Growing Forward 2

2015 AgriStability Program

Guide to the 2015 AgriStability Interim Application

Form and Guide

Manitoba   Newfoundland Labrador   NOVA SCOTIA   New Brunswick Nouveau   Yukon Government   Canada

Table of Contents

Use this guide and the corresponding forms to apply for an Interim Payment if you farm in Manitoba, New Brunswick, Newfoundland and Labrador, Nova Scotia, and the Yukon.

This guide provides general information only on AgriStability Interim Payments. See the Growing Forward 2 AgriStability Program Guidelines on the program web site for complete program rules on Interim Payments. For additional information on the AgriStability program, visit the program web site at www.agr.gc.ca/agristability, or call the toll-free line at 1-866-367-8506.

1.0 Introduction

The AgriStability Interim Payment feature allows you to apply for 2015 program year before the final 2015 application is available. Since AgriStability benefits are based on information reported to the Canada Revenue Agency for income tax, there is a delay between the time you experience a loss and the time an AgriStability benefit is calculated. By applying for an Interim Payment you can receive a part of your estimated final payment early.

> Note: If you are a Status Indian farming on a reserve, and you are not required to file an income tax return, you can report the information you would otherwise report for income tax purposes for the 2015 program year and the reference years. We will assume you have a December 31 fiscal year-end.

AgriStability is a margin based program that provides support for large income losses. A margin is the difference between your allowable income and your allowable expenses. Generally, an AgriStability payment is made when your margin in the current program year falls below your reference margin by more than 30%. Your reference margin is the average of your margins in previous years.

> Note: Your reference margin may have a limit applied to it. This limit is based on the lower of your reference margin or the average allowable expenses used to calculate your reference margin.

The AgriStability Interim Payment is an advance on your final 2015 AgriStability benefit. If you receive an AgriStability Interim Payment for the 2015 program year, you must send in your final 2015 AgriStability form by the application deadline. See Section 4.0 for information on application deadlines.

2.0 How is the AgriStability Interim Payment Calculated?

The AgriStability Interim Payment is based on an estimate of your program year margin compared to an estimate of your reference margin. To reduce the chance of overpayment, Interim Payments are generally based on 50% of your estimated final benefit.

Because the Interim Payment is based on the estimated income and expenses you provide, it is important that the information you provide on your form is as accurate as possible. If your Interim Payment is greater than your final payment, you will have to pay back the amount that was overpaid. If your AgriStability Interim Payment is less than your final payment, we will send you a payment for the difference when your final application is processed.

After we process your Interim Application, we will send you an AgriStability Interim Calculation of Program Benefits (COB) Notice to show you how we calculated your Interim Payment. If you find any errors or differences between the information you sent to us and the information we used to calculate your AgriStability Interim Payment, please contact the toll-free line at 1-866-367-8506 for assistance.

> Note: If you wish to change the information you provided on your Interim Application, you may send in an adjustment. The deadline to send in an adjustment is 30 days from the date of your AgriStability Interim Calculation of Program Benefits Notice or the March 31, 2016 Interim Application deadline, whichever is later.

Because your Interim Payment is an estimate of your 2015 final benefit calculation, you cannot appeal the calculation. If you feel that we have not properly applied the program rules when your final 2015 application is processed, you may file an appeal once you receive your final 2015 Calculation of Program Benefits (COB) Notice.

3.0 Am I Eligible to Participate?

You are eligible to participate in the AgriStability program if you earn income from the production of allowable commodities and you meet the following conditions in the 2015 program year:

- you file a 2015 Canadian income tax return reporting allowable farming business income (or loss) by December 31, 2016*;

- you completed a minimum of six consecutive months of farming activity**;

- you completed a production cycle**; and

- you met all program requirements by the established deadlines.

    A production cycle includes one or more of the following activities:

    - growing and harvesting a crop;

    - the process of rearing livestock;

    - the purchase and sale of livestock in the case of feeding or finishing operations.

*You must have filed farming income for tax purposes in the 2015 program year and reference years to be eligible for AgriStability. If you are a Status Indian who farms on a reserve in Canada and you are not required to file income tax returns, you are eligible to participate based on the information you would have otherwise reported for tax purposes.

** We may waive the requirements to complete six consecutive months of farming activity and a production cycle if you could not complete them for reasons beyond your control.

To apply for a 2015 Interim Payment, you must be enrolled in AgriStability for the 2015 program year and have paid your fee by the deadline shown on your Enrolment Notice.

- If you are an existing AgriStability participant and you apply for an Interim Payment before the 2015 enrolment deadline of April 30, 2015, we will automatically enroll you for the 2015 program year and issue you an Enrolment Notice. If you have not received your Enrolment Notice by April 30, 2015 contact us to request one.

- If you did not participate in AgriStability for the 2013 and/or 2014 program years, you must contact us by April 30, 2015 to request an Enrolment Notice.

- If you have never participated in the AgriStability program before, you must contact us by April 30, 2015 to request a New Participant Package. We will use the information you provide on those forms to issue your Enrolment Notice.

If you have any questions about participating in AgriStability or about your Enrolment Notice, please call our toll-free line at 1-866-367-8506.

4.0 Important Deadlines

Enrolment Deadline: The deadline to enroll in the AgriStability program for the 2015 program year is April 30, 2015 (See section 3.0 above for more detail on enrolment).

Interim Application Deadline: The deadline to send in your completed 2015 AgriStability Interim Application (and any supporting documents) is March 31, 2016.

Application Deadline: The initial deadline to send in your final 2015 AgriStability application without penalty is September 30, 2016. The final deadline to send in your application with penalty is December 31, 2016. We will reduce your benefit by $500 for each month (or part of a month) you submit your form between the initial and final deadline.

