### In Brief

The editing revisions made in this document reflect the jurisprudence of the Canadian International Trade Tribunal with respect to the scope of the terms printers, lithographers, bookbinders, and paper or foil converters.

This memorandum explains the Canada Border Services Agency's policy concerning the tariff classification of goods eligible for the benefits of tariff item 9927.00.00 of the [Customs Tariff](#).

## Guidelines and General Information

1. In order for the goods to be eligible for the benefits of tariff item 9927.00.00, the following two requirements must both be satisfied:
  - (a) The imported articles and materials are to be employed in the manufacture of the specific goods named in tariff item 9927.00.00; and
  - (b) The specific goods named must be for use by printers, lithographers, bookbinders, paper or foil converters, manufacturers of stereotypes, electrotypes or printing plates or rolls, or by manufacturers of articles made from paper, paperboard or foil.
2. For the purposes of this tariff item, the terms printers, lithographers, bookbinders, and paper or foil converters, apply to those who are involved in a commercial enterprise, including those enterprises whose core business is other than printing, lithography, book binding or paper or foil converting.
3. However, the terms are not so broad as to include everyone involved in activities such as an individual printing on a home computer. Rather, the terms contemplate those individuals and enterprises that are involved in printing, lithography, book binding, or, paper or foil converting as part of a commercial enterprise. For example, the term “printers” includes enterprises such as print-for-pay shops and individuals of an in-house printing department who print large volumes of items as part of a commercial enterprise.
4. Articles and materials imported for the purposes of repair, replacement, or maintenance, of the specific goods named are not eligible for the benefits of tariff item 9927.00.00.
