Introduction to Supplementary Estimates

Structure of these Supplementary Estimates

This Supplementary Estimates document is presented in three distinct sections:

1. *Introduction to Supplementary Estimates;*
2. *Summary Tables; and*
3. *Detail by Department, Agency and Crown Corporation.*

Purpose and General Information

The purpose of Supplementary Estimates is to present to Parliament information on the Government of Canada's spending requirements which were either not sufficiently developed in time for inclusion in the Main Estimates, or have subsequently been refined to account for developments in particular programs and services. Supplementary Estimates also provide updated information on changes to expenditure forecasts of major statutory items as well as on such items as: transfers of money between Votes; debt deletion; loan guarantees; new or increased grants; and changes to Vote wording.

Supplementary Estimates documents are normally tabled in Parliament approximately one month in advance of the related Appropriation Act that provides the necessary authority for the Government of Canada to spend monies from the Consolidated Revenue Fund to carry out its programs and services. This period is intended to provide the various Standing Committees of Parliament with sufficient time to review proposed spending before the introduction of the Appropriation Act.

Since the spring of 2007, the practice has been to table a Supplementary Estimate for each of the three parliamentary Supply periods ending June 23, December 10, and March 26. These Supplementary Estimates (A) are the first Supplementary Estimates planned for this fiscal year, for consideration by Parliament in the Supply period ending June 23, 2010.

Summary of Estimates to Date – Fiscal Year ending March 31, 2011

The 2010-11 Main Estimates were tabled on March 3, 2010 seeking Parliament's approval to spend \$96.3 billion in Voted appropriations. The Main Estimates also presented information on \$162.7 billion in statutory requirements for a total Main Estimates of \$259.0 billion. *Appropriation Act No. 1, 2010-11* received Royal Assent on March 31, 2010 and provided interim supply to departments, agencies and appropriation-dependent Crown Corporations until the end of June 2010. The President of the Treasury Board will introduce a bill requesting the remainder of the funding included in these Main Estimates in June.

The Supplementary Estimates (A), 2010-11 provide information in support of Parliament's approval of \$3.3 billion in Voted appropriations which represents an increase of 3.4% of Main Estimates. Also presented in this document is information related to a reduction of \$747.2 million in statutory expenditures.

Main Estimates – \$259.0 billion

\$96.3 billion in Voted appropriations and
\$162.7 billion in statutory expenditures.

These Supplementary Estimates – \$2.6 billion

\$3.3 billion in Voted appropriations
and a decrease of \$0.7 billion
in statutory expenditures.

Table 1: Total 2010-11 Supplementary Estimates (A) (\$ millions)

	Budgetary ¹	Non-budgetary ²	Total
Voted Appropriations ³	3,312.0	3,312.0
Statutory Expenditures ⁴	(1,465.7)	718.5	(747.2)
Total	1,846.3	718.5	2,564.8

1. Budgetary expenditures include the cost of servicing the public debt; operating and capital expenditures; transfer payments to other levels of government, organizations or individuals; and payments to Crown corporations.

2. Non-budgetary expenditures (loans, investments and advances) are outlays that represent changes in the composition of the financial assets of the Government of Canada.

3. Voted Appropriations are those for which parliamentary authority is sought through an Appropriation bill.

4. Statutory Expenditures are those authorized by Parliament through enabling legislation.

* The Budget presents expenses on a gross basis, whereas Main Estimates are presented on net basis. Certain revenues are netted against budgetary expenses.

** Other adjustments consist of cash disbursements for capital acquisition, expenditures charged to prior years and program expenses not yet allocated.

Highlights of these Supplementary Estimates

The following provides an overview of the major items (voted and statutory) included in these Supplementary Estimates.

Voted items Major voted initiatives included in these Supplementary Estimates requiring parliamentary approval:

Funding for planning and operations related to policing and security at the 2010 G8 and G20 summits (*horizontal item*) – \$653.9 million

Royal Canadian Mounted Police \$321.5 million	This funding will support planning and operations related to policing and security at the 2010 G8 and G20 Summits. The Royal Canadian Mounted Police (RCMP), in cooperation with its federal, provincial and municipal partners, will provide security for all participants. The funding requested through these Supplementary Estimates will be used to: design, plan, coordinate and implement security operations for the summits; provide the RCMP and its security partners with accommodation facilities for the G8 and G20 Summits; procure information technology and portable communication assets; work with federal, provincial and municipal security partners responsible for providing Summit security; and ensure the safekeeping of all International Protected Persons attending the summits.
Public Safety and Emergency Preparedness \$262.6 million	
National Defence \$63.1 million	
Others \$6.7 million	