If the late penalty is more than your payment, your payment will be reduced to zero. We will not apply the remainder of the late penalty to the next program year. We will not accept your form after December 31, 2016.

Note: If the deadline falls on a Saturday, Sunday, or a statutory holiday, you have until the next business day to send in the information required to meet that deadline.

Further information on program deadlines can be found on the AgriStability program web site at www.agr.gc.ca/agristability.

5.0 Important Tips for Completing Your AgriStability Interim Application

Follow these tips to help us calculate your payment correctly and reduce the chance of you being overpaid.

1. Report the value of AgriInsurance payments you received or expect to receive for 2015 production losses on Section 2(a) of the form.

2. Report the value of other program payments you received or expect to receive for 2015 production on Section 2(a) of the form. If the program payment is not listed in the Program Payment List in this guide, attach a note to your Interim Application providing the name of the program and value.

3. If you had a significant increase or decrease in your expenses, enter the full amount of the expected expense on Section 2(b) of the form, not just the amount of the increase or decrease.

4. Include only income and expenses related to your 2015 production. Do not include amounts paid in 2015 for prior year expenses.

5. Report the number of crop acres that you harvested or expect to harvest in the 2015 program year on Section 2(d) of the form.

6. If you report unseedable acres on Section 2(d) of the form, report the number of acres that were unseedable based on what you intended to grow on those acres. Unseedable acres are acres that are too wet or too dry to seed. Do not include acres that are for summer fallow, wasteland or pasture.

7. If you report feed days for livestock on Section 2(e) of the form, enter the total number of feed days for the year, not the number of feed days per animal.

8. If you report feeder livestock on Section 2(e) of the form, report the animal only in the category under which it is sold or is expected to be sold. Do not report an animal more than once on the form.

If you have any questions about completing the form, call the AgriStability toll-free line for assistance, at 1-866-367-8506.

6.0 How Do I Apply?

6.1 Submitting Your AgriStability Interim Application

Mail your Interim Application to:

> AgriStability Administration
> PO Box 3200 Station Main
> Winnipeg MB   R3C 5R7

Or fax your application toll free to:

> 1-877-949-4885

We suggest using registered mail or retaining your fax transmittal slip to show that your application was sent in on time.

6.2 Completing the Application

Read the following steps carefully to help you complete your 2015 AgriStability Interim Application.

1. Applicant Information

Name and Participant Identification Number (PIN): Enter your name and PIN. You will have a PIN if you are an AgriStability participant, an AgriInvest participant, a former Canadian Agricultural Income Stabilization (CAIS) program participant or a former Net Income Stabilization Account (NISA) participant.

If you are a new participant without a PIN, complete Schedule 1, sections a, b and c.

Operation Number (#): If you are involved in multiple farming operations, complete an application for each operation and number each operation (all applications should be sent together). If you have applied to AgriStability previously, number each operation in the same order that you used when you sent in those applications.

1a) Production Cycle

Check if you:

- completed a production cycle on at least one of the commodities you produced; or

- were unable to complete a production cycle on more than half of your farm's total production, due to circumstances beyond your control.

Your Interim Payment can only be estimated if you have completed six months of farming activity and a production cycle. If you answer "No" to both questions in 1a), we will not be able to process your application.

1b) Federal Public Office Holder or Employee of Agriculture and Agri-Food Canada

Check "Yes" if you or anyone who helped you complete your form is a current or former federal public office holder or employee of Agriculture and Agri-Food Canada. If you are a corporation, co-operative/commune, or a partner in a partnership, check "Yes" if one or more shareholders, members, or partners are a current or former federal public office holder or employee of Agriculture and Agri-Food Canada.

1c) AgriInsurance (production or crop insurance)

Check if you:

*   produced commodities that are insurable under AgriInsurance (regardless of whether they have actually been insured);

    *   If you received or expect to receive an AgriInsurance (production or crop insurance) payment for production losses related to your 2015 program year, report the total payment in section 2a) of the Interim Application.

*   insured the majority (more than half) of your insurable crop acres at 70% or higher.

    *   If you insured the majority (more than half) of your insurable crop acres at 70% or higher, you may be eligible to receive a negative margin benefit through the AgriStability Interim Application. A negative margin occurs when your allowable expenses are greater than your allowable income for the current program year.

1d) Combined Operations

Under AgriStability's whole farm approach, we may combine your operation with another operation, even if the operations report separately for income tax purposes. Combining ensures that AgriStability benefits are directed to farming operations that had actual decreases in income beyond their control, not due to financial accounting procedures.

Generally, you should answer "Yes" to this question if your farming operation is:

*   legally, financially, or operationally dependent on another farming operation; or

*   engaged in significant transactions with another operation that are not at fair market value.

    Note: Individuals in a partnership do not need to be combined. See the program handbook or visit the program web site for more information on combining.

If you answered "Yes" to question 1d), provide the PIN(s) of the operation(s) that should be combined with your operation. If more than two operations should be combined, attach a sheet listing the additional PINs. We cannot process operations that need to be combined until we receive the information from all the operations.

1e) Partners

Each partner who applies must send in an application reporting 100% of the partnership's income, expenses, and production. We will calculate the benefits for each partner based on their share of the partnership. Enter the PIN, name and percentage share of each partner involved in the partnership including your own information.

1f) New Participants

If you are a new AgriStability participant, answer "Yes" to this question and complete Schedule 1 (sections a, b, and c) and Schedule 2. See the section titled *Schedule 1 – Additional Information* and *Schedule 2 – Worksheet for 2014 Reference Margin* for details on how to complete these schedules.

1g) Change in Information

If you participated in the AgriStability program before, we will use the most recent information on record. Complete Schedule 1 only if you want to change your information.

