INTRODUCTION TO THE *PUBLIC ACCOUNTS OF CANADA*

Nature of the *Public Accounts of Canada*

The *Public Accounts of Canada* is the report of the Government of Canada prepared annually by the Receiver General, as required by section 64 of the *Financial Administration Act*. It covers the fiscal year of the Government, which ends on March 31.

The information contained in the report originates from two sources of data:

- the summarized financial transactions presented in the accounts of Canada, maintained by the Receiver General; and
- the detailed records, maintained by departments and agencies.

Each department and agency is responsible for reconciling its accounts to the control accounts of the Receiver General, and for maintaining detailed records of the transactions in their accounts.

The report covers the financial transactions of the Government during the year. In certain cases, parliamentary authority to undertake transactions was provided by legislation approved in earlier years.

Format of the *Public Accounts of Canada*

The *Public Accounts of Canada* is produced in three volumes.

Volume I presents the audited financial statements of the Government, as well as additional financial information and analyses;

Volume II presents the financial operations of the Government, segregated by ministry; and

Volume III presents supplementary information and analyses.

The content of Volume II is summarized as follows:

Summary Tables and Appendices (Section 1)

Section 1 includes summary tables which provide the summaries of the financial transactions contained in the ministerial sections.

Section 1 also includes, as appendices, the full wording of all authorities granted in current year Appropriation Acts, of all authorities granted by statutes other than Appropriation Acts, of all authorities available from previous years, of all non-lapsing authorities granted/repealed in the current year, and of all authorities for the spending of proceeds from the disposal of surplus Crown assets.

Ministerial Sections (Sections 2 to 27)

There is one section for each ministry. The department and agencies, for which a Minister is responsible to Parliament, are grouped together to provide a total ministry presentation. Each ministerial section provides a statement of the strategic outcomes and program activity descriptions. Each ministerial section also includes, where applicable, a uniform set of statements to present each ministry's financial operations. These statements are:

- *Ministry Summary*
Displays by department and agencies the source and disposition of each budgetary and non-budgetary authority granted by

Parliament in Appropriation Acts and other statutes.

- *Program Activity*
Displays by department and agencies the total authorities available for use and the authorities used in the current year for each program activity under each type of expenditure (operating, capital, transfer payments and non-budgetary).
- *Transfer Payments*
Displays by department and agencies the source and disposition of authorities for each transfer payment.
- *Details of Respendable Amounts*
Displays by department and agencies the nature of revenues and receipts which increase the amounts which may be spent from appropriations having net voting authority.
- *Revenues*
Displays by department and agencies the nature of revenues under each main revenue classification.

The statements in the ministerial sections are designed so that the relevant totals and sub-totals may be traced directly to a preceding statement and then to the Summary Tables in Section 1 (e.g. data in the *Transfer Payments* statement can be traced to the *Program Activity* statement which in turn can be traced to the *Ministry Summary* statement; data in the *Ministry Summary* statement can be traced to the *Summary Tables* (5, 6 and 7) in Section 1.

Volume II is designed to reflect as closely as possible the form and content of Part II of the Main Estimates. Certain Summary Tables and Appendices and the *Ministry Summary* in the Ministerial Sections display the source and disposition of spending authorities. The level of details provided for the source and disposition of authorities is explained below:

- **Source of Authorities**

- *Available from previous years*

Spending authorities allowed to be brought forward from the previous year. Includes only those authorities where there is a specified dollar limit on total spending, or on the accumulated outstanding balance of items where revenues and receipts are available for spending. Usually these items represent revolving funds, proceeds from the disposal of surplus Crown assets or loans authorities. These amounts are available for spending without further approval from Parliament.

- *Main and Supplementary Estimates*

Include the spending authorities requested in the Estimates as well as forecasts included in the Estimates of spending under authorities granted in various other statutes including Appropriation Acts of previous years.

- *Adjustments, warrants and transfers*

Include:

- transfers from or to other ministries such as Treasury Board Votes 5, 10, 15, 25 and 30 or changes in ministry responsibility;

- transfers within the ministry from one vote to another (under Parliamentary authority), or between transfer payments;

- changes to statutory amounts due to adjustments of spending forecasts included in the Estimates, due to cancellation or amendment to statutes or due to adjustments of Crown corporations borrowing authorities;

- amounts of previous years' overexpenditures paid or settled in the current year and proceeds from the disposal of surplus Crown assets;

- Governor General Special Warrants to cover payments that are required when Parliament is dissolved for a general election.

- *Total available for use*

Authorities available for spending during the current year (net of forecasted revenues and receipts available for spending).

- **Disposition of Authorities**

- *Used in the current year*

Amounts spent in the current year (net of actual revenues and receipts available for spending).

- *Lapsed (variance under)*

Unused spending authorities which cannot be carried forward to a subsequent year.

- *Overexpended (variance over)*

Excess of spending over authorities granted.

- *Available for use in subsequent years*

Unused spending authorities which have not lapsed and which are carried forward to a subsequent year.

- *Used in the previous year*

Amounts spent in the previous year (net of actual revenues and receipts available for spending). For authorities or transfer payments that no longer exist in the current year, the related total net expenditures of the previous year are reported as a single amount in line with the notation "Appropriations (items) not required for the current year".

(1) Transfer payments for employment insurance benefits are reported in Table 2a.

(2) Includes the guaranteed income supplement and the spouse's allowance.

(3) Transfer payments for Canada child tax benefits are reported in Table 2a.

TABLE 2a

Recapitulation of External Expenses by Type

Table 2a reconciles total ministerial net expenditures (Table 2) with external expenses reported in Table 1 of this section and in the Statement of Operations and Accumulated Deficit in Section 2 of Volume I. The reconciling items include the expenditures of the consolidated specified purpose accounts, the accrual and other adjustments, the expenses of the consolidated Crown corporations and other entities, the tax credits and repayments and the elimination of internal expenses.

(in thousands of dollars)

	Total ministerial net expenditures	Consolidated specified purpose accounts	Accrual and other adjustments	Consolidated Crown corporations and other entities	Tax credits and repayments	Internal expenses	TOTAL EXTERNAL EXPENSES
Transfer payments—							
Old age security benefits, guaranteed income supplement and spouse's allowance	33,377,260	33,377,260

Note: If no amount is shown, either the expenditures were less than \$500 or none were reported.

TABLE 3

Ministerial Expenditures by Standard Object

Table 3 presents expenditures by standard object for each ministry on both a gross and net basis. The difference between gross and net expenditures is revenues netted against expenditures. The standard object presentation of expenditures is related to the goods and services acquired, and transfer payments made by the Government. The “Total gross expenditures” column represents the total of expenditures charged to standard objects 1 to 12 inclusively. The “Total ministerial net expenditures” column represents the result of total gross expenditures less total revenues netted against expenditures. The “Total ministerial net expenditures” column discloses the total expenditures reported for each ministry in the ministerial sections of this volume.

Table 3a reconciles total ministerial net expenditures with external expenses reported in Table 1 of this section and in the Statement of Operations and Accumulated Deficit in Section 2 of Volume 1.

(in thousands of dollars)

Section	Department or agency	Personnel (1)	Transportation and communications (2)	Information (3)	Professional and special services ⁽¹⁾ (4)	Rentals (5)	Repair and maintenance (6)	Utilities, materials and supplies (7)	Acquisition of land, buildings and works ⁽²⁾ (8)	Acquisition of machinery and equipment ⁽³⁾ (9)	Transfer payments ⁽⁴⁾ (10)	Public debt charges ⁽⁵⁾ (11)	Other subsidies and payments (12)	Less: revenues netted against expenditures			Total ministerial net expenditures

TABLE 3a

Reconciliation of External Expenditures by Standard Object to Expenses

Table 3a reconciles total ministerial net expenditures (Table 3) with total external expenses reported in Table 1 of this section and in the Statement of Operations and Accumulated Deficit in Section 2 of Volume I. The reconciling items include the expenditures of the consolidated specified purpose accounts, the accrual and other adjustments, the expenses of the consolidated Crown corporations and other entities, the tax credits and repayments, and the elimination of internal expenses and internal revenues netted against expenses.

(in thousands of dollars)

	Total ministerial net expenditures	Consolidated specified purpose accounts	Accrual and other adjustments	Consolidated Crown corporations and other entities	Tax credits and repayments	Less:		TOTAL EXTERNAL EXPENSES
						Internal expenses	Internal revenues netted against expenses

Note: If no amount is shown, either the expenditures were less than \$500 or none were reported.

TABLE 4

Ministerial Revenues

Table 4 presents revenues for each ministry. The “Total ministerial revenues” column represents revenues from all sources. This column represents tax and other revenues from both external and internal sources. It discloses total ministerial revenues as reported in the “Revenues” statement in each ministerial section of this volume.

Table 4a reconciles total ministerial revenues with external revenues reported in Table 1 of this section and in the Statement of Operations and Accumulated Deficit in Section 2 of Volume 1.

(in thousands of dollars)

	Total ministerial revenues	182,335,352	6,261,347	585,785	16,440,439	42,844	5,384,071	28,714,486	211,049,838

Note: If no amount is shown, either the revenues were less than \$500 or none were reported.

⁽¹⁾ Additional details are provided in Section 10 of Volume III. It includes return on investments for \$1,146,986, Crown corporation revenues for \$3,253,155, Exchange Fund Account for \$1,852,821 and International Monetary Fund for \$8,386. The total amount includes \$1,861,207 related to foreign exchange revenues (\$1,852,821 for Exchange Fund Account and \$8,386 for International Monetary Fund), and \$3,253,155 related to enterprise Crown corporations which have been respectively reclassified to foreign exchange revenues and Crown corporation revenues in Table 4a of this volume.

⁽²⁾ Details of Sales of goods and services are presented in Table 4b of this volume.

⁽³⁾ Includes domestic coinage for \$171,195 and net gain on exchange for \$179,333. The amount of \$179,333 has been reclassified to foreign exchange revenues in Table 4a of this volume.

TABLE 4a

Recapitulation of External Revenues by Source

Table 4a reconciles total ministerial revenues (Table 4) with external revenues reported in Table 1 of this section and in the Statement of Operations and Accumulated Deficit in Section 2 of Volume 1. The reconciling items include the revenues from the consolidated specified purpose accounts, the accrual of accounts receivable and the adjustment of the Exchange Fund Account to recognize the international reserves held in the Account, the accrual and deferral of other revenues, the revenues of Crown corporations and other entities, tax credits and repayments and the elimination of internal revenues.

(in thousands of dollars)

	Total ministerial revenues	Consolidated specified purpose accounts	Accrual and other adjustments	Crown corporations and other entities	Tax credits and repayments	Internal revenues ⁽¹⁾	TOTAL EXTERNAL REVENUES

TABLE 5

Source and Disposition of Budgetary Authorities by Ministry

Table 5 presents the source and disposition of budgetary authorities by ministry. The level of details provided for the source and disposition of authorities is explained in the Introduction to this volume. In addition, detailed information is provided in the "Ministry Summary" statement in each ministerial section of this volume.

(in thousands of dollars)

TABLE 6

Source and Disposition of Non-Budgetary Authorities by Ministry

Table 6 presents the source and disposition of non-budgetary authorities by ministry. The level of details provided for the source and disposition of authorities is explained in the Introduction to this volume. In addition, detailed information is provided in the "Ministry Summary" statement in each ministerial section of this volume.

(in thousands of dollars)

TABLE 7

Source and Disposition of Authorities by Type (Voted and Statutory)

Table 7 presents the source and disposition of budgetary and non-budgetary authorities by ministry and by type of authority (voted and statutory). The level of details provided for the source and disposition of authorities is explained in the Introduction to this volume. In addition, detailed information is provided in the “Ministry Summary” statement in each ministerial section of this volume.

The Government submits its spending proposals to Parliament in the annual Estimates. During the year, the Government may request further appropriations. The initial request is called the “Main Estimates” and additional requests are called “Supplementary Estimates”. With these Estimates, the Government requests authority for that part of the proposed spending which is not already provided by other statutes. The amounts making up the total of such proposed spending are authorized in Appropriation Acts and are generally referred to as “annual” or “voted” authorities. The balance of the planned spending is made under authority of other statutes which authorize disbursements for specified purposes, and for such amounts and time periods as are set by those acts. The proposed or estimated uses of most of these “statutory” authorities for the current year are included in the Estimates for information purposes; however, they are not included in appropriation acts because they have already been authorized by Parliament.

Voted authorities, with few exceptions, lapse at the end of the year if not used, while statutory authorities, with few exceptions, are carried forward to future years. Those authorities which extend to subsequent years are referred to as “non-lapsing”.

Budgetary appropriations provide spending authority for those transactions which enter into the calculation of the annual deficit or surplus of the Government. Non-budgetary appropriations provide spending authority for all transactions which result in the acquisition or disposal of loans, investments and advances. Balances of appropriations brought forward from the previous years are available for spending, together with current increases to such authorities.

The totals of these authorities are reduced by the amount of their current year use to determine the balances which lapse, are overexpended or are carried forward to future years, depending upon the type of authority. In cases where the spending of loan repayments is authorized, the non-budgetary spending is reported net of such repayments.

		Non-budgetary	8,500,000,000

(S) Statutory authority.

(L) Non-budgetary authority (Loan, investment and advance).

⁽¹⁾ Does not include most of the exchange valuation adjustments.

APPENDIX 5

Authorities for the Spending of Proceeds from the Disposal of Surplus Crown Assets

Appendix 5 provides details, by ministry, of the source and disposition of authorities related to the spending of proceeds from the disposal of surplus Crown assets.

Pursuant to sections 13(2) and 14 of the *Surplus Crown Assets Act*, departments as defined in section 2 of the *Financial Administration Act* (excluding the House of Commons, the Senate, the Library of Parliament, the Office of the Conflict of Interest and Ethics Commissioner, the Senate Ethics Officer and the International Joint Commission) are authorized to establish a spending authority equal to the proceeds received from the disposal of surplus Crown assets. The proceeds received in any fiscal year that have not been spent in that fiscal year are carried forward to the next fiscal year for use in that fiscal year only. The amount carried forward is however subject to a maximum limit.

Department**Strategic Outcome**

Health of the environment: An agriculture and agri-food sector that uses environmental resources in a manner that ensures their sustainability for present and future generations.

Program Activity Descriptions*Environment*

Through the Agricultural Policy Framework, Agriculture and Agri-Food Canada (AAFC), provincial and territorial counterparts and industry organizations work toward achieving common environmental goals. AAFC aims to reduce environmental risks and impacts related to agricultural production by focusing on five means of intervention: 1) develop and implementing innovative policy options to achieve environmental goals under the next generation of agriculture and agri-food policy, including a biofuels strategy; 2) conduct research to develop the knowledge to improve the environmental performance of the Canadian agricultural system, foster greater scientific collaboration among partners, and develop an enhanced understanding of the country's bioresources and their protection; 3) continue to implement the National Land and Water Information Service; 4) enhance the availability of minor use pesticides, risk reduction products and beneficial management practices to improve the health of the environment while contributing to the competitive position of Canadian farmers; and 5) develop an AAFC water strategy related to agricultural sustainability through the Prairie Farm Rehabilitation Administration.

Strategic Outcome

Security of the food system: A secure and sustainable agriculture and agri-food system that provides safe and reliable food to meet the needs and preferences of consumers.

Program Activity Descriptions*Food safety and food quality*

The Food Safety and Food Quality element of the Agricultural Policy Framework maintains food safety and quality, while promoting Canada's solid domestic and international reputation in this area. Agriculture and Agri-Food Canada (AAFC) provides policy direction, programs, services and tools for the industry. Such initiatives include: an on-farm food-safety program, traceability initiatives, support for quality-control systems and data-management systems, and research and technology transfer.

Business risk management

Business Risk Management (BRM) programs are designed to equip producers with the tools and capacity needed to manage risks and ensure viable and profitable farming operations. These programs provide whole-farm assistance instead of being commodity-focused. Agriculture and Agri-Food Canada (AAFC) and provincial governments, in consultation with industry organizations, are working to develop new and separate income stabilization and disaster relief programs that provide responsive, predictable and timely assistance to producers. This programming will be implemented in 2007-2008 and will form a core element of the Next Generation of Agriculture and Agri-Food Policy.

National Farm Products Council (NFPC)

The National Farm Products Council (NFPC) was established through the *Farm Products Agencies Act* (FPAA). This legislation provided for the creation of national marketing agencies and promotion research agencies. The Council monitors the operations of five national agencies to ensure that they carry on their operations in accordance with the objectives set out in the Act: 1) Canadian Egg Marketing Agency; 2) Canadian Turkey Marketing Agency; 3) Chicken Farmers of

Canada; 4) Canadian Broiler Hatching Egg Marketing Agency and; 5) Canadian Beef Cattle Research, Market Development and Promotion Agency. The Council works with the agencies to promote more effective marketing of farm products in inter-provincial and export trade. It is an active proponent of portfolio management with the aim of comprehensive advice to the Minister and the government.

Markets and international

Agriculture and Agri-Food Canada (AAFC) acts as Canada's agricultural trade advocate, working to break down trade barriers at home and abroad and expand opportunities for the agriculture and agri-food sector. The provision of trade/market analysis, services, development tools, technical trade-related discussions, and bilateral and multilateral trade remedies assist in breaking down these trade barriers. Together with portfolio, government and industry partners, the Department works to improve and secure market access and achieve a more level playing field in international markets for agriculture and agri-food products.

Strategic Outcome

Innovation for growth: An innovative agriculture and agri-food sector that develops food and other agriculture-related products and services in order to capture opportunities in diversified domestic and global markets.

Program Activity Descriptions*Innovation and renewal*

Agriculture and Agri-Food Canada (AAFC) works towards enhancing the innovative capacity of the agriculture and agri-food sector through support for strategy development and better opportunities to capture the benefits of science and innovation. Bringing supply chain participants together to form value chains that use transformational research to redefine the business

of agriculture will position producers and the sector to take advantage of new economic opportunities and capture new markets. Through Renewal programming, AAFC and its portfolio partner, Farm Credit Canada (FCC) aim to provide producers with the tools and abilities they need to make business decisions based on good knowledge and skills. Such tools include: farm-business financial assessments and business plans, farm-debt mediation services, learning activities, value chain collaboration to improve markets access for farmer operations and business risk management programs to reduce pressure on net farm incomes. Renewal programming is built on the concept of continuous learning, and is designed to help producers assess their situations and plan for the future during critical transition times. Renewal programs enhance producers' access to information, advice and training and enable them to pursue on-and off-farm income opportunities.

Canadian Pari-Mutuel Agency

Section 204 of the Criminal Code of Canada designates the Minister of Agriculture and Agri-Food as the individual responsible for the policy and regulatory functions pertaining to pari-mutuel wagering on horse races. The Canadian Pari-Mutuel Agency (CPMA) is a special operating agency within AAFC that regulates and supervises pari-mutuel betting on horse racing at racetracks across Canada, with the objective of ensuring that pari-mutuel betting is conducted in a way that is fair to the betting public. Costs associated with the activities of the CPMA are recovered through a levy on every dollar bet on horse races in Canada. The levy is currently set at eight-tenths of a cent of every dollar bet. CPMA's strategic plans are focused on regulating and supervising pari-mutuel wagering on horse races in the most modern, effective and transparent manner. The agency's key program areas include: 1) pari-mutuel supervision; 2) drug control; 3) race surveillance; and 4) research.

Rural and co-operatives secretariats

Leads an integrated, government-wide approach, called the Canadian Rural Partnership, through which the government aims to coordinate its economic, social, environmental and cultural policies towards the goal of economic and social renewal of rural Canada. Facilitating relations between co-operatives and federal departments and agencies on legislation or policies affecting co-operatives. As well, the Secretariat provides advice across government on policies affecting co-operatives, coordinates the implementation of such policies, and acts as a centre of expertise on co-operatives within the federal government.

Canadian Dairy Commission

Strategic Outcome

To enhance the vitality of the Canadian dairy industry for the benefit of all stakeholders.

Program Activity Descriptions

Administer milk supply management system

Set support prices for butter and skim milk powder. Determine and recommend national quota for industrial milk production. Facilitate within the dairy industry. Administer domestic seasonality (supply and demand) program.

Canadian Food Inspection Agency

Strategic Outcome

Public health risks associated with the food supply and transmission of animal diseases to humans are minimized and managed.

Program Activity Descriptions

Food safety and nutrition risks

Food safety, nutrition risk management programming works with federal, provincial and municipal partners and organizations to improve the overall health of Canadians. A primary contribution to this effort is in minimizing and managing risks, and deliberate threats, to food and food production systems. Consumers are also provided with appropriate information on which to base safe and nutritious food choices. We achieve this by developing and delivering programs designed to verify that food safety and nutrition information is accurate. Programs and services are developed and delivered to protect Canadians from preventable food safety hazards, by managing food safety emergencies effectively, and supporting public awareness of, and the contribution to, food safety, in imported and domestic food.

Zoonotic Risk

Zoonotics risks programs work with federal and provincial partners and organizations to improve the overall health of Canadians. A primary contribution to this effort is in protecting Canadians from the spread of diseases transmissible, or potentially transmissible, from animal populations to humans. Zoonotic risks are managed and minimized through the development and delivery of programs and services focused on the animal health aspect and designed to help prevent and control the spread of zoonotic diseases, support public awareness, conduct inspections, and monitor and test.

Strategic Outcome

A safe and sustainable plant and animal resource base.

Program Activity Descriptions

Animal Health Risks and Production Systems

Protection of the animal resource base is integral to the Canadian food supply and critical to the well-being of all Canadians. The animal health risks and production systems programming plays an important role in minimizing and managing risk by protecting Canada's animals (including livestock and aquatics) from regulated disease, including deliberate threats to the resource base. Programs and services are developed and delivered to protect Canadian animal resources, feeds and animal products, as well as to manage animal disease emergencies effectively. Public confidence in animals, production systems, animal products and their by-products is significantly enhanced by Canada's reputation for effectively mitigating the risk of serious diseases.

Plant Health Risks and Production Systems

Protection of the plant resource base is integral to the Canadian food supply and critical to the well-being of all Canadians. Plant health risks and production systems programming plays an important role in minimizing and managing risk by protecting Canada's plant resource base (crops and forests) from regulated pests and diseases, including deliberate threats to the resource base, and regulation of agricultural products. Programs and services are developed and delivered to protect Canadian plant resources, fertilizers and plant products. Public confidence in plants, production systems and plant products is significantly enhanced by Canada's reputation for effectively mitigating the risk of serious pests and diseases.

Biodiversity Protection

Protection of Canada's biodiversity is critical to the sustainability of Canada's environment. Biodiversity protection programming plays an important role in minimizing and managing risks to Canada's environment by developing and delivering programs and risk

mitigation strategies to protect Canada's biodiversity from the spread of invasive species and other pests due to environmental change, and from novel agricultural products, including products of emerging technologies. Programs are developed and delivered to assess and manage environmental safety for the introduction of agricultural products. Through these programs, public confidence in Canada's ability to assess and manage the risks associated with the introduction of new species and/or new agricultural products is maintained and significantly enhanced.

Strategic Outcome

Contributes to consumer protection and market access based on the application of science and standards.

Program Activity Descriptions

Integrated Regulatory Frameworks

Integrated regulatory frameworks programming enables economic prosperity of Canadians through its contribution to the development and effective implementation of national and international regulatory frameworks for food, animals and plants, and their products that are transparent, science-based, rules-based and mutually reinforcing. By contributing to the development of these frameworks, the ability of different jurisdictions to protect against sanitary and phytosanitary risks and to pursue other legitimate objectives in a manner that is consistent with a fair and competitive market economy is reinforced.

Domestic and International Market Access

Domestic and international market access programming contributes to securing the conditions for an innovative and prosperous economy. It does so primarily by enabling products to enter markets through the implementation and enforcement of an effective and efficient regulatory system that is accessible, understandable and responsive to domestic and international market requirements. Information provided to consumers by

producers is verified as truthful and not misleading and Canadian products are verified as meeting high quality and safety standards.

Canadian Grain Commission

Strategic Outcome

Canada's grain is safe, reliable and marketable and Canadian grain producers are protected.

Program Activity Descriptions

Quality Assurance Program – Appropriations

Canada's grain quality assurance system (GQAS) assures consistent and reliable grain quality that meets the needs of international and domestic markets. Daily provision of grain inspection and grading services as mandated by the *Canada Grain Act* as well as strong scientific and technical support programs and services are integral components to the overall delivery of an effective GQAS. Canada's GQAS is continually adapted to the end-use needs of domestic and international buyers of Canadian grain, and to the ongoing structural changes within the grain industry to maintain Canada's reputation as a consistent supplier of quality grain. An effective GQAS is a key factor in permitting Canadian exporters to market successfully in competitive international grain markets and is essential for producers in order to realize maximum value from their grain.

Quality Assurance Program – Revolving Fund

Canada's grain quality assurance system (GQAS) assures consistent and reliable grain quality that meets the needs of international and domestic markets. Daily provision of grain inspection and grading services as mandated by the *Canada Grain Act* as well as strong scientific and technical support programs and services are integral components to the overall delivery of an effective GQAS. Canada's GQAS is continually adapted

to the end-use needs of domestic and international buyers of Canadian grain, and to the ongoing structural changes within the grain industry to maintain Canada's reputation as a consistent supplier of quality grain. An effective GQAS is a key factor in permitting Canadian exporters to market successfully in competitive international grain markets and is essential for producers in order to realize maximum value from their grain.

Quantity Assurance Program – Appropriations

The Canadian grain quantity assurance system assures the weight of grain loaded into or discharged from conveyances and in storage in the licensed terminal and transfer elevator system to meet the requirements of the grain industry from producers to customers. Daily provision of grain weighing services as mandated by the *Canada Grain Act* forms a major part of the Quantity Assurance System. To maintain relevancy and to address constantly changing industry demands, ongoing technical support is provided in support of the grain quantity assurance system.

Quantity Assurance Program – Revolving Fund

The Canadian grain quantity assurance system assures the weight of grain loaded into or discharged from conveyances and in storage in the licensed terminal and transfer elevator system to meet the requirements of the grain industry from producers to customers. Daily provision of grain weighing services as mandated by the *Canada Grain Act* forms a major part of the Quantity Assurance System. To maintain relevancy and to address constantly changing industry demands, ongoing technical support is provided in support of the grain quantity assurance system.

Grain Quality Research Program – Appropriations

The *Canada Grain Act* requires the Canadian Grain Commission (CGC) to undertake, sponsor and promote research related to grains. The CGC conducts research in support of the GQAS to address emerging

issues and permit the effective marketing of Canadian grain in the interests of producers and the Canadian grain industry. The CAC's Grain Research Laboratory (GRL) researches methods to measure grain quality, new quality factors, and new grain standards. Grain quality research supports the continual improvement of the GQAS.

Producer Protection Program – Appropriations

The CAC is mandated to serve producer interests by upholding the *Canada Grain Act* and as such has implemented a number of programs and safeguards to ensure the fair treatment of Canadian grain producers. These include the licensing and security program, allocation of producer cars for producers and producer groups that wish to ship their own grain, and producer liaison measures including a grain grade appeal system. In addition, the CAC collects and updates grain quality data and grain handling information to facilitate producer sales and marketing decisions.

Producer Protection Program – Revolving Fund

The CAC is mandated to serve producer interests by upholding the *Canada Grain Act* and as such has implemented a number of programs and safeguards to ensure the fair treatment of Canadian grain producers. These include the licensing and security program, allocation of producer cars for producers and producer groups that wish to ship their own grain, and producer liaison measures including a grain grade appeal system. In addition, the CAC collects and updates grain quality data and grain handling information to facilitate producer sales and marketing decisions.

Farm Credit Canada

Strategic Outcome

Farm Credit Canada's mission is to enhance rural Canada by providing specialized and personalized business and financial services and products to farming operations, including family farms, and to those businesses in rural Canada, including small and medium-sized businesses, that are businesses related to farming. The primary focus of the activities of the corporation shall be on farming operations, including family farms.

Department**Strategic Outcome**

Competitive and sustainable Atlantic enterprises, with emphasis on those of small and medium size.

Program Activity Descriptions

Fostering the development of institutions and enterprises, with emphasis on those of small and medium size

Notwithstanding recent overall economic progress, some significant challenges remain and great opportunities exist for development. One of the most telling indicators of this is that, in a number of sectors, productivity remains significantly lower than in leading countries and other regions of Canada. Atlantic Canada Opportunities Agency (ACOA) will work in partnership with Atlantic enterprises, stakeholders, industry and institutions to improve the growth and productivity of the Atlantic economy, leading to increased competitiveness, earned incomes and job creation.

ACOA works to improve the region's capacity for economic growth through a variety of strategically focused mechanisms, including assistance to enterprises, with particular emphasis on small and medium sized enterprises, to help them start, expand, or modernize their businesses, and establish and expand export activities; partnering with universities and other institutions to increase the region's research and development capacity, commercialization and productivity; and promoting and participating in the region's transition to the knowledge economy.

Strategic Outcome

Dynamic and sustainable communities for Atlantic Canada.

Program Activity Descriptions

Fostering the economic development of Atlantic communities

The Atlantic economy is built on the region's many geographic, linguistic, and cultural communities. From small remote villages to larger urban centres, the opportunities and challenges vary significantly. Communities are the fundamental building blocks on which economies are built. Given their importance in an economic development framework, ACOA focuses targeted efforts and strategies toward community development as one of the key pillars of its overall strategy for the region. ACOA supports Atlantic communities in their efforts to develop the resources they need to take full responsibility for their own economic development. ACOA works in co-operation with other levels of government, other federal government departments, non-government organizations, and community groups to lever support and co-ordinate economic development. This requires a flexible, holistic approach, based on the realities of a given community's capacities, strengths and challenges. Community development is a bottom up process that helps develop the tools, resources and initiatives that support individual and unique strategic development.

