

## About FCAC

The Financial Consumer Agency of Canada (FCAC) is an agency of the Government of Canada created to protect the rights of consumers and inform them about financial products and services.

## How We Protect

We make sure that financial institutions regulated by the Government of Canada follow the consumer protection measures set out in federal laws and regulations. We also see to it that they respect their own codes of conduct and their commitments to you. To learn more about the consumer protection measures, industry codes of conduct and commitments, please contact us.

## How We Inform

Through our Consumer Contact Centre, Web site and publications, we provide objective and helpful information, including tips and tools to protect your rights and to help you shop around for the financial product or service that meets your needs.

## How to Reach Us

## About Credit Cards and You

Credit Cards and You provides information related to credit card features and costs. Key terms are explained on page 1.

This publication does not include all credit cards available in Canada, nor does it include affinity credit cards.

FCAC does not recommend the use of specific credit cards.

The figures contained in the comparison tables at the back of this guide have been confirmed by credit card issuers and were in effect as of May 1, 2003. Updates are posted under the Publications section of FCAC's Web site. However, for the most up-to-date information, contact your credit card issuer.

If you find the information in this guide useful, please pass it on and let us know.

## Key Terms Used in Credit Cards and You

Annual Fee: Charge levied each year for use of a credit card, billed directly to your monthly statement. Many credit cards come without an annual fee.

Annual Interest Rate: Annual interest rate charged on purchases not benefitting from the interest-free period. For cash advances or balance transfers, interest is charged from the day the funds are withdrawn (there is no interestfree period).

Balance Transfer: Transfer of an outstanding credit card balance from one card to another, usually between different institutions. Interest is usually charged by the new card issuer from the day the amount is transferred to the new card (there is no interest-free period).

Cash Advance: Withdrawal of funds from your credit card up to the credit limit allowed. May be subject to daily limits. Interest is charged from the day the funds are withdrawn (there is no interest-free period).

Co-branded Credit Card: A credit card issued by a financial institution in association with a specific store or retailer. When you make purchases on this card, you can usually earn reward points that you can redeem for merchandise at that specific store or retailer.

Grace Period: The grace period is the time between the statement date and the payment due date, and is provided by the credit card issuer. The grace period usually varies between 19 and 26 days and is a component of the interest-free period. The grace period may not apply unless certain conditions are met.

Interest-free Period: The interest-free period on new purchases is the time from the day you make a purchase to when the credit card issuer begins charging you interest on that purchase. The interest-free period includes the grace period provided by the credit card issuer, and may not apply unless certain conditions are met.

Method 1: Method used by some credit card issuers to determine whether the interest-free period applies to your new purchases. The interest-free period applies to your new purchases only if you pay your current month's balance in full by the due date.

Method 2: Method used by some credit card issuers to determine whether the interest-free period applies to your new purchases. The interest-free period applies to your new purchases only if you pay your current month's balance in full by the due date, and have also paid your previous month's balance in full by the due date (you are not carrying a balance from the previous month).

Minimum Payment: Minimum amount payable each month on the balance owing on a credit card.
Penalty Interest Rate: Rate at which penalty charges are calculated. Only applies to charge cards.
Prime Rate: The interest rate a financial institution charges on loans to its best customers.
Reward Program: A program offered by credit card issuers that gives cardholders rewards for using their credit card. Consumers collect reward points, or dollars, every time a purchase is charged to their card. These points are usually redeemable for merchandise or travel or cash, depending on the reward program.

Security Deposit: Amount deposited with a credit card issuer as security to obtain a secured credit card.

## What's New in This Issue of Credit Cards and You

## New Credit Card Issuer

- Home Trust has been added to the list of credit card issuers and is included in the secured cards table on page 55.

## New Topics

- How Secured Cards Work (page 14) introduces secured cards and explains the requirements to obtain this type of card.
- Drawing Against a Credit Balance on Your Account (page 15) explains what to watch out for if you take a cash advance against a credit you have accumulated on your credit card account.
- Credit Card Bill Payments: Understanding the Delays (page 16) defines the amount of time it takes to process a payment you make to your credit card issuer. Timelines can vary from zero to five days, depending on the method you use to make a payment: regular mail, in-branch, automated banking machine (ABM), Internet or telephone.
- Gold, Platinum, U.S. Dollar and Secured Card Comparison tables (pages 22 to 60) allow consumers to compare the basic features and costs, reward programs and insurance benefits associated with these types of cards.
- Co-branded credit cards have also been added to all the tables in the guide.
- The Service Fees tables (pages 61 to 66 ) outline the service fees that apply to various credit card transactions made inside and outside Canada.