If you indicate "Yes" to any of the items in section 1g), complete the corresponding section on Schedule 1 and send it with your 2015 Interim Application. See the section titled "*Schedule 1 – Additional Information"* for details on how to complete this schedule.

1h) 2014 AgriStability Application

If you have not already sent in a complete 2014 AgriStability application (T1273 Harmonized Form for Individuals or a Statement A for Corporations, Co-operatives and Special Individuals), answer "No" to this question and send in Schedule 2 with your Interim Application. We need this information to calculate your reference margin and process your 2015 Interim Application. See the section titled "*Schedule 2 – Worksheet for 2014 Reference Margin*" for details on how to complete this worksheet.

Note: The Schedule 2 worksheets do not replace the final 2014 AgriStability application. If you are enrolled for the 2014 program year, complete and send in a final 2014 AgriStability application by the program deadline.

2. Program Year Farming Activity

This section allows us to determine the nature of your income decline and estimate your program year income.

2a) Program Payments

We include program payments you receive for the loss of allowable commodities in your Interim Payment calculation.

- Enter the total AgriInsurance (production or crop insurance) payments you received or expect to receive that relate to your production for the 2015 fiscal year.

- If you received or expect to receive payments related to your 2015 program year from any programs on the Program Payment List, include the amount of these payments on the Program Payments line. The Program Payment List can be found at the back of this guide. If the program is not on the list, attach a note to your form providing the program name and amount of the payment. If you do not know the exact amount of the payment, provide an estimate.

Note: If you receive a program payment after you receive an Interim benefit, we will include the amount of the program payment in income when we process your final 2015 application.

2b) Allowable Expenses

This section allows you to indicate whether you have (or expect to have) a significant increase or decrease in certain expenses. It is important that the information you provide on your form is as accurate as possible to reduce your chances of being overpaid. The expenses listed in this section are those that most commonly have significant increases or decreases from year to year.

- If you do not expect to have a significant increase or decrease for the Expense Category, enter a checkmark in the box provided. We will calculate that expense for the 2015 program year based on your information from prior years.

- If you expect to have a significant increase or decrease for the Expense Category:

  - enter the total amount of the expense in the box provided, not just the amount of the increase or decrease. We will use this amount to calculate your Interim Payment;

- enter "0" if you have a significant decrease which brings an expense down to zero.

- Enter only the amounts related to your 2015 production. Do not include amounts paid in 2015 for prior year expenses. For example, you have a December 31st year-end. You apply $45,000 worth of fertilizer in the spring of 2014 but do not pay for it until 2015. This expense is related to your 2014 production. Do not include it in the Expense Categories on your 2015 Interim application.

2c) Productive Capacity and Disaster Circumstances

Check if the productive capacity of your operation decreased during the 2015 program year due to a disaster. A decrease in productive capacity means a decrease in the total amount that you can produce on your farm.

2d) Crop Production

We use the information you provide in this section to estimate your crop income and determine the productive capacity of your operation for the 2015 program year. Include all farm production and all forage crop production you harvested or expect to harvest in the 2015 program year.

Unharvestable Acres
If you grew a commodity and expected to harvest it in the 2015 program year but could not for reasons beyond your control, report the commodity and acres, and report your production as zero. Do not include snowed-under crops in this section; see "Snowed-Under Crops" below.

Snowed-Under Crops
Report the number of crop acres that you were unable to harvest due to snow using the inventory code for that crop. Report any estimated production that you may be able to harvest in the next year.

Standing/Unharvested Crops
If your farm always has a standing crop at the end of your fiscal year (for example, July 31), do not include the standing crop in inventory.

If your farm has an unexpected standing crop at the end of your fiscal year because you were not able to harvest it by your fiscal year end, include the standing crop in inventory. Also report fall and winter crops in your inventory.

Organic production
Report your crop as "organic" only if it is Certified Organic. We may request proof of your organic certification.

Multi-Stage Crops

If you produce multi-stage crops, report the acres of all your crops even if you did not expect production from these acres in the 2015 program year. Multi-stage crops include Low bush Blueberries, High bush Blueberries, Cranberries, Grapes, Ginseng, and Christmas Trees. Use the codes from the 2015 AgriStability Interim Code List at the back of this guide that reflect the stage of production for the 2015 program year.

How to Complete the Columns

Code

Use the 2015 Interim Code List at the back of this guide to identify each crop. Leave the code blank if the commodity is not listed.

Crop Description

Use the description found in the 2015 Interim Code List to report the type and grade of crop that you harvested or expect to harvest in the 2015 program year. For crops not found on the code list, provide a detailed description of your crop.

Number (#) of Acres

Report the number of acres of crops that you harvested or expect to harvest in the 2015 program year.

- For commodities not measured by acres, use the unit of measurement that is standard for the commodity. Include the unit of measurement on your application. For example:
  - **Greenhouses**: Report your production in square metres, and include only productive areas.
  - **Maple Syrup operations**: Report the number of taps producing in hundreds. For example, report 500 taps as 5.

Unseedable acres

In the "Unseedable Acres" column, report the number of acres that you would normally have seeded in the 2015 program year but could not because your land was too wet or too dry to seed. Report the number of unseedable acres based on what you planned to grow on those acres. For example, at the beginning of the year you intended to grow Canola on 300 acres; however, you were only able to seed 200 of those acres. In your crop production for Canola, report 200 under the "# of Acres" column and 100 under the "Unseedable acres" column. Do not report summerfallow, pasture or wasteland acres in this column.

Estimated Total Production (tonnes)

Estimate your 2015 program year production in tonnes. For commodities that cannot be measured by tonnes, use the unit of measurement that is standard for the commodity.

