INVESTORS' INDEX NUMBERS OF SECURITY PRICES  
(1926=100)

Firmer prices developed with gains dominating the movement on the Montreal and Toronto Stock Exchanges and the general index for 112 common stocks advanced from 106.7 for the week ending November 7 to 108.7 for the week ending November 14. For the week ending November 15, 1934, the index was 89.4. In the Industrial series, five sub-groups were higher, with Canadian Industrial Alcohol "A & B", Consolidated Smelters and International Nickel showing pronounced strength and the index mounted from 163.7 for November 7 to 168.3 for November 14. The comparative index for 1934 was 127.0. Twenty Utilities recorded a gain for the fifth successive week, the index being 49.6 for the week of November 14 as compared with 48.2 for the preceding week and 47.1 for the corresponding week last year. The decrease in the index for five companies located abroad from 130.7 for November 7 to 128.4 for November 14 is credited to the drop in price of International Petroleum. This index was 114.5 for November 15, 1934.

WEEKLY INDEX NUMBERS OF DOMINION OF CANADA LONG-TERM BOND YIELDS  
(1926=100)

Yields from the six leading issues used in constructing the index number of Dominion of Canada long-term bond yields varied but little for the week ending November 15. They ranged from 3.25 to 3.71 with an average of 3.46 as compared with 3.27 to 3.77 and an average of 3.50 for the previous week. The index number which, but for one slight interruption, has been moving steadily downward since the first week in October, declined still further from 74.8 to 74.1. Trading in bonds on the Montreal market was light and featureless. Offerings were few and turnover small with no selling pressure apparent.
