SYMBOLS

The following standard symbols are used in Dominion Bureau of Statistics publications:

.. figures not available.

... figures not appropriate or not applicable.

- nil or zero.

-- amount too small to be expressed.

P preliminary figures.

r revised figures.

x confidential to meet secrecy requirements of the Statistics Act.

Summary data, formerly presented in table 1, now appears in the total columns of tables 2, 3, 4 and 5. For comparison purposes, the previous years' data for both the month under review and cumulative year to date are presented in tables 2, 3, 4 and 5. Sequential monthly data previously published has been discontinued.

The information presented in this report is arranged as follows:

Table 1. Production, Shipments, Inventories of Dehydrated Alfalfa, Clover and Grass Meals

The production and shipments recorded in this table are compiled from information received from operators of Dehydrated Alfalfa Meal plants in Canada, (see January report for the list of contributors).

Table 2. Shipments of Concentrates and Premixes for Feeds

The data in this table provide the reported monthly shipments of concentrates and premixes. They include both the quantity moving direct to the farm level as well as that going to the secondary or franchise operators (if any) for manufacturing complete feeds.

Table 3. Estimated Feed Potential from Premixes and Concentrated Feeds

The data in this table represent the Potential volume of complete feeds that could be produced from the premixes and concentrates reported by the manufacturers in Table 2. The estimates herein presented are prepared by the respective respondents in this survey.

Table 4. Shipments of Secondary or Complete Feeds

The detail of feeds in this section represent the total secondary or finished feeds manufactured from raw ingredients (as opposed to those which use premixes or concentrates). This data is also reported directly by manufacturers of such products and is provided geographically by destination. The total volume of complete or finished feed is provided in Table 1, Section "B". However, provincial volumes may also be determined by the addition of volumes available in Table 3 and 4.

Table 5. Shipments of Other Animal Feeds

Shows only that volume of animal and pet feeds produced by feed registrants within this survey and would not be representative of the total national output of these commodities.

TABLE 1. Production, Shipments and Inventories of Dehydrated Alfalfa, Clover and Grass Meals

	Production		Shipments(1)		End of month inventory