Production Intended for Sale (tonnes)

Estimate the amount of your 2015 program year production that you intend to sell. Do not include production that you intend to use on-farm for feed or seed. For commodities that cannot be measured by tonnes, use the unit of measurement that is standard for the commodity.

Estimated Price Per Tonne

Use the 2015 AgriStability Interim Code List to determine pricing for your commodity. There are two categories of pricing:

- For codes marked with an "X", we will value these commodities using Interim prices we have developed. You can provide your own price only if:
  - your method of marketing the commodity is substantially different than the general marketing practice; or
  - the commodity is substantially different than the commodity listed.

If you provide your own price, send copies of receipts and/or documents that support the price with your interim application. We will assess if the price is reasonable for your farm.

- For codes not marked with an "X", enter your own price in the space provided. We will assess if the price is reasonable for your farm.

Summerfallow Acres

Report the number of acres unseeded for summerfallow purposes.

Pasture Acres

Report the number of acres used as pasture.

Wasteland Acres

Report the number of acres of wasteland.

2e) Livestock Production

We will use the information you provide in this section to estimate your livestock income and calculate the productive capacity of your operation for the 2015 program year.

Codes for most livestock categories are pre-printed on the Interim application. For those not listed, find the appropriate code in the Productive Capacity List found at the back of this guide. Leave the code blank if the commodity is not on the list.

How to Complete the Columns

Productive Animals:

Cow/Calf Production (Code 8004)

We use the number of cows that calved to calculate your productive units and the number of calves born to estimate your income for the 2015 program year. Do not report cows from your dairy operation in this section. See "Other Production" for more information.

Number (#) of Cows that Calved

Report the number of cows that have calved (or are expected to calf) in the 2015 program year.

Number (#) of Calves Born

Report the number of calves born (or are expected to be born) in the 2015 program year. Do not include calves that died or were held over from your previous fiscal year.

Number (#) of Calf Feed Days

Calf Feed Days begin after weaning and end with either the sale of the animal (or estimated time of sale) or the end of your fiscal year, whichever is earlier.

The Number of Calf Feed Days is calculated as (number of expected animals) x (number of expected days each animal will be fed). For example: 100 animals fed for 90 days = 100 x 90 = 9,000 Calf Feed Days.

- Report the number of Calf Feed Days for calves born (or expected to be born) in the 2015 program year that were weaned and fed.

- Enter zero if you do not have or do not expect any Calf Feed Days.

Average Wean Weight:

Enter the average wean weight in pounds for your calves.

Hog Production (Codes 8751 and 8760)

We use the number of sows that have birthed to calculate your productive units and the number of animals born to estimate your income for the 2015 program year.

Number (#) of Sows that Birthed (Codes 8751 and 8760)

Report the number of sows that birthed (or are expected to birth) in the 2015 program year. Calculate the average number of sows that birthed in the 2015 program year by dividing the births (or expected births) by your average birth rate per sow for the fiscal year. For example: 10,000 births/22 equals the number of sows that birthed.

Number (#) of Animals Born (Codes 8751 and 8760)

Report the total number of piglets born (or are expected to be born) in the 2015 program year. Do not include piglets that died. Report a birth only once in either of these two categories depending on your type of operation (either farrowing or farrow to finish).

Average Wean Weight (Code 8751)

For "Hogs, Farrowing" enter the average weaning weight of the piglets.

Feeder Livestock:

Fed Cattle (Codes 8066 and 8068)

For Feeder and Finished Cattle, we use the number of animals fed to calculate your productive units and Animal Feed Days to estimate your income for the 2015 program year.

The feeder categories include animals born on the farm (if held over from your previous fiscal year) and animals purchased in the 2015 program year.

Number (#) of Animals Fed (Codes 8066 and 8068)

Report the number of animals you fed that had an appreciable gain. For cattle, an appreciable gain is defined as 90 kg (200 lbs) of weight gain or a minimum of 60 days on feed. Do not include breeding animals, culls, or weaned animals born in the 2015 program year.

- Report the number of feeders held over from the previous year or purchased during the 2015 program year that have been sold as feeders or you expect to sell as feeders;

- Group the animals based on their sale weight, if sold in the 2015 program year, or expected sale weight, if not sold in the 2015 program year.

For example, if you fed and sold 50 feeder cattle (under 900 lbs) in the first 7 months of the year, and fed another 50 feeder cattle (under 900 lbs) for the last 5 months, record 100 animals fed as Feeder Cattle (Under 900 lbs) (Code 8066).

Number (#) of Animal Feed Days (Codes 8066 and 8068)

Report the number (or estimated number) of Animal Feed Days you expect during the 2015 program year for Feeder Cattle (under 900 lbs) (Code 8066) and Finished Cattle (Code 8068). Enter zero if you do not have or do not expect to have any Animal Feed Days.

For purchased cattle, Animal Feed Days begin the later of:

• the day you bought the animal; or

• at the start of your fiscal year.

For animals born on-farm in the previous fiscal year, Animal Feed Days begin the later of:

• the weaning date of the animal; or

• the start of your fiscal year.

For both purchased cattle and animals born on-farm, Animal Feed Days end the earlier of:

• the sale of the animal (or estimated time of sale); or

• the end of your fiscal period.

Do not include calves born in the 2015 program year, calves held over from the previous year that have been sold as calves (or you expect to sell as calves), breeding animals, or culls.

Animal Feed Days are calculated as: (number of expected animals) x (number of expected days each animal will be fed). For example, 100 animals fed for 90 days = 100 x 90 = 9,000 Animal Feed Days.

Feeder Hogs (Codes 8761 and 8762)

For Feeder and Nursery Hogs, we use the number of animals fed to calculate your productive units and Animal Feed Days to estimate your income for the 2015 program year. Include only hogs that were purchased in this category.

