MONTREAL METROPOLITAN AREA HOUSING STARTS IN OCTOBER 2009

The latest starts survey conducted in October by Canada Mortgage and Housing Corporation (CMHC)

revealed that construction got under way on 1,606 housing units in the Montréal census metropolitan area (CMA), compared to 1,704 in October 2008.

The slowdown observed this past month (-6 per cent) would have been more pronounced had it not been for the increase in single-detached home starts (+8 per cent).

As for multiple-unit housing starts, they fell by 12 per cent this past month, compared to October 2008. The extent of the decline was largely attributable to the marked decrease in activity (-20 per cent) in the condominium segment, which accounted for more than half of all new multi-family housing units.

Semi-detached and row home starts registered a decrease of 6 per cent in October, versus the same month last year. This slowdown was entirely due to the decline in activity of 23 per cent recorded in the North Crown as, in other large geographic sectors, starts remained at least stable in comparison with October 2008.

In the rental segment, slightly more starts were enumerated this past October (256 units) than in October 2008 (251 units). Almost 8 out of 10 rental housing units were started in the North Crown, where several

projects of this type got under way.

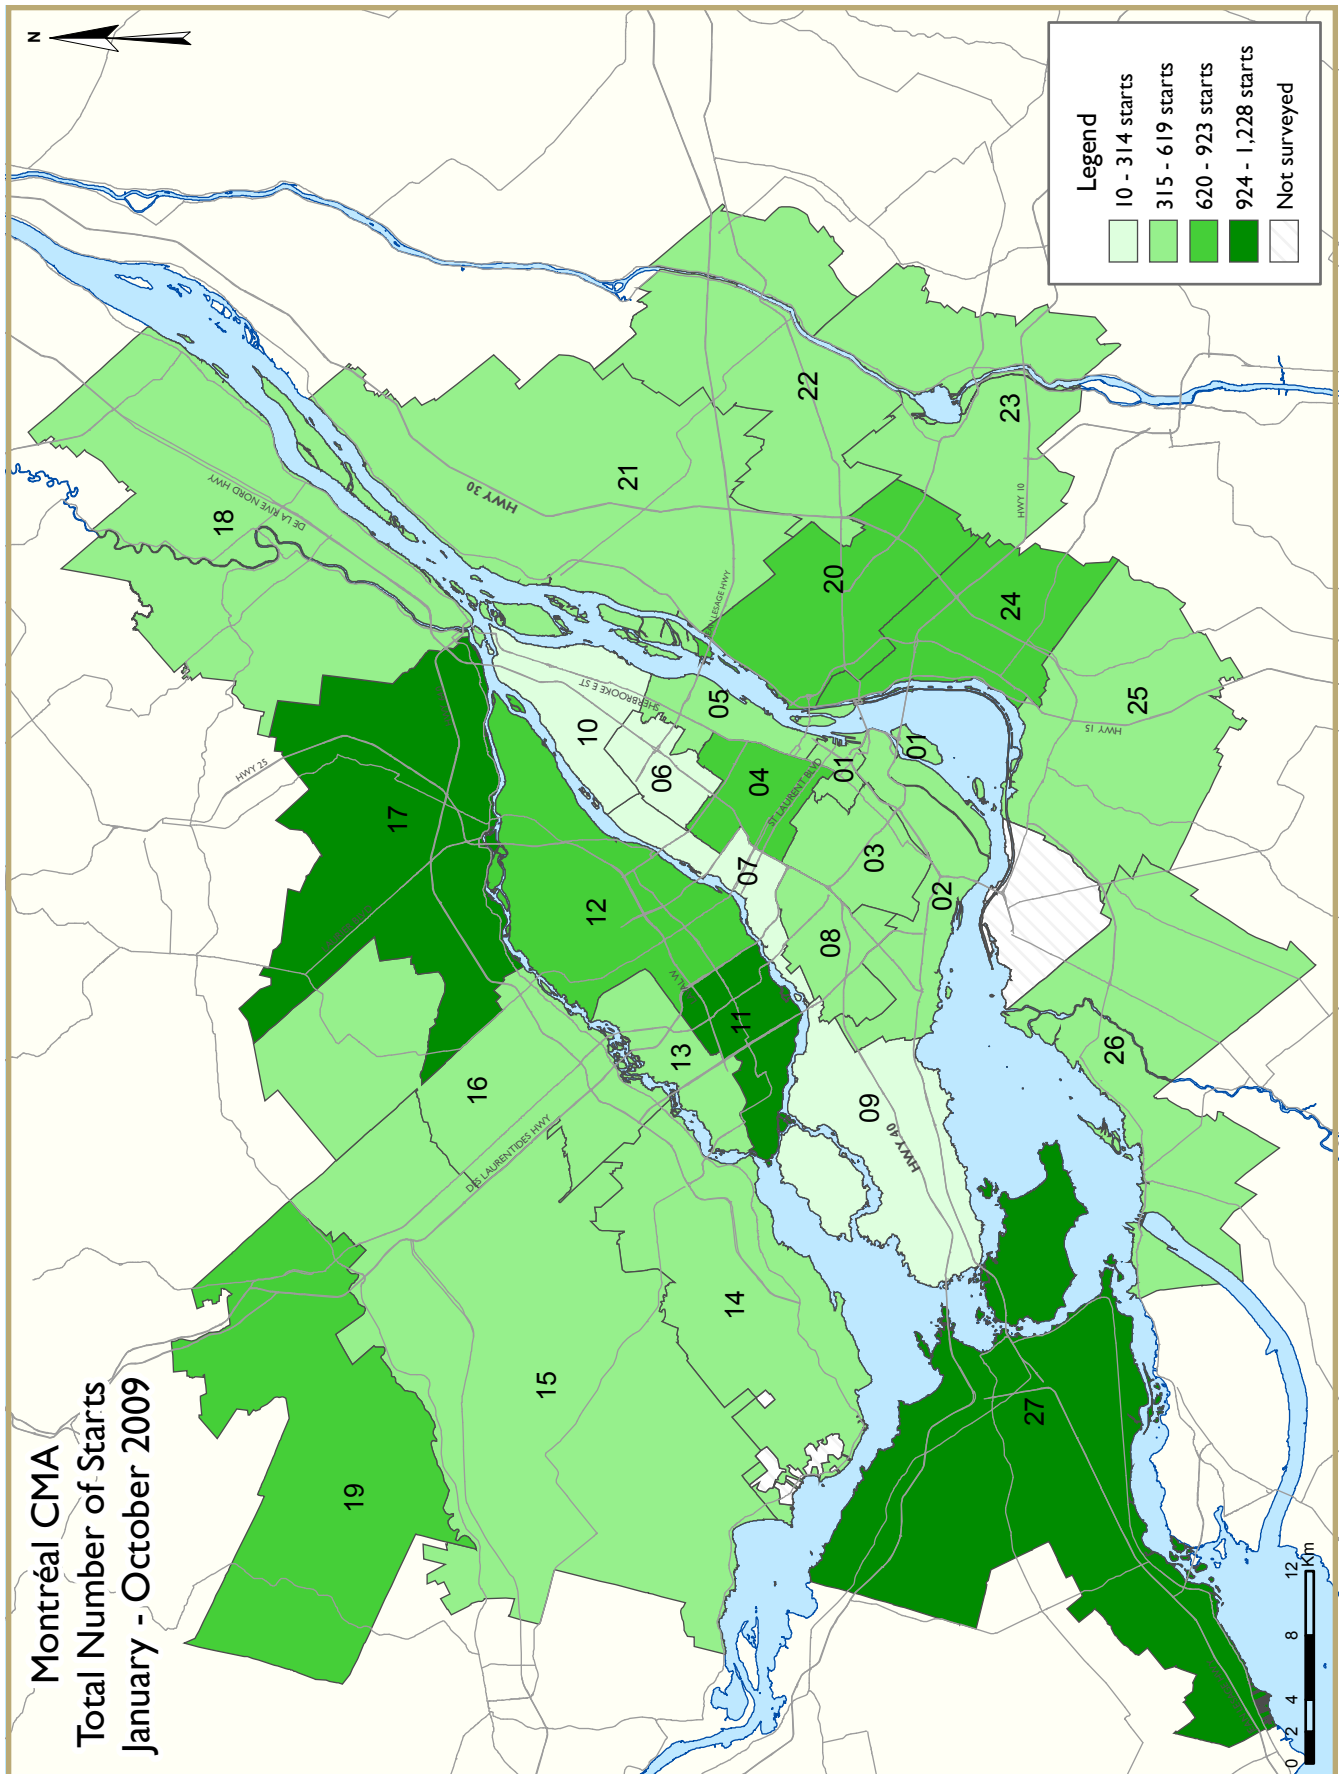

Out of all the housing types, condominiums sustained the largest year-over-year drop (-20 per cent) this past month. Condominium construction declined in almost all large geographic sectors of the CMA, but especially on the Island of Montréal (-49 per cent) and in the North Crown (-25 per cent), which drew down the overall results.

The large geographic sectors posted varying performances. The Island of Montréal registered the greatest decrease in activity (-40 per cent). The 40-per-cent drop in multiple-unit housing starts, which accounted for nearly 9 out of 10 starts in this geographic sector, weighed heavily in the balance. The decline was smaller (-3 per cent) in the North Crown, as the 11-per-cent decrease in multiple-family housing construction was partially offset by the 10-per-cent

increase in single-detached home building. And, starts rose by 8 per cent in the South Crown, where gains were recorded for both single-detached homes (+18 per cent) and multi-unit housing (+4 per cent).

