INVESTORS' INDEX NUMBERS OF SECURITY PRICES
(1926=100)

Common stocks showed a minor rally for the second successive week and were considerably more active than for the corresponding week last year. The index for 112 common stocks for the week of June 18 was 118.1 as compared with 117.6 for the preceding week and 97.2 for June 20, 1935. The Industrial index mounted from 187.8 for June 11 to 189.3 for June 18, offsetting the recession of the week of June 4. This index was on the same level as in the final week of May and the comparative index for last year was 145.9. Six of the eight sub-groups were higher due chiefly to strength in International Nickel, Moore, Simpsons "B", Distillers Corp.-Seagrams, Lake of the Woods, Dominion Bridge and Steel of Canada, while Oils and Textiles were slightly lower. Twenty-three Utilities lost .5 for the week of June 18, overbalancing the gains of the first two weeks of June. The Utilities index moved downward from 53.2 for the week ending June 11 to 52.7 for the week of June 18. For the comparable week in 1935 this index was 45.3.