Do not include breeding animals, culls, weaned animals born in the 2015 program year, and births reported under the farrowing and/or farrow to finish categories.

Number (#) of Animals Fed (Codes 8761 and 8762)

Report the number of animals fed (or you expect to feed) during the 2015 program year.

For example: If you fed and sold 50 feeder hogs (over 51 lbs) in the first 7 months of the year and fed another 50 feeder hogs (over 51 lbs) for the last 5 months, record 100 animals fed as Hogs, Feeders (fed over 51 lbs) (Code 8761).

Number (#) of Animal Feed Days: (Codes 8761 and 8762)

If you carried over your feeder hogs from your previous fiscal year, Animal Feed Days start at the beginning of your fiscal period. If you purchased hogs in the 2015 program year, Animal Feed Days start on the day you bought the animal. Animal Feed Days end with either the sale (or estimated time of sale) or the end of your fiscal period, whichever is earlier.

Do not include farrow to finish operations, farrowing operations, breeding animals, and culls in the Number of Animal Feed Days.

Animal Feed Days are calculated as: (number of expected animals) x (number of expected days each animal will be fed). For example, 100 animals fed for 3 months (90 days) = 100 x 90 = 9,000 Animal Feed Days.

• Report the number (or estimated number) of Animal Feed Days you expect during the 2015 program year for Hogs, Feeders (fed over 51 lbs) (Code 8761) and Hogs, Nursery (fed up to 50 lbs) (Code 8762).

• Group the animals based on the sale weight, if sold in the 2015 program year, or the expected sale weight, if not sold in the 2015 program year.

• Enter zero if you do not have or do not expect to have any Animal Feed Days.

Custom Fed Livestock

Cattle (Code 8133)

For Custom Fed Cattle, we use Animal Feed Days to calculate both your productive units and estimated income for the 2015 program year.

Number (#) of Animal Feed Days

Animal Feed Days are calculated as: (number of expected animals) x (number of expected days each animal will be fed). For example, 100 animals fed for 90 days = 100 x 90 = 9,000 Animal Feed Days.

• Report the number (or estimated number) of Animal Feed Days you expect during the 2015 program year for Custom Fed Cattle.

• Enter zero if you do not have or do not expect to have any Animal Feed Days.

Hogs (Code 8749)

For Custom Fed Hogs, we use Animal Feed Days to estimate both your productive units and estimated income for the 2015 program year.

Number (#) of Animal Feed Days

The Number (#) of Animal Feed Days is calculated as: (number of animals) x (number of expected days each animal will be fed). For example, 100 animals fed for 3 months (90 days) = 100 x 90 = 9,000 Animal Feed Days.

- Report the number (or estimated number) of Animal Feed Days you expect during the 2015 program year for Custom Fed Hogs.
- Enter zero if you do not have or do not expect to have any Animal Feed Days.

Supplied Managed Commodities

Poultry (Codes 7650 and 7862)

For Chicken and Turkey Broilers, we use the number of kilograms of quota to calculate your productive units and the number of kilograms produced to estimate your income for the 2015 program year.

Number (#) of Kilograms of Quota

Report the number of kilograms of quota in the 2015 program year.

Number (#) of Kilograms Produced

Report the number of kilograms produced (or expected to be produced) in the 2015 program year.

Estimated Price ($)

Enter your estimated price for your production. We will assess whether the price is reasonable for your farm.

Egg Production (Codes 7663 and 7664)

We use the number of producing hens to calculate your productive units and the number of dozens of eggs produced to estimate your income for the 2015 program year.

Number (#) of Hens Producing

Report the number of producing hens in the 2015 program year.

Dozens of Eggs Produced

Report the dozens of eggs produced (or expected to be produced) in the 2015 program year, grouped by use.

Estimated Price ($)

Enter your estimated price for your production. We will assess whether the price is reasonable for your farm.

Other Production

List other estimated livestock production in as much detail as possible (for example, list "lambs born" or "wool produced" rather than just "sheep").

If you produce purebred livestock, indicate "purebred" in the description line to ensure we assign the correct value to your 2015 program year production.

For commodities not measured by number of head, report your yield based on the standard unit of measurement for the commodity. For example, report PMU production on a per contracted gram basis. Be sure to indicate the type of unit.

Refer to the Productive Capacity List found at the back of this guide to find the codes and units required to report "other" commodities that are not listed in the Livestock Production section of the Interim Application.

Use the 2015 AgriStability Interim Code List to determine pricing for your commodity. There are two categories of pricing:

- For codes marked with an "X", we will value these commodities using Interim prices we have developed. You can provide your own price only if:
  - your method of marketing the commodity is substantially different than the general marketing practice; or
  - the commodity is substantially different than the commodity listed.

  If you provide your own price, send copies of receipts and/or documents that support the price with your interim application. We will assess whether the price is reasonable for your farm.

- For codes not marked with an "X", enter your own price in the space provided. We will assess whether the price is reasonable for your farm.

Schedule 1 – Additional Information

Complete Schedule 1 only if:

- you answered "Yes" to section 1f) on page 1 of the 2015 Interim Application.
- you answered "Yes" to any question in section 1g) on page 1 of the 2015 Interim Application.

a) Identification:

Address: Enter your name and address. We can only mail program benefits to you, not to a form preparer or another representative.

Province of Main Farmstead: Enter the province where your farm is located. If you farm in more than one province, enter the province where you earned the majority of your gross farming income over the reference period.

Legal Land Description: Only complete this section if it applies to your main farmstead.

b) Contact Information

Complete this area if you grant permission to someone else (such as your spouse, common-law partner, or accountant) to provide or ask for more information about your AgriStability Interim Application. We will call your contact person if we have a question. We will send correspondence to both you and your contact person.