Funding to enhance Canadian aviation security – \$350.6 million

Canadian Air Transport Security Authority \$350.6 million	This funding will support the Canadian Air Transport Security Authority's (CATSA) mandate to maintain security for Canada's air transportation system by allowing CATSA to obtain the newest and most effective machines for screening passengers and baggage, to better align with international security requirements, and to meet new U.S. rules for U.S.-bound flights from Canada.
---	---

Funding for major capital projects – \$338.7 million

National Defence \$338.7 million	This funding will support ongoing capital projects, including the Tactical Airlift Capability Project and the Medium Heavy Lift Helicopter Project, as well as funding 17 new infrastructure projects from resources for National Defence announced in Budgets 2005 and 2006. The timing of cash requirements for these projects has been amended to reflect updated project schedules.

Introduction to Supplementary Estimates

Funding to meet operational requirements such as ensuring continued isotope production, health and safety upgrades, new build reactor technology development, refurbishment project shortfalls and one-time employee reduction costs – \$300.0 million

This funding will allow Atomic Energy of Canada Ltd. to meet costs associated with continued isotope production, including the repair and restart of the National Research Universal (NRU) reactor; winding down of the Dedicated Isotopes Facility; addressing infrastructure and operational upgrades related to health, safety, security and environmental priorities at Chalk River Laboratories; developing new build reactor technology; funding shortfalls in reactor life extension projects; and managing operational pressures.

**Atomic Energy of
Canada Limited**
\$300.0 million

Funding to continue to support the implementation of the First Nations Water and Wastewater Action Plan (*horizontal item*) – \$162.1 million

These funds extend the First Nations Water and Wastewater Action Plan for the first of an additional two years. Renewed funding will allow departments to continue working with First Nations communities on capital construction, operation and maintenance of water and wastewater systems, thus ensuring and preserving the integrity of those systems.

**Indian Affairs and
Northern Development**
\$136.5 million
Health
\$25.6 million

Funding to maintain and improve current Aboriginal health promotion and disease prevention programs, as well as programs aimed at improving the First Nations and Inuit health system (*horizontal item*) – \$135.1 million

This funding will support community programs that promote healthy behaviours and that help reduce rates of illness among First Nations and Inuit. The funds will also ensure that Health Canada can continue to address health human resource shortages in Aboriginal communities and to support projects that promote the integration of federal services with provincial systems.

Health
\$130.4 million
**Public Health Agency
of Canada**
\$4.6 million

Funding for Canada's initial response to the earthquake in Haiti (*horizontal item*) – \$130.3 million

This funding will continue to support Canada's initial whole-of-government response to the earthquake in Haiti including: contributions to appeals for humanitarian assistance launched by the United Nations as well as to project proposals by Canadian non-governmental organizations already operating on the ground in Haiti; the Haiti Earthquake Relief Fund to support humanitarian assistance; early recovery and reconstruction; the deployment of additional police officers under Canada's Police Arrangement; and an initial investment to the reconstitution of essential security system institutions. The funding will also support other measures such as repair and reconfiguration of Canada's real property in Haiti, incremental operating costs to various government organizations involved in activities to assist Haiti, including special immigration measures for those directly and seriously affected by the earthquake in Haiti and support to the Haitian government.

**Canadian International
Development Agency**
\$70.0 million
**Foreign Affairs and
International Trade**
\$34.7 million
Others
\$25.6 million

Funding to support the creation of the Canada Media Fund to ensure Canadian choices are available on television and other digital platforms – \$107.6 million

This funding will support the creation of Canadian content for distribution on television and on at least one other digital platform, such as the internet or mobile devices. The Canada Media Fund also supports the development of interactive content and applications created exclusively for digital platforms other than television. Organizations supported by the Canada Media Fund include; but are not limited to: Canadian television and interactive production companies; broadcasters; cable and satellite distributors; Internet service providers; and mobile communications operators. Both the Government of Canada, through Canadian Heritage, and cable and satellite distributors provide annual funding to the Canada Media Fund.

Canadian Heritage
\$107.6 million

Introduction to Supplementary Estimates

Paylist Requirements – Funding for allocations to departments and agencies for parental and maternity allowances and payments of severance benefits and vacation pay upon termination of service – \$100.0 million

Treasury Board Secretariat
\$100.0 million

Funding will be used to reimburse departments, agencies and Crown corporations for severance pay, vacation credits payable upon termination of employment, parental and maternity allowances. Eligible expenditures are reimbursed through a direct transfer to departmental appropriations during the fiscal year in which such costs were actually incurred.

