EXPLANATORY NOTES

Commodity Classification

Canadian Trade statistics are classified and published according to the International Convention on the
Harmonized Commodity and Description Coding System (H.S.), as defined by the Canadian Customs Tariff
and Statistical Nomenclature.

Valuation

Dollar values shown in this report are based on selling price F.O.B. plant, in Canadian dollars. This selling
price represents the value paid by the importer, excluding all freight, packing and insurance costs when
specified. All trade discounts, when applicable, are also deducted from the selling price.

Rounding

Figures may not add due to rounding.

Canada - U.S. Exchange Rate

The Bank of Canada exchange rates were used to convert U.S. imports reported in $US to $Cdn.

DOORS AND THEIR FRAMES AND THRESHOLDS, OF WOOD

I. INTRODUCTION AND SCOPE

This is one of a continuing series of market intelligence reports designed to increase business awareness of the potential existing for production in Canada and to assist businesses and other organizations in their market research of specific products. The detailed information provided in these reports supports studies by organizations seeking to expand existing production lines, change individual product characteristics or engage in new manufacturing investment in Canada. The coverage of a market intelligence report is developed in close consultation with the client, and is tailored to meet their specific requirements. It is important to emphasize that this report does not attempt any assessment as to the feasibility of competing in a particular market.

This report is based on data from several sources for the following Harmonized System (H.S.) commodity codes:

<table>

Also available is a Market Intelligence Report entitled "Windows, French Windows and Their Frames, of Wood" (Pub. No. 91115-IP).

* Prior to 1991, door frames and thresholds were classified to H.S. code 4418.20.00.20 - Door Frames and Their Thresholds.

Total imports in 1991 for all the above product were valued at $31.8 million.
DOORS AND THEIR FRAMES AND THRESHOLDS, OF WOOD (H.S. 4418.20)

II. NORTH AMERICAN IMPORTS - 1991

North American Imports - $61.4 Million*

* Excludes Canada - U.S. bilateral trade; Mexico.

Note: Major countries in descending order based upon value.
Source: Statistics Canada.
There were 426 known importers of doors and their frames and thresholds, of wood in 1990. The principal 39 importers accounted for 80 per cent of the total import value.

The principal importers of doors and their frames and thresholds, of wood during 1990 are listed below in alphabetical order. Where the importer is not the same as the consignee (i.e. the recipient of the goods shipped), the name of the consignee rather than that of the importer is listed. The importer or consignee is not necessarily the end-user of the product.

NOTE: This list includes all principal importers except individuals.

* Non resident importer.

DOORS AND THEIR FRAMES AND_THRESHOLDS, OF WOOD 
(H.S. 4418.20)

VIII. CANADIAN SUPPLIERS

The following lists are taken from two sources: a) the Business Opportunities Sourcing System (BOSS), a computerized data bank established by the Federal Department of Industry, Science and Technology Canada; and, b) the Canadian Trade Index, published by the Canadian Manufacturers' Association (CMA). These lists may not include all suppliers of the products in question, as companies must themselves register in BOSS or the Canadian Trade Index. In both cases, information on Canadian products supplied is as given by the companies.

BOSS

Companies are arranged in alphabetical order.

Doors, Flush Type, Wooden, Residential

DID YOU KNOW?

Effective May 1, 1991, the Market Intelligence Division of the Services to Business Branch of Industry, Science and Technology Canada became the Office of Primary Interest (OPI) for dISTCcovery. This service, developed by the New Brunswick Regional Office, is being implemented on a national basis and is available in most regional offices.

WHAT IS dISTCcovery? dISTCcovery is a tool for discovering and acquiring new manufacturing opportunities emerging from a worldwide explosion in technological developments, new products and new processes.

dISTCcovery introduces you to companies and organizations from around the world who are willing to licence the right to manufacture and sell their product in an agreed market area. The reverse is also possible. A Canadian company can also use dISTCcovery to promote their unique product or process for licensing internationally.

dISTCcovery provides access to international data bases containing thousands of licensing offers for new products, processes and technology originating from around the world.

For more information on this service, contact the Market Intelligence Division at (613) 954-4970 or the nearest ISTC Regional Office listed at the end of this publication.
