## **Acknowledgements**

The Canadian Institute for Health Information (CIHI) wishes to acknowledge and thank the following individuals for their contribution to *Physicians in Canada: Fee-for-Service Utilization, 2005–2006*:

- Robert Kyte, Program Lead, Health Human Resources, CIHI
- Yvonne Rosehart, Program Lead, Health Human Resources, CIHI
- Britta Nielsen, Program Lead, Health Human Resources, CIHI
- Walter Feeney, Senior Analyst, Health Human Resources, CIHI
- Jeffery Proulx, Analyst, Health Human Resources, CIHI
- Vicki Scott, Quality Assurance Assistant, Health Human Resources, CIHI

CIHI wishes to acknowledge the support of the provincial and territorial health ministries and the CIHI Advisory Group on Physician Databases in the development and publication of this report. Ministry representatives supplied data in a timely fashion as well as provided valuable data validation. The CIHI Advisory Group on Physician Databases lent their expertise to help guide the team to meet the needs of CIHI clients.

## Preface

The Canadian Institute for Health Information (CIHI) collects and analyzes information on health and health care in Canada and makes it publicly available. Canada's federal, provincial and territorial governments created CIHI as a not-for-profit, independent organization dedicated to forging a common approach to Canadian health information. CIHI's goal: to provide timely, accurate and comparable information. CIHI's data and reports inform health policies, support the effective delivery of health services and raise awareness among Canadians of the factors that contribute to good health.

For more information, visit our website ([www.cihi.ca](http://www.cihi.ca)).

The former two annual reports *National Grouping System Categories Report, Canada* and *Reciprocal Billing Report, Canada* have been combined into one report beginning with the data year 2005–2006. By combining these two publications, CIHI is incorporating all fee-for-service utilization data into one report, with the intent to provide a more comprehensive picture of services being performed by physicians in Canada.

Previously produced reports in the *National Grouping System Categories* series:

- *National Grouping System Categories Report, Canada, 2004–2005* (2007)
- *National Grouping System Categories Report, Canada, 2003–2004* (2006)
- *National Grouping System Categories Report, Canada, 2002–2003* (2005)
- *National Grouping System Categories Report, Canada, 2001–2002* (2004)
- *National Grouping System Categories Report, Canada, 1999–2000 and 2000–2001* (2003)
- *National Grouping System Categories Report, Canada, 1998–1999 and 1999–2000* (2002)
- *National Grouping System Categories Report, Canada, 1996/97 to 1998/99* (2001)
- *National Grouping System Categories Report, Canada, 1994/95 and 1995/96* (1999)
- *National Grouping System Categories Report, Canada, 1989/90 to 1993/94* (1998)

Previously produced reports in the *Reciprocal Billing* series:

- *Reciprocal Billing Report, Canada, 2004–2005* (2007)
- *Reciprocal Billing Report, Canada, 2003–2004* (2006)
- *Reciprocal Billing Report, Canada, 2002–2003* (2005)
- *Reciprocal Billing Report, Canada, 2001–2002* (2004)
- *Reciprocal Billing Report, Canada, 2000–2001* (2003)
- *Reciprocal Billing Report, Canada, 1999–2000* (2002)
- *Reciprocal Billing Report, Canada, 1998–1999* (2001)
- *Reciprocal Billing Report, Canada, 1995–1996* (1999)
- *Reciprocal Billing Report, Canada, 1993–1994* (1998)
- *Reciprocal Billing Services, 1988–1989* (1990)

Prior to 1995, *National Grouping System Categories* reports and *Reciprocal Billing* reports were produced by the Health Information Division at Health Canada. These publications were produced using the Medical Care Database (MCDB), the predecessor of the National Physician Database (NPDB). In August 1995, both databases were transferred to CIHI.

The MCDB was developed following the implementation of the *Medical Care Act* in 1967 and was used to monitor the services provided and payments made by the provincial and territorial medical insurance plans. The NPDB expanded on the MCDB by including information on physician demographic and practice characteristics, and the age and gender of patients.

## Introduction

The National Physician Database (NPDB) has been used by the federal, provincial and territorial governments, medical stakeholder groups, various private organizations and researchers as a national data source for the fee-for-service utilization patterns of physicians in Canada for program administration, evaluation and policy development.

The National Grouping System (NGS) attempts to provide reasonably comparable and consistent statistics on the utilization, cost and distribution of physicians' services for which payment was made on a fee-for-service basis by provincial and territorial medical care insurance plans.

Data tables were prepared using criteria designed to ensure an optimum degree of comparability across jurisdictions. In many cases, these criteria vary from those employed by provinces and territories for their own purposes. Consequently, figures may differ from those reported by data providers.

Due to issues of comparability, all anesthesia specialists and anesthesia services are excluded from this publication. Please refer to Table 2 for a monetary breakdown of inclusions and exclusions.

Any questions regarding the publications or the NPDB should be directed to:

## Highlights

### Highlights of the *Physicians in Canada: Fee-for-Service Utilization* Report

- In fiscal year 2005–2006, total in-province fee-for-service payments (excluding radiology and laboratory services, anesthesia services and anesthesia specialty) to physicians were approximately \$10.2 billion and there were approximately 248 million standardized services delivered.
  - For family physicians, total fee-for-service payments to physicians were approximately \$4.9 billion (48%) and there were approximately 161 million (65%) standardized services delivered.
  - Among specialists, total fee-for-service payments to physicians were \$5.3 billion (52%) and there were approximately 87 million (35%) standardized services delivered.
  - Of the total \$10.2 billion fee-for-service payments, Ontario accounted for \$4.3 billion (42%) and combined fee-for-service expenditures in the provinces of Quebec, Alberta and British Columbia accounted for \$4.5 billion (44%).
- Consultations and visits made up 69.1% of total fee-for-service payments to physicians. Services delivered for consultations and visits represented 76.0% of total services provided in 2005–2006.
  - For family physicians, consultations and visits accounted for 86.2% of payments and represented 81.1% of total services provided.
  - Among specialists, consultations and visits made up 53.5% of payments and accounted for 66.3% of total services provided.
    - Medical specialists received 66.8% of their payments from consultations and visits compared to 37.8% for surgical specialists.
    - Medical specialists provided 67.2% of their services as consultations and visits compared to 65.0% for surgical specialists.
- In 2005–2006, the average cost per service paid to physicians was \$41.09.
  - Family physicians billed an average cost per service of \$30.24 in 2005–2006, while specialists received an average of \$61.30 per service.
- In 2005–2006, total reciprocal billing payments (excluding anesthesia services and anesthesia specialty) to physicians were approximately \$104 million and there were approximately 2.3 million standardized services delivered.

**Note:** All analyses in this report were performed on fee-for-service data only. This report excludes all alternative forms of physician reimbursement. For more information on alternative forms of physician reimbursement, please see *Physicians in Canada: The Status of Alternative Payment Programs, 2005–2006* available at [www.cihi.ca](http://www.cihi.ca).

# Methodological Notes

## Background

The establishment of the National Physician Database (NPDB) was approved in 1987 by the Conference of Deputy Ministers of Health upon the recommendation of the Advisory Committee on Health Human Resources. On August 1, 1995, the NPDB was transferred to the Canadian Institute for Health Information (CIHI). CIHI assumed the responsibilities of Health Canada in maintaining the database. Previously, the NPDB was under the direction of the Working Group on Medical Care Statistics, which was disbanded when the database was transferred to CIHI.

The Advisory Group on Physician Databases was convened in April 1996 and regularly advises CIHI on data quality, methodology and product development matters relating to the NPDB and Scott's Medical Database (formerly the Southam Medical Database). This report analyzes only fee-for-service data submitted to the NPDB. CIHI is working with the provinces, territories and ministries to also include data on clinical activities remunerated under alternative reimbursement plans (such as salaries, contracts and sessional fees) to improve comprehensiveness of physician payment and service utilization.

## Data Sources and Collection

### NPDB Data

Data are derived from physician fee-for-service claims submitted by provincial and territorial medical insurance programs to CIHI. The claims data and associated physician and patient demographic data are submitted in five files, as listed below. Data files are usually received within six months of the end of the quarter to which the data correspond. Any files that do not meet appropriate layouts, as defined in the *NPDB Data Submission Specifications Manual*, are returned to the provinces and territories for correction and subsequent re-submission.

Any retroactive payments made to physicians after the provincial and territorial data submissions were received by CIHI are not included in this publication.

