Publishing and Depository Services Program

Subject Thesaurus

2010 Edition

**Publishing and Depository Services
Public Works and Government Services Canada**

© Her Majesty the Queen in Right of Canada,
represented by the Minister of Public Works and Government Services Canada, 2004.

Catalogue No. P109-1/2010E-PDF

Introduction

The Publishing and Depository Services Subject Thesaurus has been maintained and developed by the Depository Services Program (DSP) since the early 1990's and is used as a source of subject descriptors for DSP catalogue records. From 1999 until April 2005, the DSP thesaurus was adopted as the Government of Canada Core Subject Thesaurus (CST) and during that period the two vocabularies were identical. In 2005, Library and Archives Canada assumed responsibility for the CST and the DSP thesaurus has been maintained and developed independently since then.

The thesaurus was originally developed as a post-coordinated vocabulary but it has become increasingly pre-coordinated with successive edits and this evolution is likely to continue. As of 2009, the PDS Subject Thesaurus is also being used by Publishing and Depository Services as a source of descriptors for web metadata on the Publications Canada web site.

The PDS thesaurus is a bilingual vocabulary consisting of two separate data files, English and French. The English and French versions of the thesaurus were developed and are maintained simultaneously and neither language is to be considered the dominant or source language in this vocabulary. Neither language is a translation of the other; they are each in a relationship of equivalence. The English thesaurus and the French thesaurus are identical in their coverage but their respective relational structures are not identical due to the natural conceptual and terminological differences between the two languages.

The English vocabulary contains 2157 postable terms and 1698 non-postable terms. All postable terms are assigned to one or more of nineteen subject categories.

Intoxication

Algae

FRE: Algue
BT: Aquatic plants
RT: Environmental impact
Pollution
Water management
Water quality
SN: An aquatic plant, often microscopic, without roots, flowers or seeds that produces organic matter by photosynthesis.

Alimony

USE: Child support

Allergies

FRE: Allergie
RT: Chronic diseases

Alliance

USE: Agreements

Allied forces

FRE: Forces alliées
RT: Armed forces
War
World war, 1939-1945

Allowances

FRE: Allocation
UF: Annuities
Compensation
NT: Family allowances
RT: Benefits
Grants
Pensions
Salaries

Almanacs

FRE: Almanach
RT: Yearbooks
SN: An annual publication containing current and retrospective statistics and facts.

Alternative energy

FRE: Énergie alternative
UF: Non conventional energy
BT: Energy
NT: Solar energy
Wind energy
RT: Energy technology

Alternative medicine

FRE: Médecine douce
UF: Soft medicine
BT: Medicine
NT: Homeopathy
RT: Medicinal plants

Alzheimer's disease

FRE: Maladie d'Alzheimer

RT: Elections
Staffing

Appraisal

FRE: Estimation
UF: Evaluations
RT: Assessment
SN: The setting of worth or assigning
a monetary value to an object

Apprenticeships

USE: Vocational training

Approval processes

FRE: Procédure d'agrément
RT: Assessment
Benchmarks
Methodology
Testing
SN: An activity that identifies
the regulations that must be
complied with and the
requirements that must be met in
order to obtain certification for a
product, procedure, process, or
service.

Aquaculture

FRE: Aquaculture
 UF: Aquatic agriculture
 Aquiculture
 NT: Fish farming
 RT: Aquatic animals
 Aquatic plants
 Fisheries
 SN: The farming of fish and shellfish
 for food.

Aquariums

FRE: Aquarium

RT: Art exhibitions
Arts
SN: Objects of the fine or decorative arts that are produced and prepared by people considered to be artists.

Artefacts

FRE: Artefact
UF: Antiques
Art objects
RT: Archaeological investigations
Collections
SN: Natural or artificial objects produced, selected, or shaped by human beings for their usefulness or for their cultural, psychological, religious or social significance.

Arthritis

FRE: Arthrite
BT: Degenerative diseases

Artificial insemination

FRE: Insémination artificielle
BT: Reproductive technology
RT: Semen

Artificial intelligence

FRE: Intelligence artificielle
UF: Expert systems
Machine intelligence
RT: Automation
Computer programming
Information technology
Robotics
Software
SN: The subfield of computer science concerned with developing intelligent computer programs that can solve problems, learn from experience, understand language, interpret visual scenes, and, in general, behave in a way that would be considered intelligent if observed in a human.

Artists

FRE: Artiste
RT: Arts
Occupations
SN: Writers, producers, directors, choreographers, conductors, composers, arrangers, performers, painters, sculptors, artisans and craftpersons and related occupations who create objects of aesthetic value.

Arts

FRE: Arts