Infrastructure programming

The provision and maintenance of quality public infrastructure provides the foundation for economic development and is critical for economic prosperity. Providing and effectively managing potable water, waste treatment facilities, highways, municipal roads and bridges and transit systems, all impact on economic growth, and many also have strong environmental implications. This requires programming designed to renew and build infrastructure in rural and urban municipalities in Atlantic Canada, through investments that protect the environment and support long-term economic growth. ACOA, working with Infrastructure Canada and the provinces, oversees/ensures the flow of

federal funds allocated to each region through the various infrastructure funding streams. The priorities for Infrastructure Canada programs are green municipal infrastructure and local transportation infrastructure.

Strategic Outcome

Policies and programs that strengthen the Atlantic economy.

Program Activity Descriptions*Policy*

ACOA's policy work provides a well grounded base of understanding for the development of ACOA's strategic priorities and initiatives; for program design; and as input to national policy development and federal-provincial relations. This includes the development of policies, frameworks and advice.

The policy function is carried out by ACOA officials at its head office, regional offices, and the Ottawa office. It is supported by internal and external research on significant Atlantic economic issues; through ongoing analysis of issues and trends, challenges, and opportunities facing the region; and through stakeholder engagement. ACOA's policy function is supported by a dedicated research program, the Atlantic Policy Research Initiative (APRI), which funds region-wide research projects, and is designed to contribute to building the critical mass of public policy research capacity in Atlantic Canada.

Advocacy

ACOA's advocacy function is twofold. It aims to advance the region's interests in national policy and program development in order to ensure government initiatives are more responsive to the needs of Atlantic Canada. It also pursues regional industrial benefits from public sector procurement, particularly major Crown projects, to improve the position of Atlantic industries.

ACOA's advocacy function ensures the region's interests are understood and considered by the federal government's decision makers, and that regional stakeholders are kept well informed of government actions and opportunities that are relevant to the economic interests of Atlantic Canada.

ACOA's advocacy activity influences national decision making processes by engaging in the policy-making process with other departments. Furthermore, it advocates proactively on behalf of the region, by ensuring that the Government of Canada is informed on the issues and priorities essential to Atlantic Canada's interests.

Co-ordination

ACOA's co-ordination function engages a range of economic partners to address the economic priorities of the Atlantic region through a coherent approach to development. ACOA is mandated by its legislation to "[co-ordinate] policies and programs of the Government of Canada in relation to opportunities for economic development of Atlantic Canada". Through working collaboratively with other departments and stakeholders, it develops horizontal strategies and initiatives that address developmental challenges and opportunities confronting economic development in the Atlantic region.

In order to achieve a co-ordinated approach, ACOA works in partnership with Atlantic provincial governments, communities, and a range of private and public sector stakeholders. Co-ordination takes place at all levels, from decision making to the day-to-day liaison at the working level. ACOA's co-ordination activity on emerging and priority issues includes work with Federal Regional Councils, the other regional development agencies, federal sector departments, Industry Canada, Human Resources and Skills Development, federal-provincial tables, round tables, and expert panels.

Enterprise Cape Breton Corporation

Strategic Outcome

Community economic development for Cape Breton and Mulgrave.

Program Activity Descriptions

Delivery agent

As a Crown corporation, Enterprise Cape Breton Corporation (ECBC) has broad powers and a flexible mandate that make it ideally suited to provide services for the Government of Canada. The flexibility inherent in the Corporation allows it to deliver services and programs more efficiently and provides a greater range of mechanisms to achieve desired ends. ECBC is responsible for the delivery of the programs of the Atlantic Canada Opportunities Agency (ACOA) on Cape Breton Island. In 1995, ECBC and ACOA entered into a Memorandum of Understanding (MOU) under which ECBC delivers ACOA's programs for Cape Breton Island and the Mulgrave area. The MOU was renegotiated with ACOA for an additional five year term effective April 1, 2005. In November 2000, ECBC entered into an MOU with the Cape Breton Growth Fund Corporation (CBGF) to provide administrative and operational support. ECBC assigns staff to support the Board of Directors and the operations of the CBGF.

Support to business

ECBC's objective for support to business is to grow the economy by encouraging private sector investment in projects that enhance the competitiveness of commercial enterprises and increase trade opportunities to produce long-term, sustainable jobs. Plans and priorities under this initiative include: access to capital, human resource initiative and an E-commerce initiative for the tourism industry.

Support to communities

The key objective for support to communities is to help communities plan and implement community development projects that have a direct link to long-term, self-sustaining economic activity. The Corporation undertakes a number of initiatives in this area including: community capacity building, festivals and events, convention and sporting events, community revitalization, and the Greater Cape Breton Partnership.

Investment

The key objective for investment is to attract new business investment to Cape Breton Island. Some of the initiatives that will be undertaken will include the production of investment-related promotional material as well as investment-attraction missions.

Advocacy

The key objective for this program activity is to advocate for Cape Breton Island interests, priorities and concerns in government decisions. The advocacy role is aimed at increasing Cape Breton Island's presence at inter- and intra-governmental meetings and is meant to advance the interests, priorities and concerns of Cape Breton Island in government project selection, decisions and actions.

Policy and research

The key objective for policy and research is to help provide a sound basis for the Corporation's policy priorities and programs. Activities related to policy and research include research that is internally driven, research that is carried out with external partners and attendance at various seminars relating to economic development policy. Research is carried out in a number of areas including economic analysis, sector and issue analysis, and planning and performance management.

Special adjustment measures

There are circumstances in which federal government decisions, or impacts in an area of its mandate, have resulted in the need for a major adjustment in a community or region. From time to time, there is also a need for targeted interventions as a result of natural disasters. These measures are based on the appropriation of new funds that are delivered through ACOA as the economic development agency within Atlantic Canada. Each special adjustment measure will have specific objectives, clients and performance measures.

Strategic outcome and program activity descriptions . . .	4.2
Ministry summary	4.3
Program activity	4.5
Transfer payments	4.6
Details of spendable amounts	4.7
Revenues	4.7

Strategic Outcome

Taxpayers meet their obligations and Canada's revenue base is protected.

Program Activity Descriptions*Taxpayer and business assistance*

Assisting taxpayers and businesses in meeting their obligations under the self-assessment system through the provision of accurate and timely responses to their enquiries; information products through various media; targeted outreach activities and services; income and commodity tax rulings and interpretations; *Canada Pension Plan and Employment Insurance Act* eligibility determinations; services relating to the registration of pension and other deferred income plans; and services relating to the registration of charities.

Assessment of returns and payment processing

Processing and validating taxpayer returns for both individuals and businesses through initial assessment, validation, accounting, and adjustments; registering businesses for the Business Number, establishing, and maintaining accounts; and receiving payments.

Accounts receivable and returns compliance

Identifying and addressing non-compliance with the registration, filing, and remittance requirements of the Acts administered by the Branch and managing the level of debt. These are achieved through the collection of accounts receivable and the development, imple-

mentation, and maintenance of national systems, policies, and guidelines. This framework facilitates and enforces compliance with the requirements for the filing, reporting, withholding, and payment of individual and corporate tax returns, employer source deductions, Goods and Services Tax/Harmonized Sales Tax, and other levies, as well as delinquent non-tax account receivables administered on behalf of other government departments and agencies.

Reporting compliance

Verifying the complete and accurate disclosure by taxpayers of all required information to establish tax liabilities and protect the tax base through audit, enforcement, and incentive administrative activities. Activities for enhancing compliance include; increasing taxpayers' understanding of their tax obligations through outreach activities, client service, and education; identifying and addressing non-compliance through risk assessment, audit and investigation; and establishing strategic partnerships with stakeholders to leverage compliance efforts.

Appeals

Providing a timely and impartial dispute resolution process for taxpayers who disagree with decisions made by the Agency, by actively engaging in dialogue with the taxpayer and exploring alternative processes to resolve disputes when appropriate, as well as assisting the Department of Justice in handling appeals to the courts.

Strategic Outcome

Eligible families and individuals receive timely and correct benefit payments.

Program Activity Descriptions*Benefit programs*

Providing Canadians with income-based benefits and other services that contribute directly to their economic and social well being through administration of the Canada Child Tax Benefit, Goods and Services Tax/Harmonized Sales Tax credit, Children's Special Allowances, the Disability Tax Credit, and the Universal Child Care Benefit as well as a range of ongoing benefits and one-time payment programs on behalf of the provinces and territories, and other federal government departments. Assisting benefit recipients in meeting their obligations through the provision of timely responses to their enquiries.

Department**Strategic Outcome**

Canadians express and share their diverse cultural experiences with each other and the world.

Program Activity Descriptions*Creation of canadian content and performance excellence*

Expression of culture starts with the creation of works and performance. Although excellence is what professional artists and high performance athletes strive for, this requires the development of a structure that provides support both domestically and internationally, at all levels of cultural and sport development. The Department of Canadian Heritage focuses on enabling creators to produce and athletes to perform by supporting the structure and cultural industries needed for high quality works and performances.

Sustainability of cultural expression and participation

Cultural life rests on the continued existence of an intricate network of institutions, not-for-profit organizations, corporations, volunteers, professionals and audiences. This network is both resilient - it relies on considerable dedication, experience and talent - and fragile - some crucial elements of the chain are vulnerable to investment patterns, market failures, foreign competition, technological changes, labour strains and international trade rules and agreements. As an integral part of the network, the Department of Canadian Heritage fosters the sustainability of the many organizations, cultural industries, entrepreneurs, and artistic and athletic performance events comprising this rich ecosystem. It does so by assisting them to increase their ability to attract investment, achieve adequate copyright protection, present to Canadian audience, pursue international opportunities and build organizational partnerships.

Preservation of Canada's heritage

Canadians want their stories and history to be safeguarded for future generations. The Department of Canadian Heritage plays a leading role in facilitating the preservation of and access to cultural works and archival materials of national importance, including film, music, Aboriginal languages, Aboriginal stories and national cultural artefacts.

Access to Canada's Culture

Access to Canada's culture can take a variety of forms for participants: reading, attending exhibitions or performances, learning through the Internet, listening to radio, watching films or television, visiting heritage sites, etc. The Department of Canadian Heritage helps to create the conditions for wide access and participation. The Department focuses on facilitating access to the wide array of cultural experiences, bridging challenges such as distance, community size, language and ethno-cultural diversity. The primary vehicles for engaging Canadians in cultural participation are arts activities, mass media, and heritage site and events.

Strategic Outcome

Canada is an inclusive society built on inter-cultural understanding and citizen participation.

Program Activity Descriptions*Promotion of inter-cultural understanding*

The Department of Canadian Heritage fosters inter-cultural understanding by generating opportunities for Canadians to share experiences and learn about each other's cultures. One of the ways this is done is through the promotion of linguistic duality and of learning Canada's two official languages. The Department also supports initiatives that promote cross-cultural understanding within and between communities. With attention to the unique opportunities generated by

sport activities in Canada, the Department promotes diversity as a means of enhancing inter-cultural experiences and understanding.

Community development and capacity-building

Aboriginal and official languages communities play a uniquely important role in Canada as part of the fabric that has shaped Canadian society since its beginning. The Department of Canadian Heritage supports the development of Aboriginal organizations with programs that build on the cultural strengths of Aboriginal peoples and recognize the role they play in meeting the challenges faced. The Department of Canadian Heritage also supports the development of official-language minority communities by enhancing their participation in different sectors of society and by working to ensure their vitality in all parts of the country.

Participation in community and civic life

An inclusive society means that all Canadians recognize and exercise their responsibilities to Canada and Canadian society. The Department of Canadian Heritage programs and activities contribute to this goal by helping to address some of the key impediments to community and civic participation. This is done through initiatives that educate Canadians about the country and their citizenship, both at home and abroad, while helping to educate the rest of the world about Canada. It is also achieved through the development of sport participation and supporting organizations that are built on volunteerism in communities. Youth programs generate opportunities and encourage participation. Targeted measures for ethno-cultural and ethno-racial communities assist these groups to more effectively participate into all aspects of Canadian life. Targeted measures for Aboriginal communities, including Aboriginal youth and women, support the participation of Aboriginal peoples and build upon Aboriginal cultures.

Canada Council for the Arts

Strategic Outcome

A vibrant and dynamic arts sector in Canada.

Program Activity Descriptions

Grants and services to support creation, production and dissemination of arts for individuals and organizations

Provides grants and services to professional Canadian artists and arts organizations.

Arts promotion to foster public knowledge and appreciation of the Canadian arts and culture

To encompass all activities within the organization for the promotion of arts at the national and international levels including partnerships and networks with multiple stakeholders, rental of art works, recognizing artistic excellence with our different prizes.

Canadian Broadcasting Corporation

Strategic Outcome

A national public broadcasting service that is primarily Canadian in content and character.

Program Activity Descriptions

Television services

National, regional and local television broadcasting services in English and French.

Radio services

National, regional and local radio broadcasting services in English and French, and an international service, Radio Canada International.

Transmission and distribution of programs

The distribution of the national broadcasting service to virtually all parts of Canada through satellite, microwave and landlines. Included is the provision of the signal that delivers service to the individual radio and television receivers through CBC/SRC transmitters, payments to privately-owned affiliates carrying CBC/SRC programs, and facilities to delay or pre-release broadcasts as required in the different time zones of the country.

Newsworld

CBC Newsworld is an English-language news and information specialty service distributed through satellite and cable delivery. The incremental cost of its operations is funded from its revenues.

Réseau de l'information

Le Réseau de l'information is a French-language news and information specialty service distributed through satellite and cable delivery. The incremental cost of its operations is funded from its revenues.

Galaxie

A continuous music network for the home or business market, Galaxie is available by subscription on digital cable and satellite distribution and currently provides 45 different channels of CD-quality uninterrupted music, 24 hours a day.

Canadian Museum for Human Rights

Strategic Outcome

Enhanced knowledge of human rights, with special but not exclusive reference to Canada, in order to enhance the public's understanding of human rights, to promote respect for others and to encourage reflection and dialogue.

Program Activity Descriptions

Museum content and program

In becoming the world's first museum dedicated to the exploration of human rights, the CMHR is breaking new ground; there is no precedent for a museum of this nature. In its early years, the primary focus of this activity will be on establishing an innovative and unique public program that includes developing a sound research and scholarship capacity; accessible and engaging exhibits and educational programming that promote reflection and dialogue; a strong capacity of national outreach, engagement and service to Canadians; and strong marketing and communications to ensure a high level of awareness about the CMHR and its programs and services.

Stewardship and corporate management

The stewardship and corporate management activity is aimed at ensuring the private and public funds invested in the museum are managed in a transparent, accountable manner; that resources are effectively deployed, developed, directed administered and controlled; and that the corporation optimizes the value it contributes to Canadians and Canadian society.

Accommodation

The focus of this activity in the early years will be to manage all stages of the capital construction project including choosing the final design-leading to its commissioning and public opening. The Board will be fully accountable for overseeing all aspects of the building project, including choosing the final design, establishing the time-frames for construction and managing risks throughout.

Prior to the opening of the facility, the museum will also be establishing the appropriate mechanisms to provide for effective, efficient operations and maintenance and its ongoing security, accessibility and sustainability.

Canadian Museum of Civilization

Strategic Outcome

Interest in, knowledge of, and appreciation and respect for human cultural achievements and human behaviour through collections of historical and cultural objects, exhibitions, programs and research reflecting a Canadian perspective.

Program Activity Descriptions

Collect and research

Manages, develops, conserves and undertakes research on the collections to enhance program delivery and augment the scientific knowledge base.

Exhibit, educate and communicate

Develops, maintains, and communicates exhibits, programs and activities to further knowledge, critical understanding, appreciation and respect for human cultural achievements and human behaviour.

Accommodation

Managing and maintaining all facilities and related security and hosting services.

Canadian Museum of Nature

Strategic Outcome

Interest in, knowledge of and appreciation and respect for the natural world through collections of natural history objects, public education programs and research reflecting a special but not exclusive perspective on Canada.

Program Activity Descriptions

Public education programmes

Develops and maintains exhibitions, programmes, electronic and print publications, the Museum's web site nature.ca and activities to foster an understanding of, and empathy with, nature.

Collections management

Develops, preserves and makes accessible collections of natural history specimens, objects and information materials to meet the growing needs of both the public and private sectors for research, education and informed decision-making about the natural world.

Research

Explores the past and assists Canadians in preparing for the future by conducting both systematic and applied research, as well as by developing and maintaining networks and linkages with Canadian and international scientific communities.

Accommodation

Provides secure and functional facilities that meet all safety and building code requirements including a renovated museum facility that furthers the vision and mandate of the Museum.

Canadian Radio-television and Telecommunications Commission

Strategic Outcome

Broadcasting and telecommunications industries that contribute to Canada's cultural, economic and social prosperity.

Program Activity Descriptions

Regulation and supervision of the canadian broadcasting industry

Supervise and regulate all aspects of the canadian broadcasting system in order to implement the broadcasting policy set out in the *Broadcasting Act*.

Regulation and monitoring of the canadian telecommunications industry

Ensure the implementation of canadian telecommunications objectives set out in the *Telecommunications Act* and to ensure that canadian carriers provide telecommunications services and charge rates on terms that are just and reasonable, and do not unjustly discriminate or provide an unreasonable preference toward any person.

Library and Archives of Canada

Strategic Outcome

Current and future generations of Canadians have access to their documentary heritage.

Program Activity Descriptions

Managing the disposition of the Government of Canada records of continuing value

Through the issuance of records disposition authorities, the development of record-keeping advice, tools and guidance, and the provision of Federal Records Centre services for departments of the government of Canada, Library and Archives of Canada (LAC) enables and facilitates the management of information within federal agencies and ensures that government's archival and historical records are identified and appropriately preserved.

Managing the documentary heritage of interest to Canada

The building of national documentary resource for all aspects of the study of Canada is fundamental to the mandate of LAC. The LAC collection consists of published and unpublished materials in a variety of formats acquired through legal deposit, agreements with government institutions and selected private materials purchased or received by donation. To access the contents of collections, they must be described. Description can take many forms and provide various layers of access but is governed by nationally and internationally accepted codes of practice. At the same time, holdings are also described to meet Canadians' expectations for timely and equitable access. Once materials enter the LAC collection they are managed to ensure their long-term preservation and accessibility through policies, procedures and various programs including storage, conservation, restoration and copying. To fulfill its role as a permanent repository of the government records and publications, the LAC enters into agreements with government institutions to ensure that documents of historical and archival value are eventually transferred to LAC. LAC also provides advice to assist government institutions in fulfilling their obligations under Sections 12 and 13 of the *Library and Archives of Canada Act*.

Making the documentary heritage known and accessible for use

All materials that become part of the LAC collection are intended for use by those interested in Canada. LAC provides information and services including consultation, research and lending, across multiple channels to facilitate access to the documentary heritage to a wide variety of clients. It also establishes programs, such as the Portrait Gallery of Canada, and encourages or organizes programs such as exhibitions, publications and performances, to make known and interpret the documentary heritage. LAC also provides information re-

sources and standards such as the national catalogue and supports the infrastructure necessary to ensure its accessibility to those interested in Canada.

National Arts Centre Corporation

Strategic Outcome

Strong and dynamic performing arts in the National Capital Region and across Canada.

Program Activity Descriptions

Programming

Performing arts programming in music, English theatre, French theatre, dance and other forms of programming, as well as programming support services.

Accommodation

Operating and maintaining the National Arts Centre.

National Battlefields Commission

Strategic Outcome

The Battlefields Park of Quebec is a prestigious, accessible, safe and educational historic and urban site.

Program Activity Descriptions

Conservation and development

As part of this program activity, the National Battlefields Commission (NBC) preserves the legacy of the Battlefields Park for future generations. To do so, the NBC ensures infrastructures maintenance and improvement when required, the horticultural landscape, and offers a protected site for all Canadian and foreign users and visitors.

Public education and services

The purpose of this program activity is to showcase the history of the site and its cultural, recreational and natural treasures so as to emphasize its dual role as a historical and a city park. In support of this program, the National Battlefields Commission welcomes visitors, puts on exhibits and educational activities, provides quality public services, and disseminates information to users and visitors from both Canada and abroad.

National Film Board

Strategic Outcome

The reflection of Canadian values and perspectives through the production of innovative Canadian audiovisual works accessible in relevant media of the day.

Program Activity Descriptions

Production of audiovisual works

The National Film Board (NFB)'s audiovisual works provide a uniquely Canadian perspective, including diverse cultural and regional perspectives, recognized across Canada and around the world, thereby playing a pivotal role in the Canadian film and television industry.

The NFB's programming fosters diverse voices and content in both official languages by encouraging participation from Aboriginal groups and ethnocultural communities.

The NFB's use of the recent production methods and technologies to provide quality works to be accessible on new distribution platforms and in new media.

NFB's production activities include the conceptualization, research, development, production and marketing of documentaries, animation films, new media content, as well as other emerging forms.

Distribution, accessibility, outreach

NFB's distribution, accessibility and outreach activities contribute to a dynamic Canadian culture and heritage.

The distribution of audiovisual work includes: commercializing its audiovisual catalogues and well established stock shot library and developing and diversifying markets (Theatrical, TV, Consumer and Institutional) for NFB products in Canada and abroad.

Activities will make works available in communities across Canada, especially those in remote, rural areas, and provide access to Native groups and official language minority groups.

Revolving fund

The Estimates are based on cash requirements for the NFB over the fiscal year and the revolving fund is used to pay for the Board's expenses calculated on an accrual basis.

National Gallery of Canada**Strategic Outcome**

Interest in, knowledge of and appreciation and respect for visual art through collections of historic and contemporary works of art, programs and research that reflect a special but not exclusive perspective on Canada.

Program Activity Descriptions*Collections*

To acquire, preserve, research and document historic and contemporary works of art in order to represent and present arts heritage. It includes curatorial research, acquisitions and preservation.

Outreach

To foster broad access nationally and internationally to the Gallery's collection, research, exhibitions and expertise. It includes exhibitions, both in the National Capital Region and other venues in Canada and abroad, educational programming and publications, communications and marketing activities designed to reach as wide an audience as possible.

Accommodation

To provide secure and suitable facilities, which are readily accessible to the public, for the preservation and exhibition of the national collections.

National Museum of Science and Technology**Strategic Outcome**

Interest in, knowledge of and appreciation and respect for science and technology through collections of scientific and technological objects, programs and research reflecting a Canadian perspective.

Program Activity Descriptions*Heritage preservation*

Heritage preservation includes two main components, collection management, which includes preservation and conservation, and research, which comprises those activities contributing to the building of a knowledge base about the scientific and technological heritage of Canada. The Corporation, as the only comprehensive science- and technology-collecting institution in Canada, has a special responsibility for the development of a Canadian national collection. In view of the breadth of the potential subject matter to be covered, critical choices must be made in determining collection content and priorities. Collection development activities assist the Corporation in making informed decisions on

collection content, while collection management activities encompass the activities required to manage the objects accessioned into the collection. The Corporation has identified seven major subject areas on which it will focus its research activities. These are: aviation, communications, manufacturing, natural resources, renewable resources including agriculture, scientific instrumentation and transportation.

Sharing knowledge

The Corporation seeks to engage Canadians in discovering, considering and questioning past and present developments in science and technology, and their impact on society and individuals. The Corporation fosters a sense of identity and belonging for all Canadians, as well as pride in Canada's scientific and technological history and achievements. It also encourages active and informed participation by Canadians in the future development of our technological society. The primary reason for interpreting Canada's scientific and technological heritage is to provide Canadians with meaningful information about themselves and Canada. Just as the Transformation of Canada theme directs research and collection activities, it likewise guides the Corporation in its knowledge dissemination activities. These typically depict the historical development of science and technology, provide information on the objects in the collection and review the relationships between science, technology and Canadian society. The Corporation disseminates knowledge to its audiences in three primary ways: through its public facilities, its Web sites and its publications.

Accommodation

Facilities are an integral part of museum operations. They do more than house staff; they also provide a venue for the public, and housing for the collection. Facilities have a profound effect on museum visitation. Appropriate museum architecture attracts visitors, contributes to the atmosphere and becomes a symbol of the

institution's mandate. A large portion of comments by visitors allude to their satisfaction or dissatisfaction with the quality of the facilities and their related services.

Public Service Commission

Strategic Outcome

A highly competent, non-partisan and representative Public Service, able to provide service in both official languages, in which appointments are based on the values of fairness, access, representativeness and transparency.

Program Activity Descriptions

Appointment integrity and political neutrality

The Appointment integrity and political neutrality activity develops and maintains a policy and regulatory framework for safeguarding the integrity of public service staffing and ensuring political neutrality. This activity includes establishing policies and standards, providing advice, interpretation and guidance and administering delegated and non-delegated appointment authorities.

Oversight of integrity of staffing and political neutrality

The Oversight of integrity of staffing and political neutrality activity provides an accountability regime for the implementation of the appointment policy and regulatory framework for safeguarding the integrity of public service staffing and ensuring political neutrality. This activity includes monitoring departments' and agencies' compliance with legislative requirements, conducting audits, studies and evaluations, carrying out investigations, and reporting to Parliament on the integrity of public service staffing.

Staffing services and assessment

The Staffing services and assessment activity develops and maintains the systems that link Canadians and public servants seeking employment opportunities in the federal public service with hiring departments and agencies. It provides assessment-related products and services in the form of research and development, consultation, assessment operations and counselling for use in recruitment, selection and development throughout the federal public service. This activity also includes delivering staffing services, programs and products to departments and agencies, to Canadians and public servants, through client service units located across Canada.

Public Service Labour Relations Board

Strategic Outcome

Harmonious labour relations in the federal Public Service and Parliament.

Program Activity Descriptions

Adjudication, mediation and compensation analysis and research

The Public Service Labour Relations Board (PSLRB) is an independent quasi-judicial tribunal mandated by the *Public Service Labour Relations Act* and the *Parliamentary Employment and Staff Relations Act* to administer the collective bargaining and grievance adjudication systems in the federal Public Service and Parliament. Board members hold hearings with respect to grievance adjudication, complaints and other types of proceedings, throughout Canada. The PSLRB provides conciliation and arbitration services to assist parties in the renewal and negotiation of new collective

agreements; mediation services to help parties work together to resolve grievances and complaints; and, an interactive training session on interest-based negotiations and mediation. A compensation analysis and research function consists of delivering information on comparative rates of pay, employee earnings, conditions of employment and benefits in the public and private sectors. The Board is required by statute to provide physical and administrative support services to the National Joint Council (NJC), but plays no direct role in its operations.

Public Service Staffing Tribunal

Strategic Outcome

Fair and impartial resolution of disputes related to internal appointments and lay-offs in the Government of Canada.

Program Activity Descriptions

Adjudication and mediation of complaints filed under the Public Service Employment Act

Pursuant to the new *Public Service Employment Act*, the mandate of the Public Service Staffing Tribunal (the "Tribunal") is to consider and dispose of complaints stemming from an internal appointment, the implementation of a corrective measure ordered by the Tribunal, the revocation of an appointment or a lay-off. In considering whether a complaint relating to an internal appointment or a lay-off is substantiated, the Tribunal may interpret and apply the *Canadian Human Rights Act*. If the Tribunal finds that the complaint is founded, it may order that compensation be paid. The Tribunal may also provide mediation services at any stage of a proceeding in order to resolve a complaint.

Registry of the Public Servants Disclosure Protection Tribunal

Strategic Outcome

Remedial and disciplinary actions that ensure complainants to the Office of the Public Sector Integrity Commissioner are protected against reprisals.

Program Activity Descriptions

Reprisal hearings program

The Registry of the Public Servants Disclosure Protection Tribunal supports the Tribunal in fulfilling its mandate by supporting the effective management of the Tribunal's hearing processes, including by receiving documents, processing cases, maintaining Tribunal records, providing logistical support, providing legal and policy support, orientation and training to Tribunal members and informing clients of Tribunal procedures and directives.

Status of Women—Office of the Co-ordinator

Strategic Outcome

Strengthen the full participation of women in the economic, social and cultural life of Canada.

Program Activity Descriptions

Development of strategic policy advice and partnerships

Status of Women – Office of the Co-ordinator (SWC) develops strategic policy advice, tools and partnerships to support federal departments and central agencies in integrating gender-based analysis in departmental poli-

cies and programs, and in developing better evidence-based policy. SWC also collaborates on initiatives with other federal departments, provincial-territorial governments, civil society, and key international partners to address women's issues.

Financial assistance for projects to improve social, economic and cultural outcomes for women

SWC provides financial assistance to Canadian organizations for projects that address the economic, social and cultural situation of women, and, leverages partnerships to create concrete outcomes for women in order to support their full participation to the society.

Telefilm Canada

Strategic Outcome

Canadians have access to high quality popular Canadian audio-visual productions.

Program Activity Descriptions

Canada Feature Film Fund

The Canada Feature Film Fund (CFFF) is the primary instrument of the federal government's Canadian Feature Film Policy, entitled From Script to Screen. The objective of the policy, and of the CFFF, is to capture 5% of the domestic box office. The Fund provides assistance for screenwriting, project development, production, marketing and versions of Canadian feature films that have high box office potential in Canada. In administering the CFFF, Telefilm seeks to support the development, production and marketing of compelling, distinctively Canadian feature films that reflect Canadian society, including its cultural diversity.

The financial assistance provided by Telefilm Canada is intended to contribute to the overall growth, and professional and economic development of the Canadian film industry. Telefilm's financial participation may be provided in various forms: investments, conditionally repayable advances, loans, loan guarantees, grants or corporate envelopes. The majority of Telefilm Canada's activity centres on investments in individual projects based on a rigorous project selection process. As an investor, Telefilm Canada shares the risks and eventual revenues of the productions it participates in financially.

The CFFF is the subject of a Memorandum of Understanding between Telefilm Canada and the Department of Canadian Heritage. Under the terms of the Memorandum of Understanding, a minimum of one-third of funds are reserved for French-language projects.

