## Symbols

The following standard symbols are used in Statistics Canada publications:

- . not available for any reference period
- .. not available for a specific reference period
- ... not applicable
- 0 true zero or a value rounded to zero
- 0<sup>s</sup> value rounded to 0 (zero) where there is a meaningful distinction between true zero and the value that was rounded
- p preliminary
- r revised
- x suppressed to meet the confidentiality requirements of the *Statistics Act*
- E use with caution
- F too unreliable to be published

## Acknowledgements

This publication was prepared by the following staff from the Farm Expenses Unit, Agriculture Division, Statistics Canada: Brian Biggs, Stephen Boyd, Josée Nadeau, Steve Partridge and Lisa Reddy.

Special thanks are extended to Gail-Ann Breese, Cindy Heffernan, Geneviève Madore, Marco Morin, Paul Murray, André Picard, Jeffrey Smith, Rachelle St-Amour, Namatié Traoré, the staff from the Farm Cash Receipts and Farm Prices units, and the CANSIM and Smart Publishing teams, for their support and contribution to this publication.

Finally, the support of Agriculture and Agri-Food Canada and the provincial focal points for their review of the data are also gratefully acknowledged.

## Analysis

---

### **Farm debt outstanding increasing steadily**

Farm debt outstanding at December 31, 2008 rose to \$59.1 billion, up 5.9% from December 31, 2007, continuing the steady upswing since 1993. For the third consecutive year, mortgage debt was greater than non-mortgage debt. In 2008, mortgaged debt rose 5.8% to \$30.3 billion, while non-mortgaged debt rose 6.0% to \$28.8 billion.

The farm debt values in the farm debt outstanding series includes those of farm businesses and non-operator landlords (for liabilities outstanding on farm real estate leased to farm operators), they also include the personal portion of farm households. This series includes all farm sector liabilities regardless of ownership.

Major holders of mortgaged farm debt were Farm Credit Canada (42.1%), chartered banks (25.7%), private individuals (13.0%), credit unions (10.1%) and provincial government agencies (4.7%). Most non-mortgaged debt was owed to chartered banks (51.0%) and credit unions (23.8%).

Farm debt in Canada was 16.3% above the previous five-year average, from 2003 to 2007. In 2008, all provinces increased their debt load, increases ranged from 1.6% in Prince Edward Island to 11.3% in Newfoundland and Labrador.

## General information

---

This publication is part of a series of bulletins that also includes:

21-007-X	Farm product price index
21-010-X	Net farm income - Agriculture economic statistics
21-011-X	Farm cash receipts - Agriculture economic statistics
21-012-X	Farm operating expenses and depreciation charges - Agriculture economic statistics
21-013-X	Value of farm capital - Agriculture economic statistics
21-015-X	Direct payments to agriculture producers - Agriculture economic statistics
21-016-X	Balance sheet of the agricultural sector - Agriculture economic statistics
21-017-X	Agriculture value added account - Agriculture economic statistics
21-018-X	Farm business cash flows - Agriculture economic statistics

This publication presents national and provincial estimates of farm debt outstanding, by type of lender from, 1981 to date.

All series can be obtained free on the internet at the Statistics Canada web site ([www.statcan.gc.ca](http://www.statcan.gc.ca)). Notes on concepts and methods are also included for each data series.

Data from 1971 to 1980 inclusive are available in the November 2004 publication of **Farm debt outstanding - Agriculture economic statistics**, Catalogue no. 21-014-X, vol. 3, no. 2.

The electronic publication is first available in May. It includes preliminary estimates for the calendar year just ended. The following November, the publication is re-issued with revisions to the preliminary estimates. Revisions to the May issue can extend back two years, while those in November generally apply to three years. The date provided at the bottom of each table is the last time that a revision was made to that table.

Most data appearing in this publication are available through the Canadian Socio-Economic Information Management System (CANSIM), Statistics Canada's corporate computerized data base network and information retrieval service.

Statistics Canada is committed to ensuring that there is no disclosure of confidential material and therefore all data are subjected to restrictions prior to release.

# Farm debt outstanding

---

## Concepts

The farm debt series measures debt outstanding to agricultural producers as of December 31 of each year. This approach presents a problem as some institutions provide data based on a fiscal year ending March 31. For these institutions, the debt outstanding at the fiscal year end, March 31, is used to represent the debt at December 31 of the previous year. The impact of this procedure is believed to be minor.