## Four Steps to Choosing a Credit Card

## Don't know where to begin in choosing a credit

 card? Follow the four steps below to help you with your search.Step 1 - Know your needs and wants. Ask yourself:

- How much will you be spending on the card each month?
- Will you be able to pay your balance in full each month?
-Would you benefit from reward programs?
- Are you prepared to pay an annual fee?

## Step 2 - Use Table 1 (page 4) or Flowchart 1 (page 5)

 to help you choose a type of credit card.- Use Table 1 if you think you might benefit from a specialized credit card (retail, secured, charge, U.S. dollar). Table 1 lists the features of these cards.
OR
- If you cannot benefit from a specialized card, use Flowchart 1 to help you pick a credit card (Student, Low-Rate, Standard, Gold or Platinum) that meets your needs.

## Step 3-Shop around for a credit card within the

 type you have chosen. Go to the pages indicated by either Table 1 or Flowchart 1 to help you compare the features of cards from different issuers.Step 4 - Before you make your final choice, understand all the terms and conditions of the credit card. This step is important because it may save you a lot of time and money! By understanding the terms and conditions of your credit card, you will benefit more from it and you will minimize the drawbacks of using the card. Make sure you understand the following:

- Interest rate charged on purchases, cash advances and balance transfers and how interest is calculated
- Annual fee and other applicable fees
- Grace period (explained on page 9)
- Minimum monthly payment
- Consequences of late payments
- Other features and enhancements, such as introductory offers (explained on page 12)
- What you have to do if you have a complaint or problem with your credit card.

A credit card agreement is a legally binding contract. As with any other contract, make sure you understand all the terms and conditions before using the card. Always ask questions about anything that isn't completely clear to you!

## Benefits of a Credit Card

- Helps you establish a credit history and earn a credit rating
- May be more convenient to carry than cash
- Offers free use of funds if you always pay your balance in full and by the due date
- Some credit card issuers offer incentives such as reward points you can use towards merchandise or services
- Convenient payment option for purchases made on the Internet and over the phone

## Drawbacks of a Credit Card

- May encourage you to spend more and incur more debt than you can handle
- May negatively affect your credit rating if your payments are late
- Some terms and conditions of the credit card may be difficult to understand
- Typically more expensive than other forms of credit, such as a line of credit or personal loan

| Table 1: Specialized Credit Cards |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
| Type of Card | Main Purpose of Card | Features | Choose If... | Comparison Tables |
| U.S. <br> Dollar <br> Card | Lets you make purchases in U.S. dollars | - Annual interest rate around $18 \%$ <br> - Usually has an annual fee <br> - May offer additional benefits such as accident and car rental insurance | - You normally pay your balance off in full each month <br> - You often shop in the U.S. <br> - You have a U.S. bank account from which you can pay your credit card bill | U.S. Dollar Cards <br> Pages 49-50 <br> Service Fees <br> Pages 61-64 |
| Secured Card | Can help you establish or improve your credit rating | - Annual interest rate around $\mathbf{2 0 \%}$ <br> - Requires a deposit to secure your credit limit <br> - May have a startup fee <br> - Generally has monthly maintenance fees | - You need to build a credit rating or re-build a poor credit rating <br> - You are having difficulty obtaining other types of credit cards | Secured Cards <br> Pages 55-56 <br> Service Fees <br> Pages 61-64 |
| Retail Card | Can offer discounts or reward programs at a specific store or retailer | - Annual interest rate around 28\% <br> - Generally has no annual fee <br> - Can usually only be used at the issuing retailer or a limited number of stores <br> - Calculation of interest is often complex <br> - Some retailers charge you less interest by calculating it from the statement date instead of the purchase date, or if you pay at least $50 \%$ of the balance | - You normally pay your balance off in full each month <br> - You often shop at a specific retailer <br> - You can take advantage of the benefits the retailer offers | Retail Cards <br> Pages 57-58 <br> Service Fees <br> Pages 65-66 |
| Charge Card | Has no credit limit | - Must pay entire balance off each month <br> - Generally has a high annual fee <br> - High penalty rate for late payments (usually around $30 \%$ ) <br> - Often has a longer grace period than other cards <br> - Often has reward programs <br> - Can usually only be used at the issuing retailer or a limited number of stores | - If you pay your balance off in full each month <br> - If you can benefit from options such as unlimited credit or reward programs | Charge Cards <br> Pages 59-60 <br> Service Fees <br> Pages 61-66 |

## Flowchart 1

Answer the following two questions to find what type of card is right for you.

