INVESTORS' INDEX NUMBERS OF SECURITY PRICES
(1926=100)

A fractional advance of 0.9 points was registered for the Investors' index of 112 common stocks, this number being 99.5 for the week ending August 22nd, as compared with 98.6 for the preceding week and 87.6 for the same week last year.

Industrials mounted from 146.3 for the week of August 15th to 147.5 for the past week. This moderate gain was partly attributed to the higher prices of Oils issues and also to those of Consolidated Smelters and International Nickel, included in the Miscellaneous group. In 1934, this index was 121.3 for the week ending August 23rd. Losses in Power and Traction contributed to a minor decline in Utilities, placing this index at 48.2 for the week ending August 22nd, as compared with 48.3 for the week of August 15th. For the corresponding period in 1934, the index recorded was 52.4. Five companies located abroad moved upward from 122.4 for the week of August 15th to 125.5 for the following week. International Petroleum was responsible for the rise.
