## Note of appreciation

Canada owes the success of its statistical system to a long standing partnership between Statistics Canada, the citizens of Canada, its businesses, governments and other institutions. Accurate and timely statistical information could not be produced without their continued cooperation and goodwill.

## Charts

1. Rates of police officers and civilian personnel, 1963 to 2008 5
2. Police officer strength among the provinces, 2008 6

## Police Resources in Canada, 2008

## Police personnel and expenditures

Following a period of decline throughout the 1990's, police strength in Canada has increased over the past decade. At 196 officers per 100,000 population, the 2008 rate was $8 \%$ higher than in 1998, although $5 \%$ lower than its peak in 1975.

While police officer strength has been increasing, Canada's police reported crime rate has been decreasing. The 2007 crime rate was at its lowest point in over 30 years. At the same time, the proportion of crime solved by police reached a 30 year high.

There were over 65,000 "active" police officers on May 15, 2008, two-thirds of which were employed by municipal police services. However, there were an additional 13,234 "authorized" positions that were not staffed for a number of reasons, including difficulty in replacing officers who had retired or otherwise left the police service, were on maternity/paternity leave or were on long-term medical leave.

Civilian personnel, such as clerks, dispatch officers and by-law enforcement officers, has increased over the past 10 years at a rate more than twice that of police officers. In 2008, there were over 25,000 civilian personnel accounting for $28 \%$ of all policing personnel or 1 civilian per 2.5 police officers.

Chart 1
Rates of police officers and civilian personnel, 1963 to 2008

1. Includes: special constables, native special constables, security officers/guards, by-law enforcement, parking control officers, cadets/trainees, communications dispatch, management/professionals, clerical support, school crossing guards, and other civilians.
Source(s): Statistics Canada, Canadian Centre for Justice Statistics, Police Administration Survey.
Over the past 10 years, all provinces and territories, except the Yukon, recorded increases in the rate of police officer strength. The largest provincial increases were in Newfoundland and Labrador (up 21\%) and Nova Scotia (up 17\%).

Chart 2
Police officer strength among the provinces, 2008

1. The provincial average excludes the territories and Royal Canadian Mounted Police Headquarters and Training Academy. The territories are not shown on this graph as their sparse populations result in considerably higher police strengths than the rest of Canada.
Source(s): Statistics Canada, Canadian Centre for Justice Statistics, Police Administration Survey.
As is historically the case, police per capita in 2008 was highest in the territories, where crime rates are well above the rest of the country.

Among the provinces, Saskatchewan reported the highest rate of police officers for the eighth year in a row, while Alberta and Prince Edward Island reported the lowest.

Over the past decade, all 27 census metropolitan areas recorded increases in police officer strength, with the exception of Victoria. The largest gains since 1998 occurred in Sherbrooke, St.Catharine-Niagara and London, all up by more than $20 \%$.

In 2008, Thunder Bay had the highest rate of police officers, followed by Saint John and Regina.
Among Canada's nine largest metropolitan areas, the rate of police officers was highest in Montréal and Winnipeg. The rate of police strength in Toronto, where crime rates were among the lowest, was also above average compared to the other large cities. Québec reported the lowest rate of officers as well as one of the lowest rates of crime.

Female officers grew at a faster pace than male officers in 2008, continuing the rise in female recruitment that began in the mid-1970s.

In 2008, females accounted for almost one in five officers in Canada compared to approximately one in eight a decade ago. In 2008, Quebec and British Columbia reported the highest proportion of female officers among the provinces. The lowest proportion was found in Prince Edward Island.

After adjusting for inflation, police expenditures rose for the $11^{\text {th }}$ consecutive year, reaching $\$ 10.5$ billon in 2007 or $\$ 320$ per Canadian. Total spending was $4 \%$ higher than in 2006 and $43 \%$ higher than in 1997.

Generally, about one in every three police-reported crimes is cleared, either by a charge being laid or by other means. In 2007, the proportion of crime solved by police went up for the third consecutive year, reaching a 30 year high of $37 \%$. Police strength, the volume and type of crimes and the complexity of police investigations are among the many factors which affect clearance rates.

## Overview of policing in Canada

Policing in Canada is the responsibility of all three levels of government: federal, provincial/territorial and municipal. While the federal government is responsible for criminal law, under the Constitution Act, each province and territory assumes responsibility for its own policing at the provincial, territorial and municipal levels. Further, many First Nations communities also administer their own police service.

## Federal policing

The federal government, through the Royal Canadian Mounted Police (RCMP), is responsible for the enforcement of federal statutes in each province and territory, and for providing services such as forensic laboratories, identification services, the Canadian Police Information Centre (CPIC), and the Canadian Police College.

