# Resale

- Less expensive existing homes regain strength versus new homes in 2014 and 2015.
- Harsh winter weather kept sales and listings muted early this year.
   Look for increasing momentum in resale housing activity during the remainder of 2014.
- While improving job prospects will support housing demand, rising mortgage carrying costs will dampen demand by the second half of 2015.
- Owing to economic uncertainty, Ontario sales will range between 180,900 to 206,100 transactions this year.

<sup>&</sup>lt;sup>1</sup> The outlook is subject to uncertainty. Although point forecasts are presented in this publication, CMHC also presents forecast ranges and risks where appropriate. The forecasts and historical data included in this document reflect information available as of April 30, 2014.

# Resale Prices

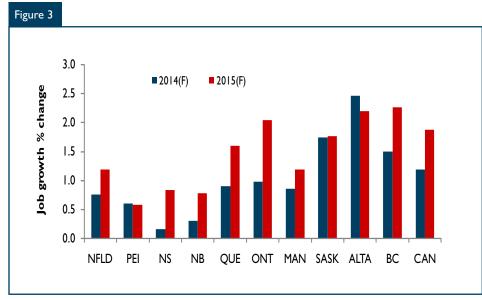

- Ontario resale prices grew above the general rate of inflation in recent years.
- Growth in home prices to converge closer to income growth over forecast horizon.
- A balanced market suggests price pressures will ease for all housing types by 2015.
- As demand shifts to less expensive housing, price gap between detached and high density housing will narrow.

# **Housing Starts**

- After slowing in 2013, starts will ease further to 55,400 units in 2014 before stabilizing at 56,600 units in 2015.
- Semi-detached and row construction will hold up better particularly near the latter part of the forecast horizon.
- Single detached construction will benefit from an improving economy but will succumb to an erosion of affordability later in 2015.
- Owing to economic uncertainty, starts will range between 52,800 to 58,000 units in 2014.

# **Economic Forecasts**

- Ontario's economy fell short of growth in the rest of Canada in 2013 but by 2014 and 2015 will gain ground against other provinces.
- A rotation of economic momentum away from emerging economies towards the US will

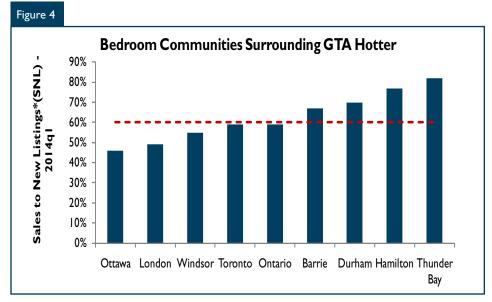

Source: Statistics Canada and CMHC forecast (f)

- support Ontario's export and business sector.
- Ontario economic sectors better positioned to support growing US business and consumer spending should register stronger employment gains. This would include information technology, machinery manufacturing, automotive and building material industries.

Finance, Retail Trade and Public Administration sectors will contribute less growth to the Toronto and Ottawa economies.

# **Housing Forecasts**

 Northern and south western Ontario housing markets supported by an ongoing US economic recovery and relatively less expensive housing.

Source: CMHC, CREA

<sup>\*</sup>SNL>60%=sellers market, 40%<SNL<60%=balanced market

- Less expensive housing markets bordering the more expensive Toronto area which include Barrie, Hamilton and Durham regions will benefit most from rising Toronto prices.
- Demand for less expensive rental accommodation will grow faster than demand for ownership housing particularly in Ontario's most expensive ownership markets.

# Mortgage Rate Outlook

Mortgage rates to see gradual and modest increases by the end of 2015, but will remain low by historical standards

Consistent with the view of Canadian economic forecasters, CMHC expects

interest rates to register gradual and modest increases by the latter part of the 2015 forecast horizon. This will lead to increases in mortgage rates. Despite this, mortgage rates will remain low and will continue to support housing market activity over the forecast horizon.

According to CMHC's base case scenario for 2014, the average for the one-year posted mortgage rate is forecast to be within 3.0 per cent to 3.50 per cent, while the average for the five-year posted mortgage rate is anticipated to be within 5.0 per cent to 5.5 per cent. For 2015, the average for the one-year posted mortgage rate is expected to rise and be in the 3.20 per cent to 4.25 per cent range, while the average for the five-year posted mortgage rate is forecast to be within 5.25 per cent to 6.0 per cent.

# CMHC—HOME TO CANADIANS

Canada Mortgage and Housing Corporation (CMHC) has been Canada's national housing agency for more than 65 years.

Together with other housing stakeholders, we help ensure that the Canadian housing system remains one of the best in the world. We are committed to helping Canadians access a wide choice of quality, environmentally sustainable and affordable housing solutions that will continue to create vibrant and healthy communities and cities across the country.

For more information, visit our website at www.cmhc.ca or follow us on Twitter, YouTube and Flickr.

You can also reach us by phone at I-800-668-2642 or by fax at I-800-245-9274.

Outside Canada call 613-748-2003 or fax to 613-748-2016.

Canada Mortgage and Housing Corporation supports the Government of Canada policy on access to information for people with disabilities. If you wish to obtain this publication in alternative formats, call 1-800-668-2642.

The Market Analysis Centre's (MAC) electronic suite of national standardized products is available for free on CMHC's website. You can view, print, download or subscribe to future editions and get market information e-mailed automatically to you the same day it is released. It's quick and convenient! Go to <a href="https://www.cmhc.ca/housingmarketinformation">www.cmhc.ca/housingmarketinformation</a>

For more information on MAC and the wealth of housing market information available to you, visit us today at <a href="https://www.cmhc.ca/housingmarketinformation">www.cmhc.ca/housingmarketinformation</a>

To subscribe to priced, printed editions of MAC publications, call 1-800-668-2642.
