Memorandum D11-4-22

Ottawa, November 5, 2015

Tariff Preference Levels

In Brief

This memorandum is updated to provide a Web site link to the Tariff Preference Level (TPL) utilization reports contained on the Foreign Affairs, Trade and Development Canada Web site.

This memorandum contains the remission orders that implement the Tariff Preference Level (TPL) mechanisms of the North American Free Trade Agreement (NAFTA), the Canada–Chile Free Trade Agreement (CCFTA), Canada–Costa Rica Free Trade Agreement (CCRFTA) and the Canada–Honduras Free Trade Agreement (CHFTA). It also contains administrative guidelines and other general information concerning the orders.

Under the terms of NAFTA, the Parties to the Agreement have agreed to grant preferential tariff treatment to specified quantities of certain yarns, fabrics, apparel, and textile articles, traded among the Parties that do not meet the rules of origin of the Agreement. These provisions of NAFTA constitute a trade mechanism known as a “Tariff Preference Level.” Similar provisions in CCFTA, CCRFTA and CHFTA apply to trade between Canada and Chile, Canada and Costa Rica and Canada and Honduras respectively. The preferential rate of duty under NAFTA, CCFTA, CCRFTA and CHFTA TPL mechanisms is the rate that would apply to the goods if they were originating goods under the applicable agreement.

Legislation

Customs Tariff
Export and Import Permit Act

Statutory Instruments

Imports of Certain Textile and Apparel Goods From Mexico or the United States Customs Duty Remission Order
Imports of Certain Textile and Apparel Goods From Chile Customs Duty Remission Order
Imports of Certain Textile and Apparel Goods From Costa Rica Customs Duty Remission Order
Imports of Certain Textile and Apparel Goods from Honduras Customs Duty Remission Order

Regulations

NAFTA Rules of Origin Regulations
CCFTA Rules of Origin Regulations
CCRFTA Rules of Origin Regulations
CHFTA Rules of Origin Regulations
Guidelines and General Information

General

1. Under the TPL mechanisms of NAFTA, CCFTA, CCRFTA and CHFTA the Parties to each Agreement agree to provide NAFTA, CCFTA, CCRFTA or CHFTA equivalent rates of duty to specified quantities of certain non-originating textile and apparel goods traded between the Parties to each respective Agreement, provided the goods have undergone specified manufacturing processes in the territory of one or more of the parties to the Agreement (refer to Appendices A, B, C and D). The remission orders discussed in this memorandum implement in part the TPL mechanisms for goods imported into Canada. In particular, the orders specify the goods which may be eligible for TPL treatment, the rates of duty that apply under the TPL program, the manufacturing processes goods are required to undergo in the territory of the Parties to each Agreement, and the documentation needed to support a request for remission.

2. The TPL remission orders also specify that the quantities of goods eligible for TPL treatment are the quantities set out in the relevant schedules of NAFTA, CCFTA, CCRFTA and CHFTA. The annual TPL quantity levels are found in Appendices A, B, C and D. TPL utilization reports can be viewed on the Web site of Foreign Affairs, Trade and Development Canada.

   Note: Despite the wording of the NAFTA TPL Remission Order, the Imports of Certain Textile and Apparel Goods From Mexico or the United States Customs Duty Remission Order, no TPL quantity has been agreed upon for goods imported into Canada from the United States that fall within the definition of “fabric and made-up goods” in section 1 of the order, other than for goods in Chapter 60 of the Harmonized System.

3. As stated in the definition of “apparel” in Section 1 of the TPL remission orders, apparel goods in Chapters 61 and 62 must be cut or knit to shape and sewn or otherwise assembled in Mexico, the United States, Chile, Costa Rica or Honduras, from fabric or yarn produced or obtained outside the Free Trade Area, to qualify for the respective TPL treatment.

Tariff Treatments

4. The NAFTA TPL rate of customs duty is the United States Tariff rate, for goods imported from the United States or the Mexico Tariff rate for goods imported from Mexico. The CCFTA TPL rate of customs duty is the Chile Tariff rate. The CCRFTA TPL rate of customs duty is the Costa Rica Tariff rate. The CHFTA TPL rate of customs duty is the Honduras Tariff rate. Importations of goods that exceed the annual quantitative limit provided under a NAFTA TPL, a CCFTA TPL, CCRFTA TPL or a CHFTA TPL are subject to the Most-Favoured-Nation (MFN) Tariff Treatment.

Certification Requirements – Exporter’s Certification of Non-originating Textile Goods

5. In order to receive a TPL benefit, the Exporter’s Certification of Non-originating Textile Goods (Certification) must be in the importer’s possession at the time of release of the goods, or at any other time when the importer declares on the customs documentation that they are in possession of this Certification. The importer is certifying that the goods meet the requirements set out in Appendix 6 of Annex 300-B to Chapter Three of NAFTA, Appendix 5.1 of Annex C-00-B to Chapter C of CCFTA, Appendix III.1.6.1 of Annex III.1 to Chapter III of CCRFTA or Section 5 of Annex 3.1 to Chapter 3 of CHFTA.

6. The completed Certification may be provided on a separate sheet attached to the invoice, or it may be a statement written directly on the invoice. It is not mandatory to include the Certification with the release or accounting documentation, but it must be available for presentation to the Canada Border Services Agency (CBSA) upon request.

