Parc national	- Région délimitée par la loi, relevant de la compétence fédérale et consacrée au camping, aux loisirs en plein air et à la conservation de la faune.
Pass	- Low opening in a mountain range or hills, offering a route from one side to the other.	Pass	- Ouverture basse dans une chaîne de montagnes ou de collines, offrant un passage d'un versant à l'autre.
Peak	- Summit of a mountain or hill, or the mountain or hill itself.	Peak	- Sommet d'une montagne ou d'une colline, ou la montagne ou la colline proprement dite.
Plain	- Area of flat or gently rolling terrain.	Plain	- Étendue de terrain à surface plane ou légèrement ondulée.
Plateau	- Extensive, elevated region, with either level terrain, or nearly uniform summit levels.	Plateau	- Région étendue et élevée, à surface plane ou hérissée de sommets de même hauteur.
Point, Pointe	- Land area jutting into a water feature; also used for a convex change in direction of a shoreline.	Point, Pointe	- Étendue de terre qui s'avance dans une nappe d'eau. Aussi, inflexion convexe dans le tracé d'un littoral.
Pond	- Inland body of standing water, usually smaller than a lake.	Pond	- Nappe d'eau dormante entourée de terre, habituellement plus petite qu'un lac.
Prairie	- Area of flat or gently rolling grassland; larger than a meadow and often extensive.	Prairie	- Étendue de terrain herbeux à surface plane ou légèrement ondulée, plus grande qu'une baissière et souvent très vaste.
Provincial Historic Site	- A site containing historic, archaeological, or palaeontological resources, which are either immovable by nature or which cannot be disassociated from their context without destroying some or all of their value.	Provincial Historic Site	- Un site contenant des ressources historiques, archéologiques ou paléontologiques, qui sont soit fixes de nature ou qui ne peuvent être dissociées de leur contexte sans que leur valeur ne soit annulée en totalité ou en partie.
Provincial Park	- Lands designated by Order in Council, for conservation of flora and fauna, or for preservation of areas and objects of geological, cultural, ecological or other	Provincial Park	- Terres désignées, par décret du conseil, pour la conservation de la faune et de la flore, ou pour la préservation d'aires et d'objets d'intérêt géologique, culturel,

	specific interest, and to facilitate their use and enjoyment for outdoor recreation.		écologique ou autre, et pour que soit facilitée leur utilisation à des fins de loisirs en plein air.
Provincial Recreation Area	- Lands which are designated by Order in Council, and developed and maintained to facilitate their use and enjoyment for outdoor recreation.	Provincial Recreation Area	- Territoire désigné par décret du conseil et aménagé et entretenu pour faciliter son utilisation dans le cadre de loisirs extérieurs.
Range	- Group or chain of mountains or hills.	Range	- Groupe ou chaîne de montagnes ou de collines.
Rapids, Rapides	- Fast-flowing section of a watercourse, usually with turbulent water or exposed rocks.	Rapids, Rapides	- Partie d'un cours d'eau généralement hérissée de rochers, où le courant est rapide et souvent turbulent.
Réserve indienne	- See Indian Reserve.	Réserve indienne	- Étendue de terrain réservée à l'usage et au profit d'une tribu d'indiens.
Reservoir, Réservoir	- Inland body of standing water, impounded by artificial structures.	Reservoir, Réservoir	- Nappe d'eau retenue par des structures artificielles.
Ridge	- Elongated stretch of elevated ground.	Ridge	- Élévation de terrain allongée.
River, Rivière	- Flowing watercourse.	River, Rivière	- Cours d'eau.
Rock, Roche	- Rocky hill, mountain, or cliff; or a large boulder.	Rock, Roche	- Colline, montagne ou falaise rocheuse; rocher de grande dimension.
Slide	- Scar and/or material from landslide or debris flow.	Slide	- Niches d'arrachement formées et/ou matériaux transportés par des glissements de terrain, des éboulements ou des coulées.
Slough	- Shallow water-filled or marshy depression with no external drainage.	Slough	- Dépression peu profonde remplie d'eau ou marécageuse, sans écoulement vers l'aval.
Snowfield	- Irregularly shaped mass of permanent snow and ice, generally forming the accumulation area of two or more glaciers.	Snowfield	- Masse de neige et de glace éternelles, de forme irrégulière, qui sert généralement de zone d'accumulation à deux ou plusieurs glaciers.
Spring	- Site of a natural flow of water issuing from the ground.	Spring	- Issue naturelle par laquelle une eau souterraine s'écoule à la surface du sol.
Trail	- Footpath or track.	Trail	- Piste ou sentier.
Valley	- Long, relatively narrow depression, commonly containing a river or other water feature.	Valley	- Dépression de forme allongée et relativement étroite, souvent parcourue par un cours d'eau.
Wall	- Steep rock face.	Wall	- Façade rocheuse à pente raide.
Wilderness Area	- Lands designated as wilderness by Order in Council, but allowing a minimum of compatible activities.	Wilderness Area	- Terres désignées, par décret du conseil, pour la préservation de leur caractère sauvage, mais où un nombre limité d'activités compatibles avec les lieux sont néanmoins permises.