Enter the first and last name of your contact person, their business name (if applicable), and their daytime phone number.

You must provide your contact person's information each time you send in a form. Your contact person information will not be carried forward from last year. If you leave this area blank, we will contact you directly if we have a question.

c) Business Structure

Enter your fiscal period in this section. If you are a Status Indian, we will assume you have a December 31 fiscal year-end.

If you are an individual producer, provide your Social Insurance Number. If the operation is a Corporation or a Co-operative, provide the Business Tax Number. If the operation is a trust or communal organization, provide the Trust Taxation Numbers.

If you are a Status Indian, provide your Social Insurance Number (SIN) or Business Number. If you are a Status Indian farming on a reserve or a Status Indian Band Farm, provide your band number in the space provided.

d) Change in Business Structure

If your business structure has changed since the last time you participated in the AgriStability program, complete this section.

Schedule 2 – Worksheet for 2014 Reference Margin

You must complete Schedule 2 only if:

- you answered "Yes" to section 1f) on page 1 of the 2015 Interim Application.
- you answered "No" to section 1h) on page 1 of the 2015 Interim Application.

Refer to the most recent AgriStability and AgriInvest Harmonized Guide for instructions on how to fill out Schedule 2 of the AgriStability Interim Application. If you do not already have a copy of the guide, contact us at 1-866-367-8506. The guide can also be found on the AgriStability web site at www.agr.gc.ca/agristability.

Program Payment List

PROGRAM PAYMENT	CODE
Alberta Livestock Price Insurance Programs (CPIP, HPIP)	620
Bovine Spongiform Encephalopathy (BSE) Recovery program	468
Canada – British Columbia Excess Moisture Initiative	624
Canada – British Columbia Feed Assistance and Pasture Restoration Initiative	625
2010 Canada - Manitoba Excess Moisture Assistance Program	611

Transitional Industry Support Program (TISP)	498
Waterfowl/Wildlife Damage Compensation	
Grains, oilseeds, and special crops	418
Horticulture	419
Other commodities	425
Western Livestock Price Insurance Program	667

** This code should only be used for AgriRecovery programs (allowable for AgriStablity) that are not specifically listed above.

Interim Code List

Shaded areas show which codes can be used by province when reporting production.

Codes with an "X" in your province: The Administration has established Interim price values for these codes. You can provide your own price only if your method of marketing the commodity was substantially different than the general marketing practice or the commodity is substantially different than the commodity listed.

Codes without an "X" in your province: For these commodities, submit your own price by attaching a written note or receipt. The Administration will assess whether the price you wish to use is reasonable for your farm.

Livestock

Bees and Bee by Products

Code	Description	MB	NL	NB	NS	YT
7602	Beeswax					
7614	Honey Bees					
7618	Leaf Cutter Bees					

Bison

Code	Description	MB	NL	NB	NS	YT
7906	Bison					
7932	Feeder Bison (under 700 lbs)					
7934	Feeder Bison (over 701 lbs)					
7935	Bison, Custom Fed					

Cattle

Code	Description	MB	NL	NB	NS	YT
8004	Cow/Calf	X	X			
8063	Cattle, Semen					
8066	Feeder Cattle (Under 900 lbs)	X	X			
8068	Finished Cattle (Over 901 lbs)	X	X			
8074	Purebred Cow/Calf					
8130	Purebred Feeder Cattle (Under 900 lbs)					
8132	Purebred Finished Cattle (Over 901 lbs)					
8133	Cattle, Custom Fed	X	X			
8208	Dairy Calves					
8268	Feeder Dairy Cattle (Under 900 lbs)					
8270	Finished Dairy Cattle (Over 901 lbs)					
8276	Purebred Dairy Calves					

Commercial Game Animals

Code	Description	MB	NL	NB	NS	YT
7510	Alpaca					
7518	Alpaca, Fibre					
7560	Llama					
7568	Llama, Fibre					
8425	Red Deer, Bulls Producing Velvet					
8431	Red Deer, Semen					
8435	Red Deer					
8506	Reindeer					
8856	Wild Boar, Finishers					
8860	Wild Boar					

Dairy

Code	Description	MB	NL	NB	NS	YT
8200	Dairy Quota, Butterfat					

Deer

Code	Description	MB	NL	NB	NS	YT
8414	Deer					
8415	Deer, Feeders					
8419	Deer, Semen					

Elk

Code	Description	MB	NL	NB	NS	YT
8458	Elk					
8463	Elk, Custom Fed					
8469	Elk, Semen					
8472	Elk, Velvet Produced					
8473	Elk, Feeders					

Goats

Code	Description	MB	NL	NB	NS	YT
8910	Goats, Feeder					
8914	Goats					
8915	Goats, Custom Fed					
8924	Purebred Goats					

Horses

Code	Description	MB	NL	NB	NS	YT
8465	Horses, Feeders					
8561	Horse, Semen					
8564	Horse					
8572	Pregnant Mare Urine Produced (PMU)					
8580	Purebred Horse					

Poultry

Code	Description	MB	NL	NB	NS	YT
7650	Chickens, Broilers					
7653	Custom Fed Chicken Pullets					
7663	Chickens, Eggs for Hatching					
7664	Chickens, Eggs for Consumption					
7702	Ducks, Broilers					
7710	Ducks					
7752	Geese, Broilers					
7766	Geese					
7793	Partridge, Broilers					
7799	Partridge					
7803	Pheasant, Ring Neck					
7807	Pheasant, White					
7811	Pheasant, Ring Neck, Broilers					
7813	Pheasant, White, Broilers					
7824	Squab					
7862	Turkeys, Broilers					
7866	Turkey					
7888	Quail, Broilers					
7894	Quail					