Professional development and complementary activities

This program activity is intended to complement Telefilm Canada's support to feature film and television production-related activity, by supporting activities that enhance the overall environment and conditions in which Canadian feature films and television programs are produced, promoted, sold and distributed.

Support in the form of grants is provided to Canadian feature film and television festivals and to Canadian film and television award shows to raise the profile of Canadian productions with Canadian audiences. In addition, support in the form of grants is extended to industry professionals to attend international festivals and markets, and for professional development initiatives.

Other activities

This program activity refers to all programs administered by Telefilm Canada pursuant to contribution agreements or other agreements with the Department of Canadian Heritage. They support Telefilm Canada's audience-and-building-capacity objectives.

Telefilm Canada has two contribution agreements with the Department of Canadian Heritage. They provide Telefilm Canada with the financial resources to administer the following two funds: The Canada New Media Fund and the National training schools program. In addition, Telefilm Canada administers Canada's international co-production agreements and recommends certification of international co-productions.

SECTION 6

2008-2009

PUBLIC ACCOUNTS OF CANADA

Citizenship and Immigration

Department

Immigration and Refugee Board of
Canada

CONTENTS

	<i>Page</i>
Strategic outcome and program activity descriptions . . .	6.2
Ministry summary	6.3
Program activity	6.5
Transfer payments	6.6
Details of spendable amounts	6.7
Revenues	6.7

Department**Strategic Outcome**

Migration that significantly benefits Canada's economic, social and cultural development, while protecting the health, safety and security of Canadians.

Program Activity Descriptions*Immigration program*

Design, develop and implement policies and programs to facilitate the entry of permanent residents in a way which contributes to the economic, social and cultural development of Canada while protecting the health, safety and security of Canadians.

Temporary resident program

Design, develop and implement policies and programs to facilitate the entry of temporary workers, students and visitors in a way which contributes to Canada's economic, social and cultural development while protecting the health, safety and security of Canadians.

Strategic Outcome

International recognition and acceptance of the principles of managed migration consistent with Canada's broader foreign policy agenda, and protection of refugees in Canada.

Program Activity Descriptions*Canada's role in international migration and protection*

Assert Canada's position in the context of international migration in order to protect Canada's right to set its citizenship, immigration and refugee policy; to meet legal and international obligations; to steer the international agenda on migration management issues

including its linkages with other public policy sectors; to contribute to managing migration internationally; and to support development of Canada's image abroad.

Refugee program

Fulfilling Canada's international obligations by coming to the aid of persons in need of protection in Canada and maintaining its humanitarian tradition by protecting refugees abroad and resettling them to Canada.

Strategic Outcome

Successful integration of newcomers into society and promotion of Canadian citizenship.

Program Activity Descriptions*Integration program*

Develop policies and programs to support the settlement, resettlement, adaptation and integration of newcomers into Canadian society by delivering the orientation, adaptation and language programs for newcomers.

Citizenship program

Design, develop and implement policies and programs to administer the acquisition of Canadian citizenship and to enhance the values and promote the rights and responsibilities of Canadian citizenship.

Immigration and Refugee Board of Canada**Strategic Outcome**

Resolve immigration and refugee cases before the Immigration and Refugee Board of Canada efficiently, fairly and in accordance with the law.

Program Activity Descriptions*Refugee protection*

The Refugee Protection program renders quality decisions and otherwise resolves in a timely manner cases regarding refugee protection claims made by persons in Canada. In making these decisions, Canada fulfils its obligations as a signatory to a number of international human rights conventions.

Immigration appeal

The Immigration Appeal program renders quality decisions and otherwise resolves in a timely manner cases regarding sponsorship applications refused by the Department of Citizenship and Immigration; certain removal orders made against permanent residents, refugees and other protected persons, and holders of permanent resident visas; permanent residents who have been found outside of Canada not to have fulfilled their residency obligation; and appeals by the Minister of Public Safety of decisions of the Immigration Division at admissibility hearings.

Admissibility hearings and detention reviews

The Admissibility Hearings and Detention Reviews program renders quality decisions and otherwise resolves in a timely manner cases regarding admissibility of foreign nationals or permanent residents who are alleged to be inadmissible to Canada pursuant to the provisions of the *Immigration and Refugee Protection Act* (IRPA); and detention reviews for foreign nationals or permanent residents who are detained under IRPA authority.

Strategic outcome and program activity descriptions . . .	7.2
Ministry summary	7.3
Program activity	7.4
Transfer payments	7.5
Revenues	7.6

Strategic Outcome

Vitality of communities—Dynamic and revitalized communities having better socioeconomic outlooks.

Program Activity Descriptions

Community development

Develop a community in terms of its socioeconomic adaptability and its ability to promote entrepreneurship, create small enterprises, attract tourists and retain qualified persons.

Infrastructures

Renovate and build quality public infrastructure in Quebec's rural and urban communities.

Strategic Outcome

Competitiveness of small and medium enterprises and regions—Presence of conditions favourable to sustainable growth and the competitive positioning of SMEs and regions.

Program Activity Descriptions

Enterprise competitiveness (small and medium enterprises)

Stimulate SMEs' growth and competitiveness to increase productivity, earnings and employment in the regions.

Competitive positioning of regions

Improve regions' international competitiveness by enhancing their knowledge and their competitive advantages on the international scene.

Strategic Outcome

Policies, representation and cooperation—Policies, programs and initiatives reflecting the reality of the regions of Quebec.

Program Activity Descriptions

Policies, programs and initiatives

Enhance the department's ability to develop or help formulate policies, programs and initiatives to better meet the needs of the regions of Quebec and the relevance of federal regional development activities in Quebec.

Department**Strategic Outcome**

Canada's natural capital is restored, conserved, and enhanced.

Program Activity Descriptions*Biodiversity is conserved and protected*

This program activity consists of the protection and recovery of species at risk; conservation, restoration and rehabilitation of significant habitats; and conservation of migratory birds. A primary vehicle for the achievement of results under this program is the formation of strategic partnerships for integrated management of Canada's natural capital including the sustainable management of landscapes. Key principles in support of results under this program are the use of best available science and the provision of regulatory certainty to stakeholders.

Water is clean, safe and secure

This program activity is designed to provide science and policy leadership on water quality, quantity and use. Science under this program will be focused on monitoring and research to understand what is changing in aquatic ecosystems and why, and on providing science-based tools to empower Canadians to take action. Policy leadership will include developing a national water agenda in partnership with other government departments that identifies benefits and incentives for the sustainable use of water, and ensuring that Canadian water related interests are protected globally. Involvement in transboundary arrangements will focus on ensuring that parties to water sharing agreements benefit from Canada's technical advice and monitoring information, to undertake measures to ensure compliance and meet their obligations.

Canadians adopt approaches that ensure the sustainable use and management of natural capital and working landscapes

This program activity is designed to integrate departmental action on ecosystems, by aligning science, policy, and environmental assessment in a nationally consistent inter-jurisdictional approach to ecosystem management. A further feature of this program activity will be multidisciplinary studies assessing the state of priority ecosystems and identifying the required actions for restoration and conservation.

Strategic Outcome

Weather and environmental predictions and services reduce risks and contribute to the well-being of Canadians.

Program Activity Descriptions*Improved knowledge and information on weather and environmental conditions influences decision-making*

This program activity consists of environmental science and monitoring activities to detect hazardous conditions, to understand what is changing in the atmosphere (weather, climate, air quality and ultraviolet radiation), hydrosphere (water) and cryosphere (ice and snow) and why. A key benefit of results under this program will be to provide improved knowledge, information, and tools on weather and environmental conditions (e.g. a better understanding of the causes of severe weather, the mechanisms which transport chemicals through the atmosphere, the impacts of human activity on the atmosphere, and atmospheric science-based models). These benefits will support the development of policy as well as the delivery of environmental services.

Canadians are informed of, and respond appropriately to, current and predicted environmental conditions

This program activity consists of making available relevant knowledge and information on past, present and future conditions of the atmosphere, hydrosphere and cryosphere, in response to the needs of Canadians, be they policy/decision makers, business persons or individuals, or others who require this information to deliver on ministerial or federal responsibilities and obligations (e.g. NAV Canada). Under this program activity, information on the state of the environment is disseminated by means of various services, products and tools allowing Canadians to safeguard themselves and their property against environmental hazards and to help them make better informed socio-economic and environmental decisions. Environmental information and outreach will empower Canadians to take appropriate action on protecting their environment. Partnerships, domestic and international, are critical to the success of these endeavours.

Strategic Outcome

Canadians and their environment are protected from the effects of pollution and waste.

Program Activity Descriptions*Risks to Canadians, their health and their environment posed by toxic and other harmful substances are reduced*

This program activity consists of reducing risks to the environment and to human health posed by pollutant releases related to human activities. Under this program activity, environmental and human health threats posed by toxic substances and other substances of concern are understood in terms of their fate and effects and prevention, reduction, elimination or other management measures are developed as required. These substances may exert a direct toxic effect on animals, plants or humans or, due to the volume, nature and

manner of release, may pose a longer term risk to the environment and human health.

Canadians adopt sustainable consumption and production approaches

This program activity provides a focus for the department's longer term efforts to reduce the cost of unsustainable consumption patterns and to shift industry towards more sustainable forms of production. Much of the activity will be centered around large sector-based approaches to enable collaborative and informed decision-making on environmental objectives. Underlying this will be the creation of a clear and predictable environmental protection regime, designed to encourage and enable sustainable production and consumption.

Risks to Canadians, their health, and their environment from air pollutants and greenhouse gas emissions are reduced

This program activity is critical to protect the health of Canadians from the harmful effects of air pollutants and the environment from the impacts of greenhouse gas emissions. This will be achieved through developing and integrated sector-based approach to regulating air pollutants and controlling greenhouse gas emissions; strengthening international cooperation (particularly with the U.S.); and promoting science-based approaches to inform the development of new standards and regulations. Environment Canada will demonstrate federal leadership by implementing a broad federal-provincial-territorial approach to achieve national targets to protect the health of Canadians and the environment.

Strategic Outcome

Sustainable urban development and infrastructure renewal in the Toronto Waterfront area.

Revitalization of the Toronto Waterfront

Program management and coordination of the federal contribution towards city-building infrastructure, parks, recreation and green spaces for the renewal and revitalization of Toronto's waterfront.

Harbourfront Corporation

The Harbourfront Centre (HC) Funding Program provides support to HC to cover its operational costs to facilitate the organisation's ability to leverage funding from other governments and pursue other revenue-generating strategies. This will allow HC to provide the general public with continued access to cultural, recreational, and educational programs and activities. The ultimate outcome of this HC Funding Program will be to support the economic, social and cultural development of the Toronto Waterfront.

Canadian Environmental Assessment Agency

Strategic Outcome

Environmental considerations are taken into account in federal government decisions respecting policies, plans, programs and projects.

Program Activity Descriptions

Environmental assessment development program

This program is aimed at developing and maintaining an effective, efficient and integrated environmental assessment process at the federal level, taking into full account the interactions with other environmental assessment, consultative and regulatory decision-making processes in Canada, as well as the trans-boundary context for environmental assessment. A sound environmental assessment process is vital to achieving the Strategic Outcome. Ensuring that environmental considerations are integrated into federal government decision-making through sound environmental

assessment practices supports quality of life for Canadians, environmental sustainability and economic competitiveness.

Environmental assessment support program

This program comprises the Public Participation Program, James Bay Northern Quebec Agreement, the Training and Guidance Program and the Environmental Assessment Management Program - the various means by which Canadians, industry, stakeholders and interested parties interact and encounter their various obligations pursuant to the *Canadian Environmental Assessment Act*. This includes public participation, information dissemination, guidance and record keeping. This is done with the goal of ensuring a transparent and rigorous environmental assessment process is applied under the auspices of the *Canadian Environmental Assessment Act*.

National Round Table on the Environment and the Economy

Strategic Outcome

Federal policy development and decisions in other key sectors are influenced by advice on sustainable development issues pertaining to the environment and the economy.

Program Activity Descriptions

Advisory program on environment and economy issues

Raising awareness and understanding among Canadians and their governments about the challenges of sustainable development and promoting viable solutions, is vital to Canada's environmental and economic future. Through this program, the National Round Table on the Environment and Economy (NRTEE) strives to influence policy development and decision making on select sustainable development issues pertaining to the

environment and the economy. The NTREE conducts research, analysis, and produces information and advice on selected sustainable development issues. The agency promotes its findings and recommendations through a variety of communications channels such as media relations, stakeholder briefings and other events, publications and the agency website to influence policy and decisions of policy-makers in the federal government and other key sectors such as other levels of government, industry and non-government organizations across the country.

Parks Canada Agency

Strategic Outcome

Canadians have a strong sense of connection, through meaningful experiences, to their national parks, national historic sites and national marine conservation areas and these protected places are enjoyed in ways that leave them unimpaired for present and future generations.

Program Activity Descriptions

Heritage places establishment

This program includes systems planning, completing feasibility studies, research, consulting with stakeholders and the public, negotiating with other governments and Aboriginal organizations and obtaining Ministerial approval, resulting in established national parks and national marine conservation areas and designated national historic sites of Canada and other heritage places. Canada's national parks and national marine conservation areas, as well as the persons, places and events of national historic significance to Canada are symbols to the world and are part of the fabric of the nation. Preservation of Canada's natural and cultural heritage and making it available to Canadians

for discovery and enjoyment is of key importance. Establishing heritage places is essential to enhancing pride, encouraging stewardship and giving expression to our identity as Canadians, and involving Canada in the internationally shared objective of protecting and commemorating the best of the world's natural and cultural heritage.

Heritage resources conservation

This program includes maintenance or restoration of ecological integrity in national parks through protection of natural resources and natural processes; ensuring the commemorative integrity of national historic sites managed or influenced by Parks Canada; the protection and management of cultural resources under the administration of Parks Canada; and, the ecologically sustainable use of national marine conservation areas including protection of unique marine ecosystems. Conservation also includes fulfilling legal responsibilities assigned to Parks Canada by the *Species at Risk Act* and the *Canadian Environmental Assessment Act*. Protection of our heritage resources ensures that many of Canada's most special natural and cultural heritage resources will not be lost and that current and future generations will enjoy a system of protected heritage places.

Public appreciation and understanding

This program aims to reach Canadians, particularly youth and urban audiences, at home, at leisure, at school and in their communities through effective and relevant learning opportunities designed to increase understanding, appreciation, support and engagement towards natural and cultural heritage. To accomplish this, Parks Canada is developing collaborations with audiences and strategic partners within formal, informal and non-formal learning contexts. Using a diversity of carefully targeted outreach education approaches, such as the Parks Canada Web site, broad-

casting and new media, integration into urban venues and introduction of content into school curricula, the Agency helps build a connection to place essential to achieving its mandate. Parks Canada also intends to broaden its base of support by involving its many stakeholders, and encouraging shared leadership in the development and implementation of the Agency's future direction.

Visitor experience

This program supports the more than 22 million person visits that are made annually to Canada's national parks, national historic sites and national marine conservation areas by Canadians and international visitors. The visitor experience is the sum total of a visitor's personal interaction with heritage sites and/or people, an interaction that awakens their senses, affects their emotions, stimulates their mind and leaves them with a sense of attachment to these special places. Activities include the provision of high quality pre- and on-site trip planning information, reception and orientation, interpretation, campgrounds, infrastructure, hiking trails, opportunities for recreational activities, visitor safety and the ongoing post-visit relationship. The meaningful experiences fostered by these activities lead to a sense of relevance and connection to Canada's system of special heritage places.

Townsite and throughway infrastructure

This program involves managing, operating and providing municipal services to five townsite communities within Canada's national parks. It also involves the operation of provincial and inter-provincial highways and waterways that connect communities and pass through national parks and national historic sites.

Department**Strategic Outcome**

A strong and sustainable economy, resulting in increasing standards of living and improved quality of life for Canadians.

Program Activity Descriptions*Economic and fiscal policy framework*

This program activity is the primary source of advice and recommendations to the Minister of Finance regarding issues, policies and programs of the Government of Canada related to the areas of economic and social policy, federal-provincial fiscal relations, financial affairs, tax matters and international trade and finance. The work conducted by this program activity involves extensive research, analysis, and consultation and collaboration with partners in both the public and private sectors including the government, Cabinet and Treasury Board, Parliament and parliamentary committees, the public and Canadian interest groups, departments, agencies and Crown corporations, provincial and territorial governments, financial market participants, the international economic and finance community and the international trade community. In addition, this program manages the negotiation of agreements, drafting of legislation and sponsoring of bills through the parliamentary process that are subsequently administered by other program activities within the departments and by other government departments and agencies. The aim of this program activity is to create a sound and sustainable fiscal and economic framework that will generate sufficient revenues and provide for the management of expenditures in line with the Budget Plan and financial operations of the Government of Canada.

Transfer and taxation payment programs

The *Financial Administration Act* created the Department of Finance with a mandate that includes the supervision, control and direction of all matters relating to the financial affairs of Canada not by law assigned to the Treasury Board or any other minister. This program activity administers transfer and taxation payments to provinces and territories in accordance with legislation and negotiated agreements to provide for fiscal equalization and support for health and social programs and other shared priorities. Also included are commitments and agreements with international financial institutions aimed at aiding in the economic advancement of developing countries. In addition, from time to time, the government will enter into agreements or enact legislation to respond to unforeseen pressures. These commitments can result in payments, generally statutory transfer payments, to a variety of recipients including individuals, organizations and other levels of government.

Treasury and financial affairs

Provides direction of Canada's debt management activities, including the funding of interest costs for the debt and service costs for new borrowings. In addition, the program manages investments in financial assets needed to establish a prudent liquidity position. This program supports the ongoing refinancing of government debt coming to maturity, the execution of the budget plan and other financial operations of the government, including governance of the borrowing activities of major government backed entities such as Crown corporations. This program activity is also responsible for the system of circulating Canadian currency (bank notes and coins) to meet the needs of the economy.

Auditor General**Strategic Outcome**

Through legislative auditing, we contribute to a well-managed and accountable government for Canadians.

Program Activity Descriptions*Legislative auditing*

We conduct independent audits and studies that provide objective information, advice and assurance to Parliament, government and Canadians.

Canada Deposit Insurance Corporation**Strategic Outcome**

To provide, for the benefit of persons having deposits with member institutions, deposit insurance against loss of part or all of such deposits because of the insolvency of the member institution.

Canadian International Trade Tribunal**Strategic Outcome**

Fair, timely and transparent disposition of international trade cases and government requested inquiries into economic, trade and tariff matters within the Tribunal's jurisdiction.

Program Activity Descriptions*Adjudication of trade cases (quasi-judicial role)*

The Tribunal's adjudicative mandate is to provide a fair, timely and transparent trade remedies system to Canada's business sector, thereby preserving confi-

dence in the Canadian market, to the benefit of Canadian businesses and consumers. The Tribunal acts as an independent, quasi-judicial, decision-making body that derives its adjudication authority from the Canadian *International Trade Tribunal Act* (CITTA), the *Special Import Measures Act* (SIMA), the *Customs Act* and the *Excise Tax Act*. It operates within Canada's trade remedies system to apply existing policies and laws on trade agreements seeking to address unfair competition in the domestic market or provide emergency protection against imported items that are seen to cause injury to a domestic industry. The Tribunal also hears appeals from decisions of the Canada Revenue Agency (CRA) and Canada Border Services Agency (CBSA). It has also been designated as the bid challenge authority under the Agreement on Internal Trade (AIT), the North American Free Trade Agreement (NAFTA) and the World Trade Organization (WTO) Agreement on Government Procurement (AGP) against the federal government procurement process. In its quasi-judicial role, the Tribunal's caseload is comprised of the following:

- Unfair trade cases – inquiries under SIMA into whether dumped and/or subsidized imports have caused or are threatening to cause injury to a Canadian industry;
- Bid challenges – inquiries into complaints by potential suppliers concerning federal government procurement under NAFTA, the AIT and the AGP;
- Appeals of decisions of the CBSA made under the *Customs Act* and SIMA, and decisions of the CRA under the *Excise Tax Act*; and
- Safeguard cases – inquiries into whether the rapid build-up of imports from China, or from around the world, is causing injury to a Canadian industry.

General economic inquiries and references (advisory role)

In its advisory role, the Tribunal's caseload is comprised of three types of cases. First, the Tribunal plays an advisory role when requested by Government to recommend measures to alleviate injury to domestic producers pursuant to a safeguard inquiry. Periodically, the Government may also direct the Tribunal to inquire into general economic, trade or tariff matters. In such inquiries, the Tribunal has the power to conduct research, receive submissions, hold hearings and report with recommendations, as required, to the Government or the Minister of Finance. When these requests arise, the Tribunal faces a strain on its resources and must meet very strict government imposed deadlines. Finally, the Tribunal has received a standing reference from the Minister of Finance to investigate requests from domestic producers for tariff (import tax) relief on imported textile inputs for use in their manufacturing operations and make recommendations to the Minister that would maximize the net economic benefits to Canada.

In its advisory role, the Tribunal's caseload is comprised of the following:

- Safeguard cases – where the Tribunal finds injury to a Canadian industry, the Governor in Council may request the Tribunal to recommend appropriate measures for dealing with the build-up of imports;
- General economic, trade and tariff inquiries referred by the Government – inquiries and advice on such economic, trade and tariff issues as are referred to the Tribunal by the Governor in Council or the Minister of Finance; and
- Standing tariff reference referred by the Minister of Finance – investigations into requests from Canadian producers for tariff relief on imported textile inputs that they use in their production.

Financial Consumer Agency of Canada

Strategic Outcome

The Financial Consumer Agency of Canada (FCAC) has five objectives:

- supervise financial institutions to ensure they comply with federal consumer protection measures (known as consumer provisions) that apply to them;
- promote the adoption by financial institutions of policies and procedures designed to implement the consumer provisions;
- monitor the compliance of financial institutions with voluntary codes of conduct and any other public commitments they have made to protect the interests of consumers;
- promote awareness of the obligations of financial institutions; and
- foster an understanding of financial services and issues relating to financial services.

Program Activity Descriptions

Financial Consumer Agency of Canada

We provide consumer information and oversee financial institutions to ensure that they comply with federal consumer protection measures.

Financial Transactions and Reports Analysis Centre of Canada

Strategic Outcome

Financial intelligence that contributes to the detection and deterrence of money laundering and terrorist activity financing in Canada and abroad.

Program Activity Descriptions*Collection, analysis and dissemination of financial information*

Technology-driven financial intelligence analysis and case disclosures that are widely used and accepted by law enforcement and intelligence agencies with a program that fosters compliance by the reporting entities.

Office of the Superintendent of Financial Institutions**Strategic Outcome**

Regulate and supervise to contribute to public confidence in Canada's financial system and safeguard from undue loss.

Program Activity Descriptions*Regulation and supervision of federally regulated financial institutions*

This is the largest program activity within the Office of the Superintendent of Financial Institutions (OSFI), representing over 85 percent of its costs. Costs for this program are recovered through assessments, service charges and user fees paid by the federally regulated financial institutions. Costs are also recovered via Memoranda of Understanding; financial statements indicate this third revenue stream as "cost-recovered services".

Regulation and supervision of federally regulated private pension plans

This program activity incorporates risk assessment and intervention and rule-making and approvals related to federally regulated private pension plans under the *Pension Benefits Standards Act*. The costs for this program are recovered from pension plan fees based on the number of members in each federally regulated pension plan.

International assistance

This program activity incorporates activities related to providing help to other countries that are building their supervisory and regulatory capacity. The costs for this program are recovered via Memoranda of Understanding between OSFI and organizations such as the Canadian International Development Agency and the International Monetary Fund.

Strategic Outcome

Contribute to public confidence in the Canada's public retirement income system.

Program Activity Descriptions*Office of the chief actuary*

This Office provides a range of actuarial services, under legislation, to the *Canada Pension Plan* and some federal government departments.

PPP Canada Inc.**Strategic Outcome**

Transform Canada into a leader for public-private partnerships (P3).

Program Activity Descriptions*Federal public-private partnership initiatives*

Through this program activity, PPP Canada Inc. will:

- manage a Public-Private Partnerships Fund (P3 Fund), a unique infrastructure program designed to support innovative public-private partnerships projects;

- assess public-private partnerships opportunities for contributions under other Government of Canada infrastructure programs to ensure consideration of such arrangements;
- assess public-private partnership opportunities and advise on the execution of public-private partnership projects at the federal level; and
- act as a source of expertise and advice for public-private partnership matters in order to encourage the further development of Canada's public-private partnerships market.

Strategic outcome and program activity descriptions . . .	10.2
Ministry summary	10.4
Program activity	10.6
Transfer payments	10.7
Details of responsible amounts	10.9
Revenues	10.9

Department**Strategic Outcome**

Safe and Accessible Waterways (SAW).

Program Activity Descriptions*Canadian coast guard*

The Canadian Coast Guard (CCG) delivers civilian marine services (vessels, aircraft, expertise, personnel and infrastructure) on behalf of other federal government departments or in support of federal agencies and organizations in the achievement of their own specific Government of Canada maritime priorities. CCG provides support to other parts of Fisheries and Oceans Canada (Science and Conservation and Protection), the Department of National Defence, Environment Canada, the Royal Canadian Mounted Police, the Department of Foreign Affairs, and Transport Canada among others.

Small craft harbours

The Small Craft Harbours Program directly, or indirectly through Harbour Authorities, operates and maintains a network of harbours, critical to the fishing industry, open, safe and in good repair. These harbours are necessary for the effective operation of the commercial fisheries that contribute to the Canadian economy, directly support employment and that indirectly create tens of thousands jobs, many in rural and isolated parts of Canada.

Science for safe and accessible waterways

This program provides scientific research, monitoring, advice, products and services and data management to ensure departmental and federal policies, programs, decisions, and regulations associated with safe, secure, and accessible waterways are informed by science advice. The science is provided through a network of re-

search facilities, in collaboration with other government departments, private sector, academia and international organizations.

Strategic Outcome

Sustainable Fisheries and Aquaculture (SFA).

Program Activity Descriptions*Fisheries management*

The overall goal of fisheries management is the conservation of Canada's fisheries resources to ensure sustainable resource utilization through close collaboration with resource users and stakeholders based on shared stewardship. Fisheries Management is responsible for international fisheries conservation negotiations and relations, shared management of interception fisheries in international waters and management of the Aboriginal, commercial, recreational fishing in the coastal waters of Canada's three oceans.

Aquaculture

Aquaculture development in Canada benefits Canadian consumers and producers through the production of aquatic organisms (e.g. salmon, mussels) while upholding the ecological and socio-economic values associated with Canada's oceans and inland waters. Fisheries and Oceans Canada, as the lead federal organization for aquaculture, provides a horizontally managed and integrated intradepartmental approach, to create the conditions for a vibrant and innovative aquaculture industry that is environmentally and socially responsible, economically viable and internationally competitive.

The program is delivered in collaboration with other federal departments, provincial and territorial governments, industry, the private sector, non-government organizations, and other stakeholders.

Science for sustainable fisheries and aquaculture

Provision of advice and recommendations based on scientific research and monitoring, as well as the provision of products and services and the management of data on Canada's oceans and resources. This ensures departmental and federal policies, programs, decisions, and regulations associated with sustainable fisheries and aquaculture are informed by scientific knowledge. The science is provided through a network of research facilities, in collaboration with other government departments, private sector, academia and international organizations.

Strategic Outcome

Healthy and Productive Aquatic Ecosystems (HAPAE).

Program Activity Descriptions*Oceans management*

Oceans management involves the conservation and sustainable use of Canada's oceans in collaboration with other levels of government, Aboriginal organizations and other non-government stakeholders through the development and implementation of objectives-based integrated oceans management plans and the application of marine conservation tools. Modern oceans management arrangements deal with a number of challenges including oceans health, marine habitat loss, declining biodiversity, growing demands for access to ocean resources and regulatory and jurisdictional complexities.

Habitat management

In collaboration with others, Habitat Management involves conserving and protecting fish and fish habitat from the impacts of activities occurring in and around fresh and marine fish-bearing waters, and improving (restoring and developing) fish habitat through the administration of the habitat protection provisions of the *Fisheries Act*, providing advice on related provisions of the Act, and the application of non-regulatory activities. It also involves conducting environmental assessments prior to regulatory decisions listed in the Law List Regulations of the *Canadian Environmental Assessment Act* and participating in other environmental assessment regimes. These activities are performed in a manner consistent with the *Species at Risk Act*; the Policy for the Management of Fish Habitat and other operational policies; consultation with Aboriginal groups; the goals and principles of sustainable development; and the policies and priorities of the federal government.

Science for healthy and productive aquatic ecosystems

This program provides research, monitoring, advice, products and services and data management to ensure departmental and federal policies, programs, decisions, and regulations associated with the integrated management of Canada's oceans and fish habitat resources are informed by science advice. The science is undertaken through a network of research facilities, in collaboration with other government departments, private sector, academia and international organizations.

Freshwater Fish Marketing Corporation

Strategic Outcome

To regulate interprovincial and export trade in freshwater fish.

Department**Strategic Outcome**

Canada's International Agenda: The international agenda is shaped to Canada's benefit and advantage in accordance with Canadian interests and values.

Program Activity Descriptions*International policy advice and integration*

This program activity provides strategic direction, intelligence and advice, including integration and coordination of Canada's foreign and international economic policies. It allows the department to plan and strategically coordinate its international activities with a view to integrating Canada's foreign and international economic policies. This is carried out by working to improve coordination within DFAIT, with other government departments and relevant stakeholders, and by utilizing advice provided from missions to develop all-of-government approaches that integrate different organizational mandates and perspectives to advance Canadian interests and values. The main target groups are other government organizations, policy and program groups within DFAIT, Heads of Mission and key mission personnel.

Diplomacy and advocacy

This program activity engages and influences international players and delivers international programs and diplomacy. It allows Canada to implement its international policies to foreign audiences inside and outside of Canada and thus fulfill the mandated roles and responsibilities that are associated with the diplomatic work of a foreign and international trade ministry.

