Note of Appreciation

Canada owes the success of its statistical system to a long-standing partnership between Statistics Canada, the citizens of Canada, its businesses, governments and other institutions. Accurate and timely statistical information could not be produced without their continued cooperation and goodwill.

Note de reconnaissance

Le succès du système statistique du Canada repose sur un partenariat bien établi entre Statistique Canada et la population, les entreprises, les administrations canadiennes et les autres organismes. Sans cette collaboration et cette bonne volonté, il serait impossible de produire des statistiques précises et actuelles.

Release Schedule

The Provincial Economic Accounts are released approximately ten months after the reference year. The release includes reference year preliminary estimates for the Gross Domestic Product, sources and disposition of personal income and selected economic indicators. Also included are revisions to the five previous years with detailed estimates on government sector revenue and expenditures.

Note

Most of the series shown in these tables have two lines. The first of these lines is the series itself, usually expressed in millions of dollars and sometimes expressed as an index with 1992=100. The second line, italicized and in smaller typeface, is the annual percentage change. The percentage change line is omitted for series which are either very volatile or quite small.

Échéancier

Les Comptes économiques provinciaux sont diffusés environ dix mois après la période de référence. Ils contiennent une version préliminaire du Produit intérieur brut, la provenance et l'emploi du revenu personnel et certains indicateurs économiques, ainsi que les révisions apportées aux estimations des cinq années antérieures, pour lesquelles sont présentées les tableaux détaillés sur les recettes et dépenses du secteur des administrations.

Note

La plupart des séries figurent dans ces tableaux sous deux lignes. La première ligne représente la série elle-même, habituellement exprimée en millions de dollars, et parfois sous forme d'indice (1992=100). La deuxième ligne, en italique et en caractères plus petits, représente la variation annuelle en pourcentage. Dans le cas des séries très instables ou très faibles, la ligne de variation en pourcentage est omise.
