## Wage Settlements Covering 500 or More Employees

### May 2008

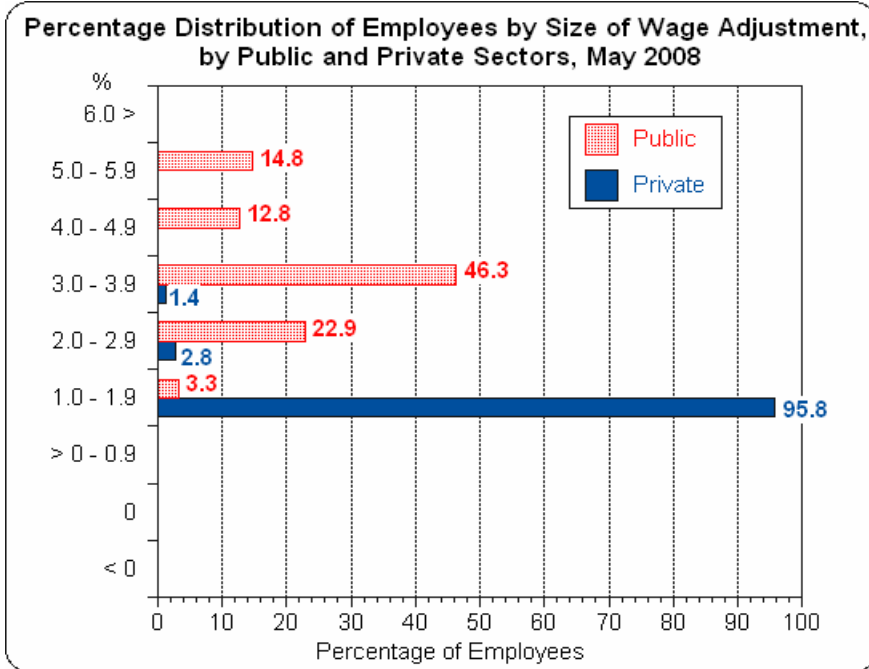

Major collective bargaining settlements in May 2008 provided base-rate wage adjustments averaging 2.0% annually over the contract term, lower than the 2.3% figure in the previous month and lower than the 2.9% figure recorded in the first 5 months of this year. The results for May are based on a review of 23 settlements and cover 71,130 employees.

When the parties to these settlements previously negotiated, contract duration averaged 38.9 months and the resulting wage adjustments averaged 2.5%, compared to the 2.0% in their current round of settlements and average contract duration of 40.0 months.

The 6 General Motors, Ford, and Chrysler auto-sector agreements in Ontario exerted downward pressure on the aggregate wage figure by providing 34,690 employees with a wage adjustment averaging 1.0% over 3 years. The contracts provide for a wage freeze in the first year, a 1.4% increase in the second, and 1.8% in the third. Excluding these agreements in the auto sector, the remaining 16 agreements in May 2008 averaged wage increases of 2.8%.

Wage adjustments in the public sector averaged 3.4% for 3,370 employees in 11 agreements; private-sector wage adjustments averaged 1.2% for

47,760 employees in 12 agreements. In the public sector, the relatively higher wage adjustment figure was due in part to an agreement with the City of Edmonton which provided 1,050 firefighters with a wage increase averaging 5.2%. The Government of Newfoundland and Labrador also reached an agreement providing 2,400 healthcare employees with a wage increase averaging 5.0%.

On a jurisdiction basis, wage adjustments ranged from a high of 5.0% in Newfoundland and Labrador, to a low of 1.2% in Ontario. The largest concentration of employees (62%) was also in Ontario (due to auto-sector settlements). Wage increases in the federal jurisdiction averaged 2.6% (with Bell Canada at 1.9%, Purolator Courier at 3.1%, and 2 Government

of Canada settlements, one with the ship maintenance employees at 3.8% and the other with the finance classification group at 2.3%).

On an industry basis, wage adjustments ranged from a high of 4.2% in the education and health sector (includes the Newfoundland healthcare agreement), to a low of 1.1% in the manufacturing sector (auto-sector influence). The largest concentration of employees (52%) was in the manufacturing sector.

Wage adjustments in the May settlements ranged from a low of 1.0% for 34,690 auto workers with General Motors, Ford, and Chrysler in Ontario, to a high of 5.2% for 1,050 firefighters with the City of Edmonton. In May 2008, the majority of employees (65.4%) received wage adjustments in the 1.0 to 1.9% range; 34.6% of employees received adjustments above that range and none were below it.

Wage adjustments for the first 5 months of 2008 (January through May) averaged 2.9%.