### Files submitted

Title	Description
25 File	Dental services and other non-physician services file (file not submitted by all jurisdictions)
30 File	Reciprocal billing file*
35 File	Physician characteristics file
50 File	Utilization file (by fee code, UPI, sex and age group of patient)
55 File	Changes to UPI file

\* 30 File data are not applicable to the province of Quebec.

In addition to the NPDB data files described above, CIHI gathers annual, aggregate-level, alternative payment information through a variety of information sources, including provincial and territorial representatives of CIHI's Advisory Group on Physician Databases. A summary of this information is presented in Table 2 of the Payment Mode: Level of Fee-for-Service Coverage section.

For a complete description of NPDB record layouts, please see the *NPDB Data Submission Specifications Manual*, available at [www.cihi.ca](http://www.cihi.ca). For further information regarding the NPDB, including alternative payments, please contact the Program Lead, National Physician Database, at CIHI.

### **National Grouping System Counts**

The National Grouping System (NGS) counts and dollar amounts are created using data from the utilization file (50 File). The utilization file contains all direct payments for fee-for-service claims by physicians, laboratories and diagnostic facilities as well as services received by medical care plan beneficiaries out-of-province or out-of-territory but not processed through the reciprocal billing system (that is, essentially, services received out-of-Canada and in Quebec as well as services excluded from the reciprocal billing agreement).

### **Reciprocal Billing Data**

The reciprocal billing data represent less than one percent of total fee-for-service payments and less than one percent of total services submitted to the NPDB. The reciprocal billing service counts and dollar amounts are created using data from the reciprocal billing file (30 File). The reciprocal billing file contains data on out-of-province or out-of-territory services processed by the Reciprocal Billing System. This means each province or territory sends data on services their physicians provided to out-of-province or out-of-territory patients. Quebec does not participate in reciprocal billing arrangements; therefore no services provided by Quebec physicians are included. The file also excludes services provided to residents of the United States. Reciprocal billing data are included in Appendix A of this report.

### **Type of Data: Date of Service Versus Date of Payment**

Generally, utilization and reciprocal billing data files are submitted on a date-of-payment basis for Newfoundland and Labrador, Manitoba and Saskatchewan and on a date-of-service basis for Prince Edward Island, Nova Scotia, New Brunswick, Quebec, Ontario, Alberta, British Columbia and Yukon Territory. Jurisdictions submitting on a date-of-service basis wait six months or until 98% of services are captured before submitting data files for processing. Please see Table 1 for a yearly breakdown by province and territory of the type of data file submission.

Table 1. NPDB File Submission: Date of Service (DOS) Versus Date of Payment (DOP)

Y.T.	✓	

### Type of Data: Billing Versus Payment Data

All jurisdictions, except Quebec, submit payment data. Billing data reflect the full amount the physicians billed the provincial and territorial medical services plans for a particular fee code item. Payment data reflect what was actually paid to the physicians. The amount paid would be the billed amount less any adjustments applied due to threshold values being met, income capping or clawbacks.

### Payment Mode: Level of Fee-for-Service Coverage

Statistics in this report are based on fee-for-service billing and payment information only. A variety of alternative forms of payment, such as salary and sessional payments, are commonly used across jurisdictions. Alternative forms of reimbursement are currently not submitted comprehensively to the NPDB and are, therefore, not included in the statistics presented in this report. Tables 2.1 through 2.4 present the variation in fee-for-service and alternative clinical physician payments. Included in these tables are the percentages of total clinical payments as well as the annual growth of both fee-for-service and alternative payments. Figure 1 gives current estimates of alternative payments as a percentage of total physician payments across jurisdictions. As can be seen in Figure 1, the percentage of alternative payments varied considerably across Canada in 2005–2006, ranging from 12% in Alberta to 96% in the Northwest Territories. For further information on alternative payment programs in Canada and how these programs vary across jurisdictions, please see CIHI's *Physicians in Canada: The Status of Alternative Payment Programs, 2005–2006*, available at [www.cihi.ca](http://www.cihi.ca).

Canadian Institute for Health Information, 2008.

**Notes**

--- indicate that data were not applicable for a given category.

Blank cells for the Yukon, Northwest Territories and Nunavut indicate years when data were not submitted.

Columns may not add to total due to rounding. Total clinical payments are the total sum of the physicians' clinical payments from fee-for-service and alternative payments.

**Sources:** Fee-for-service payments are based on data submitted to the National Physician Database, with the exception of the Northwest Territories, which submitted fee-for-service information with alternative clinical payment data collection. Alternative clinical payment information is gathered through provincial and territorial ministries of health, with the exception of Ontario for 2001–2002 and Manitoba for 2001–2002 to 2003–2004. CIHI's National Health Expenditures Database was used as a source of estimates in those instances.

Canadian Institute for Health Information, 2008.

**Notes**

--- indicate that data were not applicable for a given category.

Blank cells for the Yukon, Northwest Territories and Nunavut indicate years when data were not submitted.

Columns may not add to total due to rounding. Total clinical payments are the total sum of the physicians' clinical payments from fee-for-service and alternative payments.

**Sources:** Fee-for-service payments are based on data submitted to the National Physician Database, with the exception of the Northwest Territories, which submitted fee-for-service information with alternative clinical payment data collection. Alternative clinical payment information is gathered through provincial and territorial ministries of health, with the exception of Ontario for 2001–2002 and Manitoba for 2001–2002 to 2003–2004. CIHI's National Health Expenditures Database was used as a source of estimates in those instances.

**Figure 1. Physicians' Alternative Clinical Payments as a Percentage of Total Clinical Payments, 2005–2006**

**Note:** Data were not available for Nunavut.

**Source:** Provincial/territorial ministries of health.

Please note that each jurisdiction defines with its physician group whether a service should be paid for under a fee-for-service plan or an alternative plan. Thus, one jurisdiction may pay for a service through the fee-for-service plan, whereas another jurisdiction may pay for the same service within an alternative plan which would not be captured in this report. In addition, jurisdictions may vary with respect to how alternative payments are allocated to physicians. For example, alternative payments may represent a relatively small percentage of income for most physicians in one province, while in another province some physicians might be paid primarily through alternative plans with others paid primarily through fee-for-service arrangements. These variations across jurisdictions can impact National Grouping System (NGS) Categories' physician results.

It is important to note that the range of physician payment information submitted to the National Physician Database varies across provinces and territories. Table 3 presents a summary of payment information submitted to the National Physician Database and indicates payment data that are included and excluded from calculations in this report. Alternative forms of payments reported in Table 3 may not reflect the total alternative payments that are paid out by each jurisdiction. Table 3 only represents data that are submitted through regular quarterly data submissions to the NPDB.

**Table 3. Payment Information Submitted to the NPDB and Inclusion/Exclusion Criteria Used to Produce National Grouping System (NGS) Categories Report Results, 2005–2006**

Source: National Physician Database, Canadian Institute for Health Information.

**Notes**

n/a = Not applicable; there were no physician services reported for this type of service for this jurisdiction.

NR = Not reported.

\* Includes payments made to out-of-province, -territory or -country physicians through all remuneration modes and sources of payment.

\*\* Excludes salary, sessional and capitation payments made to out-of-province, -territory or -country physicians.

\*\*\* Includes rural retention premiums made through all sources of payment (for example, worker's compensation board, insurance corporation).

\*\*\*\* Anesthesia services and anesthesia specialists have been excluded.

## **Population Data**

Canadian population figures used in this publication are compiled by the Demography Division of Statistics Canada. Statistics Canada prepares by special request estimates of the “covered population” for use with the NPDB data. The covered population reflects people who received medical services paid for by provincial and territorial medical insurance programs. The covered population is the total population less members of the Canadian Forces, the Royal Canadian Mounted Police and inmates in federal and provincial penitentiaries. These groups of people have their medical services covered by a federal medical insurance program. Estimates are for October 1 of the given year and are revised annually. See Appendix B for net population data.

**Note:** Readers wishing further information on data provided through the cooperation of Statistics Canada may obtain copies of related publications by mail from:

Fax: 613-951-1584

## **Data Quality**

### **Error/Validation Routines**

The NPDB files are derived from provincial and territorial administrative systems, and edit checks are conducted on the data by the jurisdiction prior to processing the NPDB files. As CIHI has no control over these edit checks, all data files received by CIHI are processed through the NPDB error/validation routines. The error/validation routines are limited in scope because the data cannot be confirmed against the source. Error/validation routines include review of the total record counts, service counts and dollar amounts for each file, checking each value in the fields against acceptable values, checking for invalid fee codes, checking for unique physician identifier (UPI) numbers in illogical formats and logical review of the processed data. Any files that do not pass through the error/validation routines are returned to data providers for correction and subsequent re-submission.