This work is done by liaising with decision makers at all levels in other countries and hosting events where key messages can be advocated. It includes utilizing provincial expertise in specific areas of interest to them

to advance Canada's overall international policy. Additionally, it uses strategic promotion activities, including public diplomacy, as vehicles to promote Canadian views on issues of concern to Canadians and uses a number of discretionary grant and contribution programs to further Canada's interests abroad.

The main target groups are foreign decision makers in Canada and abroad, foreign publics, other levels of government within Canada, key constituencies within other countries (e.g. security and defence-related communities) and legislators.

Strategic Outcome

International Services for Canadians: Canadians are satisfied with commercial, consular and passport services.

Program Activity Descriptions*International commerce*

This program activity manages and delivers commerce services and advice to Canadian business. It helps Canadian business succeed in international markets by providing expert counsel and advice and managing and delivering value-added services to Canadian business pursuing international business opportunities. This work is conducted through support to qualified business clients. The main target groups are Canadian business clients who are currently operating abroad or who have demonstrated a capacity to do so.

Consular affairs

This program activity manages and delivers consular services and advice to Canadians. This work is done through consular agents and officers at missions abroad and through the use of the website, www.voyage.gc.ca. The main target groups are Canadians outside of Canada or Canadians planning to travel or live abroad.

Passport Canada special operating agency (Revolving Fund)

This program activity manages and delivers passport services through the use of the Passport Canada Revolving Fund. It enables the issuance of secure travel documents to Canadians, which facilitates their travel and contributes to international and domestic security. This work is done through the authentication of identity and entitlement of applicants using a diversity of service channels and the production of secure travel documents. The main target group is Canadian travelers.

Strategic Outcome

Canada's International Platform: The Department of Foreign Affairs and International Trade maintains a mission network of infrastructure and services to enable the Government of Canada to achieve its international priorities.

Program Activity Descriptions*Canada's international platform: support at headquarters*

This program activity manages and delivers services and infrastructure at headquarters to enable Canada's representation abroad. This work is done by coordinating with the various branches, bureaus and divisions within DFAIT and with the 27 other partner departments and co-locators who are deployed overseas. The main target group is the Government of Canada network of missions abroad, departmental branches, bureaus and divisions, as well as the 27 partner departments and co-locators.

Canada's international platform: support at missions abroad

This program activity manages and delivers services and infrastructure at missions to enable Canada's repre-

sentation abroad. This work is done by coordinating with the various branches, bureaus and divisions within DFAIT and with the 27 other partner departments and co-locators who are deployed overseas. It ensures that human resources services, financial management services, asset and materiel services, comptrollership services, mail and diplomatic courier services, and acquisition of bandwidth are in place at missions to support Canada's international policy objectives and program delivery abroad. The main target group is the Government of Canada network of missions abroad, departmental branches, bureaus and divisions, as well as the 27 partner departments and co-locators.

Canadian Commercial Corporation

Strategic Outcome

Enhanced market access for Canadian exporters to complex international public sector markets.

Program Activity Descriptions

Aerospace, defence and security branch

This consists of export sales in the aerospace, defence and security sectors. These include sales to all levels of government.

International development branch

This is non-Defence Protection Sharing Agreement (DPSA) and non-aerospace, defence and security business consisting of supply and construction projects in a variety of other sectors and can include sales to all levels of government, federal, state and municipal.

Canadian International Development Agency

Strategic Outcome

Increased achievement of development goals, consistent with Canada's foreign policy objectives.

Program Activity Descriptions

Countries of concentration

Engaging in long-term development assistance programming in countries of concentration to enhance their capacity to achieve development goals, through expertise, dialogue and resources. Such programming involves direct contacts between CIDA and recipient countries and is developed through consultation and co-operation with partners internationally, in Canada and in these countries. It also includes various country programs, projects and development activities as well as policy dialogue.

Fragile states and countries experiencing humanitarian crisis

Programming development and/or humanitarian assistance in fragile states and/or countries in crisis to reduce vulnerability of crisis-affected people and restore capacity of public institutions and society, through different means: government-wide responses, using a variety of mechanisms to respond to the many specific needs and risks or, timely and effective action. In both cases, partnerships with institutional organizations offer flexibility and expertise to provide adequate responses.

Selected countries and regions

The purpose of CIDA's development assistance programming in selected countries and regions, eligible for Canadian international assistance, is to enhance the capacity of these countries and regions to achieve stability and/or development goals and contribute to Canada's international interests, through expertise, dialogue and resources. It can also require linkages and/or partnerships between Canadian partners and their local partners.

Multilateral, international and Canadian institutions

Through its engagement with multilateral, Canadian and international institutions, CIDA seeks to influence institutional policies and practices to strengthen the ability of institutions and to maximize program effectiveness in order to enhance the capacity and effectiveness of partner institutions in achieving development goals. CIDA's engagement includes the provision of expertise and core funding, as well as its participation on decision-making and advisory committees and boards.

Strategic Outcome

Sustained support and informed action by Canadians in international development.

Program Activity Descriptions

Engaging Canadian citizens

Providing opportunities for Canadians to increase their awareness, deepen their understanding, and engage in international development. Canadian engagement is a vital element of effective development. It enables CIDA and its partners to draw from a broad range of expertise and financial resources across the country to implement aid initiatives. It also provides an ongoing basis for commitment on the part of the Government of Canada to international development cooperation.

International Development Research Centre

Strategic Outcome

Stronger capacity in developing countries to research and propose solutions that support sustainable and equitable development and poverty reduction.

Program Activity Descriptions*Conducting development research*

Represents the grants to recipients and in-house work made to scientific and technical research projects that contribute to improving the lives of people in developing countries.

Building research capacity

Services that enhance scientific excellence within development research, including support on problem definition, methodology, research management and linking with relevant audiences. These services also allow International Development Research Centre (IDRC) to monitor projects, share results, and learn from experience.

International Joint Commission**Strategic Outcome**

Prompt and effective prevention and/or resolution of potential disputes under the Boundary Waters Treaty and Great Lakes Water Quality Agreement to ensure they have no negative impact on Canada-US relations.

Program Activity Descriptions*Boundary waters treaty*

The issuing of orders of approval in response to applications for the use, obstruction or diversion of waters that flow along and/or across the boundary if such uses affect the natural water levels or flows on the other side; undertaking investigations of specific issues (references) when requested by governments; and the provision to make binding decisions on matters referred to it by the governments.

Great Lakes water quality agreement

To evaluate progress toward restoring and maintaining the chemical, physical and biological integrity of the waters of the Great Lakes basin ecosystem.

NAFTA Secretariat—Canadian Section**Strategic Outcome**

A highly efficient, impartial and rules-based international trade dispute resolution process that benefits Canadian exporters to NAFTA countries, as well as NAFTA country exporters doing business in Canada.

Program Activity Descriptions*Administration of international trade dispute settlement mechanisms*

Appropriate administration of international trade dispute settlement mechanisms that ensures unbiased administrative processes, security and fairness, while providing quality services. This program includes support to committees and panels, support to the Free Trade Commission as well as liaison and coordination with other national sections.

Note: The full wording of all authorities granted in current year Appropriation Acts, of all authorities granted by statutes other than Appropriation Acts, of all non-lapsing authorities granted / repealed in the current year, and of all authorities available from previous years is given in Section 1 of this volume.

(S) Statutory authority.

(L) Non-budgetary authority (loan, investment or advance).

⁽¹⁾ Treasury Board Vote 5—Government contingencies.

Treasury Board Vote 10—Government-wide initiatives.

Treasury Board Vote 15—Compensation adjustments.

Treasury Board Vote 25—Operating budget carry forward.

Treasury Board Vote 30—Paylist requirements.

⁽²⁾ In accordance with sections 23 and 24 of the *Export Development Act*, the authorized limit of \$20 billion is for loans in support of export development. This authority is available for both budgetary and non-budgetary transactions. However, since the authority is for loans, it is shown as non-budgetary for reporting purposes.

⁽³⁾ Includes the equivalent in Canadian dollars of the total number of callable shares specified in all original agreements.

Strategic Outcome

The Governor General, representing the Crown in Canada, is enabled to fulfill constitutional, state, ceremonial and public duties, including the recognition of excellence.

Program Activity Descriptions

Constitutional, state, ceremonial and public programs

Support to the Governor General for events, visitor services, public affairs, and to support activities performed by former Governors General.

Canadian honours program

The Honours program includes the administration of Canadian orders, decorations, medals and awards as well as the Canadian Heraldic Authority.

Department**Strategic Outcome**

Accessible and sustainable health system responsive to the health needs of Canadians.

Program Activity Descriptions*Canadian health system*

This program activity provides strategic policy advice on health care issues such as improved access, quality and integration of health care services to better meet the health needs of Canadians wherever they live or whatever their financial circumstances. The objective is pursued mindful of long-term equity, sustainability and affordability considerations and in close collaboration with provinces and territories, health professionals, administrators, other key stakeholders and citizens. Improved access, quality and integration of health services administration is achieved through investments in the health system and in health system renewal, for instance by reducing wait times for essential services, by working with provinces and territories to ensure that the principles of the *Canada Health Act* are respected, by developing health information and health measures for Canadians, by meeting the health and health access needs of specific groups such as women and official language minority communities, and by ensuring the implementation of agreements between federal/provincial/territorial Ministers of Health.

Canadian assisted human reproduction

This program activity implements the *Assisted Human Reproduction (AHR) Act*, whose objective is to protect and promote human health, safety, dignity and human rights in the use of AHR technologies. It develops policies and regulations in the area of assisted human reproduction. The science of AHR evolves rapidly and, as a result, the program activity engages stakeholders on an ongoing basis to find a balance between the needs

of patients who use these technologies to help them build their families, the children born from these technologies and the providers of these services with health and safety as the overriding factors. The goal of the policies and regulations is developing a responsive regulatory regime which is a leader both domestically and in the international AHR community, and reflects the objectives put forward in the *AHR Act*. The program activity gathers input from stakeholders, including the provinces, to ensure a pan-Canadian approach.

International health affairs

Health Canada works internationally through leadership, partnerships and collaboration to fulfill its federal mandate of striving to make Canada's population among the healthiest in the world. International Affairs serves as the department's focal point to initiate, coordinate, and monitor departmental policies, strategies and activities that help promote Canadian priorities and values on the international health agenda. International collaboration on global health issues is important given that the health of Canadians is influenced significantly by public health risks originating from other countries. Global issues such as pandemic influenza preparedness, HIV/AIDS strategies and global health security are critical initiatives that are discussed with key external health partners such as the World Health Organization (WHO) and the Pan American Health Organization (PAHO).

Countries and international organizations want to connect quickly to information about Canada's health care system and initiatives. The international affairs program activity strives to share Canada's best policies and practices with other countries, and assists in the development of bilateral agreements with numerous countries on important health issues. This program activity delivers strategic policy advice on international health issues to the Minister of Health, senior management and the Health Portfolio, including appropriate representation at international fora concerning the

health portfolio. It also manages grants to non-profit organizations for projects in the domain of international health that are aligned with Canada's priorities in global health.

Strategic Outcome

Access to safe and effective health products and food and information for healthy choices.

Program Activity Descriptions*Health products*

The Health Products program activity is responsible for a broad range of health protection and promotion activities that affect the everyday lives of Canadians. As the federal authority responsible for the regulation of health products, the program activity evaluates and monitors the safety, quality and effectiveness of drugs (human and animal), biologics, medical devices, and natural health products, under the authority of the *Food and Drugs Act* and Regulations, as well as the *Department of Health Act*. The program activity also provides timely, evidence-based and authoritative information to key stakeholders (including but not limited to: health care professionals such as physicians, pharmacists and practitioners such as herbalists, naturopathic doctors, Traditional Chinese Medicine (TCM) practitioners) and members of the public to enable them to make informed decisions and healthy choices.

Food and nutrition

The Food and Nutrition program activity establishes policies, regulations and standards related to the safety and nutritional quality of food. Food safety standards-quality are enforced by the Canadian Food Inspection Agency (CFIA). The legislative framework for food is found in the *Food and Drugs Act* and Regulations, the *Canadian Food Inspection Agency Act* and the *Department of Health Act*. The program activity also promotes the nutritional health and well-being of

Canadians by collaboratively defining, promoting and implementing evidence-based nutrition policies and standards. As the focal point and authoritative source for nutrition and healthy eating policy and promotion, the program activity disseminates timely, evidence-based and authoritative information to Canadians and stakeholders to enable them to make informed decisions and healthy choices.

Strategic Outcome

Reduced Health and Environmental Risks from Products and Substances, and Healthy, Sustainable Living and Working Environments.

Program Activity Descriptions

Sustainable environmental health

The environment continues to be a key determinant of health for all Canadians. This program activity promotes and protects the health of Canadians by identifying, assessing and managing health risks posed by environmental factors in living, working and recreational environments. The scope of activities includes: research on drinking water quality, air quality, contaminated sites, toxicology and climate change; clean air programming and regulatory activities; risk assessment and management of: chemical substances, environmental noise, environmental electromagnetic frequencies, products of biotechnology and products of other new and emerging technologies (including nanotechnology); solar ultraviolet radiation; preparedness for nuclear and environmental disasters as well as working with the passenger conveyance industry to protect the travelling public.

Under the Chemical Management Plan, Health Canada assesses and regulates chemicals used in industrial and consumer products. Other activities include: implementing a national bio-monitoring system; developing risk management performance agreements with industry sec-

tors; and, strengthening the assessment and management of risks to human health posed by pharmaceuticals, personal care and consumer products, cosmetics and food. Finally, enhanced communications and outreach activities allow Canadians to make better informed decisions about limiting their exposure to potential environmental hazards. Relevant Act includes the *Canadian Environmental Protection Act*.

Consumer products

Health Canada identifies, assesses, manages and communicates to Canadians the health and safety risks associated with consumer products (including domestic, industrial and clinical use products), cosmetics and radiation emitting devices. This is achieved through research, risk assessments and the development of risk management strategies to minimize the exposure of Canadians to potentially hazardous products. Also included are regulatory monitoring and compliance activities as well as information, education and guidance aimed at both industry and the public. Relevant acts include: consumer products (*Hazardous Products Act*), cosmetics (*Food and Drugs Act*) and radiation emitting devices (*Radiation Emitting Devices Act*).

Workplace health

This program activity provides services to protect the health and safety of the federal public sector, visiting dignitaries, and others. Specific programs include: the provision of occupational health services to federal employees; delivery of the Employee Assistance Program; emergency health services to Internationally Protected Persons; dosimetry services (the measurement of personal, occupational exposure to radiation through the reading of “dosimeters” or plaques enclosed in special holders worn by the user for specified periods); and, Workplace Hazardous Materials Information System (WHMIS) a national hazard communication standard, including worker education, inspector training, and standards for cautionary labels.

Substance use and abuse

Through regulatory, programming and educational activities, Health Canada seeks to improve health outcomes by reducing and preventing tobacco consumption and combatting alcohol and drug abuse. Through the Tobacco Act and its regulations, Health Canada regulates aspects of the manufacture and sale of tobacco. It also leads the Federal Tobacco Control Strategy – the goals of which are to: further reduce the prevalence of smoking; decrease the number of cigarettes sold; increase compliance with sales-to-youth laws; reduce exposure to second hand smoke; and, continue to explore ways to regulate the product.

Health Canada administers the *Controlled Drugs and Substances Act* (CDSA) and its regulations. Through four regional labs, Health Canada provides expert scientific advice and drug analysis services to law enforcement agencies. The Marijuana Medical Access Regulations and related programs control the authorization for use and cultivation of marijuana by those suffering from grave and debilitating illnesses. Health Canada is a partner in the government’s anti-drug strategy which includes: prevention programming aimed at youth; facilitating access to treatment programs; compliance and enforcement activities related to controlled substances and precursor chemicals; and, increased resources to Drug Analysis Services commensurate with the increase in law enforcement resources.

Pesticide regulation

To help prevent unacceptable risks to people and the environment, and facilitate access to sustainable pest management tools, Health Canada, through the Pest Management Regulatory Agency, regulates the importation, sale and use of pesticides under the federal authority of the *Pest Control Products Act* (PCPA) and Regulations.

Strategic Outcome

Better health outcomes and reduction of health inequalities between First Nations and Inuit and other Canadians.

Program Activity Descriptions*First Nations and Inuit health programming and services*

The provision of health programs and services by Health Canada to First Nations and Inuit is rooted in the Federal Indian Health Policy. The Department provides health programs and services to First Nations and Inuit as a matter of policy, using the *Annual Appropriations Act* to obtain Parliamentary approval. Together with First Nations and Inuit and other health partners, the First Nations and Inuit Health Branch through its regional offices, delivers public health and community health programs on-reserve, these include environmental health and communicable and non-communicable disease prevention, and provision of primary health care services through nursing stations and community health centres in remote and/or isolated communities to supplement and support the services that provincial, territorial and regional health authorities provide. We also support targeted health promotion programs for Aboriginal people, regardless of residency (e.g. Aboriginal Diabetes Initiative) as well as counselling, addictions and mental wellness services. The Non-Insured Health Benefits coverage of drug, dental care, vision care, medical supplies and equipment, short-term crisis intervention mental health services, and medical transportation is available to all registered Indians and recognized Inuit in Canada, regardless of residency.

Assisted Human Reproduction Agency of Canada**Strategic Outcome**

Protection and promotion of the health and safety of Canadians against the risks associated with assisted human reproduction technologies.

Program Activity Descriptions*Licensing and enforcement of a regulatory framework for assisted human reproduction technologies*

The Assisted Human Reproduction Agency of Canada would achieve this objective by the following means: issuing licences for controlled activities and for facilities used by qualified persons or organizations; assessing applications against licence requirements, including scientific and ethical considerations; conducting periodic inspections of assisted human reproduction clinics, service providers or research to ensure compliance; enlisting the participation or support of other recognized organizations in the development of other supporting policy instruments, for example, standards, guidelines and accreditation models.

Health information and knowledge management for assisted human reproduction technologies

The Assisted Human Reproduction Agency of Canada would achieve this objective by the following means: maintaining a personal health information registry to consolidate health reporting information concerning donors, patients and offspring born of assisted human reproduction procedures to allow for a look-back and trace-back mechanism; providing ongoing reports of assisted human reproduction controlled activities, including success rates by assisted human reproduction clinics and results of research, to enable prospective assisted human reproduction users to make informed de-

isions; and providing public information on assisted human reproduction matters or issues via a public website or in other forms such as brochures.

Canadian Institutes of Health Research**Strategic Outcome**

Canadian health research advances health knowledge and is responsive to current opportunities and priorities.

Program Activity Descriptions*Open research*

Enabling the conduct of health research in emerging areas of science across all disciplines that are relevant to health. This is achieved through managing and launching competitions, based on internationally accepted standards of scientific excellence and a peer review process, to fund grants open to all areas of health research.

Strategic priority research

Enabling the conduct of health research to address strategic health opportunities, threats and challenges to Canadians, identified in consultation with health research partners and aligned with government priorities. This is achieved through managing and launching competitions to fund grants in targeted priority health research areas.

Strategic Outcome

A strong and talented health research community with the capacity to undertake health research.

Program Activity Descriptions

Researchers and trainees

Building the capacity of the Canadian health research community by providing the next generation of multidisciplinary health researchers with training and development support, and providing highly-qualified health researchers with sustained support for scientific careers in health research. This is achieved through managing competitions and programs to fund salary and training awards for health researchers and trainees.

Research resources and collaboration

Strengthening the health research community's ability to conduct research by supporting research-enabling activities and resources. This includes: supporting large teams of researchers from across disciplines in resolving some of the most complex health problems facing Canadians; engaging in collaborative activities such as networking between researchers; and providing and maintaining state-of-the-art tools to conduct research such as new equipment, databases and other specialized resources. This is achieved through managing and launching competitions and programs to fund grants that give researchers the resources to better undertake their research.

National and international partnerships

Developing strong national and international partnerships, through CIHR's thirteen Institutes, to advance strategic health research priorities, and leverage funding and expertise for research. These partners include health policy-makers at provincial and federal levels of government, the private sector, and voluntary health organizations from Canada and abroad. This is achieved through funding grants to support Institute activities, and managing competitions to fund partnered research projects and the participation of Canadian scientists in international research collaborations.

Ethical, legal and social issues

Enabling the conduct of research on ethical, legal and social issues pertaining to health and health research, and the application of ethical principles to health research. This is achieved through managing competitions to fund grants for research on health-related ethical, legal and social issues, and conducting consultations to enable dialogue and greater public engagement.

Strategic Outcome

Health research is translated and adopted into practice, programs and policies that offer more effective health services and products, a strengthened health care system, and the improved health of Canadians.

Program Activity Descriptions

Knowledge translation of health research

Enabling the effective dissemination and exchange of health research knowledge, and the application of health research results discoveries to lead to improvements in the Canadian health system and overall health of Canadians. This is achieved through managing competitions and programs to fund grants for translating health research discoveries into new or more effective health policy or practice, and for building increased knowledge translation capacity in Canada's health research community.

Commercialization of health research

Encouraging innovation and facilitating the commercialization of health research in Canada into new health products and services. This is achieved through managing competitions to fund grants for supporting the commercialization of health research, in partnership with the private sector, and for building increased commercialization capacity in Canada's health research community.

Hazardous Materials Information Review Commission

Strategic Outcome

Trade secret exemptions are provided in a way that balances the right of industry to protect their confidential business information with the right of workers to receive accurate information concerning the health and safety hazards posed by chemicals in the workplace.

Program Activity Descriptions

Claims exemption process

Under this activity, the Hazardous Materials Information Review Commission registers claims for exemption received from a supplier or employer who wishes to withhold confidential business information, decides on the validity of the claim, adjudicates and issues decisions on the compliance of the material safety data sheet (MSDS) or label to which the claim relates, and administers an appeal process to these decisions.

Patented Medicine Prices Review Board

Strategic Outcome

Canadians and their health care system are protected from excessive pricing for patented medicines sold in Canada and are informed on pharmaceutical trends.

Program Activity Descriptions

Pharmaceutical trends

Through this program activity, the Patented Medicine Prices Review Board (PMPRB) provides analysis of pharmaceutical price trends and research and development spending by pharmaceutical patentees. It also provides critical analyses of price, utilization and cost trends for prescription drugs, and information on

non-patented prescription drug prices. The PMPRB reports on this information and its price review and enforcement activities as they relate to excessive pricing for patented medicines, both annually to Parliament, through the Minister of Health, and through special published studies.

Compliance and enforcement of non-excessive pricing for patented medicines

The PMPRB is responsible for regulating the prices that patentees charge for patented drugs sold in Canada to wholesalers, hospitals, pharmacies or others, for human and veterinary use. Through this program activity, the PMPRB reviews the prices that patentees charge for patented drugs, based on the price review factors in the *Patent Act*, to ensure that these prices are not excessive. In the event that the Board finds, following a public hearing, that a price is excessive in any market, it may order the patentee to reduce the price and take measures to offset any excess revenues it may have received as a result of excessive prices.

Public Health Agency of Canada

Strategic Outcome

Healthier Canadians, reduced health disparities, and a stronger public health capacity.

Program Activity Descriptions

Health promotion

In collaboration with partners, the Public Health Agency of Canada supports effective actions to promote healthy living, build healthy communities and address the key determinants of health and major risk factors for chronic disease, by contributing to knowledge development, fostering collaboration, and improving information exchange among sectors and across jurisdictions.

Chronic disease prevention and control

Working in cooperation with regional, provincial/territorial, national and international governments and stakeholders (including non-governmental organizations), the program provides national population health assessment and surveillance in relation to chronic diseases. It also provides and supports leadership and expertise in the development and implementation of pan-Canadian chronic disease prevention, control and management strategies. This program is necessary because chronic diseases are among the most common, preventable and costly health problems facing Canadians.

Infectious Disease Prevention and Control

The program promotes improved health for Canadians in the area of infectious diseases through public health actions including surveillance and epidemiology, risk management, public health policy development, and prevention and care programs. This program is necessary as infectious diseases require national attention and national efforts given their current and potential impact on the health of Canadians and the Canadian health care system, and also because new, existing, or re-emerging infectious diseases can pose a serious threat to the health and socio-economic well-being of Canadians.

Emergency preparedness and response

The Agency is a national focal point for anticipating, preparing for, responding to and facilitating recovery from public health consequences of natural disasters or human caused emergencies. The program applies the legislative and regulatory provisions of *The Quarantine Act*. Partnering with Health Canada, other federal departments, the provinces and territories, international organizations and the voluntary sector, the Agency provides leadership in addressing emerging threats through surveillance, risk analysis, and risk management; and implements preparedness priorities.

The program manages and supports the development of health-related emergency response plans, including the National Influenza Response Plan. It develops and sponsors emergency preparedness training, and coordinates counter-terrorism preparations for incidents involving hazardous substances. It provides emergency health and social services, and manages the National Emergency Stockpile System.

Strengthen public health capacity

Working with national and international partners, the Agency develops and provides tools, applications, practices, programs and understandings that support and develop the capabilities of front-line public health practitioners across Canada. The Agency facilitates and sustains networks with provinces, territories, and other partners and stakeholders to achieve public health objectives. The Agency's work improves public health practice, increases cross-jurisdictional human resources capacity, contributes to effective knowledge and information systems, and supports a public health law and policy system that evolves in response to changes in public needs and expectations.

Department**Strategic Outcome**

Policies and programs that meet human capital and social developments needs of Canadians.

Program Activity Descriptions*Policy, research and communication*

Provides strategic policy leadership by promoting key human resources and social development policies of the Government of Canada, developing and implementing key Departmental frameworks and strategies, and by engaging and collaborating with our partners and Canadians through public involvement and by advancing knowledge development. This activity plays a vital role to support the achievement of HRSD's priorities and outcomes by communicating with and engaging Canadians and building strong relationships with stakeholders. The operating expenditures are funded from the Departmental Reference Levels, the Employment Insurance Account and the Canada Pension Plan Account.

Strategic Outcome

Enhanced Canadian productivity and participation through efficient and inclusive labour markets, competitive workplaces and access to learning.

Program Activity Descriptions*Labour market*

Comprised of Employment insurance and Labour market programs. Employment insurance programs promote individual well being, economic stability, and a flexible labour market by providing temporary income support to unemployed workers who qualify under Part I of the *Employment Insurance Act*. Employment insurance encompasses a wide range of benefits to ad-

dress the needs of workers and the labour market, including Canadians who are sick, pregnant, or caring for new born or adopted child, as well as those who must care for a family member who is seriously ill with a significant risk of death.

Labour market programs provide programs and services that are funded from Departmental Reference Levels and for those programs established under Part II of the *Employment Insurance Act*, the Employment Insurance Account. These enable Canadians, including unemployed adults and targeted groups, such as youth and Aboriginal peoples, to develop their skills and encourage them to invest in themselves and become self-reliant and more adaptable to labour market changes.

The operating expenditures are funded from the Departmental Reference Levels and the Employment Insurance Account.

Learning

Assists Canadians to acquire the education and skills that will enable them to participate in a knowledge-based economy and society. In doing so, the program works in close partnership with the provinces and territories, voluntary sector, financial institutions, service providers and other key stakeholders to increase awareness of, preparedness for and access to lifelong learning opportunities by reducing financial and non-financial barriers for today's and tomorrow's learners. Programs within this area are delivered nationally and include statutory and voted programs. In terms of statutory programs, the Canada Student Loans Program promotes accessibility to post-secondary education through the provision of loans and grants to students with demonstrated financial needs. The Program also offers debt management measures to help borrowers with repayment. The Canada Education Savings Program promotes and encourages Canadians to save for a child's post-secondary education through Regis-

tered Education Savings Plans by providing grants. In terms of voted programs, the International Academic Mobility initiative administers contribution programming in the area of international student mobility. The operating expenditures are funded from the Departmental Reference Levels and the Employment Insurance Account.

Workplace skills

Collaboration with industry partners and stakeholders through Workplace Partnerships to identify, address, and promote workplace skills development. Workplace Skills improves immigrant integration outcomes through Foreign Workers and Immigrants such as Foreign Credential Recognition, the Immigration Portal, and the Foreign Worker Program. Workplace Skills also develops and disseminates knowledge and information, which is vital to inform a well-functioning labour market through Skills and Labour Market Information, including National Occupational Classification, Essential Skills, and Labour Market Information. Funding is administered through voted contributions. The operating expenditures are funded from the Departmental Reference Levels and the Employment Insurance Account.

Strategic Outcome

Safe, healthy, fair, stable, cooperative, productive workplaces and effective international labour standards.

Program Activity Descriptions*Labour*

This Program promotes and sustains stable industrial relations and a safe, fair, healthy, equitable, and productive workplace within the federal labour jurisdiction. It collects and disseminates labour and workplace information, represents Canada at international labour

activities, fosters constructive labour-management relationships and ensures that minimum labour standards and occupational health and safety protections are enforced. The Labour Program's federal jurisdiction mandate reaches an estimated 46,000 Canadian workplaces and up to 1,132 million employees. Many of the stakeholders of the Labour Program are sophisticated and well organized, whether through unions or through business associations. These organizations are well informed and intensely concerned with all aspects of labour policy. Beyond the federal jurisdiction, the Labour Program relates to a wide variety of business, labour and other non-governmental organizations representing the different interests of Canadians on both national and international issues. The average worker has a different perspective of the Labour Program, which is to rely on the Labour Program to protect his or her rights at work. Employees who are dismissed or who are not properly paid their wages, and who have no union to represent their interests, must turn to a Labour Program officer for assistance. Similarly, employees rely on Labour Program officials to protect their health and safety at work by promoting a culture of health and safety, including the use of workplace health and safety committees, and by the enforcement of the right to refuse dangerous work and other rights related to occupational health and safety. Similarly, Aboriginal Canadians, visible minorities, women and the persons with disabilities look to the Labour Program to promote equity in their employment opportunities. The operating expenditures are funded from the Departmental Reference Levels and the Employment Insurance Account.