Funding for the organization of the 2010 G20 Summit in Toronto (*horizontal item*) – \$101.0 million

**Foreign Affairs and
International Trade**
\$70.6 million

**Public Works and
Government Services**
\$29.2 million

Health
\$1.2 million

This funding will support the organization of the G20 Leaders Summit in June, as well as a number of preparatory meetings and outreach activities, including a Youth Summit. The funding requested through these Supplementary Estimates will be used for the expansion of the Summits Management Office, acquisition of meeting space and accommodation for the various events, including site improvements, advance payments or deposits to reserve and commit to Summit venues and hotels for delegates, office accommodations in Toronto, and funding for essential and emergency health services, including the development of health and food surveillance plans, in accordance with Health Canada's responsibility to ensure the security of Internationally Protected Persons.

Funding related to government advertising programs (*horizontal item*) – \$65.4 million

**Human Resources and
Skills Development**
\$16.8 million

Finance
\$10.0 million

Others
\$38.6 million

This funding will support advertising campaigns and initiatives intended to provide information to Canadians on a variety of government programs and services as well as on changes to income tax policy, to recruit new members to the Canadian Forces and Royal Canadian Mounted Police, to commemorate Canadian milestones, and to raise awareness of social issues.

Funding for the continuation of the Technology Cluster Initiative which helps regions, communities and businesses build a competitive advantage in targeted science and technology areas – \$62.8 million

**National Research
Council of Canada**
\$62.8 million

This funding, announced in Budget 2010, will support the continuation of the National Research Council of Canada's (NRC) Technology Cluster Initiative (Clusters). The NRC's 11 Clusters, a key part of NRC's operations since 2000, are designed to support research, innovation and commercialization partnerships in all 10 provinces. The Clusters help regions, communities and business build a competitive advantage in targeted science and technology areas by linking researchers with business to build capacity and expertise.

Statutory items

Significant updates to statutory forecasts included in these Supplementary Estimates for information purposes only:

Transitional Assistance Payments to British Columbia Related to Sales Tax Harmonization – \$769.0 million

Finance
\$769.0 million

This funding will support the winding down of the Provincial Sales Tax and the implementation of Harmonized Sales Tax in British Columbia in accordance with the Comprehensive Integrated Tax Coordination Agreement (CITCA).

Introduction to Supplementary Estimates

Payments to Export Development Canada to discharge obligations incurred pursuant to Section 23 of the *Export Development Act* (Canada Account) for the purpose of facilitating and developing trade between Canada and other countries (Non-budgetary) – \$718.5 million

Export Development Canada (EDC) is Canada's export credit agency, wholly owned by the Government of Canada and operated on commercial principles and in a financially self-sustaining manner. EDC offers innovative financing, insurance and risk management solutions to help Canadian exporters and investors expand their international business. The Canada Account facilitates trade by supporting transactions that exceed EDC's risk threshold but are determined by the Government to be in the public interest. Disbursements have primarily included support for the restructuring of the Canadian portion of the North American automotive industry. Repayments of Canada Account transactions are deposited back into the Consolidated Revenue Fund.

**Foreign Affairs and
International Trade**
\$718.5 million

Revised forecast of public debt charges due to a revision in projected borrowing and lower than expected interest rates – (\$2,352.0 million)

This decrease is due to lower than expected interest rates and a revised forecast of borrowing amounts due to the lower than projected take-up under the Insured Mortgage Purchase Program.

Finance
(\$2,352.0 million)

Changes to Government Structure and New Authorities Being Sought

Changes to the structure of Government reflected in these Supplementary Estimates include:

Pursuant to the *Public Service Rearrangement and Transfer of Duties Act*, there are no changes to the structure of Government reflected in these Supplementary Estimates.

Changes to voted and statutory authorities being sought in these Supplementary Estimates include:

A new vote authority is being sought by Public Works and Government Services (Vote 7a).

New Votes

Amendments to the wording of voted authorities are being sought by:

Amendments to Votes

- Foreign Affairs and International Trade (Votes 1a and 10a), and
- National Parole Board (Vote 40a).

New statutory authorities included in these Supplementary Estimates are:

New statutory authorities

- Economic Development Agency of Canada for the Regions of Quebec – Community Adjustment Fund,
- Finance – Subsidy Resources to the International Monetary Fund's Poverty Reduction and Growth Trust (Section 8 – *Bretton Woods and Related Agreements Act*),
- Industry – Community Adjustment Fund, and
- Western Economic Diversification – Community Adjustment Fund.

Overview of Summary Tables

This section provides an overview of the following summary tables provided in the Supplementary Estimates.