## Provincial and territorial policing

Provincial policing involves enforcement of the Criminal Code and provincial statutes within areas of a province not served by a municipal police service (i.e., rural areas and small towns). In some cases, police boundaries may overlap. For example, in some areas provincial police perform traffic duties on major provincial thoroughfares that pass through municipal jurisdictions.

Newfoundland and Labrador, Yukon, the Northwest Territories and Nunavut are the only areas in Canada without municipal police services. In Newfoundland and Labrador the Royal Newfoundland Constabulary, which is a provincial police service, provides policing to the three largest municipalities (St. John's, Corner Brook, and Labrador City) as well as to Churchill Falls. Newfoundland and Labrador contracts the RCMP to provide policing to the remaining municipalities and the rural areas.

The RCMP provides provincial/territorial policing and community policing services in all provinces and territories except Quebec and Ontario, which maintain their own provincial police services: the Sûreté du Québec and the Ontario Provincial Police (OPP), respectively. In Ontario and Quebec, the RCMP only provides policing at the federal level. Where a provincial policing contract is granted to the RCMP, the RCMP automatically assumes the provincial policing powers. In the provinces and territories where the RCMP are contracted to provide provincial level policing, the provinces are billed $70 \%$ of total contract costs in most cases. The remaining funds come from the federal government.

## Municipal policing

Municipal policing consists of enforcement of the Criminal Code, provincial statutes, and municipal by-laws within the boundaries of a municipality or several adjoining municipalities that comprise a region (e.g., Durham Regional Police in Ontario) or a metropolitan area (e.g., Montréal Urban Community). Municipalities have three options when providing municipal policing services: to form their own police force, to join an existing municipal police force, or to enter into an agreement with a provincial police force or the RCMP. In cases where the RCMP is granted a policing contract to police a municipality, under the billing agreement, municipalities with a population under 15,000 are billed $70 \%$ of total expenditures, and municipalities of 15,000 and over are billed $90 \%$ of total costs.

## First Nations policing

In addition to federal, provincial/territorial and municipal policing, there are also various types of First Nations policing agreements for Aboriginal communities in place across Canada. The First Nations Policing Policy (FNPP), ${ }^{1}$ announced in June 1991 by the federal government, was introduced in order to provide First Nations

[^0]across Canada (with the exception of Northwest Territories and Nunavut) with access to police services that are professional, effective, culturally appropriate, and accountable to the communities they serve.

The FNPP is implemented across Canada through tripartite agreements negotiated among the federal government, provincial or territorial governments and First Nations. The agreements are cost-shared $52 \%$ by the Government of Canada and $48 \%$ by the province involved. Depending on the resources available, the First Nation may develop and administer its own police service, as is the case in most of Québec and Ontario, or it may enter into a Community Tripartite Agreement (CTA). Like self-administered agreements, CTAs are negotiated between the Federal government, the province or territory in which the First Nation is located, and the governing body of the First Nation. Under such agreements, the First Nation has its own dedicated contingent of officers from an existing police service (usually the RCMP). Best efforts are made for these police services to be staffed by Aboriginal police officers.

## Statistical tables

Table 1
Trends in police personnel and expenditures, Canada, 1962 to 2008

|  | Police officers |  |  | Civilian personnel |  |  | Total personnel | Police to civillian ratio | Total expenditures | Criminal Code incidents ${ }^{1}$ | Clearance rate - total Criminal Code ${ }^{1}$ | Incidents per officer |

1. Preliminary postcensal estimates for 2008, Statistics Canada, Demography Division.
2. Excluding the Royal Canadian Mounted Police.
3. Includes National Police Services and Departmental and Divisional Administration.
4. Newfoundland and Labrador does not have any municipal police forces. The Royal Newfoundland Constabulary (a provincial police force) provides policing to the larger municipalities.
5. Excludes personnel from Royal Canadian Mounted Police Headquarters. The Ontario Provincial Police deploy 1,672 officers to provide municipal policing services under contract and these are included as municipal, not provincial policing.
6. Excludes personnel from Royal Canadian Mounted Police Training Academy.
7. Yukon, Northwest Territories and Nunavut do not have any municipal police forces. The Royal Canadian Mounted Police is responsible for providing policing to the territories.
8. The percent change in the rate of police officers per 100,000 is calculated from 1999 to 2008, due to the creation of Nunavut in 1999.

