Canadian labour in profile: Wage adjustments, July 2011

Major collective bargaining settlements reached in the month of **July 2011** provided base-rate wage adjustments averaging **1.9%** annually over the contract term. This is slightly higher than the 1.7% figure recorded in the previous month, and the 1.8% average for 2010. The July 2011 results are derived from a review of 14 major agreements* and cover 23,550 employees.

When the parties to these settlements previously negotiated, contract duration averaged 42.4 months and the resulting wage adjustments averaged 3.1%, compared to the 1.9% in their current round of settlements and average contract duration of 48.4 months.

Average wage adjustments were higher in the public sector at 2.2% than in the private sector at 1.5%. The private-sector average was largely influenced by the New Dominion Stores, division of A & P Canada Inc. agreement which provided 4,400 retail employees with an average annual adjustment of 0.5% and the Construction Labour Relations – An Alberta Association which provided 2,500 structural workers with wage gains averaging 2.0%. Of note in the public sector, the Workplace Safety and Insurance Board of Ontario provided 3,600 employees with an average annual increase of 1.9. The Government of Quebec provided 800 employees in the legal classification group (lawyers and notaries) with an average annual adjustment of 3.7%.

On a jurisdictional basis, in British Columbia, 700 employees at Finning (Canada), division of Finning International Inc., obtained a 3.5% average adjustment. The lowest average wage adjustment was recorded in Ontario at 1.2% (due mainly to the New Dominion Stores, division of A & P Canada Inc. settlement at 0.5%). In the federal jurisdiction, there was only one major settlement in July; Saskatchewan Telecommunications provided 3,200 employees with an average annual wage increase of 1.9%.

In July, 42.5% of employees received average annual wage increases of 1.0 to 1.9% range; 18.7% of employees received less than 1%. Approximately 25% of employees received wage increases ranging from 2.0 to 2.9% and fewer than 14% of employees received wage increases in the 3.0 to 3.9% range.

Wage adjustments in the first seven months of 2011 (January to July) averaged 1.8%. So far in 2011, average wage adjustments in major settlements have been relatively moderate in comparison to the recent upward trend in the Consumer Price Index (CPI) in recent months (a rate of inflation peaking at 3.7% in May).

** Note: All data compiled in this review involves major collective agreements covering 500 or more employees across Canada.*