1. Summary of these Supplementary Estimates
2. Summary of Estimates to date for 2010-11
3. Proposed Schedules to the Appropriation Bill
4. Statutory Items in these Supplementary Estimates
5. Summary of Changes to Voted Appropriations
6. Budgetary Supplementary Estimates by Standard Object of Expenditure
7. Allocations from Treasury Board Central Votes
8. Horizontal Items included in these Supplementary Estimates
9. Transfers between organizations included in these Supplementary Estimates
10. \$1 Items included in these Supplementary Estimates

1. Summary of these Supplementary Estimates

This table identifies Budgetary and Non-Budgetary Supplementary Estimates by department, agency and Crown corporation, and by type of parliamentary authority (annual Votes and Statutory requirements).

The first two columns entitled “Previous Estimates” represent Estimates to date which consist of the Main Estimates. The third column entitled “Permanent Allocations from TB Central Votes” represents permanent allocations from Treasury Board centrally-managed Votes which have an impact on spending authorities. Information on Treasury Board centrally-managed Votes can be found in the table entitled “Allocations from the Treasury Board Central Votes”. The columns under “Previous Estimates to Date” represent the organizations’ total Estimates which is the starting point for these Estimates.

The next six columns entitled “These Supplementary Estimates” are the current requirements as provided in Supplementary Estimates (A). These requirements are split into three categories: Transfers, To be Voted and Statutory.

The last two columns entitled “Total Estimates to Date” provide the reader with an update of total Budgetary and Non-Budgetary requirements for 2010-11.

2. Summary of these Supplementary Estimates

This table displays previous Estimates publications and amounts being requested in these Supplementary Estimates and contains a breakdown of funding by Budgetary and Non-Budgetary/Voted and Statutory requirements.

3. Proposed Schedules to the Appropriation Bill

This table provides the reader with a preview of the Appropriation Bill. As noted previously, Supplementary Estimates directly supports the Bill. This table provides a list of Vote numbers, Vote wording and the requested funds that will be proposed to Parliament for approval. There are two schedules to the Appropriation Bill in Supplementary Estimates: Schedule 1 identifies those items for the fiscal year ending March 31, 2011 whereas Schedule 2 identifies those items for the fiscal year ending March 31, 2012.

Only positive adjustments to appropriations are included in a Proposed Schedule to the Appropriation Bill. Where funding for a Vote has netted to zero or has a negative amount displayed in these Supplementary Estimates, no change is required to existing spending authority and not requested of Parliament. Therefore, they are not included in these schedules.

Once the Appropriation Bill is approved, the Vote wording becomes the governing conditions under which expenditures may be made. The following kinds of Votes can appear in Supplementary Estimates:

- a. Program expenditures Votes – This type of Vote is used when there is no requirement for either a separate “Capital expenditures” Vote or “Grants and contributions” Vote because neither equals or exceeds \$5 million. In this case, all expenditures are charged to the one Vote.
- b. Operating expenditures Votes – This type of Vote is used when there is a requirement for either a “Capital expenditures” Vote or a “Grants and contributions” Vote or both; that is, when expenditures of either type equals or exceeds \$5 million.