Strategic Outcome

Enhanced income security, access to opportunities, social inclusion and well being for individuals, families and communities.

Program Activity Descriptions

Social investment

Provides Canadians with pensions and benefits for retirement, death, and disability through the *Old Age Security Act* and the *Canada Pension Plan*. It also includes Social investment programs, policies, and grants and contributions designed to ensure that children, families, seniors, communities, and people with disabilities are provided with knowledge, information, and opportunities to move forward with their own solutions to social and economic challenges.

The operating expenditures are funded from the Departmental Reference Levels and the Canada Pension Plan Account.

Children and families

Provides support to families to ensure all children have the best possible start in life; that parents have choice in childcare, to ensure the needs of those who provide care to loved ones are taken into account and that families' economic security is sustained.

This activity also undertakes specific initiatives supported by multilateral agreements between the federal government and provinces and territories through programs such as the Canada's Universal Child Care Plan, the National Child Benefit, and Multilateral Framework on Early Learning and Child Care.

The operating expenditures are funded from the Departmental Reference Levels

Housing and homelessness

Provides programs and services that assist communities in helping homeless individuals and families, as well as those at risk of homelessness, move towards self-sufficiency, thereby contributing to society and the economy. This is accomplished through partnerships

with all levels of government, the voluntary and private sectors, foundations, faith-based communities and unions. The activity accomplishes its objectives through the Homelessness Partnering Strategy, a class contribution and class grant program. The four class contribution programs are: Homelessness Partnership Initiative – Designated Communities, Homelessness Partnership Initiative – Outreach Communities, Homelessness Partnership Initiative – Aboriginal Communities, and Homelessness Partnership Initiative – Federal Horizontal Pilot Projects. The Homelessness Knowledge Development Program is a class contribution and class grant program that addresses the gaps and priorities in knowledge around issues of homelessness in Canada. The Surplus Federal Real Property for Homelessness Initiative, whose funds are administered through Public Works and Government Services Canada, provides surplus federal properties to communities across Canada to address their local homelessness-related needs. The operating expenditures are funded from the Consolidated Revenue Fund.

Strategic Outcome

Achieve better outcomes for Canadians through service excellence.

Program Activity Descriptions

Seamless, citizen-centred service

Develops service policies and client community strategies; conducts research and analysis pertaining to citizens and communities' needs and expectations; develops new service offerings and improves existing ones; and delivers one-stop, easy-to-access, personalized services by phone, Internet, and In-person.

The operating expenditures are funded from the Departmental Reference Levels, the Employment Insurance Account and the Canada Pension Plan Account.

Integrity

Enhances and strengthens the integrity of programs to ensure that the right person or organization receives the right service or benefit at the right time, and for the intended purpose. It implements the Social Insurance Number and the Social Insurance Registry as the foundation for a safe and secure common identifier, develops integrity risk management strategies that will address operational risk and lead to the reduction of payment errors, and processes grants and contributions, individual benefits and mail service requests. The operating expenditures are funded from the Departmental Reference Levels, the Employment Insurance Account and the Canada Pension Plan Account.

Collaborative, networked government service

Implements a government-wide, collaborative, networked business approach to delivering citizen-centred service to Canadians by working with other federal departments and agencies, other levels of government, and community partners, sharing information, adopting interoperable systems and infrastructures, providing secure management of citizen's personal information and respect of their privacy, and increasing the accuracy of the Social Insurance Registry through more timely and complete updates with vital statistics organizations.

The operating expenditures are funded from the Departmental Reference Levels, the Employment Insurance Account.

Canada Industrial Relations Board**Strategic Outcome**

To resolve labour relations issues in federally regulated sectors submitted to the Canada Industrial Relations Board, in a timely, fair and consistent manner.

Program Activity Descriptions*Labour relations resolution program*

Through this program, the Canada Industrial Relations Board (CIRB) exercises its statutory powers relating to the administration and interpretation of Part I (Industrial Relations) and certain provisions of Part II (Occupational Health and Safety) of the Canada Labour Code. It undertakes a wide range of industrial relations activities in matters related to federal jurisdiction industries. These activities include the granting, modification and termination of bargaining rights; the investigation, mediation and adjudication of complaints alleging violation of provisions of the Canada Labour Code; the interpretation of technological change provisions affecting the terms and conditions or security of employment of employees and the exercise of ancillary remedial authority; the exercise of cease and desist powers in cases of unlawful strikes or lock-outs; the settlement of the terms of a first collective agreement; the review of health and safety officers' decisions that are referred to the Board; the provision of advice and recommendations relative to the statutory powers of the Board; the provision of administrative services to these ends.

Canada Mortgage and Housing Corporation**Strategic Outcome**

Increased availability of safe, affordable housing for Canadians in need, including Aboriginal Canadians.

Program Activity Descriptions*Assisted housing programs*

Financial assistance is provided to individuals and groups under long term agreements, which helps to

provide suitable, adequate and affordable housing to low and moderate income Canadians. This program activity also includes funding provided to provinces/territories under Social Housing Agreements. Provinces and territories signing Social Housing Agreements with the Government of Canada are subject to national principles and an accountability framework that ensures targeted federal funding is used for housing low-income households.

Affordable housing initiative

The Affordable Housing Initiative is aimed at increasing the supply of affordable housing for low to moderate income households. Affordable housing may include interventions such as construction, renovation, rehabilitation, conversion, home ownership, new rent supplements and supportive housing programs. The provinces and territories deliver and administer the programs financed by this initiative. The funding for this program is in the form of a contribution and is provided for provincially/territorially-designed programs.

On-reserve housing programs

Financial assistance is provided to First Nations under long term agreements, which helps to provide suitable, adequate and affordable rental housing in reserve communities. In addition, assistance is provided to bring housing occupied by low-income households up to basic health, safety and mobility standards. This program activity also includes funding to facilitate the acquisition of knowledge, skills, training and resources that will allow Aboriginal people to work towards self-sufficiency in housing and take on more responsibility for the functioning of housing within their community. The funding for these programs is primarily in the form of a subsidy, for up to 25 years, to assist projects with their financing and operation.

Housing repair and improvement programs

Canada Mortgage and Housing Corporation's (CMHC) Residential rehabilitation assistance program helps to bring housing occupied by low-income homeowners, renters and persons with disabilities up to basic health, safety and mobility standards, and facilitates the conversion of non-residential buildings to residential use. Housing repair and improvement programs also include the Emergency repair program, which offers financial assistance to low-income Canadians in rural areas to undertake emergency repairs to their homes, and the Home adaptations for seniors independence program, which provides low-income seniors with financial assistance to carry out minor home adaptations. The Shelter enhancement program provides financial assistance to rehabilitate, repair, improve or build emergency shelters for victims of family violence. The funding for these programs is primarily in the form of a forgivable loan. The total forgivable loan depends on the cost of the repairs and area of the country.

Research and information dissemination that addresses distinct housing needs, including those of Aboriginal people

CHMC conducts research and disseminates information on issues regarding specific populations with distinct housing needs, including Aboriginal people, homeless people, low-income people, newcomers (immigrants and refugees), people with disabilities and seniors.

Strategic Outcome

Strengthened competitiveness and innovation of the housing sector in order to meet the housing needs of Canadians.

Program Activity Descriptions

Canadian housing market research and analysis

CMHC collects, analyzes and disseminates housing market information that facilitates informed housing-related decisions by those in the industry, the public at large and CMHC. This includes the provision of housing market data, analysis and forecasts through publications, conferences, seminars, industry roundtables and custom data services. To meet client information needs, CMHC undertakes various surveys of: starts and completions; market absorption; rental market; mortgage approvals; and consumer intentions to buy or renovate a home.

Research and information dissemination to promote desirable housing market outcomes and improve building performance

CMHC investigates ways to ensure the supply of affordable housing finance, make housing finance more inclusive, encourage the supply of affordable housing and move the housing system forward. CMHC also conducts technical research to address moisture and the indoor environment, the durability performance of residential buildings and disasters.

Strategic Outcome

The Canadian housing system remains one of the best in the world.

Program Activity Descriptions

International activities

Housing sector well-being is further promoted through support to the industry, which enables Canadian companies to secure international business opportunities and diversify their share of housing export markets. CMHC will seek to increase Canadian housing exports by help-

ing companies expand into promising markets, bring together key Canadian clients with pre-selected prospective buyers abroad, promote awareness and recognition of Canadian housing approaches, support foreign delegations seeking information on Canada's housing system and provide assistance to emerging economies to assess and improve their housing environment.

Research and information dissemination to promote sustainable housing and communities, as well as lead the development and implementation of federal housing policy

CHMC conducts research on energy and environmental solutions for residential buildings, residential water quality and use, unique technical problems of remote and northern housing, sustainable community planning and design, and housing and population health. As mandated, CMHC develops and implements federal housing policy in support of Government of Canada priorities and objectives.

Emergency planning

CMHC ensures that Business Resumption Plans are in place and tested to ensure effective and timely resumption of normal business operations following a business interruption impacting the Corporation's business operations and commitments to stakeholders, with particular emphasis on restoring mission-critical business functions first.

Canadian Artists and Producers Professional Relations Tribunal

Strategic Outcome

The rights of artists and producers under Part II of the *Status of the Artist Act* are protected and respected.

Program Activity Descriptions*Certification, complaints and determination program*

This program deals with applications for certification, revocation of certification, review, determination, and consent to prosecute, and with complaints of unfair practices, brought forward by artists, artists' associations or producers under Part II of the *Status of the Artist Act*, which governs professional relations between self-employed artists and producers.

Canadian Centre for Occupational Health and Safety**Strategic Outcome**

Improved workplace conditions and practices that enhance the health, safety, and well being of working Canadians.

Program Activity Descriptions*Occupational health and safety information development, delivery services and tripartite collaboration*

The goal of this program is to provide free information on occupational health and safety to support Canadians in their efforts to improve workplace safety and health. Citizens are provided information through a free and impartial personalized service via telephone, e-mail, person-to-person, fax or mail. Alternatively they can independently access a broad range of electronic and print resources developed to support safety and health information needs of Canadians. This may include cost

recovery products and services and is supported financially by contributions from various stakeholders.

Through health and safety information development, the Canadian Centre for Occupational Health and Safety (CCOHS) collects, processes, analyzes, evaluates, creates and publishes authoritative information resources on occupational health and safety for the benefit of all working Canadians. This information is used for education and training, research, policy development, development of best practices, improvement of health and safety programs, achieving compliance and for personal use. Various levels of service are available from free to purchase of products and services. When the product or service provided by CCOHS is provided to identified external recipients with benefits beyond those enjoyed by the general taxpayer, a user fee is charged.

CCOHS promotes and facilitates consultation and cooperation among federal, provincial and territorial jurisdictions and participation by labour, management and other stakeholders in the establishment and maintenance of high standards and occupational health and safety initiatives for the Canadian context. The sharing of resources results in the coordinated and mutually beneficial development of unique programs, products and services. Collaborative projects are usually supported with a combination of financial and non-financial contributions to the programs by stakeholders and result in advancement of the health and safety initiatives.

Note: The full wording of all authorities granted in current year Appropriation Acts, of all authorities granted by statutes other than Appropriation Acts, of all non-lapsing authorities granted / repealed in the current year, and of all authorities available from previous years is given in Section 1 of this volume.

(S) Statutory authority.

(L) Non-budgetary authority (loan, investment or advance).

⁽¹⁾ Treasury Board Vote 5—Government contingencies.

Treasury Board Vote 10—Government-wide initiatives.

Treasury Board Vote 15—Compensation adjustments.

Treasury Board Vote 25—Operating budget carry forward.

Treasury Board Vote 30—Paylist requirements.

⁽²⁾ The breakdown of *Old Age Security Act* payments into Old Age Security, Guaranteed Income Supplement and Allowance are estimates. Nevertheless, the total of these three amounts represents the actual expenditures.

Strategic outcome and program activity descriptions . . .	15.2
Ministry summary	15.5
Program activity	15.11
Transfer payments	15.13
Revenues	15.18

Department**Strategic Outcome**

The Government – Good governance, effective institutions and cooperative relationships for First Nations, Inuit and Northerners.

Program Activity Descriptions*Governance and institutions of Government*

Fostering stronger governance and institutions of Government through supporting legislative initiatives, programs and policies, and administrative mechanisms that foster stable, legitimate and effective First Nations and Inuit governments that are culturally relevant, provide efficient delivery of services and are accountable to their citizens.

Co-operative relationships

Building co-operative and productive intergovernmental and treaty relationships with First Nations and Inuit to optimize the pursuit and attainment of shared objectives; the reconciliation of Aboriginal and other interests through researching, assessing, negotiating and implementing claims and self-government agreements; the furthering of common understanding regarding the historic treaty relationship; and developing legislative and administrative arrangements that reflect evolving governance capacities and relations.

Claims settlements

Payments for the settlement of special, specific and comprehensive claims.

Northern governance

Supports strengthening northern governments through devolution of province-like responsibilities, effective intergovernmental mechanisms and management of strategic issues, as well as strengthened intergovern-

mental cooperation internationally on circumpolar issues.

Strategic Outcome

The People – Strengthened individual and family well-being for First Nations, Inuit and Northerners.

Program Activity Descriptions*Managing individual affairs*

Professionally managing individual First Nations' affairs to ensure that the Minister's responsibilities under the *Indian Act* for trust funds, membership and estates are properly exercised.

Education

Supports the provision of: elementary/secondary education services consistent with provincial programs and standards, contributing to increased levels of educational attainment and improved employability for First Nations and Inuit students; special education directed to improve the quality of education and level of support services for eligible students with special needs that are reasonably comparable with provincial levels of support services; and financial support for status Indians to participate in post-secondary education studies to increase levels of participation, achievements and employability.

Social development

Supports the provision of: income assistance to meet basic needs for food, clothing and shelter to ensure the safety and well-being of individuals and families consistent with provincial programs and standards; First Nations child and family services to improve their well-being and security; assisted living for social support services of a non-medical nature such as in-home care, short term respite care, foster care and institutional care to improve their well-being and security; Family violence program to improve safety and secu-

ity, particularly of women and children at-risk; National Child Benefit Re-investment to support low-income families with children to help prevent or reduce the depth of child poverty; and other social services to build capacity for First Nations to assume responsibility for, and jurisdiction over social development through policy development, program design and service delivery, to build self-reliant, sustainable, healthy and stable First Nation communities.

Healthy northern communities

Supports improvements in the health and well-being of Northerners through grants for hospital and physician services for Indian and Inuit residents in the Northwest Territories and Nunavut, the transportation of nutritious perishable foods and other essential items to isolated northern communities at reduced rates, the conduct of research into the sources and effects of contaminants on the Arctic food chain and initiatives to assist Northerners deal with broad issues such as the impacts of climate change.

Strategic Outcome

The Land – Sustainable use of lands and resources by First Nations, Inuit and Northerners.

Program Activity Descriptions*Clarity of title to land and resources*

This activity includes: additions to reserve; ensuring clarity of title to facilitate future land transactions through surveys, negotiated agreements; and implementing land transfers under specific and comprehensive claims.

Responsible federal stewardship

This activity includes: discharging federal responsibilities to First Nations, such as under the *Indian Act* and the *Indian Oil and Gas Act* and associated regulations; discharging responsibilities and coordinating with

other government departments with similar responsibilities, such as Environment Canada; remediating contaminated sites under federal jurisdiction; and collecting and managing Indian monies from land and resources activities.

First Nations governance over land, resources and the environment

This activity includes: supporting First Nations in the development of professional and institutional capacity, including working with emerging First Nations' institutions and professional associations; supporting the development of sectoral self-government options and agreements; and working with First Nations to implement such agreements, for instance working jointly with the Lands Advisory Board to implement the *First Nations Land Management Act*.

Northern land and resources

Supports the sustainable development of the North's natural resources, emphasizing improved environmental management and stewardship, including the clean-up of contaminated sites, expanding the knowledge base for sound decision-making and improving the effectiveness of the northern regulatory environment.

Strategic Outcome

The Economy – Aboriginal people and Northerners close the economic gap.

Program Activity Descriptions

Economic and employment opportunities for Aboriginal people

Supports the expansion of economic and employment opportunities for Aboriginal peoples in both the public and private sectors. Supports and promotes goods and services contracting opportunities for Aboriginal businesses.

Economic development

Economic development programs facilitate economic development opportunities and the development/implementation of economic development strategies.

Community infrastructure

Supports the provision of funding for the acquisition, construction, operation and maintenance of: community facilities such as roads, bridges, water and sewer, and administration offices; education facilities, such as schools and teacherages; remediation of contaminated sites on reserve; and on-reserve housing.

Northern economy

Supports sustainable economic growth of the territorial economies through investments in innovation and knowledge and regional development programming, advocacy and activities, which lead to Northerners participating and benefiting from resource development.

Strategic Outcome

Office of the Federal Interlocutor – Promoting collaborative engagement of government and stakeholders, resulting in demonstrative improvement in socio-economic conditions of Métis, non-status Indians, and urban Aboriginal people.

Program Activity Descriptions

Co-operative relations

Supports strengthening of effective interdepartmental and intergovernmental (federal/provincial/territorial/municipal) relations; pursue cooperative relations with Métis, non-status, off-reserve and urban aboriginal organizations to optimize the pursuit and attainment of shared objectives; proactive management of strategic issues related to Métis, non-status Indians and urban Aboriginal people.

Canadian Polar Commission

Strategic Outcome

Increased Canadian polar knowledge.

Program Activity Descriptions

Research facilitation and communication

Research facilitation and communication.

First Nations Statistical Institute

Strategic Outcome

First Nations, governments and other interested parties will have accurate, and relevant statistical information and analysis on the fiscal, economic and social conditions of First Nations.

Program Activity Descriptions

Data gathering and analysis

Provide statistics and analysis on the socio-economic conditions of Indians, First Nations, Aboriginal groups, and others residing on reserve or Aboriginal lands.

Sound quality and practices

Promote the quality, coherence and compatibility of First Nations statistics with accepted standards through collaboration with First Nations and other organizations, and build statistical capacity within First Nation governments.

Outreach

Work with, and provide advice to, federal departments and agencies and provincial departments and agencies on First Nation statistics.

Indian Residential Schools Truth and Reconciliation Commission Secretariat

Strategic Outcome

Disclosure and recognition of the truth regarding Indian Residential Schools furthers healing and reconciliation for the individuals and communities affected.

Program Activity Descriptions

Truth and reconciliation

This program supports the research, truth, healing and commemoration undertakings of the Truth and Reconciliation Commission Secretariat. This program, which is part of Canada's obligations under the Indian Residential Schools Settlement Agreement, will include the creation of a historic record of the Indian Residential Schools system and legacy, as well as truth taking, healing and commemoration events. This program has funding for five years, after which it will wind down.

Indian Specific Claims Commission

Strategic Outcome

Fair resolution of specific claims.

Program Activity Descriptions

Conduct inquiries and provide mediation services

The Commission conducts impartial inquiries when a First Nation disputes rejection of their specific claim by the Minister of Indian Affairs and Northern Development, or when a First Nation disagrees with the compensation criteria proposed by Government in negotiating the settlement of their claim. As well as

conducting formal inquiries, the Commission, at the request of the Government and First Nation, provides or arranges such mediation services as may in their opinion assist them to reach an agreement in respect of any matter relating to an Indian specific claim.

Office of Indian Residential Schools Resolution of Canada

Strategic Outcome

Reconciliation between Indian residential school survivors and the Government of Canada.

Program Activity Descriptions

Claims resolution

To centralize and focus federal efforts to resolve claims associated with the operation of the former Indian residential school system in the most expeditious way possible.

Registry of the Specific Claims Tribunal

Strategic Outcome

Efficient administration of the Specific Claims Tribunal.

Program Activity Descriptions

Registry Services

Facilitates timely access to the Specific Claims Tribunal through client service, quality of advice, and efficient and timely processing, and unbiased service delivery.

Department**Strategic Outcome**

A fair, efficient and competitive marketplace.

Program Activity Descriptions*Strategic policy sector – Marketplace*

Carries out research and analysis on a range of marketplace framework policies, laws and regulations; provides strategic information and advice to the Minister and Deputy Minister; and develops policy options, including legislation and regulations. These policies have a direct impact on Canadian businesses, as they set the conditions under which companies operate in the marketplace.

Small business and marketplace services and regional operations sector – Marketplace

Development of instruments and compliance with the marketplace framework. Delivers strong and effective regulatory regimes through regulations, policies, procedures and standards including management of Canada's radio frequency spectrum.

Spectrum, information technologies and telecommunications sector – Marketplace

Develops regulations, policies, procedures and standards governing Canada's spectrum and telecommunications industries and the digital economy.

Office of consumer affairs

Works with the public and private sectors, using information, research and policy instruments to complement and support consumer protection regulation. The program is in accordance with Section 5 of the *Department of Industry Act*, which directs the Minister to promote the interests and protection of Canadian consumers, and with Chapter 8 of the Agreement on Internal Trade (Consumer-Related Measures and Standards).

Competition Bureau

An independent law enforcement agency responsible for the administration and enforcement of the *Competition Act*, the *Consumer Packaging and Labelling Act*, the *Textile Labelling Act* and the *Precious Metals Marking Act*. Promotes and maintains fair competition so that Canadians can benefit from competitive prices, product choice and quality services. Headed by the Commissioner of Competition, the organization investigates anti-competitive practices and promotes compliance with the laws under its jurisdiction.

Canadian Intellectual Property Office – Revolving Fund

Administers Canada's system of intellectual property (IP) rights, namely patents, trademarks, copyright, industrial designs and integrated circuit topographies. Grants and registers IP rights as well as disseminates information related to these rights to businesses, educational institutions and Canadians in general. Operates under a Revolving Fund regime and aims to accelerate Canada's economic development.

Strategic Outcome

An innovative economy.

Program Activity Descriptions*Science and innovation sector – Science and technology (S&T) and innovation*

Develops science and technology policies to enhance Canada's research and innovation capacity through promotion of investments in research and skills development, and by ensuring the technology adoption capacity of the marketplace.

Industry sector – Science and technology (S&T) and innovation

Provides value-added knowledge and expertise about Canadian industries to create conditions for research

and development and commercialization, support innovation, encourage and promote technologies, and to strengthen synergies between industry and government.

Spectrum, information technologies and telecommunications sector – Science and technology (S&T) and innovation

Support of advanced and applied research within the Canadian information and communications technologies sector for the development of innovative technologies.

Communications Research Centre Canada

Conducts research on advanced telecommunications and information technologies to ensure an independent source of advice for public policy and to support the development of new products and services for the information and communications technologies sector.

Industrial technologies office – Special operating agency

Administers and delivers the Strategic Aerospace and Defence Initiative, the Program for Strategic Industrial Projects, and the h2 Early Adopters Program, as well as manages the remaining contribution agreements under the Technology Partnerships Canada program. Its objective is to accelerate technological innovation in Canadian companies to improve their competitiveness and productivity, while assuring sustainable development.

Strategic Outcome

Competitive industry and sustainable communities.

Program Activity Descriptions*Strategic policy sector – Economic development*

Carries out research and analysis on issues relating to industrial competitiveness and sustainability, provides strategic information and advice to the Minister and

Deputy Minister, and contributes to the development of policy options. These policies have a direct impact on Canadian businesses, as they influence the conditions under which companies compete.

Small business and marketplace services and regional operations sector – Economic development

Supports and enhances the role and contribution of small and medium-sized enterprises to Canada's economic well-being, and provides regional intelligence and presence across Canada as well as the delivery of programs, services, and information.

Industry sector – Economic development

Provides value-added knowledge and expertise about Canadian industries to position Canada as an ideal environment for foreign direct investment, ensure a strong link in global value chains, and assist firms to strengthen global partnerships and business capacity to respond to risks and opportunities.

Spectrum, information technologies and telecommunications sector – Economic development

Supports the development of a competitive information and communications technologies (ICT) industry in Canada. It also facilitates the use of reliable, modern ICT infrastructure to promote the full participation of Canadians and communities in the digital economy.

MacKenzie gas project

The MacKenzie Gas Project (MGP) is a proposed 1,220-kilometre natural gas pipeline system through the Mackenzie Valley in the Northwest Territories that will connect northern onshore gas fields with North American markets. The project has the potential to make key contributions to Canada's role as an energy superpower.

Canadian Space Agency

Strategic Outcome

Canada's presence in space meets the needs of Canadians for scientific knowledge, space technology and information.

Program Activity Descriptions

Space awareness and learning

The program activity objective is to further public understanding and engagement with regards to space related issues, ultimately leading to improving the scientific literacy of Canadians by carrying out a national awareness and learning initiative in support of the Canadian Space Program (CSP).

Space based earth observation

The program activity objective is to develop and operationalize the use of space earth observation (EO) for the benefit of Canadians, especially in the fields of environment, resource and land use management, as well as security and foreign policy. In doing so, the CSA will maintain and expand Canada's leadership in EO technologies to obtain the timely, relevant and essential information we need to make judicious decisions about our collective future in collaboration with national and international partners that share our needs and goals.

Space science and exploration

The program activity objective is to better understand the solar system and the Universe; expand our knowledge on the constituent elements and origins of life; and strengthen a human presence in space. In doing so, the CSA will sustain and increase Canada's contribution to humankind's scientific knowledge, to the exploration of our solar system and the Universe and to the development of related technologies. This will advance supporting technologies and our fundamental and applied

knowledge of chemistry, physics, and life sciences by carrying out leading-edge experiments in the unique environment of space.

Satellite communications

The program activity objective is to provide all Canadians with the means to participate in and fully benefit from the global information age. In doing so, the CSA will uphold Canada's status as a world leader in satellite communications (SC) and extend the most advanced products and services to all Canadians, everywhere.

Generic technological activities in support of earth observation, space science and exploration and satellite communications

Provide leadership, coordination or support to earth observation (EO), space science and exploration (SE) and satellite communications (SC) through activities that are generic in their nature since they contribute to all three program activities.

Canadian Tourism Commission

Strategic Outcome

Maximize the contribution to the economy of Canada from the tourism sector by increasing tourism activities in Canada and contributing to the world competitiveness of the Canadian tourism industry.

Program Activity Descriptions

Information

The Information program is fundamental to the success of the Canadian Tourism Commission. From a macro perspective, the program is responsible for measuring the importance and the economic value of the amalgam of tourism-related industries that make up the Canadian tourism sector. The program also assesses the performance of the tourism sector and its impact on the

Canadian economy in terms of growth in employment, flow of tourists, foreign exchange earnings, tax revenues generated and gross domestic output. This information has proved invaluable in helping the industry increase its status and credibility. The Commission also monitors worldwide developments and trends, determines if they might present challenges or opportunities, and provides advice to industry stakeholders.

From a micro perspective, the Information program helps the Canadian Tourism Commission develop and promote innovative tourism products through the identification of new market opportunities and niche-product demands. Information also enables the Canadian Tourism Commission to improve the distribution channels through which travel products reach the consumers.

Marketing and sales

The Marketing and sales program focuses on four major geographical market segments – Canada, the United States, Europe/Latin America and Asia/Pacific – in addition to targeting tourism activities associated with meetings, conventions, and incentive travel. Marketing and sales efforts are based on four pillars: consumer; trade; media and public relations; and the Internet.

The role of marketing and sales at the Canadian Tourism Commission is to increase the awareness and interest in Canada as a four-season destination for each of these markets by: developing competitive strategic programs; building traditional and non-traditional marketing partnerships; working with industry partners to make potential tourists aware of the possibilities for travel in or to Canada; ensuring small operators gain buying power through group marketing activities; and facilitating collaboration between smaller businesses to develop coordinated marketing strategies.

Product development

The Product development program at the Canadian Tourism Commission influences the quality and quantity of diverse and competitive tourism experiences in Canada. Working directly with various stakeholders in the tourism industry, the Product development program acts as a catalyst to influence the competitiveness of market-ready product by: obtaining research on product demand and positioning; providing information to make the Canadian tourism product more competitive; encouraging small businesses to develop new products by building partnerships; and providing the venue or vehicle through which market-ready products can be developed.

Competition Tribunal

Strategic Outcome

Open, fair, transparent and expeditious hearings related to the Tribunal's jurisdiction.

Program Activity Descriptions

Process cases

The Registry of the Competition Tribunal (RCT) provides all administrative support required for the proper conduct of the Competition Tribunal's business and for the Tribunal to hold hearings anywhere in Canada.

Copyright Board

Strategic Outcome

Fair decision-making to provide proper incentives for the creation and use of copyrighted works.

Program Activity Descriptions

Copyright tariff setting and issuance of licences

The Board is an economic regulatory body empowered to establish, either mandatorily or at the request of an interested party, fair and equitable tariffs that remunerate rights owners for the use of copyrighted works, when the administration of such copyright is entrusted to a collective-administration society. The Board also has the right to supervise agreements between users and licensing bodies and issues licences when the copyright owner cannot be located.

National Research Council of Canada

Strategic Outcome

An innovative, knowledge-based economy for Canada through research and development, technology commercialization and industry support.

Program Activity Descriptions

Research and development

Research and development encompasses the department's responsibilities for performing research and development in strategic fields of science and engineering leading to the application of innovative technologies through commercialization and technology transfer in key economic areas.

Technology and industry support

Technology and industry support encompasses the provision of technology assistance, financial support and commercialization assistance to small and medium-sized enterprises; and the dissemination of scientific, technical and medical information to industry, government and universities.

Natural Sciences and Engineering Research Council

Strategic Outcome

People: highly skilled science and engineering professionals in Canada.

Program Activity Descriptions

Promote science and engineering

This program activity encourages popular interest in science, math and engineering and aims to develop science, math and engineering abilities in Canadian youth.

