

# Dyane adam is your Commissioner of Official Languages 

Canada's social fabric<br>A fabric is made up of many threads. The citizens of this country, who speak English or French and have very diverse ethnocultural roots, make up the social fabric that we call Canada.

## FACT SHEETS ON OFFICIAL LANGUAGE GROUPS FOR EACH PROVINCE AND TERRITORY

## INTRODUCTION

The fact sheets on official language groups consolidate and present demographic, linguistic and economic data on Canadians for each province and territory. They all follow the same format to facilitate comparisons among the various localities.

The statistics used for the fact sheets come from sample data from the 1996 Statistics Canada census. The information on exogamy and the index of linguistic continuity of French-speaking Canadians come from the Canadian Heritage publication entitled Francophone Minorities: Assimilation and Community Vitality.

The data pertain only to persons who have identified English or French as their mother tongue or first official language spoken. They do not take multiple answers into account (for example, Canadians who identified English or French and a non-official language as their mother tongue or first language spoken). This way of breaking down the information enables us to make interesting comparisons between the two categories (mother tongue as compared with first official language spoken).

Languages other than English and French are not included; therefore figures may not add up to the total population or to $100 \%$.

## ALBERTA

## HIGHLIGHTS OF TABLES 1, 2 AND 3

- 52,380 persons ( $2.0 \%$ ) have identified French as their mother tongue, while 49,390 (1.9\%) have identified French as their first official language spoken.
- 452,595 individuals ( $16.9 \%$ ) have a mother tongue other than English or French.
- Of the 49,390 citizens that have identified French as their first official language spoken, $47,740(96.7 \%)$ can have a conversation in both official languages. On the other hand, 124,545 of the 2,580,675 citizens that have identified English as their first official language spoken ( $4.8 \%$ ) can have a conversation in both official languages.
- The proportion of youth (19 years and less) among those whose first official language spoken is English (30.6\%) is much higher than that among French speakers (12.5\%).
- The percentage of individuals with only an elementary level of education (grade 8 or less) is approximately twice as high among those whose first official language spoken is French as among those whose first official language spoken is English ( $11.3 \%$ versus $6.8 \%$ ).
- The average income for citizens whose first official language spoken is French $(\$ 27,263)$ is slightly higher than that for English speakers $(\$ 26,305)$.
- Among those who changed residence between censuses, the interprovincial migration rate is higher for persons whose first official language spoken is French (52.4\% versus 31.0\% for English speakers).
- The proportion of immigrants among those whose first official language spoken is English ( $14,5 \%$ ) is much higher than the rate among those whose first official language spoken is French (6.2\%).
- Concerning non-immigrants, the percentage of French-speaking individuals born outside the province (57.3\%) is higher than that for English speakers (30.9\%).
- In comparison with the other provinces and territories, the exogamy rate for Francophone families in Alberta is very high (64\%) and the index of linguistic continuity ( 0.32 ) is well below the average ( 0.64 ). (A language continuity index less than 1 means that French registers more losses than gains in its exchanges with other languages.)

|  |  |
| :--- | :--- | :--- |
| Exogamy ${ }^{6}$ | $64 \%$ |
| Language continuity index ${ }^{7}$ | 0.32 |

NOTE: $\quad{ }^{1}$ This figure does not take into account citizens who have identified more than one mother tongue (for example, French and English, French and a non-official language).
${ }^{2}$ Represents the highest level of schooling achieved by the citizens of that province.
${ }^{3}$ This population includes persons who, in the week prior to Census Day, were neither employed nor unemployed.
${ }^{4}$ Migrants are movers who had resided in a different census subdivision five years earlier (internal migrants) or who had lived outside Canada five years earlier (external migrants).
${ }^{5}$ Refers to people who are, or have been, landed immigrants in Canada.
${ }^{6}$ Cases where the spouses in a couple have different mother tongues.
${ }^{7}$ This index represents the relation between the number of persons speaking French most often at home and the number of persons for whom French is the mother tongue. A continuity index of less than 1 means that French registers more losses than gains in its exchanges with other languages.

## BRITISH COLUMBIA

## HIGHLIGHTS OF TABLES 1, 2 AND 3

- 53,040 persons ( $1.4 \%$ ) have identified French as their mother tongue, while 50,285 (1.4\%) have identified French as their first official language spoken.
- 845,660 individuals ( $22.9 \%$ ) have a mother tongue other than English or French.
- Of the 50,285 citizens that have identified French as their first official language spoken, $48,475(96.4 \%)$ can have a conversation in both official languages. On the other hand, 188,085 of the 3,532,485 citizens that have identified English as their first official language spoken (5.3\%) can have a conversation in both official languages.
- The proportion of youth (19 years and less) among those whose first official language spoken is English (26.9\%) is much higher than that among French speakers (9.9\%).
- The percentage of individuals with only an elementary level of education (grade 8 or less) is higher among those whose first official language spoken is French than among those whose first official language spoken is English (9.3\% versus 6.1\%).
- Among those who changed residence betweeen censuses, the interprovincial migration rate is much higher for persons whose first official language spoken is French (57.0\% versus $25.2 \%$ for English speakers).
- The proportion of immigrants is significant among both those whose first official language spoken is English and those whose first official language is French ( $22.9 \%$ and $14.8 \%$ respectively).
- Concerning non-immigrants, the percentage of French-speaking individuals born outside the province $(90.2 \%)$ is approximately three times higher than that for English speakers (36.1\%).
- In comparison with the other provinces and territories, the exogamy rate for Francophone families in British Columbia is the highest (72\%) and the index of linguistic continuity ( 0.29 ) is well below the average ( 0.64 ). (A language continuity index less than 1 means that French registers more losses than gains in its exchanges with other languages.)