Summary Tables

- c. Capital expenditures Votes – This type of Vote is used when capital expenditures equal or exceed \$5 million. Expenditure items in a “Capital expenditures” Vote could include individual items expected to exceed \$10,000 for the acquisition of land, buildings and works (Standard Object 8), as well as the acquisition of machinery and equipment (Standard Object 9), or for purposes of constructing or creating assets, where an organization expects to draw upon its own labour and materials, or employs consultants or other services or goods (Standard objects 1 to 9). Different threshold limits may be applied for different capital expenditure classes.
- d. Grants and contributions Votes – This type of Vote is used when the total of grants and contributions expenditures equals or exceeds \$5 million. It should be noted that the inclusion of a grant, contribution or other transfer payment item in Supplementary Estimates imposes no requirement to make a payment, nor does it give a prospective recipient any right to the funds. It should also be noted that in the Vote wording, the meaning of the word “contributions” is considered to include “other transfer payments” because of the similar characteristics of each.
- e. Non-budgetary Votes – This type of Vote is identified by the letter “L”, and provides authority for spending in the form of loans or advances to, and investments in, Crown corporations and loans or advances for specific purposes to other governments, international organizations or persons or corporations in the private sector.
- f. Special Votes: Crown Corporation Deficits and Separate Legal Entities – Where it is necessary to appropriate funds for a payment to a Crown corporation or for the expenditures of a legal entity, a separate Vote is established. A legal entity for these purposes is defined as a unit of government operating under an Act of Parliament and is responsible directly to a Minister.
- g. Treasury Board centrally-managed Votes – To support the Treasury Board in performing its statutory responsibilities for managing the government’s financial, human and materiel resources, a number of special authorities are required as outlined below.
 - i. Government Contingencies Vote – This Vote serves to supplement other appropriations and to provide for miscellaneous, urgent or unforeseen expenditures not otherwise provided for, including grants and contributions not listed in the Estimates and the increase of the amount of grants listed in these Supplementary Estimates. This authority to supplement other appropriations is provided until parliamentary approval can be obtained and as long as the expenditures are within the legal mandate of the organization.
 - ii. Government-Wide Initiatives Vote – This Vote supplements other appropriations in support of the implementation of strategic management initiatives in the Public Service of Canada.
 - iii. Compensation Adjustments Vote – This Vote supplements other appropriations to provide funding for the increased personnel costs of collective agreements between the Treasury Board and collective bargaining units representing public servants, as well as collective agreements signed by separate employers, including members of the Royal Canadian Mounted Police and the Canadian Forces, Governor in Council appointees and Crown corporations as defined in section 83 of the *Financial Administration Act*.
 - iv. Public Service Insurance Vote – This Vote provides for the payment, in respect of insurance, pension or benefit programs or other arrangements, or in respect of the administration of such programs, or arrangements, including premiums, contributions, benefits, fees and other expenditures, made in respect of the public service or any part thereof and for such other persons, as Treasury Board determines, and authority to expend any revenues or other amounts received in respect of such programs or arrangements to offset any such expenditures in respect of such programs or arrangements and to provide for the return to certain employees of their share of the premium reduction under subsection 96(3) of the *Employment Insurance Act*.
 - v. Operating Budget Carry Forward Vote – This Vote supplements other appropriations for the operating budget carry forward from the previous fiscal year.
 - vi. Paylist Requirements Vote – This Vote supplements other appropriations for requirements related to parental and maternity allowances, entitlements on cessation of service or employment and adjustments made to terms and conditions of service or employment of the federal public administration including members of the Royal Canadian Mounted Police and the Canadian Forces, where these have not been provided from the Compensation Adjustments Vote.

4. Statutory Items in these Supplementary Estimates

This table provides Parliament with an update on significant changes to expenditure forecasts of major statutory items. Statutory items are those that Parliament has approved through other legislation that sets out both the purpose of the expenditures and the terms and conditions under which they may be made. Statutory spending is displayed in the Supplementary Estimates for information only.

Summary Tables

5. Summary of Changes to Voted Appropriations

This table displays all Voted information displayed in these Supplementary Estimates in Ministry order.

The first column (Vote Number) indicates the Vote that is to be augmented through these Supplementary Estimates. The letter accompanying the Vote indicates which Supplementary Estimates was used to augment the Vote.

The second column (Gross Amount) displays the total amount of funding being sought in these Supplementary Estimates.

The third column (Less: Available Spending Authorities) represents unused spending authority being used by organizations to minimize the amount being requested in these Supplementary Estimates. Additional information on these amounts is provided in the details section.

The fourth column (Net Amount) displays the net amount of incremental funding being reflected in these Supplementary Estimates. However, it should be noted that the Proposed Schedules to the Appropriation Bill do not reflect funding for organizations where the net amount is zero or negative.

6. Budgetary Supplementary Estimates by Standard Object of Expenditure

To determine and report more accurately the impact of government expenditures on the rest of the economy, the net amount of government purchases by standard object must be determined. All organizations, including those that use revolving funds, must charge their expenditures for purchases to standard object expense categories. Standard objects are the highest level of object classification used for parliamentary and executive purposes, and are reported in the Main and Supplementary Estimates and the Public Accounts. The standard objects of expenditure are as follows:

1. Personnel
2. Transportation and communications
3. Information
4. Professional and special services
5. Rentals
6. Purchased repair and maintenance
7. Utilities, materials and supplies
8. Acquisition of land, buildings and works
9. Acquisition of machinery and equipment
10. Transfer payments
11. Public debt charges
12. Other subsidies and payments

A brief explanation of each Standard Object is provided at the end of this section.

7. Allocations from Treasury Board Central Votes

This summary table provides a comprehensive list of allocations from Treasury Board (TB) Central Votes for Government Contingencies, Government-Wide Initiatives, Compensation Adjustments, Operating Budget Carry Forward and Paylist Requirements, where applicable.