## Question 1: Are you a student with a limited income?

| Comparison <br> Tables | Regular-Rate Student Card <br> Features |  |
| :---: | :---: | :---: |
| If you don't carry a balance, the <br> interest rate is less important. You should <br> consider a regular-rate student card. |  |  |
| Regular-Rate <br> Student Cards <br> Pages 53-54 | - Same features as above, except <br> for the following: <br> - Annual interest rate around <br> $\mathbf{1 8 \%}$ <br> Generally has no annual fee |  |
| + | Service Fees <br> Pages 61-64 |  |

## Flowchart 1 (continued)

## Question 2: Do you need special insurance options, such as car rental insurance or medical travel insurance?

## Flowchart 1 (continued)

## Since you do not need a card with Gold or Platinum

 features, a low-rate or standard credit card is probably for you.|  | Comparison Tables | Low-Rate Card Features |
| :---: | :---: | :---: |
| If you carry a balance (that is, if you don't pay your balance in full each month), the interest rate is important. You should consider a low-rate card. | Low-Rate Cards <br> Pages 23-26 <br> $+$ <br> Service Fees <br> Pages 61-64 | - Annual interest rate around 12\% <br> - Generally has an annual fee (make sure your savings on the interest outweigh your annual fee [Example 1 on page 8 shows how much you can save with a low-rate card]) <br> - May offer reward programs |

|  | Comparison Tables | Standard Card Features |
| :---: | :---: | :---: |
| If you don't carry a balance, the interest rate is less important. You should consider a standard card. | Standard Cards <br> Pages 27-34 $+$ <br> Service Fees Pages 61-64 | - Annual interest rate around 18\% <br> - Generally has no annual fee <br> - Often has reward programs |

## Do You Carry a Balance? Options to Save You Money

If you carry a balance on your credit card, low-rate cards or lines of credit may be beneficial to you. You can save money by:

- switching from a higher-interest rate credit card to a low-rate credit card

OR

- paying off your higher-interest rate credit card balance each month with a line of credit.

Example 1 shows how much you could save by using a low-rate credit card or line of credit instead of a card with a higher rate of interest.

Example 1: How Much Money You Can Save with a Low-Rate Credit Card or a Line of Credit

|  | Standard <br> Credit Card | Low-Rate <br> Credit Card | Line of <br> Credit |
| :--- | :---: | :---: | :---: |
| Average monthly balance | $\$ 2,500$ | $\$ 2,500$ | $\$ 2,500$ |
| Annual interest rate ${ }^{1}$ | $\times 18 \%$ | $\times 12 \%$ | $\times 8.75 \%$ |
| Annual interest charges | $=\$ 450$ | $=\$ 300$ | $=\$ 218.75$ |
| Annual fee $^{1}$ | $+\$ 0$ | $+\$ 20$ | $+\$ 0$ |
| Total annual cost $^{\text {Total annual savings }}{ }^{2}$ | $\mathbf{= \$ 4 5 0}$ | $=\mathbf{\$ 3 2 0}$ | $=\mathbf{\$ 2 1 8 . 7 5}$ |

${ }^{1}$ Based on the average of the six major banks, caisses and credit unions listed in this publication for both standard and lowrate cards. For lines of credit, the annual interest rate is an approximation of the May 2003 industry average and will vary between institutions and with your credit rating.
${ }^{2}$ This example assumes you carry a constant balance of $\$ 2,500$ and that you make all minimum payments on time.
Otherwise, your interest rate may increase, or you may be subject to additional fees that will increase your overall costs. If you compare the low-rate card with a retail card for the same outstanding balance the savings are even higher.

## How Interest Is Calculated on Credit Cards

If you always pay the amount owing on your credit card by the payment due date, you never have to pay any interest.

If you do not always pay the amount owing on your credit card in full by the due date, it is important for you to understand how your credit card issuer calculates the interest charged on the various types of transactions you can do with a credit card.

## New purchases

- These are purchases that appear on your monthly statement for the first time.
- They can be interest-free under certain conditions (see the following section on interestfree periods).

## Old purchases

- These are purchases that were listed on a previous statement and not paid off.
- You are charged interest from the date you made these purchases (some credit card issuers charge interest from the date the purchases are posted to your account) until they are paid in full.

## Cash advances and balance transfers

- You are charged interest from the date you made the cash advance or balance transfer.
- There is no interest-free period on these transactions.

## The Interest-Free Period on New Purchases

The interest-free period on new purchases is the time from the day you make a purchase to when the credit card issuer begins charging you interest on that purchase. But it only applies if certain conditions are met (see "When Does the Interest-Free Period Apply?" on the next page).

The interest-free period has two parts:

1) the time between the purchase and your statement date, and
2) the time between your statement date and your payment due date. This is called the grace period, and it is provided by the credit card issuer. The grace period can vary from 19 to 26 days. To find out the length of the grace period for your credit card, go to the comparison tables at the back of this publication, or ask your credit card issuer.

Here's an example of an interest-free period:

- Mr. Jones' statement covers transactions he made between May 1 and May 31 (31-day billing period).
- Mr. Jones made a new purchase on May 5.
- His payment due date is June 19. Therefore, the grace period provided by his credit card issuer is 19 days.