Note(s): Represents actual police officer strength as of May 15, 2008.

| Saguenay | 144,924 | 179 | 124 | 17.6 | 810 | 4,398 |

1. Populations are based on July 1st preliminary postcensal populations for 2007 (based on the 2001 Census in 2006 Census boundaries), Demography Division, Statistics Canada. Populations are adjusted to follow policing boundaries. Census metropolitan area populations for 2008 are not yet available.
2. Represents actual police officer strength as of May $15^{\text {th }}, 2008$.
3. Based on the number of police officers in 2008 and census metropolitan area populations for 2007. Census metropolitan area populations for 2008 are not yet available.
4. Crime rate represents the number of Criminal Code incidents (excluding traffic) per 100,000 population. Crime data for 2008 are not yet available.
5. Police officer counts include officers deployed to contract positions (e.g. airport, port, United Nations Mission).
6. Represents the Ontario portion of the Ottawa-Gatineau census metropolitan area.
7. Since 2005, the Hampton Police service is no longer included in the census metropolitan area population for Saint John, resulting in a higher rate of police strength than in past years.
8. Represents the Quebec portion of the Ottawa-Gatineau census metropolitan area.
9. Percentage change in rate from 2001 to 2008.

Note(s): The numbers in table 3-1 do not agree with those in table 3-2 (which report data at the level of individual police services) because most census metropolitan areas comprise more than one police service. The census metropolitan area of Oshawa is not included due to incongruities between policing jurisdiction and census metropolitan area boundaries. Crimes investigated by Royal Canadian Mounted Police federal personnel within census metropolitan areas are included; however police officer counts do not include Royal Canadian Mounted Police federal police officers. While Table 3-1 may be used to compare major metropolitan areas, table 3-2 may be used to compare major police services in Canada.
Source(s): Statistics Canada, Canadian Centre for Justice Statistics, Police Administration Survey and Uniform Crime Reporting Survey.

| Sherbrooke Regional Police | 149,875 | 200 | 200 | 133 | 749 | 4,831 |

1. Populations are based on July 1st preliminary postcensal populations for 2007 (based on the 2001 Census in 2006 Census boundaries), Demography Division, Statistics Canada. Populations are adjusted to follow policing boundaries. Populations for 2008 are not yet available.
2. Represents the number of fully-sworn police officers the police department was allowed to employ during the calendar or fiscal year.
3. Represents actual police officer strength as of May 15 th, 2008.
4. Based on the number of police officers in 2008 and census metropolitan area populations for 2007. Census metropolitan area populations for 2008 are not yet available
5. Crime rate represents the number of Criminal Code incidents (excluding traffic) per 100,000 population. Crime data for 2008 are not yet available.
6. The police services listed under the Toronto, Montréal and Vancouver census metropolitan areas do not represent all the police services in the census metropolitan area.
7. Police officer counts include officers deployed to contract positions (e.g. airport, port, United Nation mission).
8. Note that $60 \%$ of the crime handled by Halton Regional Police, and $36 \%$ of the crime handled by Durham Regional Police fall within Toronto census metropolitan area boundaries.
Note(s): The numbers in table 3-1 do not agree with those in table 3-2 (which report data at the level of individual police services) because most census metropolitan areas comprise more than one police service. The census metropolitan area of Oshawa is not included due to incongruities between policing jurisdiction and census metropolitan area boundaries. Crimes investigated by Royal Canadian Mounted Police federal personnel within census metropolitan areas are included; however police officer counts do not include Royal Canadian Mounted Police federal police officers. While Table 3-1 may be used to compare major metropolitan areas, table 3-2 may be used to compare major police services in Canada.

1. Dollars which express the cost of items in terms of the year in which the expenditure occurs.
2. Dollars of a particular base year, which are not adjusted (by inflation or deflation) to show changes in the purchasing power of the dollar. The Consumer Price Index was used to calculate constant dollars over a base year of $2007(2007=100)$. Note that historical constant dollar data are revised each year as the base year for calculation changes annually.

1. Updated postcensal estimates for 2007. Statistics Canada, Demography Division.
2. Figures include the amount billed to the province, territory or municipality for Royal Canadian Mounted Police contract policing and not the total cost of the contract. In some provinces, provincial policing is paid for by the municipalities.
3. Per capita cost calculation for provinces and territories excludes the federal portion of Royal Canadian Mounted Police expenditures as these are not paid for by the municipality or the province and territory. The per capita cost for Canada includes municipal, provincial and territorial and federal expenditures.
4. Federal expenditures include all other Royal Canadian Mounted Police contract expenditures which are not paid for by the municipality or the province and territory for those provinces and territories with contracts with the Royal Canadian Mounted Police (see footnote 9).
5. Includes municipal, provincial and territorial, federal and other Royal Canadian Mounted Police expenditures (see footnote 9).
6. Provincial policing figures include both the Royal Newfoundland Constabulary and the Royal Canadian Mounted Police.
7. Excludes Royal Canadian Mounted Police Headquarters.
8. Excludes Royal Canadian Mounted Police Training Academy.
9. Includes headquarters and divisional administration and costs associated with providing national police services such as: forensic laboratory services; the Canadian Police College; informatics support for management and operation of the Canadian Police Information Centre, an automated national computer information system that is available to all police services; telecommunications services for data and radio transmissions to ensure all detachments receive current information; criminal intelligence and participation in United Nations peacekeeping services.
10. Per capita costs are based on total expenditures for Canada, including federal policing.