Ranch Furs

Code	Description	MB	NL	NB	NS	YT
8610	Chinchillas					
8639	Fox					
8664	Mink					
8689	Rabbits					

Ratites

Code	Description	MB	NL	NB	NS	YT
7731	Emu					
7779	Ostrich					
7829	Rheas					

Sheep

Code	Description	MB	NL	NB	NS	YT
8925	Sheep, Feeders					
8964	Sheep					
8965	Sheep, Custom Fed					
8974	Purebred Sheep					
8978	Wool					

Swine

Code	Description	MB	NL	NB	NS	YT
8749	Hogs, Custom Fed	X				
8760	Hogs, Farrow to Finish	X				
8761	Hogs, Feeders (fed over 51 lbs)	X				
8762	Hogs, Nursery (fed up to 50 lbs)	X				
8763	Hogs, Farrowing	X				
8771	Hogs, Semen					

Crops

Apples

Code	Description	MB	NL	NB	NS	YT
5030	Apples					
5031	Apples, Organic					

Barley

Code	Description	MB	NL	NB	NS	YT
5100	Barley			X	X	
5101	Barley, Feed (>=48 lbs./bu.)	X				
5102	Barley, Feed (42 lbs./bu. to 47 lbs./bu.)	X				
5195	Barley, Feed (Off Board)					
5200	Barley, Organic					
5204	Barley, Organic, Feed					
5205	Barley, Organic Six-Row					
5206	Barley, Organic Six-Row, Pedigreed					
5210	Barley, Organic Two-Row					
5211	Barley, Organic Two-Row, Pedigreed					
5215	Barley, Pedigreed Seed					
5220	Barley, Pedigreed Seed Six-Row					
5225	Barley, Pedigreed Seed Two-Row					
5233	Barley, CW Select Six-Row					
5238	Barley, CW Select Two-Row					

Berries

Code	Description	MB	NL	NB	NS	YT
4990	Cranberries (Establishment Stage)					
4991	Cranberries, 1st year of production					
4992	Cranberries, 2nd year of production					
4993	Cranberries, 3rd year of production					
4994	Cranberries, 4+ years of production					
5000	Blackberries					
5004	Blueberries, Lowbush					
5006	Cranberries					
5007	Currants, Black					
5009	Currants, Red					
5010	Elderberries					
5012	Gooseberries					
5016	Loganberries					
5018	Raspberries					
5020	Saskatoon Berries					
5022	Seabuckthorn, Berries					
5024	Strawberries					
5059	Blueberries, High bush (Planting Year)					
5060	Blueberries, High bush (Non-Bearing Year)					
5061	Blueberries, High bush (Years 1 to 2 of Production)					
5062	Blueberries, High bush (Years 3 to 6 of Production)					
5063	Blueberries, High bush (Years 7 to 9 of Production)					
5064	Blueberries, High bush (Years 10+ of Production)					
5095	Blueberries, Low bush (Establishment Stage)					
5096	Blueberries, Low bush (Primary Production-1st and 2nd Harvest Crop)					
5097	Blueberries, Low bush (Secondary Production-3rd and 4th Harvest Crop)					
5098	Blueberries, Low bush (Mature/Full Production)					
5099	Blueberries, Low bush (burn/mow/sprout)					

Buckwheat

Code	Description	MB	NL	NB	NS	YT
5240	Buckwheat, No. 1					
5242	Buckwheat, No. 2					
5244	Buckwheat, No. 3					
5246	Buckwheat, Organic					
5248	Buckwheat, Pedigreed Seed					

Canary Seed

Code	Description	MB	NL	NB	NS	YT
5250	Canary Seed	X				
5252	Canary Seed, Organic					
5254	Canary Seed, Pedigreed Seed					

Canola

Code	Description	MB	NL	NB	NS	YT
5259	Rapeseed, High Erucic Acid					
5260	Canola, Argentine					
5262	Canola, Argentine, No. 1	X				
5264	Canola, Argentine, No. 2	X				
5266	Canola, Argentine, No. 3					
5268	Canola, Argentine, Organic					
5270	Canola, Argentine, Pedigreed Seed					
5272	Canola, Argentine, Sample					
5274	Canola, Polish					
5276	Canola, Polish, No. 1	X				
5278	Canola, Polish, No. 2	X				
5280	Canola, Polish, No. 3					
5282	Canola, Polish, Organic					
5284	Canola, Polish, Pedigreed Seed					
5286	Canola, Polish, Sample					

Caraway Seed

Code	Description	MB	NL	NB	NS	YT
5290	Caraway Seed					
5292	Caraway Seed, Organic					
5294	Caraway Seed, Pedigreed Seed					

Chickpeas

Code	Description	MB	NL	NB	NS	YT
5300	Chickpeas, Desi, No. 1	X				
5302	Chickpeas, Desi, No. 2	X				
5303	Chickpeas, Desi, No. 3					
5304	Chickpeas, Desi, Organic					
5306	Chickpeas, Desi, Pedigreed Seed					
5310	Chickpeas, Large Kabuli (Average), No. 1	X				
5312	Chickpeas, Large Kabuli (Average), No. 2	X				
5314	Chickpeas, Large Kabuli (Average), No. 3					
5316	Chickpeas, Large Kabuli, Organic					
5318	Chickpeas, Large Kabuli, Pedigreed Seed					
5322	Chickpeas, Small Kabuli, No. 1	X				
5324	Chickpeas, Small Kabuli, No. 2	X				
5325	Chickpeas, Small Kabuli, No. 3					
5326	Chickpeas, Small Kabuli, Organic					
5328	Chickpeas, Small Kabuli, Pedigreed Seed					
5330	Chickpeas, Feed					

Corn

Code	Description	MB	NL	NB	NS	YT
5340	Corn, Grain	X		X	X	
5342	Corn, Grain, Organic					
5344	Corn, Grain, Pedigreed Seed					

Dry Beans

Code	Description	MB	NL	NB	NS	YT

Productive Capacity List

This list is used to identify codes and the units required for reporting the production and/or productive capacity for "other" commodities not listed in section 2e) of the Interim Application.

