DEPARTMENT OF TRADE AND COMMERCE
DOMINION BUREAU OF STATISTICS - CANADA
AGRICULTURAL BRANCH

(Issued Saturday, March 10th, at 12 noon)

Dominion Statistician:	R.H.Coats, B.A., F.S.S.(Hon.), F.R.S.C.
Chief, Agricultural Branch:	T.W.Grindley, Ph.D.

At the annual meeting of the Canadian Produce Association, held at Montreal on January 22-23, 1934, the following resolution was passed in regard to cold storage reports on butter, cheese, eggs and poultry.

"That the Dominion Bureau of Statistics publish the names of firms (without further information) reporting storage holdings in the above commodities."

In passing this resolution the Association added a further clause suggesting that the list submitted by the Bureau should be carefully studied with the purpose of determining whether the list is complete, or if there are any firms not included that should be reporting stocks. There is a further possibility that the study of this list will enable the isolation of firms reporting stocks of these commodities which may also be reported by a public cold storage warehouse, in which the stocks are stored.

In giving effect to this resolution it should be pointed out that the firms listed on the following pages are those that have reported butter, cheese, eggs or poultry at one date, at least, during 1933. There may be some firms reporting to the Bureau not included in the list that have only recently commenced to store these classes of produce. A very important service can be performed in reporting the names of such firms to the Bureau with all the information available.

To reap the full benefit from this plan, it is necessary that any suggestions or corrections be made to the Bureau as promptly as possible. The schedules for reporting stocks are mailed out on the 24th of each month. Suggestions or corrections should reach the office in plenty of time to permit making the changes desired.
