WEIGHTED PRICE INDEX NUMBERS OF 23 MINING STOCKS  
(1926=100)

The weighted price index of twenty-three mining issues mounted from 156.6 for the week of June 4 to 157.6 for the week of June 11. This index for the comparable week in 1935 was 124.8.

Only nine of the twenty gold stocks included in this group registered gains, which proved to be sufficient to continue the upward movement started twelve weeks ago. The index was 136.2 for the week of June 11, as compared with 135.0 for the preceding week and 117.6 for the corresponding week last year.

Due to a further advance in the price of Noranda, the index of the base metal issues maintained almost the same level. The index rose from 246.3 for the week of June 4 to 246.4 for this week. For the week ending June 13, 1935, this index was 156.9.

Appearing below is a table of prices as compiled by the Dominion Bureau of Statistics for the weeks of June 11 and 4, 1936, and June 13, 1935.