Support students and fellows

This program activity supports training of highly qualified personnel through scholarship and fellowship programs.

Attract and retain faculty

This program activity aims to attract and retain faculty.

Strategic Outcome

Discovery: high quality Canadian-based competitive research in the natural sciences and engineering.

Program Activity Descriptions

Fund basic research

This program activity invests in discovery through grants focusing on basic research activities.

Support for research equipment and major resources

This program activity helps to support the establishment, maintenance and operation of the research equipment, major research resources and research capacity necessary to carry out high quality research in the natural sciences and engineering.

Strategic Outcome

Innovation: productive use of new knowledge in the natural sciences and engineering.

Program Activity Descriptions

Fund research in strategic areas

This program activity funds project research of national importance and in emerging areas that are of potential significance to Canada.

Fund university-industry-government partnerships

This program activity fosters collaborations between university researchers and other sectors, including government and industry, in order to develop new knowledge and expertise, and to transfer this knowledge and expertise to Canadian-based organizations.

Support commercialization

This program activity supports innovation and promotes the transfer of knowledge and technology to Canadian companies.

Social Sciences and Humanities Research Council

Strategic Outcome

People: a first-class research capacity in the social sciences and humanities.

Program Activity Descriptions

Fellowships, scholarships and prizes

Social Sciences and Humanities Research Council (SSHRC) offers several award programs for advanced study and research in the social sciences and humanities at the master's, doctoral and post-doctoral level. These programs help train Canada's researchers and the leaders of tomorrow. In addition, SSHRC offers special fellowships to experienced researchers and

supplementary awards to outstanding doctoral and post-doctoral fellowship recipients. Finally, two commemorative prizes recognize the extraordinary dedication and creativity of Canada's best researchers.

Canada research chairs

By helping Canadian universities and their affiliated research institutes and hospitals become world-class centres of research and research training, the Canada Research Chairs Program contributes to enhancing Canada's competitiveness in the global, knowledge-based economy, improving Canadians' health, and enriching our social and cultural life. Specifically, the Program seeks to: strengthen research excellence in Canada and increase Canada's research capacity by attracting and retaining the best researchers; improve the training of highly qualified personnel through research; improve universities' capacity to generate and apply new knowledge; promote the best possible use of research resources through strategic institutional planning, and through collaboration among institutions and between sectors.

Strategic Outcome

Research: new knowledge based on excellent research in the social sciences and humanities.

Program Activity Descriptions

Investigator-framed research (theme area and subject defined by researcher(s))

SSHRC research grants support individual and team projects and programs of research for which the applicant(s) proposes/proposes the research topic and methodology. These range from individuals or small groups working in libraries and archives to large, multidisciplinary, collaborative projects with researchers, partners and assistants conducting fieldwork across the country.

Targeted research and training initiatives

SSHRC develops and funds programs to support strategic research programs, both on its own and in partnership with other fund providers, including government, private and community organizations. These programs generate new knowledge on pressing social, economic and cultural issues of particular importance to Canadians. One particular stream of strategic programs supports research that will contribute to better understanding of the impacts of the “knowledge-based economy” on Canada’s economic, social, political and cultural life, and will help to improve Canadians’ ability to influence the future for the common good.

Strategic research development

Strategic grants through programs in this program activity are available to faculty, post-secondary institutions, scholarly associations and non-profit organizations to explore, develop and define new perspectives, challenges, and priorities in conducting research, disseminating research results, and in training new researchers. Strategic research development programs also help develop related research capacity through the promotion of new modes of research collaboration and partnerships.

Strategic Outcome

Knowledge mobilization: the transfer, dissemination and use of social sciences and humanities knowledge.

Program Activity Descriptions*Research communication and interaction*

Programs in this program activity support the communication and dissemination of research results to both academic and broader audiences through both traditional and innovative mechanisms.

Strategic Outcome

Institutional environment: a strong Canadian science and research environment.

Program Activity Descriptions*Indirect costs of research*

In Canada, the provincial and federal governments jointly support academic research. The provinces provide the basic physical infrastructure and, supported in part by the Canada Health and Social Transfer, direct and indirect operating costs. The federal government funds the direct costs of research, mainly through the three national research granting agencies – the Canadian Institutes of Health Research, the Natural Sciences and Engineering Research Council, and the Social Sciences and Humanities Research Council. The term “indirect costs” refers to the central and departmental administrative costs that institutions incur to support research, but are not attributable to specific research projects.

In its 2003 budget, the Government of Canada announced a new program to support the indirect costs associated with the conduct of academic research in institutions that receive research grant funds from any of the three federal granting agencies. This grant program recognizes the growing indirect costs of conducting publicly - funded academic research. The program was created to help post-secondary institutions maximize the investments in research in one of two ways: secure additional support for the indirect costs of conducting research or support their mandates to teach and provide community services. By financing a portion of the indirect costs incurred by post-secondary institutions and their affiliated research hospitals and institutes, the federal government both supports world-class research facilities and addresses the needs of smaller Canadian post-secondary institutions. The Indirect costs program is administered by the SSHRC-hosted Canada Research Chairs secretariat on behalf of the three national research granting agencies.

Standards Council of Canada**Strategic Outcome**

Efficient and effective voluntary standardization.

Program Activity Descriptions*Accreditation*

Conformity assessment is the practice of determining whether a product, service or system meets the requirements of a particular standard. The Standards Council accredits six types of conformity assessment organizations: product certification bodies; testing and calibration laboratories; management systems registration bodies; inspection bodies; auditor course providers; and personnel certification bodies.

The Standards Council accredits organizations that develop standards in Canada. Accredited standards development organizations may submit their standards for approval as National Standards of Canada.

Information

The Standards Council advises federal, provincial and territorial governments, industry organizations and non-governmental bodies on standards and conformity assessment related aspects of trade and regulatory policy. A major focus is to encourage governments and industries to make greater use of the National Standards System in regulatory activities and trade agreements.

The Standards Council offers Canadians the latest and most comprehensive information on standards, technical regulations and conformity assessment in Canada and around the world through its web site, Information and Research Service and On-site Technical Library. The Standards Council also serves as Canada’s World Trade Organization and North America Free Trade Agreement Enquiry Point.

Representation

The Standards Council manages Canada's participation in the International Organization for Standardization and the International Electrotechnical Commission, two of the world's most important voluntary standardization bodies, and in regional standards organizations. It also encourages the adoption and application of international standards in Canada.

The Standards Council is also a member of a number of regional and international organizations that are developing agreements to ensure the international acceptance of conformity assessment results.

Statistics Canada

Strategic Outcome

Canadians have access to objective, high quality, non-partisan statistics, statistical products, services and analyses on Canada's economy and society which fulfill legal requirements, are relevant to policy formulation and decision makers and are responsive to emerging issues.

Program Activity Descriptions

Economics statistics

This program provides micro- and macro-economic statistics and analysis on the entire spectrum of Canadian economic activity, both domestic and international. The program supports various statutory requirements and the statistics are vital for economic policy making by the Bank of Canada, Finance Canada, Industry Canada, Foreign Affairs and International Trade, Transport Canada, Agriculture and Agri-Food Canada and several other federal and provincial departments and agencies. The program outputs are also widely used in the private sector. The information includes statistics on: gross domestic product; production, costs, sales, productivity and prices for the full

gamut of industrial sectors; the flows and stocks of fixed and financial capital assets; international trade and finance; the extent of foreign ownership in Canada's economy; federal, provincial and municipal government revenues, expenditures and employment; environmental issues related to pollution, natural assets and activities aimed at reducing environmental damage; consumer and industrial price inflation; science and technology; and research and development activity.

Social statistics

This program provides information on the economic and social characteristics of individuals, families and households in Canada, and on the major factors which can contribute to their well-being. It includes measures of household income and expenditure; of employment, unemployment, their associated costs and benefits, labour income and factors affecting labour supply, health and factors influencing it; and information on topics of specific social policy concern. This program also provides information and analysis on the facilities, agencies and systems which are publicly funded to meet the socio-economic and physical needs of Canadians, and on the outcomes of the services which they provide. It encompasses the justice, health care, and education systems as well as cultural institutions and industries, in terms of the nature and extent of their services, and operations, the characteristics of the individual Canadians and families whom they serve, and their impacts on Canadian society.

Census, demography and aboriginal statistics

This program provides statistical information on the Canadian population, its demographic characteristics and conditions, and their changes over time. This program also provides statistical information from the quinquennial Census of Population. The Census provides benchmark information on the structure of the Canadian population and its demographic, social and economic conditions. It provides the detailed informa-

tion needed on subgroups of the population and for small geographic areas, which cannot be generated through sample surveys. Population counts and estimates are required to determine electoral boundaries, the distribution of federal transfer payments, and the transfer and allocation of funds among regional and municipal governments, school boards and other local agencies within provinces. Also, every five years, a Census of Agriculture provides data on: number and type of farms; farm operators; business operating arrangements; land and land management practices; capital investments; farm vehicles, machinery and equipment; and hired agricultural labour. This program also provides information on the socio-economic conditions and well-being of Aboriginal Peoples.

Details of spendable amounts	17.14
Revenues	17.14

Department**Strategic Outcome**

A fair, relevant and accessible justice system that reflects Canadian values.

Program Activity Descriptions*Justice policies, laws and programs*

Under Canada's federal system, the administration of justice is an area of shared jurisdiction between the federal government and the provinces. Through this program activity, the Department fulfils its constitutional responsibility to ensure a bilingual and bijural national legal framework for the administration of justice by developing policies and laws and testing innovative approaches to strengthen the framework within the following domains: criminal law, youth criminal justice, sentencing, marriage and divorce, access to justice and Aboriginal justice. Through this program activity, the Department also provides significant ongoing funding to provinces and territories in support of their constitutional responsibility for the day to day administration of justice.

The Office of the federal ombudsman for victims of crime

This program activity raises awareness of the needs and concerns of victims in areas of federal responsibility, provides an independent resource that addresses complaints of victims about compliance with the provisions of the *Corrections and Conditional Release Act* that apply to victims of offenders under federal supervision, and assists victims to access existing federal programs and services.

Strategic Outcome

A federal government that is supported by effective and responsive legal services.

Program Activity Descriptions*Services to government*

As a common service provider, the Department of Justice provides an integrated suite of legal advisory, litigation and legislative services to departments and agencies to help them meet their policy and programming priorities and advance the overall objectives of the government. Through this program activity, the Department also provides legal services to the Justice Portfolio and supports the Minister as legal advisor to the Cabinet on complex, whole of government issues.

Canadian Human Rights Commission**Strategic Outcome**

Equality, respect for human rights and protection from discrimination by fostering understanding of, and compliance with, the *Canadian Human Rights Act* and the *Employment Equity Act* by federally regulated employers and service providers, as well as the public whom they serve.

Program Activity Descriptions*Human rights knowledge development and dissemination program*

Development and dissemination of research, policies, and regulatory instruments to help foster understanding of and compliance with, the *Canadian Human Rights Act* and the *Employment Equity Act* for advice to and use by the Commission, federal departments and agencies, crown corporations and federally regulated workplaces, private sector organizations, provincial and territorial government bodies, international agencies, non-governmental organizations and the public. The Canadian Human Rights Commission's (CHRC) international involvement is primarily under the auspices of the United Nations.

Discrimination prevention program

Increased equality of opportunity without discrimination on prohibited grounds, in federal and federally regulated workplaces and service centers, through the implementation of the employment equity audits and employer liaison activities. Stakeholder engagement may involve federal departments and agencies, crown corporations and federally regulated workplaces, private sector organizations, provincial and territorial government bodies, international agencies, and non-governmental organizations. Employees and employers within the federal public service and federally regulated service organizations are covered by the legislation, as well as the public whom they serve.

Human rights dispute resolution program

Resolution in compliance with the *Canadian Human Rights Act* of individual human rights complaints against federal departments and agencies; federally regulated workplaces, crown corporations, private sector organizations; and the public. The resolution of complaints may involve a range of dispute resolution mechanisms, as well as an investigation if unresolved by the parties, prior to a decision by Commissioners. Once a case has been referred to the Canadian Human Rights Tribunal, the CHRC litigation team is involved in all mediations, and represents the public interest where appropriate in cases moving through administrative tribunals and the courts.

Canadian Human Rights Tribunal**Strategic Outcome**

Individuals have access, as determined by the *Canadian Human Rights Act* and the *Employment Equity Act*, to fair and equitable adjudication of human rights and employment equity cases that are brought before the Canadian Human Rights Tribunal.

Program Activity Descriptions

Hearings of complaints before the Tribunal

This Program inquires into complaints of discrimination to decide, following a hearing before Tribunal members, if particular practices have contravened the *Canadian Human Rights Act*. Tribunal members also conduct hearings into applications from the Canadian Human Rights Commission (CHRC) and requests from employers in order to adjudicate on decisions and directions given by the CHRC under the *Employment Equity Act*.

Commissioner for Federal Judicial Affairs

Strategic Outcome

An independent and efficient federal judiciary.

Program Activity Descriptions

Payments pursuant to the Judges Act

Payments of salaries, allowance and annuities to federally appointed judges, and their survivors, in the superior courts and courts of appeal in Canada.

Canadian judicial council

Administrative support to the various committees established by the Council which is made up of all of the Chief and Associate Chief Justices in Canada as well as the senior judges from the superior courts in Nunavut, Yukon and the Northwest Territories.

Federal judicial affairs

Provides other services to federally appointed judges including language training, editing of the federal courts reports, and services to the Minister of Justice through the Judicial Appointments Secretariat.

Courts Administration Service

Strategic Outcome

The public has timely and fair access, to the litigation processes of the Federal Court of Appeal, the Federal Court, the Court Martial Appeal Court of Canada and the Tax Court of Canada.

Program Activity Descriptions

Registry services

The Registry Services processes legal document and applications for judicial review under the jurisdiction of the Federal Court of Appeal, the Federal Court, the Court Martial Appeal Court of Canada and the Tax Court of Canada. It also ensures the proper court records management and adequate operation of the litigation and court access process.

Judicial services

The Judicial Services provides the direct support to all the Justices which include judicial assistants, law clerks who assist judges in their research and editing judgements, as well as library services providing information in support of the decision making process.

Office of the Director of Public Prosecutions

Strategic Outcome

Prosecute criminal offences under federal law in a manner that is independent of any improper influence and respects the public interest.

Program Activity Descriptions

Prosecution of drug, organized crime and Criminal Code offences

Provision of legal advice and litigation support during the police investigations, and prosecution of all drug charges under the *Controlled Drugs and Substances Act*, regardless of whether a federal, provincial or municipal police agency laid the charges, except in the case of Quebec and New Brunswick, where the Office of the Director of Public Prosecutions prosecutes drug charges laid by the RCMP. Prosecution of organized crime cases. Pursuant to understandings with the provinces, prosecution of Criminal Code offences where they are related to drug charges and the drug aspect forms the major part of the case. In the three Northern Territories, prosecution of all Criminal Code offences.

Prosecution of federal offences to protect the environment, natural resources, economic and social health

Provision of advice and litigation support to federal investigative agencies, and prosecution of federal offences under 50 federal statutes upholding the mandates and policies of federal departments, e.g., *Fisheries Act*, *Income Tax Act*, *Copyright Act*, *Canadian Environmental Protection Act*. Advice and prosecution of complex capital market fraud cases.

Addressing criminal issues, in the context of prosecutions, to contribute to a safer world for Canada

Prosecution of offences under such federal statutes as the *Proceeds of Crime (Money Laundering) and Terrorist Financing Act*, *Customs Act*, *Excise Act* and the *Excise Tax Act* to combatting trans-national crime and terrorism.

Promoting a fair and effective justice system that reflects Canadian values within a prosecutorial context

This program activity contributes to strengthening the criminal justice system across Canada and improving its efficiency by providing legal training to police, and by promoting federal/provincial/territorial cooperation among the prosecution community on important shared issues.

Offices of the Information and Privacy Commissioners of Canada

Strategic Outcome

The protection of the privacy rights of Canadians.

Program Activity Descriptions

Compliance activities

The Office of the Privacy Commissioner (OPC) is responsible for investigating complaints and responding to inquiries received from individuals and organizations who contact the Office for advice and assistance on a wide range of privacy-related issues. The OPC also assesses how well organizations are complying with requirements set out in the two federal laws and provides recommendations on Privacy Impact Assessments (PIAs) pursuant to the Treasury Board policy. This activity is supported by a legal team that provides specialized legal advice and litigation support.

Research and policy development

The OPC serves as a centre of expertise on emerging privacy issues in Canada and abroad by researching trends, monitoring legislative and regulatory initiatives, providing analysis on key issues, and developing policy positions that advance the protection of privacy rights. An important part of the work done involves

supporting the Commissioner and Assistant Commissioners in providing advice to Parliament on legislation and on government program initiatives that may impact on privacy.

Public outreach

The OPC plans and implements a number of public education and communications activities, including speaking engagements and special events, media relations, advertising, and the production and dissemination of promotional and educational material.

Strategic Outcome

Individual's rights under the *Access to Information Act* are safeguarded.

Program Activity Descriptions

Compliance with access to information obligations

The *Access to Information Act* is the legislative authority for the oversight activities of the Information Commissioner, which are: to investigate complaints from individuals and corporations; to review the performance of government institutions; to report the results of investigations/reviews and recommendations to complainants, government institutions, and Parliament; to pursue judicial enforcement; and to provide advice to Parliament on access to information matters.

Supreme Court of Canada

Strategic Outcome

To provide the best decision-making environment for the Supreme Court.

Program Activity Descriptions

Process hearings and decisions

The Office of the Registrar exists to provide the services the Court must have to render its decisions as the Court of last resort. The principal responsibilities of the Office of the Registrar are to provide a full range of administrative and support services to the Judges and to manage cases coming to the Court.

Revenues	18.13

Department**Strategic Outcome**

Canadians' confidence that the Department of National Defence/Canadian Forces have relevant and credible capacity to meet defence and security commitments.

Program Activity Descriptions

Generate and sustain relevant, responsive and effective combat-capable integrated forces

This program activity consists of all the activities necessary to design and develop force structure, create the capability components, generate the forces, and sustain and maintain the forces over time at the appropriate readiness levels. It is designed to generate and sustain forces capable of: maritime effects; land effects; aerospace effects; and joint, national, unified and special operations forces. This activity is required to:

- Maintain operational units;
- Maintain deployable support units;
- Recruit and train personnel;
- Provide nationally based fixed support including infrastructure, supply, fixed command, force development, and research and development; and
- Acquire capital equipment.

Strategic Outcome

Success in assigned missions in contributing to domestic and international peace, security and stability.

Program Activity Descriptions

Conduct operations

This program activity represents the main use of the program output from generate and sustain forces, i.e. the employment of forces in operations, whether on a con-

stant basis, selectively ongoing operations, or as required for named domestic or international operations. It consists of all the activities necessary to conduct: constant situational awareness; domestic and continental operations; and international operations. This activity is required to:

- Maintain and conduct Intelligence, surveillance and reconnaissance (ISR) operations;
- Maintain ISR support;
- Employ forces to conduct contingency operations in response to domestic or continental requirements;
- Employ high-readiness forces to conduct operations in response to domestic and continental requirements;
- Provide ongoing specified services in accordance with Government of Canada and other government department agreements and demand from other levels of government;
- Employ forces to conduct contingency operations in response to international requirements; and
- Employ high-readiness forces to conduct operations in response to international requirements.

Strategic Outcome

Good governance, canadian identity and influence in a global community.

Program Activity Descriptions

Contribute to canadian government, society and international community in accordance with canadian interests and values

This program activity consists of defence advice to the Government of Canada, contributions to canadian government; and contributions to the international commu-

nity, all in accordance with canadian interests and values. This activity is required to:

- Provide defence and security policy advice to the Government of Canada;
- Provide military advice to the Government of Canada;
- Provide support to Government of Canada programs;
- Contribute to canadian economy and innovation;
- Contribute to canadian identity;
- Contribute to youth and education;
- Meet commitments to international organizations and exchange programs; and
- Provide advisory and training support to other nations.

Canadian Forces Grievance Board**Strategic Outcome**

Findings and recommendations of the Canadian Forces Grievance Board are implemented and lead to improved conditions of service for members of the Canadian Forces.

Program Activity Descriptions

Review canadian forces grievances

The Chief of the Defence Staff refers grievances as prescribed under Queen's Regulations and Orders for the Canadian Forces (QR&O) as well as every grievance concerning a decision or an act of the Chief of the Defence Staff in respect of a particular officer or non-commissioned member to the Board for its findings and recommendations. The Board conducts objective and transparent reviews of grievances with due respect to

fairness and equity for each member of the Canadian Forces, regardless of rank or position. It ensures that the rights of military personnel are considered fairly throughout the process and that its Board Members act in the best interest of the parties concerned. The findings and recommendations it issues are not only based in law but form precedents that may facilitate change within the Canadian Forces. As an administrative tribunal designed to review grievances, the Board must ensure that its recommendations comply with the law and can be implemented in accordance with its enabling legislation, relevant human rights legislation and the Canadian Charter of Rights and Freedoms.

Military Police Complaints Commission

Strategic Outcome

Conduct complaints against the Military Police and interference complaints by the Military Police are resolved in a fair and timely manner and recommendations made are implemented by the Department of National Defence and/or the Canadian Forces.

Program Activity Descriptions

Complaints resolution

This program aims to successfully resolve complaints about the conduct of military police members as well as complaints of interference with military police investigations by overseeing and reviewing all complaints received. This program is necessary to help the military police to be as effective and as professional as possible in their policing duties and functions.

Office of the Communications Security Establishment Commissioner

Strategic Outcome

The Communications Security Establishment Canada performs its duties and functions in accordance with the laws of Canada and with due regard for the privacy of Canadians.

Program Activity Descriptions

The Communications Security Establishment Canada review program

The program activity provides independent review by the Office of the Communications Security Establishment Commissioner of the lawfulness of the activities of the Communications Security Establishment Canada. The core functions of this program consist in reviewing the Communications Security Establishment Canada's activities to ensure they comply with the laws of Canada in general and, in particular, the *Canadian Charter of Rights and Freedoms*, the *National Defence Act*, the *Criminal Code* and the *Privacy Act*. If the commissioner believes that an activity of the Communications Security Establishment of Canada carried out under its foreign intelligence or its information technology security mandates may not be in compliance with the law, he/she is required to inform the Minister of National Defence and the Attorney General of Canada, accordingly. Through this program activity, and in response to any complaint filed by Canadian citizens and permanent residents of Canada, the commissioner may undertake any investigation that he/she considers necessary. In addition, the commissioner has a duty under the *Security of Information Act* to receive information from persons who are permanently bound to secrecy if they wish to claim a public interest defence for divulging classified information (referred to in the Act as special operational information) about the Communications Security Establishment Canada.

Revenues	19.15

Department**Strategic Outcome**

Natural resources sectors are internationally competitive, economically productive, and contribute to the social well-being of Canadians.

Program Activity Descriptions*Economic opportunities for natural resources*

The program activity contains programs designed to promote innovation, investment, and the enhancement of the competitiveness of Canada's natural resources and related products industries through the provision of know-how and tools, including base geo-science information, along with trade promotion and market acceptance, at home and abroad. This group of programs also delivers policies, regulations and legislative work to manage federal responsibilities associated with Canada's oil and natural gas supply, protecting the critical energy infrastructure, and managing statutory program for the Atlantic offshore.

Natural resource-based communities

The program activity is targeted to increasing Canada's knowledge of the impacts of natural resource sector evolution on communities that have a substantial reliance on resource-based industries and to improve the capacity and knowledge for increasing the number of opportunities through value-added products and services. This group of programs is designed to improve the social well-being of Canadians. It is also about promoting Aboriginal and non-Aboriginal participation, improving skills, capacity and community stability through, for example, the Forest Community Program, the First Nations Forestry Program, and the Mines Ministers federal/provincial and territorial Framework for Action.

Strategic Outcome

Canada is a world leader on environmental responsibility in the development and use of natural resources.

Program Activity Descriptions*Clean energy*

The program activity includes the development and delivery of energy science and technology, policies, programs, legislation and regulations to mitigate air emissions and to reduce other environmental impacts associated with energy production and use. One of the major programs includes the suite of initiatives on clean energy announced under the banner of ecoENERGY, which is intended to increase production of low impact renewable energy; encourage and assist Canadians to improve their energy use in all of the major end-use sectors; and to accelerate the development and market readiness of technology solutions to reduce environmental impacts associated with the production and use of energy.

Ecosystem risk management

The program activity includes programs that help to understand the risks to our environment and the protection of critical resources such as groundwater. A major initiative is the Federal Response to the Mountain Pine Beetle (MPB) Infestation which aims to mitigate the spread of the MPB that threatens Canada's boreal forest.

Strategic Outcome

Natural resources and landmass knowledge strengthens the safety and security of Canadians and contribute to the effective governance of Canada.

Program Activity Descriptions*Adapting to a changing climate and hazard risk management*

The program activity provides geoscience and geospatial information that contributes to the reduction of risks from natural hazards, such as earthquakes, tsunamis and flood, as well as hazards arising from human activities, and works with front-line responders to provide geographical information in the event of an emergency. The program activity also provides information that will help Canadians mitigate and adapt to the effects of a changing climate.

Natural resources and landmass knowledge for Canadians

The program activity carries out the government's obligation to provide a property rights infrastructure on all lands which it holds responsibility for, along with the provision and access to accurate and precise geographic information on the Canadian landmass. This program also provides relevant accurate, timely and accessible knowledge with a view to increasing collaborative efforts with other jurisdictions in key areas (i.e., regulatory efficiency) to generate improved approaches to shared issues and lead to significant benefits. It is also about increasing Canada's ability to advance the interests of the natural resources sector both domestically and at the international level.

Geomatics Canada Revolving Fund

The Geomatics Canada Revolving Fund was established under *Appropriation Act No. 3 in 1993-94*. The fund allows Geomatics Canada to shift the costs from taxpayers at large to specific users who benefit directly from the goods and services provided. This revenue retention mechanism gives Geomatics Canada the ability to recover full costs from Canadian customers and the freedom to charge market prices for international clients. It presents the opportunity to provide an increasing volume of products and services in response to the

needs of Canadian clients as well as supporting the Canadian geomatics industry through the knowledge and expertise necessary to be competitive in the international market. As part of the Revolving Fund, NRCan produces accurate aeronautical charts and publications for NavCanada as an essential contribution to the safety and security of the traveling public and Canadians.

Atomic Energy of Canada Limited

Strategic Outcome

Be the top worldwide nuclear products and services company. Protect the health and safety of the public, our employees and the environment. Minimize nuclear legacy obligations for future generations.

Program Activity Descriptions

Commercial business

The sale on a fully commercial basis of nuclear products and services. Commercial business activities leverage the investment in research and development on a full cost recovery basis and generates profits, which are returned to the corporation. Commercial profits assist in funding primarily the Nuclear Platform including the national research laboratories at Chalk River and also development of new reactor technologies including the next-generation Advanced CANDU Reactor. The various commercial business lines and related services/products provide innovative cost effective business solutions to customers. These sales primarily to nuclear generating facilities are required to optimize the production of a secure and safe energy supply worldwide. Nuclear energy is an essential component of the solution for clean air and climate change improvements worldwide.

Research and development

Research and development undertaken to maintain and enhance Canada's scientific and technological expertise in support of the production of environmentally friendly and cost effective CANDU nuclear generated electricity as well as other important peaceful applications of nuclear technologies in areas such as medicine. In particular it involves the maintenance of the intellectual property that has been developed over a period of sixty years covering basic knowledge of: materials, reactor physics, chemistry, critical components, radiation, and the environment; that could have an impact on the safety, licensing and design basis of CANDU technology.

Facilities and nuclear operations

This program activity supports the operations of Atomic Energy of Canada Limited (AECL) and requires major facilities such as reactors, experimental loops, hot cells and waste management plants.

Waste management and decommissioning

Decommissioning and waste management programs will need to be delivered at AECL sites over at least the next 70 to 100 years. Liabilities at AECL sites have arisen from a wide variety of sources, including wartime activities, wastes received from universities, medical facilities, government and industry from across Canada, and a variety of R&D programs carried out in support of Canada's nuclear power program. Activities provide for maintaining and surveillance of nuclear waste, decontamination and dismantling of surplus facilities as well as environmental restoration projects. Operational management of the facilities that have been turned over to decommissioning are also within this scope.

Canadian Nuclear Safety Commission

Strategic Outcome

Safe and secure nuclear installations and processes used solely for peaceful purposes and public confidence in the nuclear regulatory regime's effectiveness.

Program Activity Descriptions

Nuclear regulation

Activities at the Canadian Nuclear Safety Commission (CNSC) are undertaken in its role as an independent regulator, to ensure that Canada has safe and secure nuclear installations and processes that are used solely for peaceful purposes. This involves using the powers and tools that are available to the regulator to ensure: a low frequency of incidents, accidents and precursors in the use of nuclear substances and processes; low levels of exposure, to humans and to the environment, to any harmful substances as a result of nuclear installations and processes; a commitment and full engagement of the regulated community to sustain a strong culture of safety and security in the use of nuclear installations and processes; and that transfers of nuclear goods and technology in Canada and from Canada are solely for peaceful purposes. CNSC also must undertake activities that Canadians have knowledge of and confidence in the CNSC as a strong, independent regulator.

Canadians will only accept the use of nuclear installations and processes in Canada if they are confident that there are no undue risks to them and to their environment.

Cape Breton Development Corporation

Strategic Outcome

The mandate of the Cape Breton Development Corporation is to conduct the activities necessary for wind-up of the Corporation, fulfilling all remaining obligations, while protecting the owner's interests.

Program Activity Descriptions

Human resource obligations

The programs included under Human resource obligations are non-discretionary items that the Corporation is required to deliver to former employees. They are ongoing liabilities totaling more than \$350 million in present day value, many of which will continue beyond 20 years. They are a result of post employment benefits and various human resource strategies (operation closure).