### **Additional Data Quality Checks**

Service counts, dollar amounts and other economic indicators are validated against previous years’ data and provincial and territorial annual reports.

Data providers are given the opportunity to review their own data for validity and consistency. This publication was reviewed and authorized by the provincial and territorial medical insurance plan authorization officers prior to publication. For a complete list of these authorization officers, please see Appendix C.

## **Ontario Shadow Billing**

CIHI receives shadow billing data included with NPDB data submissions. Shadow billing data track services delivered without the fee-for-service cost of providing that service. To avoid skewing the cost per service results by including service counts without the payments associated with them, CIHI has changed the remuneration for these records to exclude them from the fee-for-service analysis. In 2005–2006, there were 8,430,208 services submitted in Ontario data that had the remuneration changed from fee-for-service due to shadow billing. The changed services account for 2.5% of the total services submitted from Ontario to CIHI for 2005–2006.

## **Technical Fee Codes (Ontario)**

Starting in 2005–2006, services and payments for technical portions of fee codes are included in National Grouping System calculations. Prior to 2005–2006, technical portions of fee codes were excluded from the NGS.

Because of the change in National Grouping System calculations with respect to shadow billing (beginning in 2004–2005) and technical fee codes (beginning in 2005–2006), trend analysis should not be performed over the years from 2003–2004 to 2005–2006.

## **Data Definitions**

### **Province or Territory of Practice**

Province or territory of practice is the jurisdiction where the physician is registered and receives payments from the provincial or territorial medical care plan. Physicians may practise in more than one jurisdiction in a given fiscal year. For example, the physician may move from one province to another during the fiscal year or may provide services in two provinces on a regular basis (for example, a physician providing services in provincial border areas such as Ottawa–Gatineau). This can result in the double counting of physicians (except at the national level, where physician counts are not based on province or territory of practice).

### **Specialty**

Physician specialty designations in the NPDB are assigned by the provincial and territorial medical care plans and grouped within the NPDB to a national equivalent. Of the two specialties, latest acquired certified specialty and plan payment specialty, the latter is used for the purposes of this report.

Internal medicine includes sub-specialties such as cardiology, gastroenterology, hematology, rheumatology and medical oncology. Psychiatry includes neuropsychiatry. Neurology includes electroencephalogram (EEG), and physical medicine includes electromyography. Specialists in the double specialty of ophthalmology/otolaryngology are included with ophthalmologists.

In some instances, jurisdictions have a unique way of grouping particular specialists. These unique groupings include the following:

- In Nova Scotia, Quebec and B.C., data for public health specialists are reported in the family medicine figures.
- For all provinces and territories other than Ontario, community medicine specialists are grouped with family medicine specialists. In Ontario, community medicine, public health, occupational medicine and pediatric cardiology are grouped as internal medicine specialists.
- For all provinces and territories other than Newfoundland and Labrador, Saskatchewan and B.C., non-certified specialists are grouped with family medicine specialists. In these jurisdictions, non-certified specialists are reported under their respective non-certified specialties rather than family medicine.
- Additionally, the few plastic surgeons and urologists in P.E.I. are grouped into the general surgery category for privacy and confidentiality reasons.

Physicians in Quebec may have two different statuses which include two different specialties, one for in-province billings and one for billings outside Quebec. These two different statuses appear on the 35 File (physician characteristics file) as two different records with the same unique physician identifier, which results in duplicate records on the file as far as individual physicians are concerned. The record with the most complete information is retained on the NPDB system. This results in incorrect specialty assignment for some payments.

For a complete listing of the specialty designations and their groupings, please see Appendix D.

## **Strata**

Fee payments by medical care insurance plans to physicians are made in accordance with payment schedules (also known as benefit schedules), in which the amounts payable for particular services are specified. Provincial and territorial payment schedules do not only differ with respect to fee prices, but also with respect to internal organization by type of service, by body system, by specialty, the extent of composite fees (that is, the fees for certain procedural or diagnostic services may include the fee for associated visits or examinations, or the fees for examinations may include the fee for minor procedural or diagnostic services), general terminology, the definition of certain services, coding systems used, etc. In addition, there are substantial interjurisdictional differences in “assessment rules,” that is, regulations and conventions which govern the application of the payment schedule in particular situations.

Once the data have gone through the various edit and validation checks, they are assigned to one of the 120 categories of service and undergo adjustments that allow for comparisons across jurisdictions. The main body of this report does not include 16 categories which pertain to radiology and laboratory services. However, data pertaining to radiology and laboratory services are included with reciprocal billing data in Appendix A. Please see below for a list of the NGS strata and Appendix E for a complete listing of all NGS categories and strata.

## **Consultations**

Major, initial, ordinary, minor, repeat, regional and operative consultations performed in offices, hospitals, chronic care and convalescent hospitals and nursing homes, as well as psychiatric and obstetrical consultations where no special call is involved.

### **Major Assessments**

General and specific assessments, reassessments, initial visits with a complete exam, new condition seen for first time and including complete history and exam, complete specific exam depending upon the physician specialty, annual exams, newborn/premature care and special eye exams performed in any location where no special call is involved.

### **Other Assessments**

Partial or minor assessments, regional exams, first or subsequent or repeat exams, ordinary, pre- and post-natal care, well-baby care in any location, chronic and convalescent care, outpatient visits and other visits when physician is in the hospital, intermediate and minor assessments, partial assessments, follow-up exams and regional exams, additional patients seen during a special call and detention.

### **Hospital Care Days**

Regular visits up to 28/30/31 or 35/42 days, over 28/30/31 or 35/42 days, inpatient supportive care, continuing care, concurrent care, directive care, convalescent care, palliative care and daily management.

### **Special Calls**

Visits at night, on Saturdays, Sundays and holidays, requiring travel to offices, homes, nursing homes, outpatient and emergency departments; also special visits, consultations, specific assessments and reassessments, general reassessments, ordinary home visits, home summary and specific exams.

### **Psychotherapy/Counselling**

Individual psychotherapy, hypnotherapy, narco-analysis, diagnostic/therapeutic interviews, group and family psychotherapy and interviews, interviews for physical medicine and counselling for drugs, family, genetic, marriage and contraception, and case conferences on behalf of patients with allied workers, teachers, clergy, etc.

### **Major Surgery**

Services were classified as major or minor surgery in 1988 based on a threshold fee of at least \$75 in the Ontario fee schedule that year. In subsequent years, new surgical procedures have been classified as major or minor depending on their classifications in provincial and territorial fee schedules.

### **Minor Surgery**

See major surgery definition above.

### **Surgical Assistance**

All services and payments for surgical assistance.

### **Anesthesia**

Includes anesthesia fees for major surgery, minor surgery and diagnostic and therapeutic procedures.

### **Obstetrical Services**

Includes normal and Caesarean deliveries, therapeutic abortions and services to the mother in the hospital at the time of delivery (such as induction of labour and repair of lacerations).

### **Other Diagnostic/Therapeutic Services**

Includes procedures of a diagnostic nature, such as allergy testing and electrocardiogram (ECG); also services such as colonoscopy, which are used for treatment as well as diagnosis.

### **Radiology Services**

Includes head and neck, spine and pelvis, extremities, chest, gastrointestinal tract, genitourinary tract, therapeutic radiology/radioisotope, computed axial tomography, ultrasound and other diagnostic/therapeutic radiology.

See Appendix F for further information on radiology data within the NPDB.

### **Laboratory Services**

Includes hematology and blood bank; biochemistry and immunology; microbiology, anatomical pathology, histology and cytology, nuclear medicine and isotopes and other diagnostic/therapeutic laboratory services.

See Appendix F for further information on laboratory data within the NPDB.

### **Special Services**

Includes services that do not fit into the other strata, such as immunizations and Pap tests.

### **Miscellaneous Services**

Includes all services that are unidentified or are identified but paid for by social services, the attorney general, workers' compensation, etc. Examples include services related to impaired driving, to rape victims and as a result of injuries sustained at work.

### **Unique Physician Identifier (UPI)**

A unique identifier is created by the province or territory using components of the physician's first and last names (scrambled using an algorithm), date of birth, gender and place of medical doctorate (MD) graduation.

