## Wage Settlements Covering 500 or More Employees

### June 2010

Base-rate wage increases from major collective bargaining settlements reached in June 2010 averaged 2.2% annually over the contract term. The results for June are based on a review of 17 settlements and cover 51,270 employees.

When the parties to these settlements previously negotiated, contract duration averaged 41.3 months compared to the current average contract duration of 41.0 months and the resulting wage adjustments averaged 3.7%, compared to the 2.2% in their current round of settlements.

Wage adjustments in June settlements ranged from a wage freeze (General Dynamics Canada in Ontario, and BC Transit), to a high of 4.3% (Calgary Co-operative Association Limited).

Wage adjustments in the public sector averaged 2.0% for 41,890 employees in 10 agreements. Private sector wage adjustments averaged 2.9% for 9,380 employees in 7 settlements. In the public sector, the largest concentration of employees was found in the Provincial Health Authorities of Alberta agreement, providing 24,000 nurses (57.3% of public sector employees in June) with a wage adjustment of 2.0%. Canada Post provided

11,000 postmasters (26.3% of public sector workers) with a wage adjustment of 2.1%. Upward pressure on private sector wage adjustments was exerted by the Calgary Co-operative Association Limited agreement (mentioned above, at 4.3%) and a Brink's Canada Limited agreement at 3.5%; however, the private sector figure was moderated by 2 agreements that were subject to a wage freeze (General Dynamics Canada and BC Transit).

On a jurisdictional basis, the largest average adjustments were in Ontario and Saskatchewan, both at 2.4%; the smallest average adjustment was in British Columbia at 0.0%. The largest concentration of employees (55.5%) was in Alberta, where wage adjustments averaged 2.2%. Wage adjustments in the federal jurisdiction also averaged 2.2%.

On an industry basis, average wage adjustments ranged from 0.9% in the manufacturing sector to 4.3% in the trade sector. The largest concentration of employees (54.8% of all employees in June settlements) was in the education, health and social services sector where wage adjustments averaged 1.9%.

Over 81% of employees covered in June settlements received wage adjustments in the 2.0 to 2.9% range; 9.6% of employees received wage adjustments above this range and 4.0% received increases ranging from 1.0 to 1.9%. Just under 5% of employees were subject to a wage freeze.

In the following tables, COLA is the abbreviation for Cost-of-Living Allowance.

## Second Quarter 2010

Major collective bargaining settlements reached in the second quarter 2010 provided base-rate wage adjustments averaging 2.0% annually over the contract term, fractionally lower than the 2.1% figure in the first quarter. The results for the second quarter are based on a review of 74 settlements and cover 195,550 employees.

When the parties to these second quarter settlements previously negotiated, the resulting wage adjustments averaged 3.7%, higher than in their current settlements. Contract duration in the second quarter 2010 averaged 30.6 months, compared to 41.3 months in the previous round of settlements.

Wage adjustments in the public sector averaged 1.8% for 132,910 employees in 42 agreements; private sector wage adjustments averaged 2.5% for 62,640 employees in 32 agreements. Downward pressure on the public sector average was exerted mainly by a wage freeze in 2 Government of British Columbia contracts, BC Hydro and 2 other public-sector contracts in Ontario and Alberta. In the private sector, there was an increase in settlement activity in the construction sector; 21 agreements (two-thirds of all private sector settlements) provided 50,470 employees (80.6% of employees covered in the private sector) with a wage adjustment of 2.5%. All the construction agreements were from Ontario.

On a jurisdictional basis, the lowest average in wage adjustments in the second quarter was in British Columbia (0.0%) and the highest was in Quebec at 3.3% (due in part to a Université de Montréal agreement at 3.8%). The largest concentration of agreements was in Ontario where wage adjustments averaged 2.4% (mostly in construction); the largest concentration of employees was in Alberta, where wage adjustments averaged 2.7% (mostly education-sector contracts). Wage increases in the federal jurisdiction averaged 2.1%.

On an industry basis, wage adjustments ranged from a low of 0.0% in the utilities sector (a single agreement, BC Hydro), to a high of 4.3% in the trade sector (a single agreement, Calgary Co-operative Association Limited). The second lowest average adjustment was in the entertainment and hospitality sector, at 1.2%. The second largest average adjustment was in the finance and professional services sector, at 3.1%. The largest concentration of agreements (33.8%) and employees (34.1%) was in the education, health and social services sector where wage adjustments averaged 2.5%.

Year to date (January-June) wage adjustments averaged 2.1%; 26.8% of employees covered in these contracts were subject to a wage freeze and 44.6% of employees received wage adjustments in the 2.0 to 2.9% range; 17% of employees received increases at or above 3.0%.