Real property

This activity is divided into sub-activities that deal with the obligations and responsibilities of the Corporation as they relate to real property. Programs to manage and satisfy these obligations are in place now, and options are being considered to deal with the best way to take care of ongoing liabilities.

National Energy Board

Strategic Outcome

Safety, security, environmental protection and economic benefits through regulation of pipelines, power lines, trade and energy development within the National Energy Board's jurisdiction.

Program Activity Descriptions

Energy regulation and advice

The companies that are regulated by the Board create wealth for Canadians through the transport of oil, natural gas and natural gas liquids, and through the export of hydrocarbons and electricity. As a regulatory agency, the Board's role is to help create a framework that allows these economic activities to occur when they are in the public interest.

Northern Pipeline Agency

Strategic Outcome

The planning and construction of the Canadian portion of the Alaska Highway Gas Pipeline project is efficient and expeditious while ensuring environmental protection and social and economic benefits for Canadians.

Program Activity Descriptions

Oversee the planning and construction of the Canadian portion of the Alaska highway gas pipeline

Regulate the planning and construction of the Canadian portion of the Alaska highway gas pipeline.

50,000,000	50,000,000		Non-budgetary	50,000,000	...

Note: The full wording of all authorities granted in current year Appropriation Acts, of all authorities granted by statutes other than Appropriation Acts, of all non-lapsing authorities granted / repealed in the current year, and of all authorities available from previous years is given in Section 1 of this volume.

(S) Statutory authority.

(L) Non-budgetary authority (loan, investment or advance).

⁽¹⁾ Treasury Board Vote 5—Government contingencies.

Treasury Board Vote 10—Government-wide initiatives.

Treasury Board Vote 15—Compensation adjustments.

Treasury Board Vote 25—Operating budget carry forward.

Treasury Board Vote 30—Paylist requirements.

The Senate

Strategic Outcome

To enable the Senate to carry out its constitutional role and to administer the affairs of the Senate.

Program Activity Descriptions

Senators and their offices

Provides Senators with the statutory services set out in the *Parliament of Canada Act* and the *Members of Parliament Retiring Allowances Act*. Operating costs of Senators' offices are provided in accordance with established policies and guidelines.

Costs included under these two categories are: Senators' sessional indemnities and allowances as well as contributions to the Senators' pension plan; retiring allowances; travel and communication expenses; Senators' research and office expenses, including staff costs and the cost of goods and services incurred for the operations of Senators' offices; and Caucus research funds.

Administrative support

Provide the on-going support services required for the effective, efficient and economical delivery of operating programs outlined under the other three program activity of the Senate. Administrative support provides accommodation and other facilities and tools, information, goods and services, and expert advice on all aspects of operations.

Costs included in this program activity are: financial services and materiel management; human resources; protective services; communications and information services; information technology management; accommodation planning, maintenance and upkeep of premises; postal, messenger and printing services; and repairs, trades and transportation services.

Committees and associations

Provide support for the work of Senators on standing, special and joint committees. Committees are delegated the task of conducting in-depth studies of bills and approving or amending legislation based on testimony from expert witnesses and advice and counsel from legal experts. They investigate policy matters and make recommendations as well as examine the Government's spending proposals.

Senators also participate in parliamentary associations and friendship groups, representing Canada in international forums where issues of importance to Canadians are discussed.

Costs included under this program activity are: committees and parliamentary associations; reporting of debates and publications service; and broadcasting committee proceedings.

Chamber operations

Provide the support and services Senators require for their work in the Senate Chamber, which includes debate and approval of legislation, presentation of petitions, discussion of Committee reports and ceremonial events. These functions are carried out in accordance with the Rules of the Senate, parliamentary procedure and precedents and the Speaker's rulings.

Costs included under this program activity are: salaries for additional duties of the Officers of the Senate; staff costs and the costs of operating the offices of Officers of the Senate; salaries and other operating expenses of the Clerk of the Senate, Deputy Clerk, Parliamentary Counsel and Usher of the Black Rod; journals, reporting of debates and publications service in both official languages; Senate Pages; and parliamentary exchanges.

House of Commons

Strategic Outcome

Effective administrative and professional support of Members, both individually and collectively, in their roles as legislators and representatives of 308 constituencies, in the Chamber, in committee and in Caucus.

Program Activity Descriptions

Members and House officers

Members assume the roles of legislators and elected representatives of their constituency. In their constituencies, Members participate in events and activities and discuss with constituents about their concerns. In the Chamber, Members participate in debates, study and vote on legislation. Members sit on standing committees and special or joint committees, since the House of Commons delegates in-depth consideration of bills and the thorough scrutiny of the Government's programs and policies to its committees. Members also participate in parliamentary associations and interparliamentary groups, and are members of delegations in parliamentary exchanges. Finally, in caucus, Members develop strategy, discuss policy and examine important issues with fellow party members, and direct the work of party research offices. Some Members also assume additional functions such as: the Speaker, Deputy Speaker, House Leaders and Chief Whips.

House administration

House employees are responsible for providing services to the Members elected during a Parliament, and in addition, serve the House as an institution on a permanent basis by providing: continuity from one Parliament to another; access to parliamentary records; and a stable infrastructure to support Members in the democratic process. Advice and support are provided in a wide variety

of services such as: procedural, legislative, legal, information technology and management, building management, security, food, finance, human resources, health and safety. The staff of the House of Commons strives to support the institution and the members in their roles as legislators and representatives of 308 constituencies, in the Chamber, in committee and in Caucus.

Library of Parliament

Strategic Outcome

Parliamentarians make informed decisions on issues of concern to Canadians.

Program Activity Descriptions

Information, research and analysis

To provide parliamentarians with information, research and analysis services that will help them fulfil their roles as members of one or other House, committees and parliamentary associations, and as the representatives of a region or riding. Information is also made available to authorized clients.

Strategic Outcome

Institutional memory of Parliament is preserved for future generations.

Program Activity Descriptions

Information resource management

To design, develop, maintain and promote a varied collection of sources of knowledge, thereby enabling parliamentarians and those who assist them in their work to obtain the information they need.

Strategic Outcome

Canadians gain a better understanding of Parliament.

Program Activity Descriptions

Public outreach

To support parliamentarians in their efforts to make Parliament accessible to the public. To provide the public with information about Parliament.

Office of the Conflict of Interest and Ethics Commissioner

Strategic Outcome

The public can feel confident that public office holders and MPs are meeting the requirements of the conflict of interest compliance measures.

Program Activity Descriptions

Operations

This activity encompasses all the actions taken by Office employees to ensure MPs and public office holders comply with the planned measures. A compliance letter is issued when all the conditions are met. A public registry containing all the disclosure summaries by MPs and public office holders is available at the Office, and a certain portion is posted on our Web site. The operations of the Office of the Conflict of Interest and Ethics Commissioner benefit from the work that the Communication and Policy services do in fulfilling their mandate. The Commissioner is also required to report to Parliament annually on the Office's activities.

Inquiries

Inquiries are sometimes undertaken on the basis of allegations made by MPs or senators. The Commissioner may also initiate an investigation on his/her own authority if he/she deems it necessary based on the information available to him/her.

Senate Ethics Officer

Strategic Outcome

Senators meet their obligations under the Conflict of Interest Code in a manner that contributes to the integrity of the Senate as an institution.

Program Activity Descriptions

Administration

The mandate of the Senate Ethics Officer is to administer and interpret the Code for Senators that sets out standards of conduct for Members of the Senate. The primary functions of the Senate Ethics Officer are:

- to provide confidential opinions and advice on any matter respecting Senators' obligations under the Code;
- to review confidential annual disclosure statements (listing sources of income, assets, liabilities, government contracts, financial and other interests), advise Senators on possible conflicts and compliance measures, and prepare public disclosure summaries; and
- to conduct inquiries and investigations, if necessary, regarding compliance with the Code.

Department**Strategic Outcome**

The Government's agenda and decision making are supported and implemented and the institutions of government are supported and maintained.

Program Activity Descriptions

Provide professional, non-partisan policy advice and support to the Prime Minister and Portfolio Ministers

To support the Prime Minister in carrying out his unique responsibilities as Head of Government, the Privy Council Office provides advice to the Prime Minister and Portfolio Ministers on: policies; legislation and parliamentary issues facing the Government; appointments; and machinery of government issues. PCO also provides the Prime Minister's Office and the offices of Portfolio Ministers with financial and administrative support.

Provide policy advice and secretariat support to Cabinet and Cabinet committees

To ensure the smooth functioning of Cabinet decision making, the Privy Council Office provides policy advice and secretariat support to the Cabinet and Cabinet committees. It facilitates integration across the federal community in support of the implementation of the Government's agenda by departments and agencies. PCO engages in consultation, provides a challenge function and researches issues. PCO provides secretariat support to Cabinet and Cabinet committees by preparing briefing material and distributing agendas and documents.

Provide overall leadership and direction to the Public Service in support of the Government's Agenda

To foster a high-performing and accountable Public Service that has the talent, capacity and management frameworks to provide advice on and implement the

Government's agenda, PCO sets strategic direction for the Public Service. It also plays a key role in the selection, management and development of senior leaders in the Public Service.

Provide commissions of inquiry with financial and administrative support

The Privy Council Office provides financial and administrative advice, guidance and support to commissions of inquiry from initial start-up to conclusion.

Canadian Intergovernmental Conference Secretariat**Strategic Outcome**

Multilateral meetings of First Ministers, Ministers and Deputy Ministers are planned and conducted flawlessly.

Program Activity Descriptions

Conference services

Provision of expert, impartial support services for the planning and conduct of First Ministers, Ministers and Deputy Ministers level federal-provincial-territorial and provincial-territorial conferences.

Canadian Transportation Accident Investigation and Safety Board**Strategic Outcome**

The mitigation of risks to the safety of the transportation system through independent accident investigations.

Program Activity Descriptions

Air investigations

Conduct independent investigations into occurrences in the federally regulated elements of the air transportation system to identify causes and contributing factors, publish investigation reports, formulate recommendations to improve safety, communicate safety information to stakeholders, undertake outreach activities with key change agents, as well as assess and follow-up on responses to recommendations. This includes the execution of specialized work in the fields of: engineering, macro analysis, human performance, legal services, communications, quality assurance, as well as publishing and linguistic services.

Marine investigations

Conduct independent investigations into occurrences in the federally regulated elements of the marine transportation system to identify causes and contributing factors, publish investigation reports, formulate recommendations to improve safety, communicate safety information to stakeholders, undertake outreach activities with key change agents, as well as assess and follow-up on responses to recommendations. This includes the execution of specialized work in the fields of: engineering, macro analysis, human performance, legal services, communications, quality assurance, as well as publishing and linguistic services.

Rail investigations

Conduct independent investigations into occurrences in the federally regulated elements of the rail transportation system to identify causes and contributing factors, publish investigation reports, formulate recommendations to improve safety, communicate safety information to stakeholders, undertake outreach activities with key change agents, as well as assess and follow-up on responses to recommendations. This includes the execution of specialized work in the fields of: engineering, macro analysis, human performance,

legal services, communications, quality assurance, as well as publishing and linguistic services.

Pipeline investigations

Conduct independent investigations into occurrences in the federally regulated elements of the pipeline transportation system to identify causes and contributing factors, publish investigation reports, formulate recommendations to improve safety, communicate safety information to stakeholders, undertake outreach activities with key change agents, as well as assess and follow-up on responses to recommendations. This includes the execution of specialized work in the fields of: engineering, macro analysis, human performance, legal services, communications, quality assurance, as well as publishing and linguistic services.

Chief Electoral Officer

Strategic Outcome

An electoral process that contributes to fairness, transparency and accessibility for all participants in accordance with the legislative framework.

Program Activity Descriptions

Elections

As an independent agency of Parliament, the Office of the Chief Electoral Officer of Canada administers the federal electoral system within the following legislative framework:

- *Canada Elections Act* – Exercise of general direction and supervision over the administrative conduct of elections, including: the training of federal returning officers; the revision of the boundaries of polling divisions; the acquisition of election material and supplies for transmission to returning officers when required; the issuing of directives and provision of guidelines to political entities; enforcement of all

provisions of the Act; and the making of statutory payments to election officers, auditors, political parties and candidates where specified by the Act. Management of Headquarters operations and of the statutory functions assigned to the Chief Electoral Officer outside of the electoral period. These include the review and study of electoral procedures and election expenses provisions of the Act, the compilation and preparation of statutory and statistical reports and books of instructions for election officers and political entities and the payments of all administrative and statutory accounts.

- *Electoral Boundaries Readjustment Act* – Provision to the ten electoral boundaries commissions of the number of members of the House of Commons to be assigned to each province. Provision of the necessary statistics, maps and other documentation to the ten commissions. Provision of financial support and taxing of all accounts related to salaries and other expenses submitted by the ten commissions.
- *Canada Elections Act* as adapted for the purposes of a Referendum – Exercise of general direction and supervision over the administrative conduct of a referendum, including the training of federal returning officers, the revision of the boundaries of polling divisions, and the acquisition of referendum material and supplies for transmission to returning officers. When required, issue of directives and provision of guidelines to referendum committees, enforcement of all provisions of the Act and the making of statutory payments to referendum officers where specified by the Act.

Office of the Commissioner of Official Languages

Strategic Outcome

Compliance with and respect for the *Official Languages Act* by federal institutions and other organizations subject to the Act.

Program Activity Descriptions

Compliance assurance

Compliance assurance brings to the attention of federal institutions and other organizations subject to the Act the need to develop sustainable solutions to issues relating to the implementation of the *Official Languages Act*. By investigating complaints, conducting audits and performance measurements and maintaining a working relationship with these institutions, the Office of the Commissioner of Official Languages reinforces and monitors compliance with the Act.

Policy and communications

Policy and communications undertakes research and analysis to identify opportunities and implement strategies for influencing change among its stakeholders. It supports the work of parliamentary committees. It informs members of the public of the provisions and scope of the Act and on the role of the Commissioner.

Public Appointments Commission Secretariat

Strategic Outcome

To ensure fair and competency-based processes are in place for the recruitment and selection of qualified individuals for Governor-in-Council appointments across agencies, boards, commissions and Crown corporations.

Program Activity Descriptions

Oversight of the Governor-in-Council appointments

This covers the activities relating to and including support to develop and establish a code of practice for appointments by the Governor in Council and ministers to agencies, boards, commissions and Crown corporations; oversee, review and report on the selection process for appointments and reappointments by the

Governor in Council to agencies, boards, commissions and Crown corporations, and to ensure that every such process is widely made public and conducted in a fair, open and transparent manner and that the appointments are based on merit; evaluate and approve the selection processes proposed by ministers to fill vacancies and determine reappointments within their portfolios, monitor and review those processes and ensure that they are implemented as approved; audit appointment policies and practices in order to determine whether the code of practice is being observed; report publicly on compliance with the code of practice; and provide public education and training of public servants involved in appointments and reappointments processes regarding the code of practice.

Security Intelligence Review Committee

Strategic Outcome

The Parliament of Canada and through it, Canadians, are assured that the Canadian Security Intelligence Service (CSIS) is complying with the law, policy and Ministerial direction in the performance of its duties and functions.

Program Activity Descriptions

Reviews

Conduct reviews of CSIS activities to ensure compliance. Develop annual research plan identifying reviews to be conducted each year, examine CSIS operations, provide a retrospective examination and assessment of specific CSIS investigations and functions, examine information concerning CSIS's activities, assess CSIS compliance, and issue findings and recommendations. The objective is to provide Parliament and Canadians with a comprehensive picture of CSIS's operational activities, and assurance that CSIS is acting lawfully.

Complaints

Receive and inquire into complaints about CSIS brought by individuals or groups, for example, regarding denials of security clearances, complaints referred by the Canadian Human Rights Commission, actions of CSIS in relation to a former employee. Provide an independent recourse mechanism to investigate complaints. Conduct pre-hearing conferences, preside over complaint hearings, and prepare complaint reports.

Department**Strategic Outcome**

A safe and resilient Canada.

Program Activity Descriptions*National security*

This program activity develops and coordinates policy to define and advance Canada's national security objectives. It seeks to enhance national security in a manner that respects and protects human rights. These efforts are pursued with key federal, domestic and international partners.

Emergency management

Emergency Management addresses all hazards (natural, technological and human-induced) through the development of an integrated emergency management system, legislation and national strategies, as well as training and standards which protect Canada and Canadians. This program activity aims to achieve effective policy and program coordination and delivery across the four pillars of emergency management: prevention/mitigation, preparedness, response and recovery through a close relationship with international counterparts, federal departments, provinces, territories, the first responder community and industry.

Law enforcement

This program provides leadership to the Canadian law enforcement community on strategic national and international responses to crime and disorder by contributing to the development of appropriate law enforcement policies with a view to addressing evolving threats to maintain public order and security. In addition, on-reserve provincial policing services are enhanced through funding for dedicated on-reserve policing services.

Corrections

This program activity develops legislation and policies governing corrections, conditional release, and related criminal justice issues. It also develops and implements innovative approaches to community justice and provides research expertise and resources to both the corrections community and the public.

Crime prevention

The Crime Prevention program activity encompasses a wide range of funding activities designed to reduce the likelihood of criminality. This program activity, in close collaboration with partners in the provinces and territories, builds programs that are specific and appropriate to regions and communities. It provides communities with tools, knowledge and support to implement prevention programs at the local level.

Border management

This program activity provides federal policy leadership and coordination on a variety of border issues such as customs/immigration enforcement and cross-border law enforcement, so as to ensure that security objectives are achieved in a manner that facilitates the flow of legitimate trade and travel. It also contributes to the effective management of the Canada-United States border agenda.

Interoperability

This program activity aims to implement a blueprint for addressing information-sharing and technical interface challenges, thus enhancing information-sharing among federal departments and agencies engaged in protecting public safety and security. While safe-guarding the privacy rights of individuals, this program engages in maximizing information-sharing opportunities with others and minimizing security risks to Canadians.

Canada Border Services Agency**Strategic Outcome**

Border management that contributes to the safety and security of Canada and facilitates the flow of persons and goods.

Program Activity Descriptions*Access*

Ensure the lawful flow of people and goods while promoting compliance with border legislation/regulations.

Security

Within the context of the Government's security agenda, and through effective and efficient border management, ensure the safety and security of Canadians.

Science and technology based innovation

Utilize the science and technology capacity of the Canada Border Services Agency to modernize border management and increase the effectiveness and efficiency of border operations.

Canadian Security Intelligence Service**Strategic Outcome**

To provide security intelligence to the Government of Canada.

Program Activity Descriptions

Canadian Security Intelligence Service

Collects, analyzes and retains information and intelligence respecting activities that may be suspected of constituting threats to the security of Canada, reports to and advises the Government of Canada in relation to these threats, and provides security assessments.

Correctional Service

Strategic Outcome

The custody, correctional interventions, and supervision of offenders, in communities and institutions, contributes to public safety.

Program Activity Descriptions

Custody

This program activity ensures that offenders are provided with reasonable, safe, secure and human custody while serving their sentence. This program activity provides much of the day-to-day needs for offenders in custody including a wide range of activities that address health and safety issues as well as provide basics such as food, clothing, mental health services, and physical health care. It also includes security measures within institutions including drug interdiction, and appropriate control practices to prevent incidents.

Correctional interventions

The Correctional Interventions program activity, which occurs in both institutions and communities, are necessary to help bring positive changes in behavior and to successfully reintegrate offenders. This program activity aims to address problems that are directly related to offenders' criminal behavior and that interfere with their ability to function as law-abiding members of society.

Community supervision

The Community Supervision Program ensures eligible offenders are safely reintegrated into communities through the provision of housing and health services, where required, as well as staff supervision for the duration of the offenders sentence. The expected results for this program activity are offenders who are reintegrated into the community as law-abiding citizens while maintaining a level of supervision, which contributes to public safety.

CORCAN (SOA)

This Special Operating Agency is a key rehabilitation program activity that assists in the safe reintegration of offenders by providing employment training and employability skills development to offenders in federal correctional institutions in support of the social policy of the Government of Canada. Through this program activity, offenders are provided with the employment experience and skills development they need to become productive citizens when they return to the community.

National Parole Board

Strategic Outcome

Conditional release and pardon decisions and decision processes that safeguard Canadian communities.

Program Activity Descriptions

Conditional release decisions

This program activity aims to ensure public safety by providing quality decisions on the timing and conditions of release of offenders into the community. Through this program activity, NPB provides timely, accurate information for Board member decision-making and develops effective training and policies that are essential tools for the quality risk assessment and deci-

sion-making. Effectiveness is assessed through the monitoring of the outcomes for offenders released on parole.

Conditional release openness and accountability

This program activity is designed to ensure that NPB operates in an open and accountable manner, consistent with the provisions of the *Corrections and Conditional Release Act*. Therefore this program activity consists of the provision of information for victims of crime; assistance for observers at hearings and those who seek access to the National Parole Board's decision registry; dissemination of public information; encouragement of citizen engagement; investigation of tragic incidents in the community; as well as performance monitoring and reporting on conditional release decision processes. Results for this program activity are assessed by monitoring the timeliness of information shared and selected surveys of those who receive information and assistance from the National Parole Board.

Pardon decisions/clemency recommendations

This program activity is designed to support rehabilitation and community reintegration by providing quality pardon decisions and clemency recommendations. In support of quality decisions and recommendations, NPB screens applications for eligibility and completeness, collects appropriate information for decision-making and develops policy to guide decision processes. The results of this program are assessed through ongoing review of the average time required to process pardon applications, and the rates of revocation of pardons granted.

Office of the Correctional Investigator**Strategic Outcome**

The problems of offenders in the federal correctional system are identified and resolved in a timely and reasonable fashion.

Program Activity Descriptions*Oversight of correctional operations*

Through this program activity, the Office of the Correctional Investigator (OCI) conducts investigations of individual offender complaints regarding acts, omissions, decisions and recommendations of the Correctional Service of Canada (CSC). It also has a responsibility to review and make recommendations on CSC's policies and procedures associated with the areas of individual complaints, to ensure that systemic areas of complaint are identified and appropriately addressed, and to review all Section 19 investigations performed by CSC following the death of or serious injury to an inmate.

Royal Canadian Mounted Police**Strategic Outcome**

Quality federal policing.

Program Activity Descriptions*Federal and international operations*

Provides policing, law enforcement, investigative and protective services to the federal government, its departments and agencies and to Canadians.

Protective policing services

Directs the planning, implementation, administration and monitoring of the RCMP National Protective Secu-

urity Program including the protection of dignitaries, the security of major events and of special initiatives including Prime Minister-led summits of an international nature.

Strategic Outcome

Quality contract policing.

Program Activity Descriptions*Community, contract and aboriginal policing*

Contributes to safe homes and safe communities by providing police services to diverse communities in eight provinces (with the exception of Ontario and Quebec) and three territories through cost-shared policing service agreements with federal, provincial, territorial, municipal and aboriginal governments.

Strategic Outcome

Quality policing support services.

Program Activity Descriptions*Criminal intelligence operations*

A national program for the management of criminal information and intelligence in the detection and prevention of crime of an organized, serious or national security nature in Canada, or internationally as it affects Canada.

Technical policing operations

Provides policy, advice and management to predict, research, develop and ensure the availability of technical tools and expertise to enable front line members and partners to prevent and investigate crime and enforce the law, protect against terrorism, and operate in a safe and secure environment.

Policing support services

Support services provided in support of the RCMP's role as a police organization.

National police services

Contributes to safe homes and safe communities for Canadians through the acquisition, analysis, dissemination and warehousing of law enforcement-specific applications of science and technology to all accredited Canadian law enforcement agencies.

Strategic Outcome

Payments applicable to all activities.

Program Activity Descriptions*Pensions under the RCMP Continuation Act*

Pensions under the *Royal Canadian Mounted Police Pension Continuation Act*.

To compensate members of the RCMP for injuries received in the performance of duty

To compensate members of the RCMP for injuries received in the performance of duty.

Survivor income plan

Provides benefits to survivors of members who lost their lives while on duty or as a result of a duty related incident. The benefits are similar to those available to public servants at large under the provisions of the Government of Canada Employee Compensation Act to which the members of the RCMP are excluded.

Strategic Outcome

Quality Firearms program and support – The risks to public safety from firearms in Canada and international communities are minimized.

Program Activity Descriptions

Firearm registration

All activities related to the processing of all firearms registration and transfer applications, including registration on import; support to public agencies and to law enforcement.

Firearms licensing and supporting infrastructure

Delivery of licensing activities through federal Chief Firearms Officers (CFO) operations, arrangements with other federal government departments, and the management of provincial CFO roles and relationships; operations of the Central Processing Site, the 1-800 call centre; maintenance and analysis of program performance data, management of the Program's information technology infrastructure and its interface with other databases; and support to public agencies and to law enforcement.

Royal Canadian Mounted Police External Review Committee

Strategic Outcome

The RCMP External Review Committee aims to positively influence the manner in which labour relations issues are addressed within the RCMP.

Program Activity Descriptions

Independent and impartial case review

The Royal Canadian Mounted Police External Review Committee (the "Committee") can dispose of matters referred to the Committee by the Royal Canadian Mounted Police (RCMP) either on the basis of the material in the record or following a hearing. In conducting its review of matters referred to it, the Committee attempts to achieve timeliness and quality in its recommendations, and a balance amongst the many complex and different interests involved. It strives to ensure that the principles of administrative and labour law are respected and the remedial approach indicated by the *Royal Canadian Mounted Police Act* is followed. In each case, the Committee must consider the public interest and ensure that members of the RCMP are treated in a fair and equitable manner.

Outreach and information dissemination

The Royal Canadian Mounted Police External Review Committee (the "Committee") ensures that its findings and recommendations in each case are clearly explained for the parties and the RCMP Commissioner. Summaries of the findings and recommendations in each case, as well as articles of interest on the role of the Committee, relevant legal principles and information on related issues, are distributed widely. Communication and outreach tools include : a quarterly publication (Communiqué), including the most recent case summaries, updates, and legal principles; a website with timely inclusion of publications and case summaries; the annual report and other government accountability documents; and presentations, meetings, training and other outreach activities.

Royal Canadian Mounted Police Public Complaints Commission

Strategic Outcome

RCMP members are held publicly accountable for their conduct in the performance of their duties.

Program Activity Descriptions

Civilian review of RCMP members' conduct in the performance of their duties

The Commission conducts reviews of complaints received from the public about the conduct of RCMP members in the performance of their duties. When complainants are not satisfied with the RCMP's handling of their complaints, they can request a review of their case by the Commission. In reviewing these complaints, the Commission may conduct hearings and investigations, and reports on its findings and makes recommendations to the RCMP Commissioner and Minister of Public Safety.

Strategic Outcome

Quality services: departments and agencies benefit from a range of efficient government-wide central services.

Program Activity Descriptions*Acquisition services*

This program activity is the government's primary procurement service provider offering federal organizations a broad base of procurement means such as specialized contracts, standing offers, supply arrangements and electronic marketplaces. These services involve military and Major Crown Project procurements as well as specialized services such as marine inspection and technical services, management of seized property, travel management, standards for and certification of goods and services, surplus asset disposal, procurement of vaccines and drugs on behalf of provinces and territories, and the registration of quality (ISO 9000) and environmental (ISO 14001) management services. Acquisition Services also supports the development of professional procurement initiatives such as certification standards for procurement professionals.

Optional Services Revolving Fund

This program activity provides federal organizations with specialized services such as travel services, vaccine procurement, communications procurement and a payment mechanism for taxi invoices.

Defence Production Revolving Fund

Legacy fund presently unused. Maintained to provide for acquisition services of military supplies in the event of emergency.

Federal accommodation and holdings

This program activity manages real property assets under the custody of PWGSC on behalf of federal organizations. It provides work environments and facilities that enable federal organizations to deliver programs and services. The real property accommodations and holdings are managed as an investment on behalf of the taxpayer.

Real Property Services Revolving Fund

This program activity provides services on a fee-for-service basis, to federal organizations requesting services beyond those funded by the Federal Accommodation and Holdings program, and on an optional basis for other federal organizations.

Real Property Disposition Revolving Fund

This program activity provides custodial federal organizations with an optional self-funding mechanism for routine disposals of all federal real property assets that are surplus. These services are necessary so that all custodians realize value from surplus properties. The Fund is governed by specific TB Terms and Conditions.

Information technology infrastructure services

This program activity provides leadership in supporting government-wide IT transformation initiatives. It works closely with client federal organizations to understand and respond to their IT requirements, while delivering secure IT services and solutions. IT services include the brokering, developing and/or managing of voice and data networks, data centres, distributed computing, applications, shared access and information management enablers.

Telecommunications and Informatics Common Services Revolving Fund

This program activity provides federal organizations with secure telecommunications and shared network infrastructure, facilities and services through a fully compensatory client-paid Revolving Fund.

Linguistic services

This program activity provides translation, revision, interpretation, terminology and other linguistic services to enable Parliament to function in both official languages; offers conference interpretation to the judiciary and federal organizations in both official languages or any other languages required; and ensures terminology standardization in the federal public service. It is mandated under the *Translation Bureau Act*.

Translation Bureau Revolving Fund

This program activity delivers translation, revision, techno linguistic and other linguistic services to the judiciary and federal organizations, and upon request, to the other governments in Canada and international organizations, on a cost-recovery basis. It is mandated under the *Translation Bureau Act*.

Consulting and Audit Canada Revolving Fund

This program activity provides consulting and audit services to federal organizations and, upon request, to provincial, territorial, municipal and Aboriginal governments in Canada and to foreign governments and international organizations, on an optional and fee-for-service basis.

Information services

This program activity includes the delivery of a broad range of services to enhance government communications, shared corporate administrative systems and human resource services, and industrial security. Through communication and information products and services, it provides government communications responsive to

the diverse information needs of Canadians. Through shared services, it provides centralized support to federal corporate administrative systems as well as consolidated human resource services to small departments. By the management and delivery of security programs, it ensures that government classified and protected information and assets are safeguarded and that controlled goods are protected against unauthorized possession, examination, or transfer while in the custody of private sector companies.