Government Contingencies (TB Vote 5) – This summary table provides a comprehensive list of organizations that have received temporary Treasury Board Contingency Vote (TB Vote 5) funding. Temporary funding can be provided for miscellaneous, urgent or unforeseen expenditures, which were not provided for in the Main Estimates and which are required before the next Supplementary Estimates receive Royal Assent. Once Parliament approves the Appropriation Bill for Supplementary Estimates and the Governor General provides Royal Assent, the temporary funding is reimbursed to TB Vote 5.

Summary Tables

The following criteria must be met in order for Treasury Board to approve access to TB Vote 5:

- All advances from the Government Contingencies Vote should be considered temporary advances to be covered by items included in subsequent Supplementary Estimates and reimbursed when the associated Appropriation Act is passed. Exceptions are made for requirements that arise after final Supplementary Estimates for the fiscal year where advances would not be reimbursable.
- An organization's existing appropriation must be insufficient to cover both existing requirements and the new initiative until the next Supply period. To that end, an organization must support any request with a valid cash flow analysis.
- A valid and compelling reason exists, particularly as it relates to the payment of grants, as to why the payment needs to be made before the next Supply period. If not, the payment should be deferred and access to TB Vote 5 denied.
- For grants, the Transfer Payment Policy must be consulted and followed to ensure that a valid, legally incorporated recipient exists and that the organization clearly demonstrates that it needs to make a payment before the next Supply period.

Government-Wide Initiatives (TB Vote 10) – This Vote supplements other appropriations in support of the implementation of strategic management initiatives within the public service of Canada. Departments and agencies are not required to reimburse funding allocated from Vote 10.

Compensation Adjustments (TB Vote 15) – This Vote supplements other appropriations that may need to be partially or fully augmented as a result of adjustments made to terms and conditions of service or employment of the federal public administration, including members of the Royal Canadian Mounted Police and the Canadian Forces, Governor in Council appointees and Crown corporations as defined in section 83 of the *Financial Administration Act*. Departments and agencies are not required to reimburse funding allocated from Vote 15.

Operating Budget Carry Forward (TB Vote 25) – This Vote supplements other appropriations by authorizing a carry forward of unused funds from the previous fiscal year up to a maximum of five per cent of departments' and agencies' Main Estimates operating budget as was established in the previous fiscal year. Departments and agencies are not required to reimburse funding allocated from Vote 25.

Paylist Requirements (TB Vote 30) – This Vote supplements other appropriations by providing the government with funding to meet legal requirements of the employer such as parental leave, maternity leave, entitlements upon cessation of service or employment and adjustments made to terms and conditions of service or employment of the federal public administration. Departments, agencies and Crown corporations may access this Vote throughout the fiscal year. Departments and agencies are not required to reimburse funding allocated from Vote 30.

8. Horizontal Items included in these Supplementary Estimates

A horizontal initiative is an initiative in which partners from two or more organizations have established a formal funding agreement (e.g. Memorandum to Cabinet, Treasury Board submission, federal-provincial agreement) to work toward the achievement of shared outcomes.

This table provides a summary of those items for which funding is sought in these Supplementary Estimates. It also provides an overview of initiatives related to these Supplementary Estimates where two or more organizations are seeking incremental funding increases.

9. Transfers between organizations included in these Supplementary Estimates

Organizations often request the authority to transfer monies between organizations for various purposes. This table provides a summary of these transactions.

10. \$1 Items included in these Supplementary Estimates

Supplementary Estimates often include "one dollar items", which seek an alteration in the existing allocation of funds or to existing Vote wording (as in the case of loan guarantees) as authorized in the Main Estimates. The purpose of a one dollar item is not to seek new or additional funds, but rather to reallocate existing spending authorities between Votes and/or to provide appropriate authorities. Therefore, since no new funds are requested, the "one-dollar" amount is merely symbolic.

For example, one-dollar items may be used to:

- Transfer funds from one Vote to another;
- Write off debts;
- Adjust loan guarantees;
- Authorize grants; or
- Amend previous Appropriation Acts.

Summary Tables

Explanation of the Standard Objects of Expenditure

1. Personnel

- Salaries and wages, overtime, severance pay, retroactive pay and other special pay of civilian continuing (full-time) or term (part-time, seasonal and casual) employees except those of agency and proprietary Crown corporations, as well as members of the military and the Royal Canadian Mounted Police.
- Judges' salaries, those of the Governor General, the Lieutenant-Governors and the indemnities to Members of both Houses of Parliament, and all types of allowances paid to or in respect of continuing and term employees (such as living, terminable, foreign service, isolated post, board and subsistence allowances, shift differential allowances for assistants, and other such allowances).
- Ministers' motor car allowances, and the expense allowances to Senators and Members of the House of Commons.
- The Government's contribution to various employee benefit plans (the Public Service Superannuation Account, the Supplementary Retirement Benefits Account, the Canada Pension Plan Account, the Quebec Pension Plan Account, the Public Service Death Benefit Account and the Employment Insurance Account).
- The Royal Canadian Mounted Police Superannuation Account, the Canadian Forces Superannuation Account and the Members of Parliament Retiring Allowances Account, and the Government's contribution to provincial and other medical and hospital insurance plans and supplementary personnel costs for various purposes.