The total interest-free period on the purchase Mr. Jones made on May 5 is 45 days, but only applies if certain conditions are met (see "When Does the Interest-Free Period Apply?" on the next page).

## When Does the Interest-Free Period Apply?

To determine whether the interest-free period applies to your new purchases, credit card issuers use one of two methods (described in Table 2 below as Method 1 [M1] and Method 2 [M2]). To find out which one your credit card issuer uses, ask the issuer, or refer to the comparison tables at the back of this guide.

Table 2: Methods of Applying Interest-Free Periods

| Method 1 (M1) | Method 2 (M2) |
| :--- | :--- |
| For the interest-free period to apply to your <br> new purchases, you must pay your current <br> month's balance in full by the due date. | For the interest-free period to apply to your new <br> purchases, you must pay your current month's <br> balance in full by the due date, and you must also <br> have paid your previous month's balance in full by <br> the due date (you are not carrying a balance from <br> the previous month). |

## Example:

Let's say Mr. Jones carried a balance of $\$ 2,000$ from April (he did not pay his April balance in full). During the month of May, he made a new purchase ( $\$ 1,000$ on May 5 ). He paid his new balance in full by the due date indicated on his statement (June 19).

If Mr. Jones' credit card issuer uses Method 1:
Mr. Jones will have to pay interest only on the $\$ 2,000$ carried over from April. He will benefit from the interest-free period on new purchases because he paid his current balance in full by the due date.

If Mr. Jones' credit card issuer uses Method 2:
Mr. Jones will have to pay interest on the $\$ 2,000$ carried over from April and on the new purchase of $\$ 1,000$, because Mr. Jones carried a balance over from April.

## Interest-Free Period Flow Chart

Follow the flow chart below to find out whether the interest-free period applies to your new purchases. Refer to the comparison tables at the back of this guide to see whether your credit card issuer uses Method 1 or Method 2.

## About Introductory Rates

Have you received an attractive introductory rate offer from a credit card issuer? If you carry a balance on your credit card, such offers might be right for you. However, be aware that these low rates generally apply for a limited time only. As soon as the introductory period ends, the rate will increase to the card's regular rate (see the comparison tables at the back of this publication).

Before applying for a specific credit card, it is important that you understand the terms and conditions of the introductory offer. Ask the credit card issuer:

- what transactions the introductory rate offer applies to;
- when the introductory period will end;
- what the interest rate will be at the end of the introductory period;
- if the introductory rate will end if you make a late payment or exceed your credit card limit;
- if any other fees or conditions apply.

## Don't base your credit card decision

 solely on one factor such as an attractive introductory rate. Make sure you understand all of the features and conditions of a card to decide whether it is right for you.
## Getting the Most from Low Introductory Rates

Before you accept a credit card with a low introductory rate offer, find out which transactions the offer applies to. If the low introductory rate applies only to balance transfers and/or cash advances (and not to purchases), limit your new purchases until you pay off the balance transfer or cash advance to save money in the long run.

If you make purchases while carrying a balance, you may reduce the potential savings from the low introductory rate on your balance transfer or cash advance, generally for two reasons: you lose the interest-free period on new purchases and your payments will be first applied to the lower-interest balance. These two reasons are explained below.

## 1) Loss of the interest-free period on new purchases

If you do not pay off the entire balance at the end of the first month, you lose the interest-free period on new purchases (see pages 9 to 11 for an explanation of interest-free periods). This means that you begin paying interest, usually at the credit card's regular higher rate, on your new purchases from the date you make them or, in some cases, the day they are posted to your account.

## 2) Your payments are first applied to the lowerinterest balance

Most institutions apply your payments to balance transfers and cash advances before they apply them to purchases. This is called the "order of transactions" related to payments. If you make a cash advance or balance transfer at a low introductory rate and then make purchases, you end up reducing your potential savings because you will be paying off the lower interest debt (your balance transfer or cash advance) first and carrying the higher interest debt (your purchases) for a longer time. (See Example 2 on the next page.)

However, the order of transactions may vary from one institution to the other. Ask your credit card issuer to explain how its "order of transactions" applies to your payments.

## Example 2: Getting the Most from Low Introductory Rates

## In both of the following cases:

- On May 1, you transfer a balance of $\$ 5,000$ from an old card to a new one to benefit from the low introductory rate.
- Your new card has a 6\% introductory rate on balance transfers, and an $18 \%$ interest rate on purchases.
- Your payments are applied first to balance transfers, then to purchases.
- In both cases, you will have a $\mathbf{\$ 5 , 0 0 0}$ balance remaining, but you will pay $\$ 9.06$ less interest in Case 1.

