M-45 — May 5, 2016 — Resuming consideration of the motion of Mr. Fillmore (Halifax), seconded by Mr. Amos (Pontiac), That, in the opinion of the House, the government should ensure that: (a) before making decisions on infrastructure funding proposals, where federal funding exceeds $500 000, an analysis of their impact on greenhouse gas emissions is considered; and (b) where appropriate, funding priority be given to proposals which help to mitigate the impacts of climate change;

And of the amendment of Ms. Rudd (Northumberland—Peterborough South), seconded by Mrs. Caesar-Chavannes (Whitby), That the motion be amended by deleting all the words after the words “funding proposals,” and substituting the following:

“an analysis of their impact on greenhouse gas emissions is undertaken for those projects exceeding an appropriate threshold to be established in an implementation plan; (b) where appropriate, funding priority be given to proposals which help to mitigate the impacts of climate change; and (c) that an implementation plan be developed.”