Note(s): Totals may not add up due to rounding. Expenditure figures represent gross operating expenditures and include costs that are paid from police department budgets and benefits paid from other sources. Revenues, recoveries and capital expenditures are excluded.

1. Populations are based on July 1st preliminary postcensal populations for 2007 (based on the 2001 Census in 2006 Census boundaries), Demography Division, Statistics Canada. Populations are adjusted to follow policing boundaries. Populations for 2008 are not yet available.
2. The area previously covered by Churchill Falls is excluded from the population density calculations.

Note(s): There are no municipal police forces in Newfoundland. The Royal Newfoundland Constabulary, a provincial police force, is responsible for providing policing to the three largest municipalities and, for the purposes of this report, they have been included above.

1. Populations are based on July 1st preliminary postcensal populations for 2007 (based on the 2001 Census in 2006 Census boundaries), Demography Division, Statistics Canada. Populations are adjusted to follow policing boundaries. Populations for 2008 are not yet available.
Note(s): Use caution in comparing forces: The number of officers may not reflect the number available for general community policing because some officers in certain communities are restricted to specific locations (e.g. ports, airports). For the Royal Canadian Mounted Police municipal contracts: Civilian employees provided by the municipality are not included under "Other personnel".

1. Populations are based on July 1st preliminary postcensal populations for 2007 (based on the 2001 Census in 2006 Census boundaries), Demography Division, Statistics Canada. Populations are adjusted to follow policing boundaries. Populations for 2008 are not yet available.
2. Personnel data for 2008 were not available; therefore 2007 personnel data were substituted.
3. Non-respondent.
4. This police force opened in 2006. Data is included in Sûreté du Québec.
5. This police force employs Native Special Constables. Native Special Constables are personnel with limited law enforcement authority. They provide a restrictive policing role within Aboriginal communities and act as liaison between fully-sworn police officers and Aboriginal members of the community.
Note(s): Use caution in comparing forces: The number of officers may not reflect the number available for general community policing because some officers in certain communities are restricted to specific locations (e.g. ports, airports).

Table 9-6 - continued
Police personnel in municipal police services - Ontario, 2008

|  | $\begin{array}{r} \text { Population }{ }^{1} \text { Population } \\ \text { density } \end{array}$ |  | Actual strength |  |  |  |  |  | Authorized strength |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  | Police officers |  |  | Other personnel | Population per police officer | Policeofficersper 100,000population | Total police | Policeofficersper 100,000population |
|  |  |  | Male | Female | Total |  |  |  |  |  |
|  | number | persons per km² |  | num |  |  |  | ate | number | rate |
| Thessalon Highway 407 | 1,400 $\ldots$ | 320 | 32 | 1 7 | 3 38 | 0 3 | 467 | 214 $\ldots$ | 3 38 | 214 $\ldots$ |

1. Populations are based on July 1st preliminary postcensal populations for 2007 (based on the 2001 Census in 2006 Census boundaries), Demography Division, Statistics Canada. Populations are adjusted to follow policing boundaries. Populations for 2008 are not yet available.
2. Non-respondent.
3. Personnel data for 2008 were not available; therefore 2007 personnel data were substituted.
4. Deseronto ceased being an Ontario Provincial Police contract on June 1, 2007.

Note(s): Use caution in comparing forces: The number of officers may not reflect the number available for general community policing because some officers in certain communities are restricted to specific locations (e.g. ports, airports).

1. Populations are based on July 1st preliminary postcensal populations for 2007 (based on the 2001 Census in 2006 Census boundaries), Demography Division, Statistics Canada. Populations are adjusted to follow policing boundaries. Populations for 2008 are not yet available.
2. Number of personnel includes 51.3 federally or provincially funded officers and civilian personnel.

Note(s): Use caution in comparing forces: The number of officers may not reflect the number available for general community policing because some officers in certain communities are restricted to specific locations (e.g. ports, airports). Note for the Royal Canadian Mounted Police municipal contracts: Civilian employees provided by the municipality are not included under "Other personnel".