2. Transportation and Communications

- Traveling and transportation expenses of Government employees, members of the Canadian Forces and the Royal Canadian Mounted Police, removal expenses of those persons and their dependants, and living and other expenses of such persons on travel status, judges' traveling expenses, and traveling expenses and allowances payable to Senators and Members of the House of Commons.

Allocations from the Treasury Board Central Votes

Vote 5 – Government Contingencies

\$0

Subject to the approval of the Treasury Board, this serves to supplement other appropriations and to provide the government with sufficient flexibility to meet urgent or unforeseen expenditures where a valid cash requirement exists in advance of a Supply period. This authority to supplement other appropriations is provided until parliamentary approval can be obtained and as long as the expenditures are within the legal mandate of the organization. Temporary allocations are reimbursed to TB Vote 5 upon receiving Royal Assent for an Appropriation Act.

No allocations have been made from TB Vote 5.

Vote 10 – Government-Wide Initiatives

\$0

Subject to the approval of the Treasury Board, this Vote supplements other appropriations in support of the implementation of strategic management initiatives in the public service of Canada. Departments and agencies are not required to reimburse funding allocated from Vote 10.

No allocations have been made from TB Vote 10.

Vote 15 – Compensation Adjustments

\$0

Subject to the approval of the Treasury Board, this Vote supplements other appropriations as a result of adjustments made to terms and conditions of service or employment of the federal public administration, including members of the Royal Canadian Mounted Police and the Canadian Forces, Governor in Council appointees and Crown corporations as defined in section 83 of the *Financial Administration Act*. Departments and agencies are not required to reimburse funding allocated from Vote 15.

No allocations have been made from TB Vote 15.

Vote 25 – Operating Budget Carry Forward

\$0

Subject to the approval of the Treasury Board, this Vote supplements other appropriations by authorizing a carry forward of unused funds from the previous fiscal year up to a maximum of five per cent of departments' and agencies' Main Estimates operating budget from that previous fiscal year. Departments and agencies are not required to reimburse funding allocated from Vote 25.

No allocations have been made from TB Vote 25.

Vote 30 – Paylist Requirements

\$0

Subject to the approval of the Treasury Board, this supplements other appropriations by providing the government with funding to meet legal requirements of the employer such as parental and maternity leave, entitlements upon cessation of service or employment and adjustments made to terms and conditions of service or employment in the public service. Departments and agencies may access this throughout the fiscal year.

No allocations have been made from TB Vote 30.

\$1 Items included in these Supplementary Estimates

Through the Supplementary Estimates, an organization can seek changes to various spending authorities originally received through parliamentary approval of the previous Supply bills for Main or Supplementary Estimates. These alterations might include requests for additional funding relating to a transfer of funds from another organization, a re-allocation or amendment of existing spending authorities, or the addition of new authorities.

Parliamentary approval of such changes is sought through an enabling Supply bill. However, in order to be included in a Supply bill, an item must have a monetary value. This is not an issue when a department is also requesting an adjustment to its appropriation. However, in the absence of any increase to the Vote, a notional amount of “\$1” allows the item to be included in the Supply bill.

The authority associated with each \$1 item relates to either:

1. *Approval of grants* – The wording used in the Estimates to describe a grant has a legislative character and, therefore all new grants or increases to existing grants must first be approved by Parliament before any payments can be made to eligible recipients. A \$1 item is included when there is no requirement for additional appropriations because the new grant or the increase to an existing grant is to be funded from within existing resources or from a transfer of funds from another organization.
2. *Vote transfers within an organization* – Through Supply legislation, an organization may have received spending authorities in more than one Vote (e.g., operating expenditures Vote and capital expenditures Vote). As the fiscal year progresses, and for various reasons, the organization may need to realign its approved funding due to changes in delivery mechanisms within organizational priorities.
3. *Transfers between organizations* – Transfers between organizations are used for a variety of reasons such as: to redirect funding from one organization to another in order to manage or to implement more efficiently an initiative or project; and/or to reflect new organizational responsibilities.
4. *Modify authority embedded in existing vote wording* – The Supplementary Estimates can be used to amend an existing authority that is embedded in the Vote wording of an organization. Most of these authorities can be found in the non-budgetary Vote wording of organizations and are related to limits or ceilings on loans and investments. Such non-budgetary Votes are preceded by the letter “L”.
5. *Create new vote and associated wording* – The Supplementary Estimates can be used to create a new vote with the associated wording which will give the organization the authority as specified in the new vote wording.