## **Computations and Adjustments**

Differences between provincial and territorial fee schedules and periodic changes made to fees or assessment rules make it difficult to calculate comparisons between jurisdictions. In general, the data tend to be less comparable for visit services and minor procedures than for well-established and distinct major surgical procedures. As a result, the NGS adjusts service counts for certain types of services, visit services and diagnostic/therapeutic procedures to improve the comparability of the data. NPDB fee codes may be adjusted in the following ways.

## Adjustment A

To minimize the double counting of services, an Adjustment A is attached to the fee service code (FSC) and the service count is not included. For example, this occurs when two or more surgical procedures are performed at the same time and an additional fee is paid under a separate fee service code.

### Example

FSC 1 Pyloroplasty

FSC 2 with suture of bleeding peptic ulcer, additional amount

The service count and payments for FSC 1 are included, but only the payments for FSC 2 are retained.

## Adjustment B

Fees are calculated to provide more comparable service counts for psychotherapy, detention, inhalation and physiotherapy, hospital per diem visits, resuscitation, intensive care services, pre- and post-natal care, stand-by fees and diagnostic/therapeutic tests. The revised service count is calculated by dividing the total payment for the fee service code by the calculated fee for the standardized service.

The following are the criteria used for B adjustments.

- Psychotherapy—It is assumed that the average duration for all psychotherapy services is thirty minutes and that group therapy sessions comprise four persons.
- Allergy tests—The total price for the number of tests equivalent to the fee for an office visit is used to calculate the service count. This is most often used for patch and hypersensitivity tests.
- Detention—The duration of one detention service is one-quarter of an hour. Service counts are adjusted when a fee for one half-hour or one hour is indicated. A fee would be calculated based on one 15-minute period.
- Intensive Care—The duration of one intensive care service is assumed to be one hour. When an intensive care unit fee is paid on a per diem basis, the visits are considered equivalent to one hour.
- Monthly rates are adjusted to daily rates assuming 20 working days per month.

## Adjustment C

This adjustment is used when a fee code is redefined during a year and each definition is applicable to a different category or, for instance, when laboratory surcharges are applicable to different procedures. By applying this adjustment, the services and payments for a specific fee service code are divided between two categories.

## Adjustment D

This is the same as Adjustment B, except the service counts are revised on the basis of whether they were performed by a general practitioner or specialist, with a different fee for each.

### Example

#### Resuscitation

General Practitioner	\$14 per ¼ hour
Specialist	\$18 per ¼ hour

#### Calculated Fees

General Practitioner	\$56 per hour
Specialist	\$72 per hour

## Adjustment E

In many jurisdictions, physicians are entitled to premiums or additional fees which are paid on visits or procedures provided outside regular office hours or during off-hours, evenings, nights, Saturdays, Sundays and statutory holidays or if the visit or procedure is provided on an emergency basis. To eliminate the double counting, services for these premium codes are dropped and the payments are reassigned to the appropriate visit or surgical category.

### Example

#### FSC 1 Surcharge for a consultation

The service count for FSC 1 is subtracted from Category 1, Consultations. Payments removed from Category 1 are calculated by multiplying the service count of FSC 1 by the fee for a consultation. Category 20, Out-of-Hours/Emergency, contains the services and payments for FSC 1 plus the payments removed from Category 1.

## Adjustment F

Payment for obstetrical care may be made on the basis of all-inclusive fees (comprising the remuneration for the delivery or Caesarean section and for all pre- and post-natal care) or by fees for the delivery or Caesarean section only and separate fees for associated pre- and post-natal services. Over the last few years, jurisdictions have increasingly, but not exclusively, adopted the latter approach.

To minimize the effect of these changes upon the comparability between jurisdictions and intertemporal comparability of the data, all-inclusive fees are broken down in accordance with the following assumptions; the estimated number and cost of segregated visit services are included in the categories shown in brackets.

Pre-natal care includes one complete examination (Category 3 or 8) and eight subsequent visits to the office (Category 10 or 14), followed by one hospital post-partum visit (Category 11) and one post-natal office visit (Category 10 or 14). Note: if a consultation was specified in the composite fee description, then a consultation (Category 1) replaces the complete examination.

Service counts for all but subsequent office visits are the same as the count for the composite fee code. Service counts for subsequent office visits are calculated by multiplying the composite fee code count by nine (that is, the assumed number of pre- and post-natal office visits). Payments for all but pre-natal subsequent office visits are calculated using the fees listed in the payment schedules. Payments for pre-natal subsequent office visits consist of the total payment for the composite fee items minus the amounts calculated as described above.

**Note:** If only the consultation and procedure are specified, the payments for the consultation become the residual.

### **Jurisdiction-Specific Adjustments**

There are also several adjustments made, for various reasons, to the data that do not apply consistently to each province or territory. For example, premium fees for off-hour visits and procedures are claimed in several jurisdictions. To maintain consistency, the dollar amounts for such premiums are included but the service counts are dropped to eliminate the double counting of services.

### **Special Calls Adjustment**

A special call is an assessment rendered following travel to attend to a patient. This will normally be initiated by someone other than the physician if services are rendered outside a hospital. Included are visits to a first patient at home, in a nursing home, rest home or other setting. A home visit will usually occur in an emergency situation or where required because of the patient's condition.

In Quebec, Atlantic Canada, Alberta and the Yukon, a consultation or assessment done normally has a different fee code from one that is special call. In the other jurisdictions—Ontario, Manitoba, Saskatchewan and British Columbia—the same fee code is used in both circumstances, but an extra surcharge with its own fee code is added in the case of a special call. Therefore, for example, in Nova Scotia, all the payments and services associated with a special call would fall into the Special Calls strata. In Ontario, the payments and services would be split between Consultations or Assessments and Special Calls. To correct for the splitting of payments and services, CIHI applies the Special Calls Adjustment. The adjustment will move payments associated with special calls from the Consultations and Assessments strata to the Special Calls strata. It will also delete the services in Consultations and Assessments that are there as a result of special calls.

Please note that unlike other adjustments, the Special Calls Adjustment is done at the NGS strata level and not at the detailed fee code level.

### **Obstetrical Services**

A recent review found that fee codes related to obstetrical services were inconsistently grouped among jurisdictions. For example, repair of third-degree vaginal/cervical laceration may have been grouped in "services at delivery" in one jurisdiction and "other obstetrical services" in another jurisdiction. In order to improve comparability across jurisdictions, all obstetrical-related services were identified for each jurisdiction and re-grouped to the appropriate NGS category. Consequently, results relative to obstetrical services presented in this publication may reveal trends that are different from similar services prior to 1994–1995. These were produced in the publication titled *National Grouping System Categories Report, Canada, 1989/90 to 1993/94*.

## **Data Limitations**

### **Data Exclusions**

Medical services covered by third parties, such as hospital insurance and workers' compensation plans, are not included in this report. The data also exclude certain categories of persons, among them members of the Canadian Forces and the Royal Canadian Mounted Police and inmates of federal and provincial penitentiaries who are covered under other public programs (these persons account for less than half of one percent of the total population).

Certain payments made directly by patients are also omitted; examples include amounts extra-billed or balance-billed by physicians and the costs of plastic surgery for cosmetic purposes.

The fee-for-service utilization data included in this report exclude payments made through the reciprocal billing systems as well as payments made to out-of-province or out-of-territory physicians not participating in reciprocal billing, such as Quebec and the United States. Reciprocal billing data are reported on in Appendix A of this report.

### **De-Insured and De-Listed Services**

Certain services within each province or territory have been de-insured or de-listed. These services may differ across jurisdictions or from year to year. The impact of these services could explain minor fluctuations over years or minor differences between jurisdictions. For further information on de-insured and de-listed services please contact the Program Lead, National Physician Database, Canadian Institute for Health Information.

### **De-Insured Services**

Services which, at some point in time, were defined as an insured service (that is, covered by a provincial or territorial health plan) but are no longer covered.

### **De-Listed Services**

Services which used to have an individual fee code assigned to them and have been included in another fee code.

### **Specialty Designations**

Provinces and territories are requested to provide two types of specialty information in the NPDB files—latest acquired certified specialty and payment plan specialty. The latest acquired certified specialty is the most recently acquired specialty designation from the Royal College of Physicians and Surgeons of Canada, the Collège des médecins du Québec or the College of Family Physicians of Canada. The payment plan specialty may or may not be different from the latest certified specialty and should reflect the specialty area in which the physicians provide the majority of their services. All jurisdictions report physicians' plan payment specialty and all jurisdictions, except for Newfoundland and Labrador and Prince Edward Island, report physicians' latest certified specialty.

