## Note of Appreciation

## Note de reconnaissance

*Canada owes the success of its statistical system to a long-standing partnership between Statistics Canada, the citizens of Canada, its businesses, governments and other institutions. Accurate and timely statistical information could not be produced without their continued cooperation and goodwill.*

*Le succès du système statistique du Canada repose sur un partenariat bien établi entre Statistique Canada et la population, les entreprises, les administrations canadiennes et les autres organismes. Sans cette collaboration et cette bonne volonté, il serait impossible de produire des statistiques précises et actuelles.*

## Release Schedule

The Provincial Economic Accounts are currently released twice a year. The preliminary version, released approximately four months after the reference year, includes estimates of GDP, sources and disposition of personal income and selected economic indicators for the provinces and territories. The other release of the Provincial Economic Accounts, available about ten months after the reference period, comprises revisions to the three previous years. Also included are detailed tables on government sector revenue and expenditures for the previous year.

## Note

Most series shown in these tables have two lines. The first of these lines is the series itself, usually expressed in millions of dollars and sometimes expressed as an index with 1997=100. The second line, italicized and in smaller typeface, is the annual percentage change. The percentage change line is omitted for series which are either very volatile or quite small.

The paper used in this publication meets the minimum requirements of American National Standard for Information Sciences - Permanence of Paper for Printed Library Materials, ANSI Z39.48 - 1984.

## Échéancier

Actuellement, les Comptes économiques provinciaux sont mis à jour deux fois l'an. La version préliminaire qui est diffusée environ quatre mois après la période de référence, présente des estimations du PIB, de la provenance et l'emploi du revenu personnel et de certains indicateurs économiques pour les provinces et territoires. L'autre version, disponible environ dix mois après la période de référence, comprend les révisions apportées aux estimations des trois années antérieures. Elle présente aussi les tableaux détaillés sur les recettes et dépenses du secteur des administrations pour l'année précédente.

## Note

La plupart des séries figurent dans ces tableaux sous deux lignes. La première ligne représente la série elle-même, habituellement exprimée en millions de dollars, et parfois sous forme d'indice (1997=100). La deuxième ligne, en italique et en caractères plus petits, représente la variation annuelle en pourcentage. Dans le cas des séries très instables ou très faibles, la ligne de variation en pourcentage est omise.

Le papier utilisé dans la présente publication répond aux exigences minimales de l'«American National Standard for Information Sciences» - «Permanence of Paper for Printed Library Materials», ANSI Z39.48 - 1984.
