¹The outlook is subject to uncertainty. Although point forecasts are presented in this publication, CMHC also presents forecast ranges and risks where appropriate. The forecasts included in this document are based on information available as of January 17, 2011.

Housing Market to Moderate in 2011 After Significant Growth in 2010

Overview¹

Along with historically low interest rates and stable income levels the Atlantic Canadian economy performed well in 2010. The level of housing activity increased 17 per cent compared to 2009, with the economy showing moderate growth overall.

Starts Will Decline

Following significant gains in 2010, a pullback in housing activity is expected in 2011 as weaker economic growth will result in a pause in the overall recovery phase. Single starts will show a moderate drop of close to eight per cent as the economy softens in Atlantic Canada. Multiple starts, which saw very strong growth of over 40 per cent in 2010, are expected to decrease close to 14 per cent in 2011.

MLS® Prices Will Rise in 2011

With only a small rise in inventory in 2010, price growth in the existing home market was very positive rising close to six per cent. For 2011, prices are forecast to increase across Atlantic Canada from a high of close to three per cent in Newfoundland and Labrador (NL), two per cent in Nova Scotia (NS), and close to one per cent in New Brunswick (NB) and Prince Edward Island (PEI).

Existing home sales are expected to decline modestly in 2011. Sales declines will vary across Atlantic Canada from four per cent in NS and NB, close to six in NL and close to eight per cent in PEI.

Economic Forecast

The economic forecast remains on track to be positive in 2011 but growth is forecast to be weaker than in 2010 as some economic factors such as the dollar, oil prices and only moderate employment growth will limit growth from rising significantly.

For Newfoundland and Labrador, oil production and energy and mining activity will continue to be the main sources of growth. Major capital investments continue to inject stimulus into the economy and will contribute to a positive outlook. For the province, expect 3.3 per cent GDP growth in 2011 and 2.4 per cent in 2012. Additional growth will be spurred by the province's infrastructure spending program. It is also expected that a number of additional resource related projects will add to economic growth beginning in late 2011.

For Prince Edward Island, moderate growth is expected over the forecast period. Information technology and biosciences will continue to be the focus in helping to diversify the Island economy. The Island's aerospace industry, which is located mainly in the Summerside area, is another sector that continues to expand. Although the upward trend in employment will support a positive economic outlook for 2011, the rate of growth will be weaker this year compared to 2010. For Prince Edward Island, economic growth is forecast at 1.3 and 1.5 per cent in 2011 and 2012, respectively. Growth will weaken as a result of a slowdown in capital spending by the province as well as a pullback in private sector investment, although some recent investment announcements for the City of Charlottetown will be positive for the outlook.

For Nova Scotia, economic growth for the province continues to remain positive over the forecast period although a decline in spending from energy and energy-related investment activities will result in a slowdown in the level of growth overall. The prospects for additional growth are dependent on energy prices continuing to improve. After recording price increases in the beginning of 2010, natural gas prices ended the year lower, dropping the probability for additional exploration activity in 2011. As a result, for Nova Scotia, moderately positive economic growth of 1.4 and 1.6 per cent is expected in 2011 and 2012, respectively.

Economic growth in New Brunswick will remain the weakest among the four Atlantic Provinces over the

forecast period. Although higher prices in the energy sector, as well as some improvement in potash prices will contribute to a rebound in exports in 2011, the overall economic outlook will be affected by reduced investment in major projects. The most recent provincial budget provided some insight into future issues related to deficits and the challenges expected in balancing the budget. Consequently, provincial government spending activity, which has been supported by federal expenditures, will decline in both 2011 and 2012 compared to 2010 levels. As a result, moderate GDP growth of 1.1 per cent is forecast for the province in 2011 with a small increase to 1.3 per cent expected for 2012.

CMHC—HOME TO CANADIANS

Canada Mortgage and Housing Corporation (CMHC) has been Canada's national housing agency for more than 60 years.

Together with other housing stakeholders, we help ensure that the Canadian housing system remains one of the best in the world. We are committed to helping Canadians access a wide choice of quality, environmentally sustainable and affordable homes – homes that will continue to create vibrant and healthy communities and cities across the country.

For more information, visit our website at www.cmhc.ca

You can also reach us by phone at 1-800-668-2642 or by fax at 1-800-245-9274.
Outside Canada call 613-748-2003 or fax to 613-748-2016.

Canada Mortgage and Housing Corporation supports the Government of Canada policy on access to information for people with disabilities. If you wish to obtain this publication in alternative formats, call 1-800-668-2642.

The Market Analysis Centre's (MAC) electronic suite of national standardized products is available for free on CMHC's website. You can view, print, download or subscribe to future editions and get market information e-mailed automatically to you the same day it is released. It's quick and convenient! Go to www.cmhc.ca/housingmarketinformation

For more information on MAC and the wealth of housing market information available to you, visit us today at www.cmhc.ca/housingmarketinformation

To subscribe to priced, printed editions of MAC publications, call 1-800-668-2642.