Any physician who practised under more than one specialty during the fiscal year was assigned the specialty under which he/she received the majority of his/her payments.

CIHI National Grouping System Categories statistics may vary from provincial and territorial statistics because of differences in the way specialties are grouped. For example, CIHI groups neuropsychiatry in with psychiatry whereas Quebec groups it with neurology. CIHI includes electromyography with physical medicine whereas Quebec does not. The sub-specialties that constitute CIHI's internal medicine specialty are reported on individually in the Régie de l'assurance-maladie du Québec annual statistics report. Please see Appendix D for CIHI specialty categories.

### **Radiology and Pathology (Laboratory) Physicians**

Radiologists, pathologists and laboratory directors are excluded from the NGS calculations in the main body of this report. Medical care plan fee payments to radiologists or pathologists are nil or very small in the four Atlantic provinces, relatively small in Quebec, but substantial in the other jurisdictions. Omitting such payments in all jurisdictions improves comparability. See Appendix F for information on the extent of fee-for-service payments for radiology and laboratory services that are included in the NPDB data files but excluded from the main body of this report.

In the reciprocal billing data (Appendix A), radiologists, pathologists and laboratory directors are included.

### **Privacy and Confidentiality**

CIHI employs a variety of safeguards to protect the privacy and confidentiality of physician data. These include:

#### **Unique Physician Identifier (UPI)**

Physician names are not used on the provincial and territorial files. Instead, a unique physician identifier (UPI) is generated by the province or territory using components of the physician's name, date of birth, gender and place of medical doctorate (MD) graduation. The name portion of the UPI is scrambled using an algorithm known only to the province or territory. This algorithm is the same across jurisdictions. The UPI helps protect the privacy and confidentiality of physicians and allows for the tracking of physicians throughout their careers in Canada.

#### **Data Suppression**

CIHI is committed to protecting the privacy of the Canadian public's confidential health information. Although the level of aggregation in this report prevents identification of single individuals in jurisdictions with large populations, such as Ontario or British Columbia, the same may not be applicable for less-populated jurisdictions, such as the territories. To ensure anonymity, cell counts containing 1 to 4 services are suppressed in the data tables presented in this publication. Data suppression was carried out by first carefully examining service count summaries produced for *Physicians in Canada: Fee-for-Service Utilization, 2005–2006*. These services have been excluded from both the provincial and territorial data columns as well as from aggregate-level row and column totals in order to avoid re-identification of individuals through subtraction or other methods of imputation.

In the fee-for-service utilization data, found in the main body of this report, 508 services (less than 0.001% of total services) were excluded as a result of cell suppression in 2005–2006 for all of Canada. Payment amounts corresponding to suppressed services have also been excluded from this report. In total, for all of Canada, \$155,941 in payments (approximately 0.001% of total payments) were excluded as a result of cell suppression in 2005–2006. Cost per service information is also not reported for suppressed service count data.

The “\*” symbol is used within data tables to identify cells where information has been suppressed as a result of the methodology described above. The following footnote has been added to the data tables:

- \* Service value was between 1 and 4 for this cell. Data have been suppressed within the cell and are not included in aggregate-level row and column totals.

Please note, in some cases the “\*” symbol may appear in the “Total” column even though the service count is greater than 4. This occurs when rows contain only zeros and “\*” symbols. For example, if in one row all provinces and territories reported a service count of 3 for a particular type of service, the total service count would be 33 in an unsuppressed table. However, 33 is changed to “\*” in a suppressed table because every value in the row is changed to an “\*” symbol.

Disclosure avoidance techniques are also applied to CIHI’s release of data through ad hoc queries and special analytical studies.

### **NPDB Data Access/Release Policy**

The Privacy Secretariat at CIHI has developed a set of guidelines to safeguard the privacy and confidentiality of data received by CIHI. The document *Privacy and Confidentiality of Health Information at CIHI: Principles and Policies for the Protection of Personal Health Information and Policies for Institution-Identifiable Information* may be obtained from the CIHI website ([www.cihi.ca](http://www.cihi.ca)). These policies govern the release of data for all provinces in publications, media releases, the CIHI website and through ad hoc requests and special studies. In compliance with these guidelines, CIHI prevents residual disclosure by implementing cell suppression for cells with counts from 1 to 4. For further information on data suppression, please see the section on Data Suppression above. These policies ensure the privacy and confidentiality of all health care providers and recipients.

The release of data from the NPDB for the provinces of Quebec and Newfoundland and Labrador is also governed by the NPDB Data Access/Release Policy, which was established by the provincial and territorial ministries of health and is administered by CIHI. Depending on the type of client, the level of data aggregation, the province or territory and indicator of interest, CIHI may not be able to release data to the client without prior approval from the province or territory.

## **Products and Services**

There are three types of products that are generated from the NPDB—ad hoc requests, publications and special projects. Ad hoc requests are generally short queries that do not require major programming resources. Service counts and dollar amounts by specific fee codes or procedures are the most common forms of ad hoc request. Most ad hoc requests can be handled through standard reports that are generated annually.

The following series of publications, among others, are currently available:

- *Physicians in Canada: Average Gross Fee-for-Service Payments* (formerly *Full-Time Equivalent Physicians Report* and *Average Payment per Physician Report*)
- *The Status of Alternative Payment Programs for Physicians in Canada*

For details on publication years and reporting periods covered, please refer to CIHI's website ([www.cihi.ca](http://www.cihi.ca)).

Special projects require project planning and the commitment of extra resources. Please contact the Program Lead, National Physician Database, at CIHI for costs associated with these products and services.

**Notes**  
 n/a = Not applicable; there were no physician payments for this specialty for this province.  
 \* Service value was between 1 and 4 for this cell. Data have been suppressed within the cell and are not included in aggregate-level row and column totals.  
 \*\* Anesthesia specialists and anesthesia services have been excluded.  
 Based on gross direct fee-for-service payments. Reciprocal billing payments are not included.  
 Alternative forms of reimbursement, such as salary and sessional, are not included.

**Notes**

n/a = Not applicable; there were no physician services for this specialty for this jurisdiction.  
 \* Service value was between 1 and 4 for this cell. Data have been suppressed within the cell and are not included in aggregate-level row and column totals.  
 \*\* Anesthesia specialists and anesthesia services have been excluded.  
 Based on gross direct fee-for-service payments. Reciprocal billing payments are not included.  
 Alternative forms of reimbursement, such as salary and sessional, are not included.

**Notes**

\* Service value was between 1 and 4 for this cell. Data have been suppressed within the cell and are not included in aggregate-level row and column totals.  
 \*\* Anesthesia specialists and anesthesia services have been excluded.  
 Based on gross direct fee-for-service payments. Reciprocal billing payments are not included.  
 Alternative forms of reimbursement, such as salary and sessional, are not included.

**Notes**

\* Service value was between 1 and 4 for this cell. Data have been suppressed within the cell and are not included in aggregate-level row and column totals.  
 \*\* Anesthesia specialists and anesthesia services have been excluded.  
 Based on gross direct fee-for-service payments. Reciprocal billing payments are not included.  
 Alternative forms of reimbursement, such as salary and sessional, are not included.

**Notes**  
 \* Service value was between 1 and 4 for this cell. Data have been suppressed within the cell and are not included in aggregate-level row and column totals.  
 \*\* Anesthesia specialists and anesthesia services have been excluded.  
 Based on gross direct fee-for-service payments. Reciprocal billing payments are not included.  
 Alternative forms of reimbursement, such as salary and sessional, are not included.

**Notes**

\* Service value was between 1 and 4 for this cell. Data have been suppressed within the cell and are not included in aggregate-level row and column totals.  
 \*\* Anesthesia specialists and anesthesia services have been excluded.  
 Based on gross direct fee-for-service payments. Reciprocal billing payments are not included.  
 Alternative forms of reimbursement, such as salary and sessional, are not included.

**Notes**

\* Service value was between 1 and 4 for this cell. Data have been suppressed within the cell and are not included in aggregate-level row and column totals.  
 \*\* Anesthesia specialists and anesthesia services have been excluded.  
 Based on gross direct fee-for-service payments. Reciprocal billing payments are not included.  
 Alternative forms of reimbursement, such as salary and sessional, are not included.