The following table captures, under each of the above categories, the instances where a \$1 item is required in these Supplementary Estimates. A number of these transactions can be captured in a department’s Vote wording, but will require a single \$1 item. Therefore, as the following table is presented by category, there may be some departmental Votes that appear more than once despite the fact they relate to a single \$1 item.

\$1 Items included in these Supplementary Estimates

1. Approval of grants

Organization	Vote Number	Explanation
Fisheries and Oceans	10a	To increase the grant “Grant Program for the disposal of small craft harbours” by \$1,414,000 .
Health – Canadian Institutes of Health Research	25a	To increase the grant “Grants for research projects and personnel support” by \$180,000 .
Industry – Canadian Space Agency	35a	To increase the grant “Class Grant Program to Support Research, Awareness, and Learning in Space Science and Technology” by \$35,000 .

2. Vote transfers within an organization

Organization	Vote Number	Explanation
Fisheries and Oceans	10a	To authorize the transfer of \$1,414,000 from Fisheries and Oceans Vote 1 to support Small Craft Harbour Infrastructure Repair Program projects; of \$414,000 from Fisheries and Oceans Vote 1 for the support of academic research and development related to science priorities (Academic Research Contribution Program); and \$69,034 from Fisheries and Oceans Vote 1 for the Fraser Basin scientific study of salmon populations; the enhancement of relationships with stakeholders; and the improvement of fisheries management.

Detail by Department, Agency and Crown Corporation

Departments, agencies and Crown corporations for which a Minister is responsible, or reports to Parliament, are grouped together to provide a total ministry presentation.

Each Ministry is divided into four sections:

1. Ministry Summary;
2. Explanation of Requirements (Voted Appropriations, Funds Available, Statutory Appropriations and Transfers) for each organization requiring supplementary estimates;
3. Explanation of Funds Available (if applicable); and
4. Transfer Payments (if applicable).

1. Ministry Summary

This table displays all Voted and Statutory information in Ministry order, including:

- Vote number and Vote wording;
- Previous Estimates – Main Estimates;
- Transfers between Votes both within and between organizations;
- Adjustments to Appropriations (new funding requests); and
- Total Estimates to date.

Where a Vote's "Adjustment to Appropriations" result in a net zero or negative amount for an organization, it will not form part of the Appropriation Bill. Net zero or negative amounts are displayed for information purposes only.

2. Explanation of Requirements

This section provides a description of individual items or initiatives for which spending authority is being requested. Horizontal initiatives affecting more than one organization are flagged as (*horizontal item*) and will be displayed in the summary table "Horizontal Items included in these Supplementary Estimates" presented at the front of these Supplementary Estimates.

This section also identifies all transfers between and within organizations, whether they relate to: a transfer of monies between organizations to accomplish a particular objective; the transfer of responsibility for the delivery of a program; realignments flowing from machinery changes announced by the government; or transfers within an organization to support program needs. Transfers do not have an impact on new appropriations being requested by organizations. Transfers are displayed in the Ministry Summary separately from new appropriations and are also displayed in the summary table dealing with transfers between organizations at the front of these Supplementary Estimates.

3. Explanation of Funds Available

This section provides information about funds that are used to offset or reduce new spending requirements included in these Supplementary Estimates. To minimize the amount of new appropriation authorities requested from Parliament, surplus spending authority available in one Vote can be redirected to another Vote to reduce the overall amount of spending authority required. As well, surplus spending authority available in a number of frozen allotments can also be used with Treasury Board authority to reduce the amount of new appropriations required.

Some examples of surplus spending authority used for offsets include: funds moved from one fiscal year to another fiscal year in the same organization; or funds from one program being redirected to another program.

4. Transfer Payments

This table provides a listing of transfer payments.

A transfer payment is a grant, contribution or other payment made for the purpose of furthering program objectives but for which no goods or services are received.

Grants, contributions and other transfer payments differ in several respects:

- Grants are transfer payments made on the basis of established eligibility and not normally subject to audit. Grants and their total values have a legislative character and specific descriptions that govern their use;
- Contributions are transfer payments where the recipients must meet performance conditions and may be subject to audit; and
- Other transfer payments are transfer payments, other than grants and contributions, based on legislation or an arrangement which may include a formula to determine the annual amounts.
