Canadian Labour in Profile: Wage Adjustments, April 2011

Major collective bargaining settlements reached in **April 2011** provided base rate wage adjustments averaging **2.4%** annually over the contract term. The results are derived from a review of 37 agreements* and cover 90,180 employees. This is higher than the 1.1% figure recorded in the previous month, and the 1.8% average for 2010.

When the parties to these settlements previously negotiated, contract duration averaged 35.4 months compared to the current average contract duration of 34.5 months and the resulting wage adjustments averaged 3.5%, compared to the 2.4% in their current round of settlements.

Wage adjustments in April ranged from a wage freeze in three agreements (Connors Bros., division of Clover Leaf Seafoods, L.P., with 750 employees in New Brunswick; Government of British Columbia with 800 nurses; and the University of Victoria with 500 instructors and lecturers), to a high of 5.8% for the University of Windsor with 950 teaching assistants.

Wage adjustments in the public sector averaged 2.8% and 2.0% in the private sector. The larger public-sector figure was due largely to 12 agreements in the Alberta education sector which provided 21,580 teachers across the province with wage gains of 4.5%; in the

private sector, six construction agreements (also in Alberta) provided 33,350 employees with wage adjustments averaging 2.0%.

On a jurisdiction basis, almost half the agreements and the majority of employees covered in April were in Alberta (18 agreements covering 54,930 employees); the lowest average was in New Brunswick at 0.0% (due to a single agreement with a wage freeze with Connors Bros., division of Clover Leaf Seafoods, L.P.) The highest increase was in Alberta at 3.0%. In the federal jurisdiction, two agreements averaged 3.1% (Sécurité Pré-embarquement Garda inc. at 3.0%, and CanJet Airlines at 3.2%).

On an industry basis, the highest average in wage adjustments in April was in primary industries at 3.9% (mainly due to ArcelorMittal Mines Canada at 4.1%). The lowest average was in manufacturing at 0.0% (derived from the same Connors Bros. settlement with a wage freeze mentioned earlier).

* *Note: All data compiled in this review involves major collective agreements covering 500 or more employees across Canada.*