Code	Description	Production	Productive Capacity
7602	Beeswax	# of lbs produced	Nothing to Report
7614	Honey Bees	# of lbs of honey produced	# of hives producing
7618	Leaf Cutter Bees	# of gallons of bees pollinating	# of gallons of bees pollinating
7906	Bison	# of Animals Born	# of females that have birthed
7932	Feeder Bison (under 700 lbs)	# of animal feed days	# of animals fed
7934	Feeder Bison (over 701 lbs)	# of animal feed days	# of animals fed
7935	Bison, Custom Fed	# of animal feed days	# of animal feed days
8063	Cattle, Semen	# of straws sold	# of straws sold
8074	Purebred Cow/Calf	# of Calves Born	Nothing to Report
8130	Purebred Feeder Cattle (Under 900 lbs)	# of animal feed days	Nothing to Report
8132	Purebred Finished Cattle (Over 901 lbs)	# of animal feed days	Nothing to Report
8208	Dairy Calves	# of Calves Born	Nothing to Report
8268	Feeder Dairy Cattle (Under 900 lbs)	# of animal feed days	# of animals fed
8270	Finished Dairy Cattle (Over 901 lbs)	# of animal feed days	# of animals fed
8276	Purebred Dairy Calves	# of Calves Born	Nothing to Report
7510	Alpaca	# of Animals Born	# of females that have birthed
7518	Alpaca, Fibre	# of lbs produced	Nothing to Report
7560	Llama	# of Animals Born	# of females that have birthed
7568	Llama, Fibre	# of lbs produced	Nothing to Report
8425	Red Deer, Bulls Producing Velvet	# of lbs produced	# of bulls producing
8431	Red Deer, Semen	# of straws sold	# of straws sold
8435	Red Deer	# of Animals Born	# of females that have birthed
8506	Reindeer	# of Animals Born	# of females that have birthed
8856	Wild Boar, Finishers	# of animal feed days	# of animals fed
8860	Wild Boar	# of Animals Born	# of females that have birthed
8200	Dairy Quota, Butterfat	# of Kgs produced	# of Kgs of butterfat/day
8264	Dairy Quota, Milk	# of Hectoliters produced	# of Hectoliters of milk
8414	Deer	# of Animals Born	# of females that have birthed
8415	Deer, Feeders	# of animal feed days	# of animals fed
8419	Deer, Semen	# of straws sold	# of straws sold
8458	Elk	# of Animals Born	# of females that have birthed
8463	Elk, Custom Fed	# of animal feed days	# of animal feed days
8469	Elk, Semen	# of straws sold	# of straws sold
8472	Elk, Velvet Produced	# of lbs produced	# of bulls producing
8473	Elk, Feeders	# of animal feed days	# of animals fed
8910	Goats, Feeder	# of animal feed days	# of animals fed
8914	Goats	# of Animals Born	# of females that have birthed
8915	Goats, Custom Fed	# of animal feed days	# of animal feed days
8924	Purebred Goats	# of Animals Born	Nothing to Report

Productive Capacity List

Code	Description	Production	Productive Capacity
8465	Horses, Feeders	# of animal feed days	# of animals fed
8561	Horse, Semen	# of straws sold	# of straws sold
8564	Horse	# of Animals Born	# of females that have birthed
8572	Pregnant Mare Urine Produced (PMU)	# of grams produced	# of grams contracted
8580	Purebred Horse	# of Animals Born	Nothing to Report
7653	Custom Fed Chicken Pullets	# of animals fed	# of animals fed
7658	Chicken, Pullets	# of animals fed	# of animals fed
7702	Ducks, Broilers	# sold	# sold
7710	Ducks	# Hatched	# of producing hens
7752	Geese, Broilers	# sold	# sold
7766	Geese	# Hatched	# of producing hens
7793	Partridge, Broilers	# sold	# sold
7799	Partridge	# Hatched	# of producing hens
7803	Pheasant, Ring Neck	# Hatched	# of producing hens
7807	Pheasant, White	# Hatched	# of producing hens
7811	Pheasant, Ring Neck, Broilers	# sold	# sold
7813	Pheasant, White, Broilers	# sold	# sold
7824	Squab	# Hatched	# of producing hens
7866	Turkey	# Hatched	# of producing hens
7888	Quail, Broilers	# sold	# sold
7894	Quail	# Hatched	# of producing hens
8610	Chinchillas	# of Animals Born	# of females that have birthed
8639	Fox	# of Animals Born	# of females that have birthed
8664	Mink	# of Animals Born	# of females that have birthed
8689	Rabbits	# of Animals Born	# of females that have birthed
7731	Emu	# Hatched	# of producing hens
7779	Ostrich	# Hatched	# of producing hens
7829	Rheas	# Hatched	# of producing hens
8925	Sheep, Feeders	# of animal feed days	# of animals fed
8964	Sheep	# of Animals Born	# of females that have birthed
8965	Sheep, Custom Fed	# of animal feed days	# of animal feed days
8974	Purebred Sheep	# of Animals Born	Nothing to Report
8978	Wool	# of Kgs produced	Nothing to Report
8771	Hogs, Semen	# of straws sold	# of straws sold