## Case 1:

- You make no other purchases during the month.
- You will pay $\$ 25.47$ in interest charges.

| Case 1: No other purchases | Outstanding Balance |
| :--- | :---: |
| May 1: Balance transfer | $\$ 5,000$ |
| May 31: Outstanding balance | $\mathbf{\$ 5 , 0 0 0}$ |
| Interest rate on balance transfer | $6 \%$ |
| Interest charged for May | $\mathbf{\$ 2 5 . 4 7 *}$ |
| $* \$ 5,000 \times(6 \%$ interest rate $\div 365$ [days in a year] $\times \mathbf{3 1}$ days $)$ <br> $=\$ 25.47$ |  |

Case 2:

- A few days after the transfer, you make a purchase of $\mathbf{\$ 1 , 0 0 0}$ on your new card.
- The day following the purchase, you make a partial payment of $\mathbf{\$ 1 , 0 0 0}$ to bring the balance back to $\$ 5,000$.
- You will pay \$34.53 in interest charges.

| Case 2: Additional purchase |  | Outstanding Balance |  |
| :---: | :---: | :---: | :---: |
|  |  | From the balance transfer | From the purchase |
| May 1: Bala | ce transfer | \$5,000 |  |
| May 5: Purc | ase of \$1,000 |  | \$1,000 |
| May 6: Partia (applied to | l payment of $\$ 1,000$ alance transfer) | \$4,000 |  |
| May 31: Total \$5,000 | outstanding balance $=$ | \$4,000 | \$1,000 |
| Interest rate | on each balance | 6\% | 18\% |
| Interest char | ed for May | \$21.21* | \$13.32** |
| Total intere | charged for May | \$34.53 |  |
| * Balance transfer: | $\begin{aligned} & \text { [ } \$ 5,000 \times(6 \% \text { interest rate } \div 365 \text { [days in a year] } \times 5 \text { days }) \\ & +\$ 4,000 \times(6 \% \text { interest rate } \div 365 \text { [days in a year] } \\ & \times 26 \text { days })]=\$ 21.21 \end{aligned}$ |  |  |
| **Purchase: | $\begin{aligned} & {[\$ 0 \times(18 \% \text { interest rate } \div 365 \text { [days in a year] } \times \mathbf{4} \text { days })} \\ & +\$ 1,000 \times(18 \% \text { interest rate } \div 365 \text { [days in a year] } \\ & \times 27 \text { days })]=\$ 13.32 \end{aligned}$ |  |  |

## How Secured Credit Cards Work

Credit cards are usually extended to consumers in an unsecured manner; that is, a security deposit is not required to obtain the card. Unsecured credit cards include low-rate, standard, gold, platinum, retail and charge cards.

However, a secured card might be right for you if you are having difficulty obtaining an unsecured credit card because:

- you have no credit rating;
- you have had credit problems in the past and want to rebuild your credit rating;
- you have recently filed for bankruptcy;
- you are new to the country.

## Requirements to Obtain a Secured Credit Card

To obtain a secured card, you will need to deposit a sum of money (often called a "security deposit") with the credit card issuer. The required security deposit for a secured card can range from a few hundred to several thousand dollars. In addition to the security deposit, you may be charged a one-time set-up or application fee.

Your credit limit is normally set as a percentage (usually 100 per cent or more) of your deposit. For example, if you provide the credit card issuer with a deposit of $\$ 500$, you may be granted a credit limit of $\$ 500$ or more. If you do not make your credit card payments, the credit issuer may use your deposit to pay down your credit card balance. However, making all your credit card payments on time can help you build a credit rating, or rebuild a poor one. Once your credit rating is considered satisfactory by a credit issuer, you may be eligible for an unsecured credit card, such as a low-rate or standard card.

## Interest Rate and Other Fees that May Apply

You should know that secured credit cards normally have a higher interest rate than unsecured cards. In addition, secured credit cards usually have monthly or annual fees and, like other cards, have service fees associated with certain transactions (see Service Fees Table, on pages 61-64).

## Interest and Insurance on Your Security Deposit

Most secured credit card issuers will pay interest on your security deposit, which may be returned to you once you have established satisfactory credit with the issuer, or if you decide to close your secured credit card account.

The financial institution that holds your deposit is either your credit issuer (if it accepts deposits), or another financial institution chosen by the issuer. No matter who holds your security deposit, check with your credit issuer to see if your deposit is insured with the Canadian Deposit Insurance Corporation (CDIC) or a provincial deposit insurance corporation. CDIC insures deposits (up to a limit of $\$ 60,000$ ) held in federally regulated financial institutions. This insurance protects you in case the financial institution holding your deposit declares bankruptcy. Every province also has a deposit insurance corporation that protects deposits held at the financial institutions it regulates.