**Notes**  
 \* Service value was between 1 and 4 for this cell. Data have been suppressed within the cell and are not included in aggregate-level row and column totals.  
 \*\* Anesthesia specialists and anesthesia services have been excluded.  
 Based on gross direct fee-for-service payments. Reciprocal billing payments are not included.  
 Physicians paid under alternative forms of reimbursement such as salary and sessional are not included.

**Notes**  
 \* Service value was between 1 and 4 for this cell. Data have been suppressed within the cell and are not included in aggregate-level row and column totals.  
 \*\* Anesthesia specialists and anesthesia services have been excluded.  
 Based on gross direct fee-for-service payments. Reciprocal billing payments are not included.  
 Physicians paid under alternative forms of reimbursement such as salary and sessional are not included.

**Notes**  
 \* Service value was between 1 and 4 for this cell. Data have been suppressed within the cell and are not included in aggregate-level row and column totals.  
 \*\* Anesthesia specialists and anesthesia services have been excluded.  
 Based on gross direct fee-for-service payments. Reciprocal billing payments are not included.  
 Physicians paid under alternative forms of reimbursement such as salary and sessional are not included.

**Notes**  
 \* Service value was between 1 and 4 for this cell. Data have been suppressed within the cell and are not included in aggregate-level row and column totals.  
 \*\* Anesthesia specialists and anesthesia services have been excluded.  
 Based on gross direct fee-for-service payments. Reciprocal billing payments are not included.  
 Physicians paid under alternative forms of reimbursement such as salary and sessional are not included.

**Notes**  
 \* Service value was between 1 and 4 for this cell. Data have been suppressed within the cell and are not included in aggregate-level row and column totals.  
 \*\* Anesthesia specialists and anesthesia services have been excluded.  
 Based on gross direct fee-for-service payments. Reciprocal billing payments are not included.  
 Physicians paid under alternative forms of reimbursement such as salary and sessional are not included.

## Notes

\* Service value was between 1 and 4 for this cell. Data have been suppressed within the cell and are not included in aggregate-level row and column totals.  
 \*\* Anesthesia specialists and anesthesia services have been excluded.  
 Based on gross direct fee-for-service payments. Reciprocal billing payments are not included.  
 Alternative forms of reimbursement, such as salary and sessional, are not included.

**Notes**  
 \* Service value was between 1 and 4 for this cell. Data have been suppressed within the cell and are not included in aggregate-level row and column totals.  
 \*\* Anesthesia specialists and anesthesia services have been excluded.  
 Based on gross direct fee-for-service payments. Reciprocal billing payments are not included.  
 Alternative forms of reimbursement, such as salary and sessional, are not included.

## Notes

\* Service value was between 1 and 4 for this cell. Data have been suppressed within the cell and are not included in aggregate-level row and column totals.  
 \*\* Anesthesia specialists and anesthesia services have been excluded.  
 Based on gross direct fee-for-service payments. Reciprocal billing payments are not included.  
 Alternative forms of reimbursement, such as salary and sessional, are not included.

## Notes

\* Service value was between 1 and 4 for this cell. Data have been suppressed within the cell and are not included in aggregate-level row and column totals.  
 \*\* Anesthesia specialists and anesthesia services have been excluded.  
 Based on gross direct fee-for-service payments. Reciprocal billing payments are not included.  
 Alternative forms of reimbursement, such as salary and sessional, are not included.

## Notes

\* Service value was between 1 and 4 for this cell. Data have been suppressed within the cell and are not included in aggregate-level row and column totals.  
 \*\* Anesthesia specialists and anesthesia services have been excluded.  
 Based on gross direct fee-for-service payments. Reciprocal billing payments are not included.  
 Alternative forms of reimbursement, such as salary and sessional, are not included.

**Appendix A**  
**Reciprocal Billing in Canada**

## Overview

The reciprocal billing agreement between provinces and territories (except for Quebec), which became effective April 1, 1988, allows physicians to bill their own provincial or territorial medical care plans for services provided to residents of other jurisdictions under certain defined circumstances. The physician receives payment from the medical care plan and the medical care plan recovers the payment amount from the medical care plan of the patient's home province or territory.

Through an agreement reached by the Advisory Committee on Institutional and Medical Services (ACIMS), all provinces and territories, with the exception of Quebec, participate in the reciprocal billing arrangements. At a meeting in 1987 with medical care plan representatives, ACIMS asked each participating province or territory to submit data to National Health and Welfare (now Health Canada) on a quarterly basis.

The reciprocal billing appendix presents summary tables that indicate the total number of services provided and received by each province and territory, the total dollar value of these services and the cost per service. The summary tables show breakdowns by physician specialty and type of service.

For 2005–2006, 36,017 fee-for-service physicians were reimbursed for services provided under the reciprocal billing plan.

It is important to note that the range of physician payment information submitted to the National Physician Database (NPDB) varies across provinces and territories. Table A-1 presents a summary of payment information submitted to the NPDB and indicates payment data that are included and excluded from reciprocal billing payment calculations.

Tables 1 through 13 look at reciprocal billing services and fee-for-service payments in two different ways. One way to look at reciprocal billing is grouping by the host provider, which is presented in tables 2 through 7. The other way to look at reciprocal billing data is by the home of the patient, which is covered in tables 8 through 13. Table 1 presents totals for each jurisdiction in a crosstab with both the host provider and the home of the patient.

The reciprocal billing data are submitted by the provinces and territories, except Quebec, which does not participate in the reciprocal billing agreement, and the Northwest Territories and Nunavut, which do participate in the reciprocal billing agreement, to the Canadian Institute for Health Information (CIHI) for use in the National Physician Database (NPDB). Because Quebec, the Northwest Territories and Nunavut do not submit reciprocal billing data to CIHI, there are not any data in tables 2 through 7 for these jurisdictions. However, as tables 8 through 13 are generated by the home of the patient, data appear in these jurisdictions for residents who received care in another jurisdiction that does submit reciprocal billing data to CIHI.

## **Data Definitions**

### **Home of Patient**

Home of patient refers to the province or territory where the patient resides and is registered with the provincial or territorial medical care plan.

### **Host Provider**

Host provider refers to the province or territory where the physician is registered and receives payments from the provincial or territorial medical care plan.

**Notes**

n/a = Not applicable; there were no physician payments reported for this type of service for this jurisdiction.

\* Service value was between 1 and 4 for this cell. Data have been suppressed within the cell and are not included in aggregate-level row and column totals.

\*\* Anesthesia services are excluded.

Total includes nine provinces and the Yukon Territory. The Northwest Territories, Nunavut and Quebec did not submit data to CIHI.

**Notes**

n/a = Not applicable; there were no physician payments reported for this type of service for this jurisdiction.

\* Service value was between 1 and 4 for this cell. Data have been suppressed within the cell and are not included in aggregate-level row and column totals.

\*\* Anesthesia services are excluded.

Total includes nine provinces and the Yukon Territory. The Northwest Territories, Nunavut and Quebec did not submit data to CIHI.

**Appendix B**  
**Net Population Estimates**

**Table B. Statistics Canada Net Population Estimates (in thousands), 2004–2005 to 2005–2006**

Year	N.L.	P.E.I.	N.S.	N.B.	Que.	Ont.	Man.	Sask.	Alta.	B.C.	Y.T.	Total
2004–2005 (PR)	516.0	137.6	928.7	746.4	7,549.7	12,424.3	1,168.5	992.5	3,203.6	4,201.7	30.7	31,899.7
2005–2006 (PR)	512.6	138.1	931.1	741.0	7,602.0	12,578.5	1,170.1	986.2	3,290.7	4,262.2	31.2	32,243.7

**Notes**

Net population estimates are produced by excluding from total estimates the members of the Royal Canadian Mounted Police, Canadian Forces personnel and the number of inmates in federal and provincial institutions.

PR = Updated post-census estimates.

The estimates are based on 2001 census counts, adjusted for net census undercoverage. These figures have been rounded independently to the nearest hundred.