1. Populations are based on July 1st preliminary postcensal populations for 2007 (based on the 2001 Census in 2006 Census boundaries), Demography Division, Statistics Canada. Populations are adjusted to follow policing boundaries. Populations for 2008 are not yet available.
2. Authorized strength represents data as of December 31, 2007.
3. Authorized police strength for Richmond does not include 27 positions in 2007 for Vancouver Airport protective security. These positions are administered through Richmond Royal Canadian Mounted Police detachment but the Vancouver Airport Authority reimburses 100\% of the cost to the City of Richmond.
4. As of April 1 2008, Mackenzie reverted to a provincial force jurisdiction and therefore actual and strength data is not listed.
5. All municipalities under 5,000 and unincorporated areas are policed by the Royal Canadian Mounted Police provincial force. The two police forces listed in the publication in this category are First Nations Administered Police Services.
6. Personnel data for 2008 were not available; therefore 2007 personnel data were substituted.

Note(s): Use caution in comparing forces: The number of officers may not reflect the number available for general community policing because some officers in certain communities are restricted to specific locations (e.g. ports, airports). Note for the Royal Canadian Mounted Police municipal contracts: Civilian employees provided by the municipality are not included under "Other personnel".

Table 10-1
Police operating expenditures in municipal police services - Newfoundland and Labrador, 2007

|  | Operating expenditures |  |  |  |  |  |  | 2007 crime - total Criminal Code |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

|  | operating expenditures |  | Vehicle purchases | Vehicle leasing | Computer services | Accomodations | Emergency 911 service |  |  |  |
|  | dollars |  |  |  |  |  |  | rate | perc |  |
| Population 100,000 and over <br> St. John's, Royal Newfoundland Constabulary | 38,589,700 | 211 | no | no | no | no | no | 7,325 | 9 | 23 |
| Population 15,000 to 49,999 Corner Brook, Royal Newfoundland Constabulary | 4,667,400 | 229 | no | no | no | no | no | 5,780 | 14 | 36 |
| Population 5,000 to 14,999 Labrador City, Royal Newfoundland Constabulary | 3,058,300 | 313 | no | no | no | no | no | 4,241 | 21 | 26 |

Note(s): There are no municipal police forces in Newfoundland. The Royal Newfoundland Constabulary, a provincial police force, is responsible for providing policing to the three largest municipalities and, for the purposes of this report, they have been included above. Use caution in comparing clearance rates among police services. See "Clearance rate (percent)" under the "Important notes" section.

Table 10-2
Police operating expenditures in municipal police services — Prince Edward Island, 2007

1. Expenditures for 2007 were not available therefore 2006 expenditures were substituted.
2. Non-respondent.
3. This police force opened in 2006. Data is included in Sûreté du Québec.

Note(s): Use caution in comparing forces: Operational expenditures may vary considerably between police services for many reasons. See "Total operating expenditures" under the "Important notes" section. Use caution in comparing clearance rates among police services. See "Clearance rate (percent)" under the "Important notes" section.

1. Non-respondent.
2. Expenditure data for 2007 were not available; therefore 2006 expenditure data were substituted.
3. Deseronto ceased being an Ontario Provincial Police contract on June 1, 2007 therefore expenditures from January 1, 2007 to June 1, 2007 have been included.

Note(s): Use caution in comparing forces: Operational expenditures may vary considerably between police services for many reasons. See "Total operating expenditures" under the "Important notes" section. Use caution in comparing clearance rates among police services. See "Clearance rate (percent)" under the "Important notes" section.

Table 10-7
Police operating expenditures in municipal police services - Manitoba, 2007

1. Expenditure data for 2007 were not available; therefore 2006 expenditure data were substituted.

Note(s): Use caution in comparing forces: Operational expenditures may vary considerably between police services for many reasons. See "Total operating expenditures" under the "Important notes" section. Use caution in comparing clearance rates among police services. See "Clearance rate (percent)" under the "Important notes" section. For the Royal Canadian Mounted Police municipal contracts: Expenditures include only the cost billed to the municipality and not the total cost of the contract, nor any additional policing costs.

1. Royal Canadian Mounted Police Saskatchewan municipalities are covered under the Saskatchewan Royal Canadian Mounted Police Cost Redistribution Program, which seeks to reduce disparities in policing costs among urban and rural municipalities. This agreement sets out per capita rates that urban and rural municipalities with populations of less than 5,000 are charged by the province for Royal Canadian Mounted Police policing services ( $\$ 52.45$ per capita in 2006 for these municipalities). As a result, actual operating expenditures at the individual police service level are not available.
Note(s): Use caution in comparing forces: Operational expenditures may vary considerably between police services for many reasons. See "Total operating expenditures" under the "Important notes" section. Use caution in comparing clearance rates among police services. See "Clearance rate (percent)" under the "Important notes" section. For the Royal Canadian Mounted Police municipal contracts: Expenditures include only the cost billed to the municipality and not the total cost of the contract, nor any additional policing costs.