## Tips for finding a secured card

- Check your credit file periodically with the three credit rating agencies in Canada (TransUnion, Equifax and Northern Credit Bureaus). If your credit file contains an error, have the error corrected immediately since it may prevent you from getting an unsecured card.
- Be cautious about secured card offers from unknown institutions; they may be scams. If you have doubts about a secured credit card offer, contact FCAC at: 1-866-461-3222.
- Be cautious about secured card offers from issuers outside Canada. If you experience problems, it may be difficult for you to resolve them with a company located outside of Canada.
- Be cautious of secured credit card offers that do not have a recognized brand name such as Visa, MasterCard or American Express. These cards may only be accepted at a small number of stores, or may require you to make purchases from a specific catalogue.
- Read and make sure you understand all of the terms and conditions associated with a secured card before accepting it.

## Drawing Against a Credit Balance on Your Account

You may have a credit balance on your account if, for whatever reason, you paid more than what you owed on your credit card bill.

## What happens when you have a credit balance?

Some credit card issuers will send you a cheque if the credit balance has been sitting in your credit card account for a certain period of time. Other issuers may offer this service at your request, but you may be charged a fee.

Alternatively, you can use up this credit balance by:

- making more purchases on your credit card (this is the preferred method), or
- making a withdrawal from an automated banking machine (ABM). If you plan to do this, it may cost you more than you think, because your transaction will be considered as a cash advance.

## Withdrawing a credit balance by taking a cash advance

If you decide to withdraw the credit balance at an ABM, your transaction will be considered a cash advance, and the following fees could apply:

- a transaction fee of up to four per cent of the amount advanced, depending on the credit card issuer (see Service Fees Tables, pages 61-66);
- interest on the cash advance, from the day you make the transaction until you pay the amount in full.

On your next statement, the credit you earned will be offset by the amount you withdrew from the ABM, but you will still have to pay a cash advance transaction fee as well as interest on the amount withdrawn (see Example 3 below).

## Will you earn interest on your credit?

During the time a credit sits in your account, you do not usually earn interest on it. And, if you leave the amount sitting in your credit card account for an extended period of time, you may be charged an "inactive account" fee. See the Service Fees Tables, pages 61-66.

## Example 3: Drawing a Credit Balance by Taking a Cash Advance

| Statement Date | Details |
| :---: | :---: |
| Apr. 30, 2003 | Natalie's April credit card statement shows that she has a \$500 credit. |
| May 5, 2003 | Natalie decides to go to an ABM to withdraw the \$500. |
| May 31, 2003 | Natalie's May statement shows the following charges: $\begin{aligned} & \$ 500.00 \text { cash advance (May } 5) \\ + & \$ 5.00 \text { cash advance fee } \\ + & \$ 6.59^{1} \text { interest on } \$ 500 \text { cash advance } \\ - & \$ 500.00 \mathrm{CR} \text { (credit balance) } \\ = & \$ \mathbf{1 1 . 5 9} \end{aligned}$ <br> Natalie now owes $\mathbf{\$ 1 1 . 5 9}$ because she used a cash advance to draw against a credit balance on her account. |

## Tips to save you money

- Know what fees apply to your credit card - especially those on cash advance transactions and inactive accounts. Refer to the Service Fees Tables, pages 61-66.
- Instead of taking a cash advance to draw against a credit to your account, use the credit up by making essential purchases, such as buying groceries.

## Credit Card Bill Payments: Understanding the Delays

## What happens if you make a late credit card payment?

If you do not pay by the due date indicated on your statement, you will be charged interest on the amount you owe until it is paid in full.

If your credit card issuer uses "Method 2" of applying the interest-free period (see explanation on pages 10-11 as well as the comparison tables at the back of this guide to find out whether your issuer uses this method), you will automatically lose the interest-free period on any new purchases that appear on your next statement. This means that next month, you will pay interest on all of your new purchases, even if you pay that bill in full, by the due date.

You may also face other penalties for not paying your bill on time, such as having your interest rate raised, or your credit card cancelled.

## How to make sure your payment is not late

No matter what type of bill payment method you use (see below) you should be aware of the delays you may encounter in processing your payment, and plan accordingly so that your payment is not late. Note that payments made on a weekend or holiday are not processed until the first business day following that weekend or holiday.

Select the method of payment you use below to find out how long it will take to process your payment. Since these examples describe the usual amount of time it takes to process bills, it is important for you to check with your credit card issuer whether they follow the same process.

## Option 1: SENDING A CHEQUE BY REGULAR MAIL

Allow 4 to 5 business days (Monday to Friday, except for statutory holidays) for your bill payment to reach the credit card issuer. Your credit card issuer will usually deposit your cheque on the date it is received, and consider that you have paid it on that date (unless it is a post-dated cheque).