**Source:** Net population estimates, Statistics Canada.

**NPDB Authorization Officers**

## NPDB Authorization Officers

### Newfoundland and Labrador

---

Ed Hunt  
Assistant Deputy Minister,  
Newfoundland and Labrador Department  
of Health and Community Services  
Confederation Building  
P.O. Box 8700  
St. John's, Newfoundland and Labrador  
A1B 4J6

### Nova Scotia

---

Barb Harvie  
Director,  
Information Analysis and Reporting  
Nova Scotia Department of Health  
Joseph Howe Building  
1690 Hollis Street  
P.O. Box 488  
Halifax, Nova Scotia  
B3J 2R8

### Quebec

---

Joanne Gaumont  
Chef  
Régie de l'assurance-maladie du Québec  
1125 Grande Allée Ouest  
Québec, Quebec  
G1S 1E7

### Manitoba

---

Deborah Malazdrewicz  
Manager,  
Data Management and Development  
Manitoba Health  
4029–300 Carlton Street  
Winnipeg, Manitoba  
R3B 3M9

### Prince Edward Island

---

Johanne Irwin  
Physician Services Manager,  
P.E.I. Health and Social Services  
16 Garfield Street  
P.O. Box 2000  
Charlottetown, Prince Edward Island  
C1A 7N8

### New Brunswick

---

Linda Lingley  
Manager,  
Medicare Services  
New Brunswick Health and Wellness  
520 King Street  
P.O. Box 5100  
Fredericton, New Brunswick  
E3B 5G8

### Ontario

---

Kathryn Tessier  
Project Manager,  
Re-Assessment  
Ontario Ministry of Health  
and Long-Term Care  
1075 Bay Street  
Suite 301  
Toronto, Ontario  
M5S 2B1

### Saskatchewan

---

Carmelle Mondor  
Program Manager,  
Data and Statistical Services  
Saskatchewan Health,  
Medical Services Branch  
3475 Albert Street  
Regina, Saskatchewan  
S4S 6X6

**Alberta**

---

Deb Kaweski  
Executive Director  
Alberta Health and Wellness  
10025 Jasper Avenue NW  
P.O. Box 1360 Station Main  
Edmonton, Alberta  
T5J 2N3

**Yukon**

---

Sherri Wright  
Director  
Yukon Department of Health  
and Social Services  
P.O. Box 2703 (H-2)  
Whitehorse, Yukon Territory  
Y1A 2C6

**British Columbia**

---

Ian Rongve  
Executive Director,  
Health Modernization  
British Columbia Ministry of Health  
7-1, 1515 Blanshard Street  
Victoria, British Columbia  
V8W 3C8

**Northwest Territories**

---

Dana Heide  
Director,  
Territorial Integrated Services  
Department of Health and Social Services  
Government of Northwest Territories  
P.O. Box 1320  
Yellowknife, Northwest Territories  
X1A 2L9

  - 128 Obstetrics/Gynecology

## Technical Specialists

### 26 Radiology Specialties (reported in reciprocal billing only)

- 250 Diagnostic Radiology
- 251 Therapeutic Radiology
- 252 Therapeutic Radiology and Nuclear Medicine

### 27 Laboratory Specialties (reported in reciprocal billing only)

- 260 Nuclear Medicine
- 261 Bacteriology
- 262 Biochemistry
- 263 Microbiology
- 264 Pathology
- 265 Anatomic-Pathology
- 266 General Laboratory

**Note:** Although genetics is no longer a sub-specialty of internal medicine it is included in the internal medicine category because the number of physician records assigned to this specialty is relatively small.

**Appendix E**  
**NPDB National Grouping System**  
**Categories and Strata**

## NPDB National Grouping System Categories and Strata

### 1. Consultations

Major, initial, ordinary, minor, repeat, regional and operative consultations performed in the office, hospital, chronic care and convalescent hospitals and nursing homes, as well as psychiatric and obstetrical consultations where no *Special Call* is involved

- Major Consultations
- Other Consultations

### 2. Major Assessments

General and specific assessments, reassessments, initial visits with a complete exam, new condition seen for first time and including complete history and exam, complete specific exam depending upon the physician specialty, annual exams, newborn/premature care and special eye exams performed in any location where no *Special Call* is involved

- Office
- Hospital Inpatient: Newborn
- Hospital Inpatient: Other
- Hospital Outpatient
- Hospital Unspecified
- Unspecified
- Special Eye

### 3. Other Assessments

Partial or minor assessments, regional exams, first or subsequent or repeat exams, ordinary, pre- and post-natal care, well-baby care in any location, chronic and convalescent care, outpatient visits and other visits when physician is in the hospital, intermediate and minor assessments, partial assessments, follow-up exams and regional exams, additional patients seen during a special call and detention

- Office
- Hospital Inpatient
- Hospital Outpatient
- Hospital Unspecified
- Unspecified—Location
- Special Calls—Add
- Detention

### 4. Hospital Care Days

Regular visits up to 28/30/31 or 35/42 days, over 28/30/31 or 35/42 days, inpatient supportive care, continuing care, concurrent care, directive care, convalescent care, palliative care and daily management

- Up to 28/30/31/35/42 Days
- Over 28/30/31/35/42 Days
- Other

## 5. Special Calls

Visits at night, on Saturdays, Sundays and holidays, requiring travel to the office, homes, nursing homes, outpatient and emergency departments; also includes special visits, consultations, specific assessments and reassessments, general reassessments, ordinary home visits, home summary and specific exams

Out-of-Hours/Emergency

Other Regular Hours

## 6. Psychotherapy/Counselling

Individual psychotherapy, hypnotherapy, narco-analysis, diagnostic/therapeutic interviews, group and family psychotherapy and interviews, interviews for physical medicine and counselling for drugs, family, genetic, marriage and contraception, and case conferences on behalf of patients with allied workers, teachers, clergy, etc.

Individual Psychotherapy

Group/Family Psychotherapy

Counselling

## 7. Major Surgery

Based on the 1988 Ontario Schedule of Benefits, these procedures have a fee of more than \$75.

### **Mastectomy**

Simple, radical or modified radical; unilateral or bilateral; female or male

### **Breast Tumor Excision/Biopsy**

Tumour or tissue for biopsy and/or treatment; partial mastectomy or wedge resection

### **Other Integumentary System**

All other major surgery procedures performed on the integumentary system not listed above; for example, excisions, lesions, tumours, cysts, burn and skin grafts, pedicle and free island flaps, plastic planing, plastic surgery procedures, breast reconstruction, mammoplasties, surgical debridement

### **Fractures**

Bone and joint fractures

### **Disc Surgery**

Procedures for disc removal and fusion

### **Arthroplasty – Hip**

Total hip replacement, unipolar and bipolar arthroplasty and revisions

### **Arthroplasty – Knee**

Knee arthroplasty and revisions

### **Other Musculoskeletal System**

All other major surgery performed on the musculoskeletal system not listed above, including bone grafts, arthrodesis, amputation, arthrotomy, bone, joint, muscle and tendon excision, reconstruction, orbito-cranial surgery, instrumentation and dislocations

**Sub-Mucous Resection**

Septoplasty and resection

**Rhinoplasty**

Correction of nasal deformity

**Other Respiratory System**

All other major surgery performed on the respiratory system not listed above, including excisions and repairs

**Coronary Artery Bypass**

Coronary artery repair single, double, triple or more

**Coronary Angioplasty**

Percutaneous transluminal coronary angioplasty

**Insertion of Pacemaker**

Insertion of permanent endocardial electrode and implantation of pack, replacement and repair

**Other Heart/Pericardium**

All other major surgery procedures performed on the heart and pericardium system not listed above

**Varicose Veins**

Ligation and stripping of varicose veins but excluding injection of varicose veins

**Carotid Endarterectomy**

Endarterectomy, body tumour and bypass graft of the carotid artery

**Other Cardiovascular**

All other major surgery performed on the cardiovascular system not listed above

**Appendectomy**

Excision of the appendix

**Laparotomy**

Any laparotomy performed as a surgical procedure

**Cholecystectomy**

All cholecystectomies and any additional payments made for other procedures performed at the same time, such as choledochotomy, sphincterotomy, vagotomy

**Tonsillectomy**

Both adult and child tonsillectomies and payments for adenoidectomies performed at the same time

**Inguinal/Femoral Hernia**

Inguinal and/or femoral hernias performed on infants, children, adolescents and adults

**Colectomy**

Total and hemi-colectomies and payments for other procedures performed at the same time

**Hemorrhoidectomy**

The surgical procedure only; hemorrhoidectomies by cryotherapy or banding are excluded

**Other Digestive**

All other major surgery performed on the digestive system not listed above

**Prostatectomy**

All forms of prostate surgery, such as perineal, suprapubic, retropubic, transpubic and transurethral resection