   Note: The number of the invoice to which the certificate refers must be included on the certificate.
7. The Certification may be completed in English, French, or Spanish. Where the Certification is in Spanish and the CBSA requests to see it, the CBSA may make a further request to the importer to provide an English or French translation of the Certification. If such further request is made, the CBSA will allow a reasonable period of time for the importer to obtain the translation.

   **Note:** The importer is not required to obtain an English or French translation of a Spanish Certification until and unless such a further request is made.

**Import Permit Requirements**

9. Import permits are issued by Export and Import Controls at Foreign Affairs, Trade and Development Canada or via customs brokers authorized by Export and Import Controls.

10. In order to receive a TPL benefit, the importer must possess an appropriate import permit specifying TPL entitlement for the goods. This import permit must be available for presentation to the CBSA upon request.

11. Foreign Affairs/Customs Automated Permit System (EXCAPS) provides for the electronic transmission of permit information directly from Foreign Affairs, Trade and Development Canada to CBSA. This eliminates the requirement for importers to present paper permits to the CBSA (except at non-terminal offices) when required under the *Export and Import Permit Act*. Foreign Affairs, Trade and Development Canada will issue a transaction record to the importer or broker to serve as a receipt showing that the permit has been issued. Importers using non-terminal offices will be required to present a copy of the transaction record to substantiate that a permit has been issued by Foreign Affairs, Trade and Development Canada. Please refer to CBSA Memorandum D19-10-2, *Export and Import Permits Act (Importations)* for the most current information on the transmission of permit information between Foreign Affairs, Trade and Development Canada and CBSA.

12. The transaction number assigned to the importation must be recorded on the import permit, and the import permit number must be recorded on the customs documentation.

13. An import permit becomes valid when the permit information has been transmitted electronically by Foreign Affairs, Trade and Development Canada to the CBSA office where goods are to be released.

14. Where a TPL permit has not been obtained by the date of accounting, the goods will be subject to the MFN Tariff Treatment.

**Goods Imported From Mexico – Certificate of Eligibility**

15. To obtain a TPL import permit for Mexican goods, an importer must first obtain a Certificate of Eligibility from the exporter. The exporter will have obtained this Certificate of Eligibility from the Mexican government. The importer must forward the Mexican Certificate of Eligibility number to Foreign Affairs, Trade and Development Canada with the application for a TPL import permit. The Certificate of Eligibility must be available for presentation to the CBSA upon request.

16. The Certificate of Eligibility is **not** a requirement for obtaining a TPL import permit for goods imported from the United States, Chile or Costa Rica.

17. To obtain a Certificate of Eligibility, Mexican exporters are asked to contact Trade Services Mexico (Secretaria de Economia Mexico).
Canada Customs Coding Form and Invoice Requirements

18. The importer must enter the appropriate Order in Council number in Field 26 on the Canada Customs Coding Form in order to request TPL treatment at the time goods are accounted for. The relevant Order in Council numbers are:

- NAFTA 98-1456
- CCFTA 98-1455
- CCRFTA 02-1863
- CHFTA 14-983

19. The importer must also enter Code 10 in Field 14 on the Canada Customs Coding Form for goods imported from the United States; Code 11 for goods imported from Mexico; Code 14 for goods imported from Chile; Code 21 for goods imported from Costa Rica; and Code 29 for goods imported from Honduras. In so doing, the importer is declaring that he is in possession of an Exporter’s Certification of Non-originating Textile Goods.

20. An invoice that covers both goods for which a preferential tariff treatment will be claimed through the use of TPL and goods for which such treatment is not being claimed, should be clearly and distinctively identified on the invoice. However, a separate invoice for the goods receiving the preferential tariff treatment is not required.

Review and Evaluation

21. The CBSA will deny a request for NAFTA, CCFTA, CCRFTA or CHFTA TPL treatment made at the time goods are accounted for if it is determined that the conditions of the applicable remission order have not been met – for example, if the required documentation has not been provided. A denial of TPL treatment, at the time goods are accounted for, will be made under subsection 115(2) of the Customs Tariff.

Refunds

22. A request for TPL treatment may be made after goods have been accounted for, by requesting a refund of the duties paid. However, before a request for a refund can be made, a TPL import permit must be obtained. Foreign Affairs, Trade and Development Canada may grant import permits for qualifying TPL goods after they have been imported, if the applicable quota for the year of importation has not been exceeded, and, where the goods are imported from Mexico, if a Certificate of Eligibility has been obtained from the exporter.

23. A request for TPL treatment by way of a refund is made by submitting a completed Canada Customs – Adjustment Request at a CBSA office in the region where the goods were accounted for. Fields 14 and 20 on the Canada Customs Adjustment Request must be completed as indicated in paragraph 14. Subsection 115(3) of the Customs Tariff must be indicated in the Justification for Request field to request the refund. The adjustment request must include the import permit, the Exporter’s Certification of Non-originating Textile Goods, and, if the goods are imported from Mexico, the Certificate of Eligibility.

Additional Information

24. For more information, within Canada call the Border Information Service at 1-800-461-9999. From outside Canada call 204-983-3500 or 506-636-5064. Long distance charges will apply. Agents are available Monday to Friday (08:00 – 16:00 local time / except holidays). TTY is also available within Canada: 1-866-335-3237.
Appendix A

NAFTA Tariff Preference Levels (TPLs)

The following types of goods entering Canada may be eligible for TPL benefits under NAFTA.