Tips:

- Some credit issuers accept post-dated cheques. If this is the case, send your payment as soon as you get your credit card statement.
- If you are not using a post-dated cheque, send your payment well in advance of the due date on your statement.
- Make sure you have enough funds in your account to cover the cheque, to avoid having the cheque returned for non-sufficient funds (NSF). Otherwise, you will be charged interest on the amount you owe until you pay in full. You may also be charged NSF fees by the credit card issuer and your financial institution.

## Credit Card Bill Payments: Understanding the Delays (continued)

## Option 2: VISITING A TELLER AT A FINANCIAL INSTITUTION

The teller will stamp your statement and stub (the tear-off portion of your statement) with the date you made the payment. You are considered to have made your bill payment on that date. Payments made during extended banking hours (on a weekend or after approximately 3 p.m.) will be considered as having been made on the next business day.

| If you pay by |
| :---: |
| cash, by a |
| withdrawal from |
| your account, or |
| by cheque |

## Tips:

- Before you visit a teller, make sure you know which financial institutions will accept your bill payment. Ask your credit card issuer, or refer to your statement.
- If you pay by cheque, make sure you have enough funds in your account to cover your cheque and avoid having it returned for non-sufficient funds (NSF). Otherwise, you will be charged interest on the amount you owe until you pay in full. You may also be charged NSF fees by the credit card issuer and your financial institution.

## Option 3: USING AN AUTOMATED BANKING MACHINE (ABM)

If you do not have to deposit the stub
(your bill payments automatically appear on the screen)

You will be considered to have made your payment on that day, provided you made the payment before 3 p.m. If you are paying $\longrightarrow$ after hours (on a weekend, holiday or after 3 p.m.), your credit card payment will be considered as having been paid on the next business day.

If you are depositing the stub in an envelope

You are considered to have made your payment on the next business day because branch staff require time to empty the ABMs and verify the contents of the envelopes.

## Credit Card Bill Payments: Understanding the Delays (continued)

## Option 4: USING TELEPHONE OR INTERNET BANKING

If you make a payment during business hours (before 3 p.m.), you are considered to have made your bill payment on that date. If you are paying after hours (on a weekend, holiday or after 3 p.m.) your credit card payment will be considered as having been paid on the next business day.

## Option 5: USING A PRE-AUTHORIZED PAYMENT AGREEMENT

To pay your credit card bill using this method, you must sign a pre-authorized payment agreement authorizing the credit card issuer to withdraw funds directly from your bank account. The agreement outlines the terms and conditions related to withdrawals from your account. Among other things, the agreement indicates:

- the amount to be withdrawn each month, and whether this is a fixed amount or whether this can vary depending on your credit card balance (for example, the total balance you owe, or just the minimum payment required);
- the date on which the amount will be taken from your account.

Your bill payment will be made on the due date indicated on your statement, because the credit card issuer will withdraw the funds directly from your bank account on that day.

Tips:

- Keep track of your payments to ensure you have sufficient funds in your account to cover all of your withdrawals. If your pre-authorized debit payment is returned for non-sufficient funds (NSF), you will be charged interest on the amount you owe until you pay in full. You may also be charged NSF fees by the credit card issuer and your financial institution.
- If you decide to cancel your pre-authorized payment agreement, you must indicate this in writing, send your notice to the credit issuer and keep a copy for your files.

## How to Protect Yourself from Unauthorized Transactions

- As soon as you receive a new credit card, sign the back. Cancel and destroy cards you no longer need.
- Make sure that your monthly credit card statement reflects the transactions you made during the month. Immediately report any unauthorized transactions to your credit card issuer.
- Don't give personal information or your credit card account number over the phone or the Internet unless you are confident that you are dealing with a company you know and trust.
- Keep important information such as your date of birth, your social insurance number (SIN) or your other personal identification safe.
- Access your credit file once a year to ensure it is accurate and doesn't contain loans or activities you haven't authorized.
- Keep your personal identification number (PIN) separate from your credit card and never disclose it to anyone.

## What You Should Do If You Find Unauthorized Transactions on Your Account

If you find unauthorized transactions on your credit card account, follow the steps below to find out whether you can be reimbursed:

## Step 1:

Contact your credit card issuer immediately to report the unauthorized transactions.

## Step 2:

Check your credit card agreement. By law, your agreement must contain a section that explains your maximum liability (usually $\$ 50$ ) in the case of lost or stolen credit cards, or the unauthorized use of your credit card number.

## Step 3:

Find out if your credit card issuer offers "ZeroLiability" on unauthorized transactions. For example, Visa and MasterCard cardholders are protected beyond the maximum liability found in their credit card agreements. This is done through a public commitment Visa and MasterCard call the "ZeroLiability Policy". If your Visa or MasterCard is lost or stolen, or if someone uses your Visa or MasterCard account number to make transactions you did not authorize, you can usually be reimbursed.