Receiver general services

This program activity maintains operations for the Departmental Financial Management System, provides optional document-imaging services and bill payment services for federal organizations, and offers optional payment-related printing such as tax information statements and pay statements. Optional services are provided on a cost-recovery basis.

Public service compensation services

This program activity distributes third-party information to public servants and pensioners, and provides pension services to Canadian Forces annuitants.

Greening of government operations services

This program activity delivers a range of services to PWGSC and interdepartmental clients. It directly supports the implementation of the government's environmental and sustainable development objectives by helping it attain social and environmental benefits. The services include the provision of technical support towards pollution prevention and contaminated sites remediation, sustainable building design, environmental assessment, and wastewater management. These services are delivered nationally on an optional, fee-for-service basis.

Strategic Outcome

Sound stewardship: Canadians benefit from the application of sound stewardship and oversight in the provision of government-wide central services.

Program Activity Descriptions

Acquisition stewardship

This program activity includes acquisition policy, contract quality assurance, professional development, vendor performance and review, and other management and administrative activities to support program delivery.

Real property stewardship

This program activity provides strategic leadership and proactive management of the resources and real property assets to support the delivery of government programs.

Information technology infrastructure stewardship

This program activity provides advice, leadership and reporting on government IT infrastructure activities to federal organizations in a manner that promotes safeguarding information from a whole-of-government perspective.

Business integration performance management

The Department will determine customer departments' strategic business needs; gather information on customers' upcoming requirements and communicate it to the business line branches; communicate business line information to our customers to align their service delivery expectations with PWGSC's evolving service delivery capacity; develop the infrastructure to effectively manage the Customer relationship function; and, from a departmental perspective measure and monitor customers' perceptions of the value of PWGSC's services and report the results to the business lines so that they can be incorporated into their service planning,

development and improvement processes. These activities are conducted and managed nationally through our National Capital area and regional offices.

Linguistic stewardship

This program activity exercises professional authority in the area of language services by taking an active role in establishing both professional and quality assurance standards for translation, interpretation, terminology and techno linguistics services within the government. It helps to ensure and develop the bilingual, Aboriginal and foreign language translation capacity that the Government and Canada requires to support the country's social, economic, international and security-related objectives. It derives its authority from the *Translation Bureau Act*.

Information stewardship

This program activity provides advice, coordination and reporting on government communications activities in a manner that promotes, from a whole-of-government perspective, transparency, accountability and compliance with acts and policies.

Receiver general stewardship

Receiver General Stewardship maintains support for the Consolidated Revenue Fund and the Accounts of Canada (revenue collection, cash management operations, payment services, Public Accounts, monthly statement of financial operations, central accounts).

Public service pay stewardship

This program activity administers the government's payroll processes; develops and maintains computer systems and national service office infrastructure; provides training and advice to departmental compensation advisors; and liaises with compensation advisors, the Treasury Board Secretariat and insurance companies regarding insurance plans.

Public service pension stewardship

This program activity administers the government's pension processes; develops and maintains computer systems; provides advice and training; delivers insurance services; and liaises with pensioners, insurance companies and occasionally employees. It also develops insurance procedural directives and training courses for delivery to the compensation community.

Greening of government operations stewardship

This program activity provides interdepartmental leadership, functional guidance and advice on a range of greening activities. It supports the Treasury Board Secretariat in the ongoing development of greening policy and performance management instruments. It puts in place programs, initiatives, policies, tools and management frameworks that are needed to green PWGSC's services and operations. It also develops PWGSC's sustainable development strategies, monitors performance, and drafts the department's annual Sustainable Development Performance Report.

Department**Strategic Outcome**

An efficient transportation system that contributes to Canada's economic growth and trade objectives.

Program Activity Descriptions*Transportation policy development and infrastructure programs*

This program activity encompasses the development of transportation policies, legislation, programs and infrastructure support in such a manner that competition and market forces guide the growth and development of the national transportation system, and that a strong and healthy marketplace encourages existing competitors and new entrants to innovate and provide new services to meet the transportation needs of Canadians. Contributing activities under the policy element of this program activity include monitoring and analysis of the Canadian transportation system, annual reporting on the health of the system, economic studies and the development of new policies. Transport Canada also administers airport, port, highway and bridge subsidy programs and performs landlord and monitoring functions for the Department for ports, airports and air navigation system sites. Under the infrastructure element of this program activity, Transport Canada negotiates the divestiture of ports, airports and seaway lands to local interests, and operates airports and ports until their transfer, as well as federally owned remote airports and remote ports.

Strategic Outcome

A safe and secure transportation system that contributes to Canada's social development and security objectives.

Program Activity Descriptions*Transportation safety and security*

The Transportation Safety and Security program activity is responsible for policies, rule making, monitoring and enforcement, and outreach in support of a safe and secure transportation system. The program activity develops national legislation, regulation and standards, and carries out monitoring, testing, inspection, enforcement, education and developmental activities to promote safety and security in all transportation modes. It also develops emergency preparedness plans and delivers aircraft services to government and other transportation bodies.

Strategic Outcome

An environmentally responsible transportation system that contributes to Canada's sustainable development objectives.

Program Activity Descriptions*Sustainable transportation development and the environment*

This program activity encompasses the development and implementation of programs and policies to protect the natural environment and to achieve a more sustainable transportation system in Canada.

Canada Post Corporation**Strategic Outcome**

Provision of parliamentary mailing privileges, services to the blind and declining transitional funding for the Canada Post Corporation pension plan.

Program Activity Descriptions*Concessionary governmental services*

Payment associated with services provided at rates free of postage by the Corporation in support of government policy programs: Government Free Mail and Materials for the use of the Blind.

Transition funding for Canada Post Corporation pension plan

Payment for transitional support for the implementation of the Canada Post Corporation pension plan.

Canadian Air Transport Security Authority**Strategic Outcome**

Critical elements of the air transportation system as assigned by the Government are secured.

Program Activity Descriptions*Securing critical elements of the Canadian air transportation system*

The Canadian Air Transport Security Authority (CATSA) is a parent Crown corporation that provides effective and efficient screening of persons who access aircraft or restricted areas, the property in their possession or control, and the belongings or baggage that they give to an air carrier for transport.

Canadian Transportation Agency**Strategic Outcome**

Transparent, fair and efficient economic regulation of the federal transportation system.

Program Activity Descriptions

Economic regulation of the federal transportation system

Economic regulation of Air, Rail and Marine transportation through the administration of laws, regulations, voluntary codes of practice, educational and outreach programs and through the resolution of disputes. As an independent quasi-judicial administrative tribunal, the Canadian Transportation Agency issues licenses, permits and approvals and makes decisions and orders on a wide range of matters affecting Canadian transportation.

Federal Bridge Corporation Limited

Strategic Outcome

Safe and efficient transit on the infrastructure maintained, operated and managed by the Federal Bridge Corporation Limited.

Program Activity Descriptions

Construction of a new low-level bridge in Cornwall, Ontario as well as related infrastructure improvements

This program activity encompasses the construction of a new low-level bridge in Cornwall, to replace the deteriorating North Channel Span of the Seaway International Bridge, as well as related infrastructure improvements on Cornwall Island.

Marine Atlantic Inc.

Strategic Outcome

A safe, reliable, efficient, affordable and environmentally responsible ferry service between the Island of Newfoundland and the Province of Nova Scotia.

Program Activity Descriptions

Ferry services

Marine Atlantic Inc. is a parent Crown corporation that fulfills Canada's constitutional obligation to Newfoundland and Labrador (NL) to provide a year-round ferry service between North Sidney, Nova Scotia and Port aux Basques, NL. It also operates a non-constitutional seasonal service between North Sydney and Argentia, NL.

National Capital Commission

Strategic Outcome

Optimum contribution of federal lands and public programs in creating a Capital as a source of pride and of national significance.

Program Activity Descriptions

Animating and promoting the capital

The objective is to generate pride and promote unity through programming in the Capital. The main products are a series of high-impact events (notably Canada Day and Winterlude), interpretative programs and commemorations. As well, this activity works to increase Canada-wide awareness of the Capital by means of national marketing and communications campaigns that present the Capital as a place where Canadians can experience Canadian heritage, culture and achievements.

Planning, design and land use

This activity guides the use and physical development of federal lands, coordinates development and ensures excellence in design and planning on federal lands in order that it is appropriate to the role and significance of the Capital. Products include long-term visionary plans, prepared in consultation with other planning jurisdictions and departments, to guide land uses, development and management of Capital lands as well as the identification of the National Interest Land Mass to be held in trust for future generations. Under the *National Capital Act*, the National Capital Commission (NCC) is responsible for the review and approval of all proposals for land-use changes, designs and land disposals on federal lands in Canada's Capital region (CCR) to ensure that they are appropriate to their significance, natural environment and heritage. The NCC develops strategies and facilitates federal involvement in CCR transportation and transit, and participates in joint studies with provincial and municipal partners to address inter-provincial and urban transportation issues. Programs also include management of the NCC's built heritage, cultural landscapes, archaeological assets and collections, as well as approval of heritage building designations in the Capital. Clients include the NCC, all government organizations with interests in CCR, Canadians, and other visitors, plus international and private agencies, all of whom benefit from a meaningful Capital of international quality.

Real asset management

The NCC manages and protects physical assets of national significance in CCR as a legacy for future generations of Canadians. Its objectives are to enhance the rich cultural heritage and natural environment of Canada's Capital and to optimize the contribution of the NCC's extensive lands and buildings in support of the programs and mandate of the Corporation, while ensuring NCC assets are appropriately accessible to the public. Environmental assets and liabilities are managed in a sustainable and responsible manner. The

NCC owns over 470 square kilometres or 10 percent of the CCR, as well as 27 roads and parkways, 570 kilometres of pathways, 1,639 buildings and 110 bridges. The NCC also manages close to 650 leases and the ground operations for most federal organizations in CCR. The NCC manages its assets through the application of relevant policies and regulations and by means of a life-cycle Maintenance and rehabilitation program. The NCC's duties with regard to its real asset base include: safeguarding and preserving the Capital's most treasured cultural, natural and heritage assets (including the Official Residences); the promotion and regulation of public activities on federal lands; natural resource protection and management; environmental stewardship; and the delivery of visitor and recreational services and programs. Where appropriate, the assets are used to generate a stream of revenues to complement federal appropriations in supporting the work of the Corporation (e.g. leasing, land use permits). Land development projects are carried out to enhance the Capital for future generations. This activity is also responsible for the acquisition of national interest properties and disposal of surplus properties. These activities are carried out in close cooperation with the cities of Ottawa and Gatineau and federal organizations (e.g. Public Works and Government Services Canada, Royal Canadian Mounted Police). The NCC also pays Payments in Lieu of Taxes (PILT) to municipalities and school boards in Quebec. Clients include senior political figures (for Official Residences), government bodies at all levels, visitors to the Capital, local residents and all Canadians who benefit from a meaningful Capital.

Office of Infrastructure of Canada

Strategic Outcome

Improving the sustainability of cities and communities and Canada's local, regional and national public infrastructure to enhance the economic, social, cultural and environmental quality of life of Canadians.

Program Activity Descriptions

Infrastructure investments

Infrastructure investments are important to long-term economic growth and directly affect the quality of life in all Canadian communities. The reliable provision and effective management of potable water treatment plants, wastewater treatment facilities, highways, municipal roads and bridges, transit systems, and cultural and recreational facilities all impact on our quality of life, and may also have strong environmental implications. As such, the Government of Canada has introduced a host of infrastructure programs to deal with these public infrastructure pressures. Infrastructure investments contribute to the construction, renewal and / or enhancement of public infrastructure and build capacity in partnership with others.

Policy, knowledge and partnership development

The Program Activity "Policy, Knowledge, and Partnership Development" includes those activities that support policy and program development, knowledge generation and dissemination related to infrastructure, and partnership-building across the various levels of government and amongst stakeholder groups.

Old Port of Montreal Corporation Inc.

Strategic Outcome

An urban park dedicated to recreational, tourist and cultural activities that safeguard and promote the Old Port of Montreal's cultural heritage while facilitating public access to the waterfront.

Program Activity Descriptions

Management of the Old Port of Montreal as an urban park, a tourist destination offering recreational and cultural activities

The Old Port of Montreal Corporation Inc. (OPMC) is mandated to promote and develop the lands of the Old Port of Montreal in accordance with the approved Master Development Plan. The Plan is, among other things, to ensure free pedestrian access to the site, public sector control on its development and development of the historical, maritime and port character of the site. The OPMC administers, manages, and maintains the property of Her Majesty under a management agreement with Public Works and Government Services Canada, the custodian of the property.

Royal Canadian Mint

Strategic Outcome

The strategic outcome of the Royal Canadian Mint (RCM) are to:

- elevate the RCM into a world-class brand that is recognized for quality, innovation and exceeding customer's expectations;
- ensure that Canadian circulation products and services are cost-effective, accessible, relevant and inspire Canadians to celebrate their history, culture and values;

- ensure that foreign coinage, bullion and refinery services, collectible and other related and services are leaders in their respective markets;
- generate a profit and maintain long-term viability through an ongoing commitment to customer satisfaction, growth and efficiency;
- create an environment where all employees demonstrate the organization's values and celebrate their success; and
- ensure that health, safety and the environment are paramount considerations in providing an ideal workplace.

The Jacques Cartier and Champlain Bridges Incorporated

Strategic Outcome

Safe and efficient transit on the infrastructure maintained, operated and managed by the Jacques Cartier and Champlain Bridges Incorporated.

Program Activity Descriptions

Management of federal bridge, highway and tunnel infrastructure, and properties in the Montreal area

This program activity encompasses the operation and maintenance of the Jacques Cartier and Champlain bridges, the federally-owned section of the Honoré-Mercier Bridge, a section of the Bonaventure Expressway, the Melocheville Tunnel, and the Champlain Bridge Ice Control Structure by carrying out regular and major maintenance work.

Transportation Appeal Tribunal of Canada

Strategic Outcome

The Canadian transportation community with the opportunity to have enforcement and licensing decisions of the Minister of Transport reviewed by an independent body.

Program Activity Descriptions

Review and appeal hearings

Provides for the operation of an independent Tribunal to respond to requests from the transportation community for review of enforcement and licensing decisions taken by the Minister of Transport under various transportation Acts; and to conduct hearings into such appeals. At the conclusion of a hearing, the Tribunal may confirm the Minister's decision, substitute its own decision, or refer the matter back to the Minister for reconsideration.

VIA Rail Canada Inc.

Strategic Outcome

A national passenger rail transportation service that is safe, secure, efficient, reliable, and environmentally sustainable and that meets the needs of travellers in Canada.

Program Activity Descriptions

Operation of a national network of rail passenger services

Provision of year-round services in the Quebec City-Windsor Corridor, transcontinental passenger services between Halifax and Montreal and between Toronto and Vancouver, and the regional and remote services in northern and outlying areas of the country.

Secretariat**Strategic Outcome**

Government is well managed, accountable, and resources are allocated to achieve results.

Program Activity Descriptions*Management policy development and oversight*

Through the Management Policy Development and Oversight program activity, the Secretariat provides support to the Treasury Board in its role as the management board of government and promotes good management practices across government. This includes its role as employer of the federal public service. The Secretariat supports its management board role by: developing policies, directives and standards to guide good management across government; monitoring compliance and developing tools to measure and report on management performance; and providing advice and support to functional communities. To achieve its objectives under this program activity, the Secretariat also works closely with its portfolio partners, the Public Service Human Resources Management Agency of Canada and the Canada School of Public Service.

Expenditure management and financial oversight

The Secretariat exercises its role as the budget office and undertakes the following key functions in support of this role: providing advice to Ministers with respect to resource allocation and re-allocation, and the provision of expenditure authorities; undertaking government-wide expenditure and performance analysis, and oversight of estimates and government supply; and ensuring that accurate and timely financial and performance information from departments and agencies is available and reported, to support Public Accounts and budget office functions.

Government-wide funds and Public service employer payments

Funds are held centrally to supplement other appropriations, and payments and receipts are made on behalf of other federal government departments and agencies, in an administratively sound and efficient manner.

Canada School of Public Service**Strategic Outcome**

Public servants have the common knowledge and the leadership and management competencies they require to fulfill their responsibilities in serving Canadians.

Program Activity Descriptions

Foundational learning: Public servants able to perform in their current job, take on the challenges of the next job in a dynamic, bilingual environment

Providing Public Servants with learning activities by developing and delivering training aligned with Public Service Management priorities and which meets the requirements of the Policy on Learning, Training and Development and associated knowledge standards.

Organizational leadership development: Public Service has strong leaders delivering results for Canadians

Renewing the Public Service by building strong leadership competencies for existing and emerging leaders through leadership development courses, programs and targeted learning activities.

Public sector management innovation: Public Service organizations innovate to achieve excellence in delivering results for Canadians

Enhance the performance and effectiveness of the Public Service by documenting and disseminating innovations and best practices in public management.

Office of the Public Sector Integrity Commissioner**Strategic Outcome**

Wrongdoing in the federal public sector is detected, resolved and reported, while public servants are protected from reprisal, resulting in a greater integrity in the workplace.

Program Activity Descriptions*Disclosure and reprisal management program*

To provide advice to federal public sector employees and members of the public who are considering making a disclosure and to accept, investigate and report on disclosures of information concerning possible wrongdoing. Based on this activity, the Public Sector Integrity Commissioner will exercise exclusive jurisdiction over the review, conciliation and settlement of complaints of reprisal, including making applications to the Public Servants Disclosure Protection Tribunal to determine if reprisals have taken place and to order appropriate remedial and disciplinary action.

Office of the Commissioner of Lobbying**Strategic Outcome**

Transparency and accountability in the lobbying of public office holders contribute to confidence in the integrity of government decision-making.

Program Activity Descriptions*Registration of lobbyists*

Lobbying the federal government is a legitimate activity but it must be done transparently. The *Lobbyists Registration Act* requires that individuals who are paid to lobby public office holders must disclose certain details of their lobbying activities. The Registrar ap-

proves lobbyists' registrations and makes them available for searching in an electronic registry that is accessible on the Internet.

Education and research

The Office develops and implements educational and research programs to foster awareness of the requirements of the *Lobbyists Registration Act* and the Lobbyists' Code of Conduct. The primary audiences for programs are lobbyists, their clients and public office holders.

Review and investigations under the Lobbyists Registration Act and the Lobbyists' Code of Conduct

The Office validates information provided by registered lobbyists to ensure accuracy. Allegations of non-registration or misconduct by lobbyists are reviewed and formal investigations are carried out when required.

Public Service Human Resources Management Agency of Canada

Strategic Outcome

Federal departments, agencies, and institutions demonstrate excellent and innovative people management and achieve high quality workplaces and workforces able to serve the Government and deliver desired results for Canadians.

Program Activity Descriptions

Policy direction, partnerships and integration program

To ensure consistent and high performance across the Public Service, the Policy Direction, Partnerships and Integration Program provides leadership and direction from a central point – the Public Service Human Re-

sources Management Agency. Leadership occurs by supporting the Treasury Board in establishing policy, effectively a shared direction for the Public Service. It also occurs by leveraging the capacity of others and aligning/integrating individual efforts to a collective outcome. These leadership efforts affect all public servants, though particular activities will result in products that are used by different clients at different times (i.e. individual public servants, managers, people management professionals, and communities of interest).

Strategic services program

Services are needed to effectively steer the people management system and support the Public Service in achieving an excellent and innovative people management system. The Strategic Services Program provides strategic and direction setting services through enabling programs and infrastructure so that people management objectives can be optimally realized. Agency services are intended to complement and support existing departmental capacity (i.e. they are not transactional), as well as the work and policy objectives of central agencies. Strategic services are provided to federal departments, agencies and institutions for individual public servants, their managers, communities of interest and the people management community that supports them.

Integrity and sustainability program

As the Public Service people management lead, the Agency requires an ongoing assessment of the challenges and risks to the integrity and sustainability of the people management system. To ensure the quality of people management system across the Public Service, the Integrity and Sustainability Program develops, collects, assesses and communicates information on how public servants are being managed and the degree to which enabling mechanisms are being applied. This information serves as feedback to adjust other key levers

of effective people management, particularly the policy and service-related components. The tools used to undertake this work include surveys, audits, qualitative and quantitative data, with the results of these efforts taking the form of annual reports and organization-specific assessments. A number of these reports are required under legislation and are tabled in Parliament. Forward looking research and transformational initiatives will also be undertaken from time to time to address specific concerns and opportunities related to ensuring the sustainability of the overall people management system.

Strategic outcome and program activity descriptions ..	26.2
Ministry summary.....	26.3
Program activity	26.5
Transfer payments	26.6
Details of spendable amounts	26.8
Revenues	26.8

Strategic Outcome

Eligible veterans and other clients achieve their optimum level of well-being through programs and services that support their care, treatment, independence, and re-establishment.

Program Activity Descriptions

Pensions, awards, allowances for disability and death; and financial support

Veterans Affairs provides, upon eligibility, pensions or awards for disability or death and financial support as compensation for hardships arising from disabilities and lost economic opportunities. Veterans Affairs has a comprehensive and integrated range of compensation and wellness programs to support its clients. These clients include: Veterans of the First World War, the Second World War, and Veterans of the Korean War, Merchant Navy Veterans, Canadian Forces Veterans, Canadian Forces members, spouses, common-law partners, certain civilians, and survivors and dependants of military and civilian personnel. Veterans Affairs also administers disability pensions for the Royal Canadian Mounted Police under a Memorandum of Understanding. This program activity is delivered through operating and grants.

Health care and re-establishment benefits and services

Veterans Affairs provides health benefits, a Veterans independence program, long-term care, and rehabilitation and re-establishment support to eligible Veterans and others. The Health care program is designed to enhance the quality of life of Veterans Affairs' clients, promote independence, and assist in keeping clients at home and in their own communities by providing a continuum of care. The program activity is delivered through operating and contributions.

Strategic Outcome

Canadians remember and demonstrate their recognition of all those who served in Canada's efforts during war, military conflict and peace.

Program Activity Descriptions

Remembrance programming

Remembrance programming keeps alive the achievements and sacrifices made by those who served Canada in times of war, military conflict and peace; engages communities in remembrance of these achievements and sacrifices; and, promotes an understanding of their significance in Canadian life as we know it today. This activity is delivered through contributions, grants and operating.

Strategic Outcome

Fair and effective resolution of disability pension, disability award, and War Veterans Allowance appeals from Canada's war veterans, eligible Canadian Forces veterans and still-serving members, RCMP clients, qualified civilians and their families.

Program Activity Descriptions

Veterans review and appeal board redress process for disability pensions and awards

Provides Canada's war veterans, eligible Canadian Forces veterans and members, RCMP clients, qualified civilians and their families with full opportunity to request review and appeal hearings to ensure a fair adjudicative process for disability pension, disability award, and War Veterans Allowance claims.

Strategic Outcome

Ombudsman recommendations advance Veterans Affairs fair and equitable treatment of eligible clients.

Program Activity Descriptions

Office of the Veterans Ombudsman independent review and recommendations on individual complaints and systemic issues

Provides War Service Veterans, Veterans or members of the Canadian Forces; members or former members of the RCMP; other clients of Veterans Affairs Canada; spouses, common-law partners, or dependent children of a person in the afore mentioned groups, or the survivors or orphans of deceased persons who qualified under one of these groups; and representatives of the afore mentioned groups with the opportunity to request independent reviews of their complaints by an impartial individual who was not part of the original decision-making process. The Veterans Ombudsman has the mandate to review and address complaints by clients and their representatives arising from the application of the provisions of the Veterans Bill of Rights; to identify and review emerging and systemic issues related to programs and services provided or administered by the Department or by third parties on the Department's behalf that impact negatively on clients; to review and address complaints by clients and their representatives related to programs and services provided or administered by the Department or by third parties on the Departments behalf, including individual decisions related to the programs and services for which there is no right of appeal to the Board; to review systemic issues related to the Board; and to facilitate access by clients to programs and services by providing them with information and referrals.

SECTION 27

2008-2009

PUBLIC ACCOUNTS OF CANADA

Western Economic Diversification

CONTENTS

	<i>Page</i>
Strategic outcome and program activity descriptions . .	27.2
Ministry summary	27.4
Program activity	27.5
Transfer payments	27.6
Revenues	27.7

Strategic Outcome

Policy, advocacy and coordination – Policies and programs that support the development of Western Canada.

Program Activity Descriptions*Collaboration and coordination*

Organizing and coordinating meetings, conferences or other events with other levels of government, other federal departments, industry, academia, or the not for profit sector in order to plan or precipitate actions that result in a greater degree of development and/or diversification of the western economy. This can involve the process of developing policies and programs with other governments or partners, but is distinct from the advocacy activities (below) in that it is more broadly based and less focused on specific issues and near term outcomes. The Assistant Deputy Minister Ottawa office and Director of Policy play key roles representing the Department in Ottawa and coordinating pan-western activities.

Research and analysis

Preparing and disseminating information that results in an increased understanding of western Canadian challenges, opportunities and priorities, and which provides the factual intelligence necessary to undertake internal or external policy and program development. This can include externally generated research sponsored by Western Economic Diversification (WED) through agencies such as the Canada West Foundation and the Conference Board of Canada; or in-house research and analysis involving economic overviews, environmental scans, analysis of federal or other government documents (such as Budgets and Throne Speeches), and sectoral or issue analysis that support departmental policy, planning or program development.

Advocacy

Organizing and attending meetings (including meetings involving the Treasury Board and Cabinet submission processes), writing correspondence, or taking part in any other communication or engagement activities that promote the interests of Western Canada and western Canadians. The activity should facilitate an improved understanding and awareness of regional issues and opportunities that leads to action by the federal government, partners or stakeholders to help achieve a more balanced, regionally sensitive approach to western Canadian priorities, or that results in a greater share of federal program activity or procurement in Western Canada. The activity can also involve advocating on behalf of federal government priorities within Western Canada.

Strategic Outcome

Community economic development – Economically viable communities in Western Canada with a high quality of life.

Program Activity Descriptions*Community economic planning, development and adjustment*

Projects that help communities assess community strengths, weaknesses, opportunities and potential for new economic activity, and to implement community plans. These would not be primarily innovation related. The process involves community-based consultations/facilitation. It also includes: projects that strive to integrate federal programs, services and horizontal initiatives directed towards western Canadian communities, such as community economic development processes and projects, and the Northern Saskatchewan Agreement, etc.; projects that support the viability of the local economy, enhance available facilities and/or increase the participation of community members; and projects that assist communities facing severe adjust-

ment impacts due to changing economic circumstances to identify options and responses that will create new economic opportunities, and to help the communities put the plans into effect.

Infrastructure

WED delivers the Infrastructure Canada program (ICP) in Western Canada. The program was developed to meet the Government's commitment to Canada's growth and the quality of life of all Canadians. Introduced in 2000, the program provides funding for physical infrastructure and will expire in March 2009. In partnership with provincial, territorial and local governments, First Nations and the private sector, the Infrastructure Canada program is helping to renew and build infrastructure in rural and urban municipalities across Canada. The ICP is a national initiative, intended to complement and augment the existing capacity of provincial, territorial, and municipal governments to invest in physical infrastructure. It is expected that WED will continue contributing to the renewal of Canada's infrastructure through delivery of the new Municipal Rural Infrastructure Fund and key Canada Strategic Infrastructure Fund projects in the west on behalf of Infrastructure Canada.

Strategic Outcome

Entrepreneurship and innovation – A competitive and expanded business sector in Western Canada and a strengthened western Canadian innovation system.

Program Activity Descriptions*Business development and entrepreneurship*

WED addresses the needs of small and medium-sized enterprises and entrepreneurs through a variety of service delivery mechanisms and partnerships. These include more than 100 offices of the Western Canada Business Service Network consisting of Community Futures Development Corporations, Women's Enterprise Organizations, Francophone Economic Develop-

ment Organizations and Canada Business Service Centres. WED has created new and alternative sources of capital for small and medium-sized businesses by working closely with financial institutions to create a specialized series of loan programs under the Loan and Investment Program. These loan programs target industry sectors important to Western Canada, micro lending and targeted groups and provide patient and flexible debt capital on terms especially suited to the unique needs and cash flow requirements of these small businesses. These programs are provided on commercial terms by financial institutions such as chartered banks, credit unions, trust companies, the Farm Credit Corporation and the Business Development Bank of Canada. Each lending institution funds its own program and makes the decision on all loan approvals. WED's strategy in support of trade and investment involves activity in four key areas: research, trade policy, trade promotion and investment attraction. Activities vary from strategic participation in Team Canada missions to taking action when western companies are impacted in trade actions such as the softwood lumber dispute. WED has partnered with other federal departments, the provinces and local organizations to enhance overall support for trade and investment in the west through participation in such organizations as Trade Team Canada Inc., Regional Trade Networks, Provincial Trade Teams and Western Trade Officials. WED funding supports projects that result in industry collaboration, joint venturing and strategic alliances that support entrepreneurial development.

Innovation

WED's innovation focus is on economic development and diversification leading to wealth creation. Innovation is the process through which new economic and social benefits are extracted from knowledge. Through innovation, knowledge is applied to the development of new products and services or to new ways of designing, producing or marketing an existing product or service for the public and private markets. WED's approach to innovation recognizes that innovation occurs at the firm level, through a highly complex interdependent system that includes elements such as knowledge infrastructure, basic and applied research and development, highly skilled people, access to adequate patient financing, technology commercialization facilities, and support systems and mechanisms to link these elements to each other. The process of innovation is not linear or isolated but occurs within a broader context known as an innovation system. WED's goal is to strengthen the western innovation system in order to facilitate the development of clusters and to enhance the potential of innovation to create value and wealth.
