Wage Settlements

Covering 500 or More Employees

December 2007

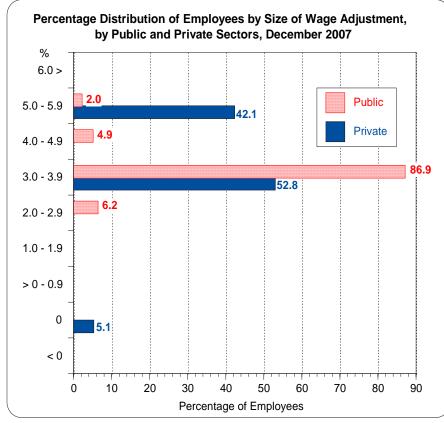

Major collective bargaining settlements reached in December 2007 provided base-rate wage adjustments averaging 3.4% annually over the duration of the contract, down from the 4.0% average in the previous month. The results for December 2007 are based on a review of 18 settlements reached and cover 63,010 employees.

When the parties to these settlements previously negotiated, the resulting wage adjustments averaged 2.6%, a smaller gain than in their current settlements. Contract duration in December averaged 37.4 months, compared to 44.0 months in the previous round of settlements.

In December 2007, the majority of employees covered (78.1%) were in the public sector where wage adjustments averaged 3.2% for 49,230 employees in 10 agreements. The public-sector figure was largely influenced by a single Canada Revenue Agency agreement providing 33,160 employees (67.4% of all employees in the public sector) with an increase averaging 3.2%. In the private sector, wage adjustments averaged 4.0% for 13,780 employees in 8 agreements.

The larger private-sector figure was influenced in part by the Construction Labour Relations-Alberta Association agreement, providing 5,000 employees (36.3% of all private-sector employees) with increases averaging 5.6%.

On a jurisdiction basis, the largest concentration of employees (with over 53.7% of all employees, due to the Canada Revenue Agency agreement) was in the federal jurisdiction, with wage adjustments averaging 3.2%. The largest average annual wage increase was in Alberta at 5.5% and the smallest adjustment was in Nova Scotia and Ontario, both at 2.9%.

On an industry basis, the largest concentration of employees (70% of all employees) was in the public administration sector with 44,540 employees (once more due to the Canada Revenue Agency agreement); wage adjustments in this sector averaged 3.2%. The

largest average annual wage increase was recorded in the construction sector at 5.6%; the smallest adjustment was in the manufacturing sector at 3.1%.

Fourth Quarter 2007

Major collective bargaining settlements reached in the fourth quarter 2007 provided base-rate wage adjustments averaging 3.4% annually over the contract term, down from the 3.9% average recorded in the previous quarter. The results for the fourth quarter 2007 are based on a review of 44 major settlements reached and cover 110,270 employees. This represents only 15% of the total number of major settlements in 2007 and 13.9% of total employee coverage for the year.

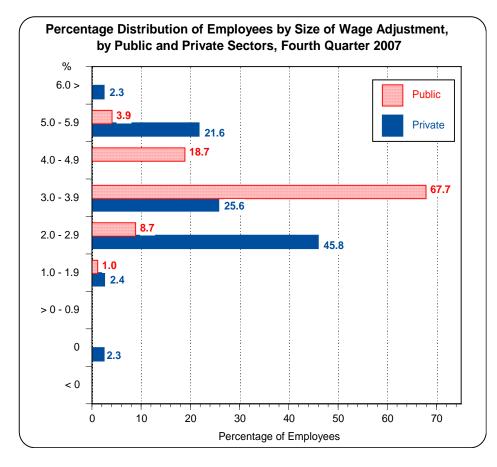

When the parties to these fourth quarter settlements previously negotiated, the resulting wage adjustments averaged 2.5%, lower than in their current settlements. Contract duration in the fourth quarter 2007 averaged 38.9 months, compared to 42.7 months in the previous round of settlements.

The majority of employees covered in fourth quarter settlements (72.4%) were in the public sector. Wage adjustments in the public sector averaged 3.4% for 79,880 employees in 24 agreements. In the private sector, wage adjustments averaged 3.5% for 30,390 employees in 20 agreements.

On a jurisdiction basis, Alberta posted the largest average wage gain in the fourth quarter at 5.4% and the lowest increase was in Ontario at 2.8%. In Alberta, all 4 agreements were at or above the 5.0% level. In Ontario, wage adjustments were influenced by the Henniges Automotive agreement with a wage freeze and the John Deere agreement at 1.3%; the Ontario figure reflects the experienced problems in the manufacturing sector to some degree. The largest concentration of employees (34% of all employees) was in the federal jurisdiction where wage increases averaged 3.3% (largely influenced by the Canada Revenue Agency agreement providing 33,160 employees with an increase averaging 3.2%).

On an industry basis, average wage adjustments in the fourth quarter 2007 ranged from a low of 2.5% in the entertainment and hospitality sector (a single agreement with Kit Inc.-KFC Food Service in British Columbia), to a high of 4.4% in the utilities sector (due mostly to the ATCO Electric agreement in Alberta at 5.5%). The largest concentration of employees was in the public administration sector where 12 agreements provided 53,070 employees (48% of the total employee coverage) with wage adjustments averaging 3.2%. The second largest concentration of employees was in the education, health, and social services sector with 8 agreements providing 24,230 employees (22% of all employees) with wage adjustments averaging 3.8%.