**Vasectomy**

Unilateral or bilateral ligation

**Other Urinary/Male**

All other major surgery performed on the male genital and urinary systems

**Prolapse**

All forms of prolapse repair surgery

**Hysterectomy**

Total, subtotal, abdominal or vaginal or radical hysterectomies

**Sterilization**

Tubal occlusion/interruption/removal by any method or approach

**Other Female**

All other major surgery performed on the female genital system not listed above

**Cataract Surgery**

All forms of cataract surgery, dislocated lens extraction and insertion of intra-ocular lens when paid in addition to the above

**Light Coagulation**

Photocoagulation and cryopexy

**Tympanoplasty**

Tympanoplasty, myringoplasty, tympanomastoidectomy and payments for other procedures performed at the same time

**Other Eye/Ear**

All other major surgery performed on the organs of special senses not listed above

**Other Major Surgery**

All other major surgery not listed above, such as operations on the nervous system, on the hemic and lymphatic systems and on the endocrine system

**8. Minor Surgery**

**Incision, Abscess, etc.**

Incision of abscesses or hematomas under local or general anesthesia

**Removal of Foreign Body**

Foreign body removal under local or general anesthesia

**Excision, Tumour, etc.**

Excision of verruca, papilloma, keratosis, pyogenic granuloma, moles, etc.

**Suture Wound**

Repair, debridement and dressing

**Excision of Nail**

Excision and/or destruction of finger or toenail

**Chalazion**

Single or multiple under local or general anesthesia

**Myringotomy**

Unilateral myringotomy with insertion of ventilation tubes

**Minor Fractures**

Fractures with a fee less than \$75

**Other Minor Surgery**

All other minor surgery not listed above

**9. Surgical Assistance**

All services and payments for surgical assistance

**10. Anesthesia**

**Nerve Blocks**

All forms of nerve blocks

**Other Anesthesia**

All services and payments for anesthesia, excluding nerve blocks

**11. Obstetrical Services**

**Services at Time of Delivery**

Attendance at delivery or Caesarean section, repair of third-degree/vaginal/cervical laceration, removal of retained placenta, scalp sampling, fetal monitoring and induction of labour

**Delivery (excluding Caesarean Sections)**

Delivery and multiple births, excluding Caesarean sections

**Caesarean Section**

The procedure only

**Therapeutic Abortions**

Therapeutic abortions only

**Other Obstetrical Services**

Fetoscopy, stress test, hypertension, fetal transfusion, toxemia of pregnancy, oxytocin challenge test, abortions (missed, threatened, without dilatation and curettage, incomplete, menstrual extraction and spontaneous), amniocentesis, ectopic pregnancy, suture for incomplete cervix during pregnancy, uterine inversion and emergency removal of sutures

## 12. Other Diagnostic/Therapeutic Services

### **IC/Resuscitation**

Intensive care and resuscitation services

### **Allergy/Hyposensitization**

Tests for allergies and hyposensitization

### **Injection/Aspiration of Joint**

Injection and/or aspiration of joints

### **Electrocardiogram**

Services and payments for the professional component of electrocardiograms and the payments for the technical component

### **Esophagoscopy/Gastroscopy**

Services and payments for both these endoscopies as well as payments for procedures performed at the same time as the endoscopy

### **Laryngoscopy/Bronchoscopy**

Services and payments for both these endoscopies as well as payments for procedures performed at the same time as the endoscopy

### **Colonoscopy**

Services and payments for this endoscopy as well as payments for procedures performed at the same time as the colonoscopy

### **Cystoscopy**

Services and payments for this endoscopy as well as payments for procedures performed at the same time as the cystoscopy

### **Sigmoidoscopy**

Services and payments for this endoscopy as well as payments for procedures performed at the same time as the sigmoidoscopy

### **Other Endoscopy**

All other endoscopies not listed above

### **Coronary Angiography**

Coronary angiography only

### **Procedures Associated with Radiology**

Therapeutic radiology and radioisotopes

### **Dilatation and Curettage**

Dilatation and curettage and payments for procedures performed at the same time

### **Electroencephalography**

Services and payments for the professional component of electrocardiograms and payments for the technical component

### **Cryotherapy**

Any cryotherapy identified in the payment schedules

### **Cardiac Catheterization**

Left heart, right heart and selective coronary catheterization

**Biopsy**

All non-surgical biopsies

**Other Diagnostic/Therapeutic Services**

All other diagnostic/therapeutic services not listed above

**13. Special Services**

**Injections and Immunizations**

Injections (subcutaneous, intramuscular and for varicose veins) and immunizations regularly performed by nursing personnel. In some jurisdictions, these are treated as separate services, while in others they are included in visit fees. Not included are intra-vascular injections performed by physicians and lumbar myelograms which are included in diagnostic/therapeutic services.

**Papanicolaou Smear**

As with injections, this procedure is not always considered to be a separate service and is sometimes included in a visit fee.

**Insertion of Intrauterine Device**

As with injections, this procedure is not always considered to be a separate service and is sometimes included in a visit fee.

**14. Miscellaneous Services**

**Other Identified**

These are services that are not listed as fee items by a majority of the provinces and territories. Examples include sessional and standby fees (where identified by a fee code), mileage, telephone consultations, sexual assault exam for investigation and/or confirmation of alleged sexual assault and other services.

**Unidentified**

Most provinces and territories have coding errors or list codes that are unidentifiable. These include all services that are unidentified or are identified but paid for by social services, the attorney general, workers' compensation, etc. Examples include services related to impaired driving, to rape victims and as a result of injuries sustained at work.

**Appendix F**  
**Fee-for-Service Radiology**  
**and Laboratory Coverage in NPDB**

## **Fee-for-Service Radiology and Laboratory Coverage in NPDB**

Radiology and laboratory services supplied to CIHI for use in the NPDB are not uniform or complete. For this reason the data are not routinely used in the NPDB publications. The following notes were provided by the provincial medical insurance plans regarding the radiology and laboratory services included in the NPDB file submissions.

### **Newfoundland and Labrador**

- No laboratory services data are supplied to the NPDB as these services are paid for through hospital funding.
- Physicians can be paid on a fee-for-service basis for interpretation services on certain diagnostic services, such as EEGs and ECGs. These services would be included in the NPDB file submissions.

### **Prince Edward Island**

- No laboratory services data are supplied to the NPDB as these services are paid for through hospital funding.
- Radiologists' interpretation fees are included in the NPDB file submissions.

### **Nova Scotia**

- No laboratory services data are supplied to the NPDB as these services are paid for through hospital funding.
- The majority of radiology billings are not included in NPDB file submissions or in fee-for-service earnings.

### **New Brunswick**

- No laboratory services data are supplied to the NPDB as these services are paid for through hospital funding.
- All radiology services are excluded from the NPDB file submissions.

### **Quebec**

- No laboratory services are included.
- Radiology services provided by physicians in private practice are included in the NPDB file submissions.

### **Ontario**

- Approximately 50 percent of all laboratory services are funded through OHIP and therefore are included in the NPDB file submissions. The remaining 50 percent are funded via public health (1 percent) and hospital global budgets (49 percent).
- Information on radiology services was not available.

## **Manitoba**

- Laboratory services provided in the NPDB file submissions are those provided by privately owned fee-for-service laboratories. Laboratory services provided in urban/rural facilities are not included in the NPDB file submissions.
- Radiology services submitted include all private radiology services and all urban facility radiology services. Rural facility radiology services, approximately 11 percent of the total dollar value for radiology services, are not included in the NPDB file submissions.

## **Saskatchewan**

- Since 1993–1994, the only laboratory services included in the NPDB file submissions are common in-office laboratory services provided by physicians other than pathologists. Responsibility for private laboratory services provided by specialists in pathology was transferred to the health regions in October 1993 and is no longer funded on a fee-for-service basis.
- Facility-based radiology services which are funded through the health regions are excluded from the NPDB file submissions, as are radiology services provided through the screening program for breast cancer.

## **Alberta**

- Up to July 1, 1995, only non-hospital-based laboratory services were included.
- Only non-facility-based radiology services are included in NPDB file submissions.

## **British Columbia**

- Laboratory and radiology services when performed on a fee-for-service outpatient basis are included in NPDB file submissions, but inpatient services are not included.

## **Yukon**

- Only non-hospital-based laboratory services were included in the NPDB file submissions.
- Only non-hospital-based X-ray services were included in the NPDB file submissions.