The estimates are produced by province and by class of lender. These classes include: chartered banks; federal government agencies; provincial government agencies; credit unions; private individuals and supply companies; insurance, trust and other companies; and advance payment programs. Loans which are merely guaranteed by an institution are not included in the debt outstanding estimate for that institution.

## Methods and Data Quality

Data on farm debt outstanding provided by the Bank of Canada, Farm Credit Canada (FCC) and the provincial and federal agencies are considered to be of very good quality at the provincial and national levels.

Data on farm debt outstanding provided by credit unions are considered to be of good quality at the national level. Except for the Atlantic provinces and British Columbia, the mortgage component of farm debt outstanding to credit unions is considered to be of good quality. The non-mortgage component of farm debt outstanding to credit unions is considered weak in the Atlantic provinces and British Columbia. The Farm Financial Survey (FFS), conducted every two years until 2001 and annually since 2002, was used to estimate debt outstanding to private individuals and supply companies, and insurance, trust and other companies. Advance payments are considered loans made to farmers since no transaction occurs at the time of the advance. These data are supplied by the Canadian Wheat Board (CWB) and Agriculture and Agri-Food Canada and are considered of good quality at both the national and provincial levels.

Revisions to this series are minor (historically, at the Canada level, any revision to the total debt outstanding in this publication has been less than 1%), and are primarily due to amended data being received from one or more of the agencies. To comply with our publishing schedule, there is occasionally need for an organization to provide us with preliminary year end figures, which are revised in the subsequent issues. Revisions are also made to private individuals and supply companies, and insurance, trust and other company data once the results of the FFS become available.

The Bank of Canada provides information on debt outstanding for **chartered banks**. The Bank of Canada supplies non-mortgage debt at the provincial level, and mortgage debt at the Canada level. Prior to 1997, provincial estimates were calculated based on the distribution pattern of non-mortgage loans. Starting in 1997, provincial estimates have been calculated based on the distribution pattern of the value of farmland and buildings.

There are several sources of information on debt outstanding for **federal government** agencies. FCC provides estimates of loans outstanding made under the *Farm Credit Corporation Act*. Loan information is also provided by the Business Development Bank of Canada and Veterans Affairs Canada.

Information is also gathered from many **provincial government** agencies. Newfoundland and Labrador Farm Development Loan Board, Prince Edward Island Lending Agency, Nova Scotia Farm Loan Board and New Brunswick Department of Business information is obtained from the administrative data held by these agencies. In Quebec, *Farm Credit Act* ("Loi du crédit agricole") loan information regarding debt outstanding is mainly obtained from "La Financière agricole du Québec". The rest of the farm credit programs offered by the Quebec government are all of a guarantee nature; the province simply guarantees the borrower an interest rate or the lender against defaults.

Information about the Ontario Junior Farmers Establishment Program and the Ontario Tile Drainage Debenture Program is obtained from the Ontario Ministry of Agriculture and Food. The Manitoba Agricultural Credit Corporation and the Agricultural Credit Corporation of Saskatchewan both report loan information directly. Alberta Agriculture Financial Services Corporation and Revenue Services of British Columbia loan information is obtained from the administrative data of these two agencies. Alberta Treasury information is obtained directly from that agency. The lenders are commercial banks and near banks.

Estimates of agriculture debt outstanding to **credit unions** are based on provincial data supplied by the Industrial Organization and Finance Division (IOFD) of Statistics Canada. IOFD conducts quarterly surveys and publishes this information at the Canada level in **Quarterly Financial Statistics for Enterprises**, Catalogue no. 61-008-X. Starting in 1997, the agriculture debt outstanding to credit unions in the Atlantic provinces and British Columbia are based on information from the FFS.

The category "**private individuals and supply companies**" includes credit owed to machinery and finance companies, dealers, stores and private individuals. Information regarding this type of credit is based on the FFS.

**Insurance, trust and other unclassified** company estimates are based on information from the FFS.

**Advance payments** estimates are derived from data supplied by the CWB and Agriculture and Agri-Food Canada. These payments are a type of loan made to farmers since no transaction occurs at the time of the advance. Prior to 1971 the estimates were included in cash receipts under the category "CWB net cash advances".