Lastly, as was the case this past September, Vaudreuil-Soulanges was the sector that posted the largest increase in activity (+13 per cent). The 25-per-cent hike in multi-family housing starts more than compensated for the 2-per-cent drop in new single-detached homes. It should be noted that Vaudreuil-Soulanges was the only sector where the starts volume for the first ten months of the year was ahead (+7 per cent) of the level recorded for the same period in 2008.

Last month's results brought the year-over-year decline to 18 per cent for the period from January to October.

ZONE DESCRIPTIONS - MONTRÉAL CMA	
Zone 1	Downtown Montréal (bordered on the east by Amherst Street, on the west by Guy Street and on the north by Chemin Remembrance and Des Pins Avenue), Île-des-Soeurs.
Zone 2	Dorval, L'Île-Dorval, Montréal (Lachine, LaSalle, Le Sud-Ouest, Verdun).
Zone 3	Côte-Saint-Luc, Hampstead, Montréal (Côte-des-Neiges, Notre-Dame-de-Grâce, Outremont), Montréal-Ouest, Mont-Royal, Westmount.
Zone 4	Montréal (Parc-Extension, Plateau Mont-Royal, Rosemont (including La Petite-Patrie), Saint-Michel, Villeray).
Zone 5	Montréal (Mercier, Hochelaga-Maisonneuve, Centre-Sud).
Zone 6	Montréal (Anjou, Saint-Léonard).
Zone 7	Montréal (Ahuntsic, Cartierville, Montréal-Nord).
Zone 8	Montréal (Saint-Laurent).
Zone 9	Beaconsfield, Baie-d'Urfé, Dollard-des-Ormeaux, Kirkland, Pointe-Claire, Sainte-Anne-de-Bellevue, Senneville, Montréal (L'Île-Bizard, Pierrefonds, Roxboro, Sainte-Geneviève).
Zone 10	Montréal-Est, Montréal (Pointe-aux-Trembles, Rivière-des-Prairies).
Zone 11	Laval (Chomedey, Sainte-Dorothée, Laval-sur-le-Lac).
Zone 12	Laval (Auteuil, Duvernay, Laval-des-Rapides, Pont-Viau, Saint-François, Saint-Vincent-de-Paul, Vimont).
Zone 13	Laval (Fabreville, Laval-Ouest, Sainte-Rose).
Zone 14	MRC Deux-Montagnes (Deux-Montagnes, Oka, Pointe-Calumet, Saint-Eustache, Saint-Joseph-du-Lac, Sainte-Marthe-sur-le-Lac, Saint-Placide).
Zone 15	Mirabel.
Zone 16	MRC Thérèse-de-Blainville (Blainville, Boisbriand, Bois-des-Filion, Lorraine, Rosemère, Sainte-Anne-des-Plaines, Sainte-Thérèse).
Zone 17	MRC Les Moulins (Terrebonne, Mascouche).
Zone 18	Charlemagne, Lavaltrie, L'Assomption, Repentigny, Saint-Sulpice, L'Épiphanie
Zone 19	Gore, Saint-Colomban, Saint-Jérôme.
Zone 20	Longueuil.
Zone 21	Boucherville, Saint-Amable, Sainte-Julie, Varennes, Verchères
Zone 22	Beloeil, McMasterville, Mont-Saint-Hilaire, Otterburn Park, Saint-Basile-le-Grand, Saint-Bruno-de-Montarville, Saint-Mathieu-de-Beloeil.
Zone 23	Carignan, Chambly, Richelieu, Saint-Mathias-sur-Richelieu.
Zone 24	Brossard, La Prairie, Saint-Lambert.
Zone 25	Candiac, Delson, Saint-Constant, Saint-Mathieu, Saint-Philippe, Sainte-Catherine.
Zone 26	Beauharnois, Châteauguay, Léry, Mercier, Saint-Isidore.

METHODOLOGY

Starts & Completions Survey Methodology

The Starts and Completions Survey is conducted by way of site visits which are used to confirm that new units have reached set stages in the construction process. Since most municipalities in the country issue building permits, these are used as an indication of where construction is likely to take place. In areas where there are no permits, reliance has to be placed either on local sources or searching procedures.

The Starts and Completions Survey is carried out monthly in urban areas with population in excess of 50,000, as defined by the 2006 Census. In urban areas with populations of 10,000 to 49,999, all Starts are enumerated in the last month of the quarter (i.e. four times a year, in March, June, September and December). In these centres with quarterly enumeration, Completion activity is modelled based on historical patterns. Monthly Starts and Completions activity in these quarterly locations are statistically estimated at a provincial level for single and multi categories. Centres with populations below 10,000 are enumerated on a sample basis, also in the last month of each quarter (i.e. four times a year, in March, June, September and December).