## NORTHWEST TERRITORIES

## HIGHLIGHTS OF TABLES 1, 2 AND 3

- 1,355 persons ( $2.1 \%$ ) have identified French as their mother tongue, while $1,320(2.1 \%)$ have identified French as their first official language spoken.
- 26,830 individuals ( $41.8 \%$ ) have a mother tongue other than English or French.
- Of the 1,320 citizens that have identified French as their first official language spoken, $1,280(97.0 \%)$ can have a conversation in both official languages. On the other hand, 2,640 of the 58,560 citizens that have identified English as their first official language spoken (4.5\%) can have a conversation in both official languages.
- The proportion of youth (19 years and less) among those whose first official language spoken is English (41.0\%) is much higher than that among French speakers (13.5\%).
- The percentage of individuals with only an elementary level of education (grade 8 or less) is approximately two times lower among those whose first official language spoken is French than among those whose first official language spoken is English (7.7\% versus 17.7\%).
- The average income for citizens whose first official language spoken is French $(\$ 42,059)$ is somewhat higher than that for English speakers $(\$ 29,404)$.
- Among those who changed residence between censuses, the interprovincial migration rate is lower for persons whose first official language spoken is French (2.6\% versus 4.0\% for English speakers).
- The proportion of immigrants among those whose first official language spoken is English is very high in comparison with the rate among those whose first official language spoken is French (5.0\% versus 4.5\%).
- Concerning non-immigrants, the percentage of French-speaking individuals born outside the province (89.7\%) is twice that for English speakers (41.0\%).
- In comparison with the other provinces and territories, the exogamy rate for Francophone families in the Northwest Territories is very high (70\%) and the index of linguistic continuity ( 0.43 ) is well below the average (0.64). (A language continuity index less than 1 means that French registers more losses than gains in its exchanges with other languages.)

Table 3 (Northwest Territories)
French Mother Tongue, Exogamy and Language Continuity Index

NOTE: $\quad{ }^{1}$ This figure does not take into account citizens who have identified more than one mother tongue (for example, French and English, French and a non-official language).
${ }^{2}$ Represents the highest level of schooling achieved by the citizens of that province.
${ }^{3}$ This population includes persons who, in the week prior to Census Day, were neither employed nor unemployed.
${ }^{4}$ Migrants are movers who had resided in a different census subdivision five years earlier (internal migrants) or who had lived outside Canada five years earlier (external migrants).
${ }^{5}$ Refers to people who are, or have been, landed immigrants in Canada.
${ }^{6}$ Cases where the spouses in a couple have different mother tongues.
${ }^{7}$ This index represents the relation between the number of persons speaking French most often at home and the number of persons for whom French is the mother tongue. A continuity index of less than 1 means that French registers more losses than gains in its exchanges with other languages.

## YUKON

## HIGHLIGHTS OF TABLES 1, 2 AND 3

- 1,110 persons $(3.6 \%)$ have identified French as their mother tongue, while 1,085 (3.5\%) have identified French as their first official language spoken.
- 3,035 individuals ( $9.9 \%$ ) have a mother tongue other than English or French.
- Of the 1,080 citizens that have identified French as their first official language spoken, 1,035 ( $95.4 \%$ ) can have a conversation in both official languages. On the other hand, 2,105 of the 29,455 citizens that have identified English as their first official language spoken $(7.2 \%$ ) can have a conversation in both official languages.
- The proportion of youth (19 years and less) among those whose first official language spoken is English (31.1\%) is much higher than that among French speakers (20.7\%).
- The percentage of individuals with only an elementary level of education (grade 8 or less) among those whose first official language spoken is French is similar to that among those whose first official language spoken is English (6.0\% versus 5.6\%).
- The average income for citizens whose first official language spoken is French $(\$ 32,282)$ is slightly higher than that for English speakers $(\$ 28,986)$.
- Among those who changed residence between censuses, the interprovincial migration rate is slightly lower for persons whose first official language spoken is French (3.8\% versus 4.5\% for English speakers).
- The proportion of immigrants among those whose first official language spoken is English (10.4\%) is slightly higher than the rate among those whose first official language spoken is French (6.9\%).
- Concerning non-immigrants, the percentage of French-speaking individuals born outside the province $(88.1 \%)$ is greater than that for English speakers $(62.2 \%)$.
- In comparison with the other provinces and territories, the exogamy rate for Francophone families in Yukon is very high (65\%) and the index of linguistic continuity $(0.46)$ is well below the average ( 0.64 ). (A language continuity index less than 1 means that French registers more losses than gains in its exchanges with other languages.)