|  | dollars |  |  |  |  |  |  | rate | perc |  |
| Population less than 5,000 8380 |  |  |  |  |  |  |  |  |  |  |
| Louis Bull ${ }^{1}$ | 828,039 | 830 | yes | no | yes | yes | no | 28,257 | -10 | 60 |
| North Peace Tribal 2 |  |  | .. |  |  |  | .. |  |  |  |
| Tsuu T'ina Nation | 862,648 | 310 | yes | no | yes | yes | yes | 47,860 | -33 | 43 |

1. According to the Department of Indian and Northern Affairs, the 2007 registered band membership population for Louis Bull Tribe is 1,777 .
2. This service police opened in 2005 and has always been a non-respondent.

Note(s): Use caution in comparing forces: Operational expenditures may vary considerably between police services for many reasons. See "Total operating expenditures" under the "Important notes" section. Use caution in comparing clearance rates among police services. See "Clearance rate (percent)" under the "Important notes" section. For the Royal Canadian Mounted Police municipal contracts: Expenditures include only the cost billed to the municipality and not the total cost of the contract, nor any additional policing costs.

1. Includes expenditures for Integrated Homicide Investigation Team.
2. Operational expenses for Richmond includes expenditures for Vancouver Airport protective security. These positions are administered through Richmond Royal Canadian Mounted Police detachment but the Vancouver Airport Authority reimburses $100 \%$ of the cost to the City of Richmond.
3. All municipalities under 5,000 and unincorporated areas are policed by the Royal Canadian Mounted Police provincial force. The two police forces listed in the publication in this category are First Nations Administered Police Services.
4. Expenditures for 2007 were not available; therefore 2006 data were substituted.

Note(s): Use caution in comparing forces: Operational expenditures may vary considerably between police services for many reasons. See "Total operating expenditures" under the "Important notes" section. Use caution in comparing clearance rates among police services. See "Clearance rate (percent)" under the "Important notes" section. For the Royal Canadian Mounted Police municipal contracts: Expenditures include only the cost billed to the municipality and not the total cost of the contract, nor any additional policing costs.

# Data quality, concepts and methodology 

## Survey definitions and coverage

This report is based upon data collected through the Police Administration Survey conducted by the Canadian Centre for Justice Statistics. This survey collects data on police personnel and expenditures from each municipal, provincial and federal (Royal Canadian Mounted Police [RCMP]) police service in Canada. With the exception of "independent" First Nations police services, all First Nations police personnel and expenditures falling under the jurisdiction of the RCMP are reported under RCMP federal policing. The RCMP provides local police service to over 630 communities in 11 provinces and territories.

The following federal policing and security agencies are excluded from the survey: the Canadian Security Intelligence Service, railway and military police. Federal and provincial government departments deploying personnel to enforce specific statutes in the areas of income tax, customs and excise, immigration, fisheries and wildlife are also excluded. As well, private security guards and private investigators are not included in this survey.

Data presented in this report represent police personnel as of May 15 2008, final expenditures for the year 2007 (or 2007/2008 for those services operating on a fiscal year). Most municipal police services operate on a calendar year while the provincial services and the RCMP operate on a fiscal year. Policing expenditures will be referred to as calendar year (i.e., 2007) throughout this report.

Personnel counts are based on permanent, full-time equivalents; part-time employees are converted to full-time equivalents (e.g., 4 employees working 10 hours per week would equal 1 full-time employee working a 40 -hour week). Police officers include the actual number of sworn police officers available for active duty as of May 15, 2008. Other employees include all other non-police personnel (civilians and special constables) (e.g., clerical, dispatch, management, cadets, special constables, security officers, school crossing guards, by-law enforcement officers). Temporary police officers, auxiliary police and other volunteer personnel are not included in this report.

Counts for temporary officers are not included in any of the police officer counts, as only permanent, full-time officers (and full-time equivalents) are included. Temporary police officers are hired to fill in, as needed, for permanent police officers. The province of Quebec employs more temporary police officers than any other jurisdiction. Of the 977 temporary officers reported in 2008, 872 or $89 \%$ were employed in Quebec.

Police expenditures are actual operating expenditures and include: salaries and wages, benefits, and other operating expenses such as accommodation costs, fuel, maintenance, etc. Capital expenditures, funding from external sources, revenues and recoveries are not included.

Population figures used in this report are provided by the Demography Division of Statistics Canada and represent postcensal or intercensal estimates. Population data are regularly updated and, as such, rates published in this report may differ slightly from rates published in earlier reports. Text and headings indicate the population figures used.