The Starts and Completions Survey enumerates dwelling units in new structures only, designed for non-transient and year-round occupancy.

Mobile homes are included in the surveys. A mobile home is a type of manufactured house that is completely assembled in a factory and then moved to a foundation before it is occupied.

Trailers or any other movable dwelling (the larger often referred to as a mobile home) with no permanent foundation are excluded from the survey.

Conversions and/or alterations within an existing structure are excluded from the surveys as are seasonal dwellings, such as: summer cottages, hunting and ski cabins, trailers and boat houses; and hostel accommodations, such as: hospitals, nursing homes, penal institutions, convents, monasteries, military and industrial camps, and collective types of accommodation such as: hotels, clubs, and lodging homes.

Market Absorption Survey Methodology

The Market Absorption Survey is carried out in conjunction with the Starts and Completions Survey in urban areas with populations in excess of 50,000. When a structure is recorded as completed, an update is also made as units are sold or rented. The dwellings are then enumerated each month until such time as full absorption occurs.

STARTS AND COMPLETIONS SURVEY AND MARKET ABSORPTION SURVEY DEFINITIONS

A “**dwelling unit**”, for purposes of the Starts and Completions Survey, is defined as a structurally separate set of self-contained living premises with a private entrance from outside the building or from a common hall, lobby, or stairway inside the building. Such an entrance must be one that can be used without passing through another separate dwelling unit.

A “**start**”, for purposes of the Starts and Completions Survey, is defined as the beginning of construction work on a building, usually when the concrete has been poured for the whole of the footing around the structure, or an equivalent stage where a basement will not be part of the structure.

The number of units “**under construction**” as at the end of the period shown, takes into account certain adjustments which are necessary for various reasons. For example, after a start on a dwelling has commenced construction may cease, or a structure, when completed, may contain more or fewer dwelling units than were reported at start.

A “**completion**”, for purposes of the Starts and Completions Survey, is defined as the stage at which all the proposed construction work on a dwelling unit has been performed, although under some circumstances a dwelling may be counted as completed where up to 10 per cent of the proposed work remains to be done.

The term “**absorbed**” means that a housing unit is no longer on the market (i.e. has been sold or rented). This usually happens when a binding contract is secured by a non-refundable deposit and has been signed by a qualified purchaser. The purpose of the Market Absorption Survey is to measure the rate at which units are sold or rented after they are completed, as well as collect prices.

DWELLING TYPES:

A “**Single-Detached**” dwelling (also referred to as “**Single**”) is a building containing only one dwelling unit, which is completely separated on all sides from any other dwelling or structure. Includes link homes, where two units may share a common basement wall but are separated above grade. Also includes cluster-single developments.

A “**Semi-Detached (Double)**” dwelling (also referred to as “**Semi**”) is one of two dwellings located side-by-side in a building, adjoining no other structure and separated by a common or party wall extending from ground to roof.

A “**Row (Townhouse)**” dwelling is a one family dwelling unit in a row of three or more attached dwellings separated by a common or party wall extending from ground to roof.

The term “**Apartment and other**” includes all dwellings other than those described above, including structures commonly known as stacked townhouses, duplexes, triplexes, double duplexes and row duplexes.

INTENDED MARKET:

The “**intended market**” is the tenure in which the unit is being marketed. This includes the following categories:

Freehold: A residence where the owner owns the dwelling and lot outright.

Condominium (including Strata-Titled): An individual dwelling which is privately owned, but where the building and/or the land are collectively owned by all dwelling unit owners. A condominium is a form of ownership rather than a type of house.

Rental: Dwelling constructed for rental purposes regardless of who finances the structure.

GEOGRAPHICAL TERMS:

A census metropolitan area (CMA) or a census agglomeration (CA) is formed by one or more adjacent municipalities centred on a large urban area (known as the urban core). The census population count of the urban core is at least 10,000 to form a census agglomeration and at least 100,000 to form a census metropolitan area. To be included in the CMA or CA, other adjacent municipalities must have a high degree of integration with the central urban area, as measured by commuting flows derived from census place of work data. CMAs and CAs contain whole municipalities or Census Subdivisions.

A “**Rural**” area, for the purposes of this publication, is a centre with a population less than 10,000.

All data presented in this publication is based on Statistics Canada’s 2006 Census area definitions, except the Economic Indicators data (Table 6) which is based on Statistics Canada’s 2001 Census area definitions.

CMHC—HOME TO CANADIANS

Canada Mortgage and Housing Corporation (CMHC) has been Canada's national housing agency for more than 60 years.

Together with other housing stakeholders, we help ensure that the Canadian housing system remains one of the best in the world. We are committed to helping Canadians access a wide choice of quality, environmentally sustainable and affordable homes – homes that will continue to create vibrant and healthy communities and cities across the country.