Wage adjustments in the fourth quarter settlements ranged from a wage freeze for 700 plant and maintenance employees at Henniges Automotive in Ontario, to 8.8% for 700 employees at Shannahan's Security & Investigations Ltd. in the federal jurisdiction (Atlantic Canada). The largest concentration of employees (56.1%) received increases in the 3.0 to 3.9% range. Approximately 20% of employees received increases below 3.0% (excluding a wage freeze), and 22.9% received an increase of 4.0% or above.

Major Settlements in 2007

Major collective bargaining settlements reached in 2007 provided base-rate wage adjustments averaging 3.3% annually over the contract term, an increase from 2.5% in 2006. The increase in wage adjustments in 2007 was higher than the rate of inflation (Consumer Price Index) in 2007, at 2.2%.

Wage adjustments from the 2007 settlements were higher than those in the contracts they replaced. When the parties to these same settlements previously negotiated, the resulting wage adjustments averaged only 2.7%, compared to the 3.3% in their 2007 settlements.

The 2007 results are based on a review of 283 settlements reached and cover 794,200 employees. The number of major settlements recorded (283) in 2007 is the lowest since this wage series began in 1978. This is due in part to the increased length of average contract duration especially in 2005 and 2006, thus lowering the frequency of renewals.

Contract duration in 2007 settlements averaged 37.0 months, down slightly from the average of 42.6 months in 2006, and 47.1 months in 2005, but up from 35.7 months in 2004 and 34.7 months in 2003. In 2006, average contract duration exceeded 36.0 months in all industry sectors except utilities (34.0 months) and the information and culture sector (34.9 months); in 2007, average contract duration exceeded 36.0 months in all industry sectors except education, health and social services (31.1 months). When the same parties to the 2007 settlements previously negotiated, the predecessor agreements had averaged 36.4 months in duration.

After several years of gradually increasing wage adjustments, peaking at 3.3% in 2001, the average annual increase dropped to 2.8% in 2002, 2.5% in 2003, and 1.8% in 2004. The relatively low 2004 figure was largely influenced by wage reductions and wage freezes in the British Columbia public sector and in Air Canada agreements; excluding

British Columbia agreements, wage adjustments in the rest of Canada in 2004 averaged 2.6%. In 2005, wage adjustments across Canada averaged 2.3% and in 2006 they averaged 2.5%. Wage adjustments edged upwards to 3.3% in 2007.

The proportion of employees subject to a wage rollback in 2007 major settlements was about 0.3%; there were only 2 rollback agreements. Only 0.2 % of employees in 2007 were subject to a wage freeze (within 2 agreements compared to 13 the previous year). No employees in 2007 received increases in the 0.1 to 0.9% range, 3.5% received increases in the 1.0 to 1.9% range, 37.5% received increases in the 2.0 to 2.9% range, 39.5% received increases ranging from 3.0 to 3.9%, and 11.2% of employees received wage increases ranging from 4.0 to 4.9%. Approximately 7.8% of employees received adjustments averaging 5.0% and over.

Wage adjustments in the public sector averaged 3.4% in 2007, compared to 3.1% in the private sector. The public-sector figure resulted from 138 major agreements

Percentage Distribution of Employees by Size of Wage Adjustment, by Public and Private Sectors, for the Year 2007 % 6.0 > **Public** 5.0 - 5.9 **Private** 20.8 4.0 - 4.92.7 3.0 - 3.9 36.9 27.5 2.0 - 2.9 46.5 1.0 - 1.9 > 0 - 0.9 10 15 20 25 30 35 45 50 Percentage of Employees

with a coverage of 375,160 employees. In the private sector, there were 145 major settlements covering 419,040 employees.

Within the public sector, provincial administration agreements received the largest average increase at 3.8%. Local administration agreements (municipalities) recorded wage increases of 3.3% and federal administration agreements averaged 3.1%. Crown corporations and public utilities recorded average wage adjustments of 3.0%.

On a jurisdiction basis, wage increases ranged from a high of 4.9% in Alberta to a low of 1.5% in Newfoundland and Labrador. The second largest increase was recorded in Saskatchewan at 4.1%. Wage adjustments are historically closely linked to rates of inflation; the Consumer Price Index in Alberta (5.0%) was higher than the national average of 2.2%. The labour market in Alberta is also very tight. Excluding Alberta and Saskatchewan, the remaining settlements in Canada recorded wage adjustments averaging 2.8%.

On an industry basis, wage increases ranged from a high of 4.6% in primary industries to a low of 1.9% in the wholesale and retail trade sector. The second largest increase was in the utilities sector at 3.8%. There was increased settlement activity in the construction sector in 2007 where 63 settlements covering 314,305 employees (representing close to 40% of total employee coverage) received wage adjustments averaging 3.3%.

For More Information

The Workplace Bulletin is available twice a month.

The Workplace Bulletin keeps you apprised of ongoing developments and provides access to timely customized information on industrial relations and collective bargaining in Canada. You can be updated on topics such as: negotiated wage data, benefits, working conditions, work stoppages, labour organizations, union membership, innovative workplace practices, labour standards, occupational safety and health, labour management partnerships, employment equity, and international and intergovernmental labour affairs.

The Strategic Policy, Analysis, and Workplace Information Directorate offers more information than what is provided in this issue; go to http://www.hrsdc.gc.ca/en/lp/wid/info.shtml for a complete listing of products and services.

Feel free to forward the *Bulletin* to all interested parties. Feedback and comments regarding this bulletin are welcome.