Data from the Uniform Crime Reporting (UCR) Survey are also included in this report to provide appropriate caseload context for the police in terms of the volume of criminal incidents coming to their attention. The UCR Surveycollects crime and traffic offences reported by all police services in Canada, dating back to 1962.

## Major survey revisions

## 1986 revision

The Police Administration Survey was revised in 1986 to collect police department expenditures (beginning in 1985) as well as more detailed information on police personnel and functions. As both the old and revised surveys were run simultaneously in 1986, it was possible to examine the effects of the revised survey. An analysis of the data revealed that there were some minor differences in the distribution of police personnel between the two surveys. In order to correct for these methodological differences, the data presented in Table 1 prior to 1986 have been adjusted at the national level.

## 1996 revision

In 1996, changes were made to the effective date for collecting personnel strength, moving from September 30 to June 15. School crossing guards were added to the survey in 1996 as their numbers warranted a separate category. Prior to 1996, they were captured under the "other" category. Adjustments were made to civilian personnel to account for this change, back to 1986.

Also, expenses associated with the purchasing and leasing of vehicles were now to be included only if they were part of the operational budget of the police service. Prior to 1995, all expenses related to the purchase and lease of vehicles were included, regardless of the type of budget. Benefits were expanded to include those paid by other government sources. The removal of expenses due to the capital purchases of vehicles and the addition of expenses due to the inclusion of benefits paid by other government sources were examined in detail. It was estimated that these revisions accounted for an overall change of less than $1 \%$ in reported expenses.

## 2006 revision

In 2006, changes were made to the effective date for collecting personnel strength, moving from June 15 to May 15. This date change should not have any impact on the continuity of 2006 data with previous years.

## Municipal police service data tables

Municipal police services employ $65 \%$ of all police officers in Canada and provide policing services to almost 25 million Canadians ( $75 \%$ of the Canadian population). Summary information on Canada's municipalpolice services is presented in this report. Municipal policing includes all police services that are paid for by the municipalities including contract policing provided to municipalities by provincial police services and the RCMP. It also includes self-administered First Nations police services. It should be noted that offences investigated by federal RCMP personnel within a municipal policing jurisdiction are included in the crime statistics for that municipal police service; however, personnel and expenditures associated with the federal RCMP are not included.

Within each province, municipal police services are grouped into one of five population ranges and the municipalities within each group are listed alphabetically. Within these groupings, municipalities that are policed by the RCMP or OPP under municipal contracts are separated by a blank line from the other municipal police services.

Table 9 and Table 10 include only personnel and operating expenditures from municipal police services that existed on May 15, 2008. Municipal police services that ceased to exist and/or were amalgamated by other new police services on or before May 15, 2008 are not included.) Crime data and expenditure data for 2008 are not yet available, therefore data presented in Table 10 of the report are for the year 2007.

## Important notes

## Population

Municipal populations are derived from postcensal estimates for July 1 (based on the 2001 Census in 2006 Census sub-division boundaries) as provided by Demography Division, Statistics Canada. The population estimates are based on usual place of residence. Population data are updated regularly and figures published in this report may differ slightly from figures published in earlier reports.

Some Aboriginal police services may police larger populations comprising both band and non-band members. Hence the actual population policed by some forces may be higher than indicated in this report. Comparisons should be made with caution.

Municipalities are grouped according to the following population ranges:

- 100,000 and over
- 50,000 to 99,999
- 15,000 to 49,999
- 5,000 to 14,999
- Less than 5,000

## Population density

In order to provide context for the relative urban or rural composition of a municipality, a population density figure is provided. Population density refers to the number of persons per square kilometre. The calculation for population density is total population divided by land area.

Land area is the area in square kilometres of the land-based portions of the census geographic area, in this case the census subdivision (municipality). The land area measurements for the census subdivision reflect the boundaries in effect on January 1, 2006 (the geographic reference date for the 2006 Census of Canada). Since the population density is a summary calculation of total municipal population divided by total municipal land area, it will not reflect the distribution of urban and rural segments within a municipality. However, it can be descriptive of the general urban or rural structure; for example, a highly centralized city such as Vancouver, British Columbia has a population density of 4,888 persons $/ \mathrm{km}^{2}$ whereas an expansive city such as Greater Sudbury, Ontario has a population density of 48 persons/km².

## Police officers

## Actual strength

Counts represent the "actual" number (full-time equivalents) of permanent sworn police officers of all ranks as of May 15, 2008 data. This number also includes officers who are deployed to contract positions (e.g. airport policing, U.N. missions) and who are not available for general policing duties in their community. Police officers on long-term leave (e.g. secondment-out, disability, education leave) who are not being paid by the police service's annual budget are excluded.

## Authorized strength

"Authorized police officer strength" represents the number of fully-sworn police officers the police department was allowed to employ during calendar or fiscal year.