Table 1 (Yukon)
Population Profile by Mother Tongue

| Mother Tongue | \# |  |
| :--- | ---: | ---: |
| - French ${ }^{1}$ | 1,110 |  |
| - English ${ }^{1}$ | 26,405 |  |
| - French and English | 105 |  |
| - Other |  |  |
| - Total population | 30,650 | 100.0 |

## Table 2 (Yukon)

Population Profile by First Official Language Spoken

|  | First Official Language Spoken |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
|  | French |  | English |  |
|  | \# | \% | \# | \% |
| Language | 1,075 | 3.5 | 29,455 | 96.1 |
| Knowledge of both languages | 1,030 | 95.4 | 2,105 | 7.2 |
| Sex - men | 610 | 56.2 | 15,175 | 51.5 |
| - women | 475 | 43.8 | 14,285 | 48.5 |
| Age 0-19 | 220 | 20.7 | 9,170 | 31.1 |
| 20-34 | 250 | 23.5 | 7,150 | 24.3 |
| 35-64 | 555 | 52.1 | 11,910 | 40.4 |
| 65 and over | 40 | 3.8 | 1,230 | 4.2 |
| Education ${ }^{2}$ (15 years and over) |  |  |  |  |
| - elementary | 55 | 6.0 | 1,240 | 5.6 |
| - secondary | 200 | 22.0 | 6,840 | 30.7 |
| - college or equivalent | 310 | 34.1 | 8,410 | 37.8 |
| - university | 345 | 37.9 | 5,795 | 26.0 |

Table 2 (Yukon continued)
Population Profile by First Official Language Spoken

|  | First Official Language Spoken |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
|  | French |  | English |  |
|  | \# | \% | \# | \% |
| Unemployment rate |  | 10.1 |  | 11.1 |
| Labour force (15 years and over) | 790 | 86.8 | 18,110 | 81.2 |
| Population not in labour force ${ }^{3}$ | 120 | 13.2 | 4,185 | 18.8 |
| Annual income (15 years and over) |  |  |  |  |
| - less than \$5,000 | 95 | 11.0 | 2,960 | 14.0 |
| - \$5,000-\$24,999 | 290 | 33.7 | 7,650 | 36.1 |
| - \$25,000-\$49,999 | 275 | 32.0 | 6,695 | 31.6 |
| - \$50,000 and over | 200 | 23.3 | 3,885 | 18.3 |
| Average annual income | 32,289 |  | 28,986 |  |
| Occupation (15 years and over) |  |  |  |  |
| Management, business and administration | 210 |  | 5,000 |  |
| Natural and applied sciences, health | 70 |  | 1,585 |  |
| Social sciences, education, administration | 15 |  | 1,785 |  |
| Art, culture, recreation and sports | 125 |  | 500 |  |
| Sales and services | 185 |  | 4,525 |  |
| Trades, transport and equipment operators | 135 |  | 3,255 |  |
| Professions unique to primary industry | 45 |  | 705 |  |
| Manufacturing and public utilities | 10 |  | 365 |  |
| Total | 795 |  | 17,520 | 100.0 |
| Mobility (5 years and over) |  |  |  |  |
| - Migrants ${ }^{4}$ | 395 |  | 7,725 |  |
| - External migrants | 15 | 3.8 | 345 | 4.5 |
| - Interprovincial migrants | 355 | 89.9 | 5,570 | 72.1 |
| - Intraprovincial migrants | 30 | 7.6 | 1,810 | 23.4 |
| Immigrants ${ }^{5}$ | 75 | 6.9 | 3,065 | 10.4 |
| Non-immigrants | 1,005 |  | 26,315 |  |
| - born in province of residence | 120 | 11.9 | 9,945 | 37.8 |
| - born outside province of residence | 885 | 88.1 | 16,370 | 62.2 |

NOTE: $\quad{ }^{1}$ This figure does not take into account citizens who have identified more than one mother tongue (for example, French and English, French and a non-official language).
${ }^{2}$ Represents the highest level of schooling achieved by the citizens of that province.
${ }^{3}$ This population includes persons who, in the week prior to Census Day, were neither employed nor unemployed.
${ }^{4}$ Migrants are movers who had resided in a different census subdivision five years earlier (internal migrants) or who had lived outside Canada five years earlier (external migrants).
${ }^{5}$ Refers to people who are, or have been, landed immigrants in Canada.
${ }^{6}$ Cases where the spouses in a couple have different mother tongues.
${ }^{7}$ This index represents the relation between the number of persons speaking French most often at home and the number of persons for whom French is the mother tongue. A continuity index of less than 1 means that French registers more losses than gains in its exchanges with other languages.