## Population per police officer

Counts represent the population of the area serviced by the police service divided by the number of police officers. For some services, particularly those patrolling cottage or tourist areas, the population policed can fluctuate dramatically throughout the year, usually peaking during the summer months. Correspondingly, the number of police officers assigned to these services may also fluctuate to accommodate these peak periods. Because the personnel data are collected for a specific point in time (May 15, 2008) and the population estimates are based on usual place of residence only, these aspects are not captured.

## Police officers per 100,000 population

Figures represent the total number of police officers per 100,000 population. This is simply an alternative way of presenting the population per police officer.

## Other personnel

Counts include civilian and other personnel (e.g., clerical, dispatch, management, cadets, special constables, security officers, school crossing guards, by-law enforcement officers) on the police department's payroll as of May 15, 2008. There are no "other personnel" included in the counts for the RCMP municipal policing contracts. The municipality may hire other personnel, but they are not included in this report.

## Total operating expenditures

Figures include salaries, wages, benefits, and other operating expenses that are paid from the police service budget, as well as benefits paid from other government sources. They have been rounded to the nearest thousand. Revenues, recoveries, and those costs that fall under a police service's capital expenditures are excluded.

Under the RCMP billing agreement, most municipalities with a population under 15,000 are billed $70 \%$ of total expenditures, and those with a population of 15,000 and over are billed $90 \%$ (in most cases) of total costs. The costing formula takes into consideration the costs of providing federal and other RCMP policing duties while also performing municipal policing duties. First Nations Policing Program (FNPP) agreements are cost-shared 52\% by the Government of Canada and $48 \%$ by the relevant province or territory.

As operational situations may vary considerably between police services, so will the operational costs that result. For example, some costs (accommodation, by-law enforcement, court security) and some services (computing, personnel, and financial services) may be included within the police service's operational budget for certain municipalities, but in other municipalities they may be paid for by other departments or through the police service's capital budget (which is excluded). In some police services, there may be police officers who are funded by external agencies (e.g. an airport authority or a community organisation). While these officers are included in this report, the expenditure of these funds is not. Conversely, some police forces provide cost-recovery services (e.g. 911 call-takers and dispatchers). Revenues and recoveries from such services are excluded from this report. Therefore comparisons should be made with caution.

## Per capita cost

Figures represent expenditures divided by the population of the area serviced by the police service (rounded to the nearest dollar). For the reasons described above, comparisons should be made with caution.

## Major expenditure categories

This section examines five major expenditure categories which may, or may not, be part of the police service's operational budget. The purpose of this section is to highlight differences in costs between forces due to different accounting policies and practices.

## Rate, total Criminal Code

Figures represent the total number of incidents per 100,000 population. This rate reflects both violent and property crimes, as well as other Criminal Code offences (e.g., damage to property, prostitution). Criminal Code traffic incidents are excluded.

## Percentage change in Criminal Code rate

This figure represents the year-over-year percent change in the rate of total Criminal Code incidents (excluding traffic) per 100,000 population.

## Clearance rate (percent)

When a police investigation leads to the identification of a suspect against whom a charge could be laid, then that incident can be cleared. Criminal incidents can either be "cleared by charge" or "cleared otherwise". When an information is laid against the suspect (i.e., the person is formally charged), then from a statistical point of view the related actual incident can be cleared by charge. In cases where the police do not lay an information, even though they have identified a suspect and have enough evidence to support the laying of such, the incident is cleared otherwise. Examples include instances where extrajudicial sanctions or alternative measures are recommended by the police, where police issue a warning or caution, where the complainant declines to proceed with charges or cases where the alleged offender dies before he or she can be formally charged.

The clearance rate reflects the total number of incidents cleared (by charge, or otherwise) during the year divided by the total number of incidents during the year. Since the process of solving crime is often time-consuming, a criminal incident may be solved months or even years after it was reported to police and recorded by the UCR Survey. Therefore, it is possible for the number of incidents cleared in a year to be greater than the total number of "actual" incidents that year, and thus for the clearance rate to exceed $100 \%$.

Any comparison of clearance rates among police services should be made with caution. The reporting practices of some agencies could result in high levels of citizen reporting, including minor offences, to help track neighbourhood crime trends. These minor, generally less-serious offences (e.g. mischief, minor thefts) tend to be high-volume and, by their very nature, tend to have low clearance rates. Police services reporting higher levels of these minor offences will tend to have lower than average overall clearance rates.

## Note

For more information regarding the UCR Survey and crime statistics, please refer to Canadian Crime Statistics (Catalogue no. 85-205-X).

## Appendix I

Census metropolitan area reference list
Police services included in CMA's 2007