This policy applies to transactions made on the Internet, by phone or at retailers, but may exclude personal identification number (PIN)-based transactions - for example, a cash advance made on your card at an automated banking machine (ABM) and transactions made on corporate credit cards. Find out from your credit card issuer whether they have such a policy and how it can protect you. Note that these policies are not listed in credit card agreements, since they are public commitments and not legal requirements.

## Financial Consumer's Checklist

- Have you thought about:
- How much credit you can handle
- Whether you will be able to pay your balance in full each month
- Whether you would benefit from reward programs
-Whether you are prepared to pay an annual fee
- Whether you shop at a particular retailer often enough to benefit from their card
- Have you shopped around for the credit card that best suits your needs?
- Do you understand the terms and conditions of the card, including the following:
- Annual fee or other applicable fees
- Minimum monthly payment
- Interest charged on purchases, cash advances and balance transfers and how the interest is calculated
- Grace period
- Consequences of late payments
- Other features and enhancements
- Do you understand the terms and conditions of the introductory offer (if any):
- Which transaction(s) the introductory offer applies to
- When the introductory period ends
- What the interest rate will be at the end of the introductory period
- Whether any other fees or conditions apply to the offer
- Whether the introductory rate period will end if you make a late payment or if you exceed your credit card limit, and if so, what the new rate would be
- If any other fees or conditions apply
- Have you inquired about the customer service or support available for the card you have chosen?

## Tips to Help You Save Money

- Ask questions. Your financial institution or retailer can help you.
- Don't base your credit card decision solely on one factor, such as introductory rates or reward programs. Look for the overall package that best suits your needs and your financial situation.
- If possible, pay your entire balance in full each month. If you cannot pay your balance off in full, transfer the balance to another form of credit that has a lower annual interest rate, such as a line of credit. If you do this every month, you will always benefit from the grace period on your credit card.
- If you carry a balance on a credit card, remember that interest is normally charged from the date purchases are made until they are paid in full. Making early payments between statements will save you interest charges.
- Cash advances should only be made when absolutely necessary - for short-term or emergency situations since interest is charged from the day you borrow until the advance is paid in full. If you must take a cash advance, make a payment to your credit issuer as soon as possible so you won't accumulate daily interest charges.
- Allow enough time for your payment to reach your credit card company.
- Take advantage of pre-authorized payment options to ensure your monthly payments are paid from your savings/chequing account by the due date. However, keep track of these payments to ensure there is enough money to cover all withdrawals from your account.
- Monitor your monthly billings or other mailings for notices of fee increases or rule changes by your credit card company.

## CREDIT CARD COMPARISON TABLES

The following section contains tables comparing the costs and features of various credit cards.

CREDIT CARDS AND YOU

|  | Basic Features |  | Annual Interest Rates |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |

${ }^{3}$ The grace period is part of the interest-free period. It represents the number of days between the statement date and the payment due date, during which new purchases are interest-free if you meet the conditions of the method (Method 1 [M1] or Method 2 [M2]) used by the issuer. The actual interest-free period could be longer, depending on the date of purchase of the item. See pages 9 to 10 for more information on the interest-free period and the conditions set out by M1 and M2.
${ }^{4}$ This is not a complete list of all rewards and benefits offered by credit card issuers. If a specific benefit is not included as part of a credit card package, it may still be available at an additional cost. In addition, some insurance coverage may not be available to all customers due to age limits or other conditions that may apply. Check with your credit card issuer for more details.
${ }^{5}$ The Royal Bank states it currently uses Method 1 (M1) for most of its credit card accounts, but its disclosure documents permit the use of Method 2 (M2).

${ }^{1}$ If the grace period does not apply, interest on purchases is calculated from the date of purchase of the item - or, in some cases, the date the item is posted to your account.
${ }^{2}$ For cash advances or balance transfers, interest is always calculated from the date funds are borrowed. There is no grace period.

| Grace Period on New Purchases ${ }^{3}$ |  | Annual Fees |  | Rewards and Benefits ${ }^{4}$ |  |  |  |  |  |  |

${ }^{3}$ The grace period is part of the interest-free period. It represents the number of days between the statement date and the payment due date, during which new purchases are interest-free if you meet the conditions of the method (Method 1 [M1] or Method 2 [M2]) used by the issuer. The actual interest-free period could be longer, depending on the date of purchase of the item. See pages 9 to 10 for more information on the interest-free period and the conditions set out by M1 and M2.
${ }^{4}$ This is not a complete list of all rewards and benefits offered by credit card issuers. If a specific benefit is not included as part of a credit card package, it may still be available at an additional cost. In addition, some insurance coverage may not be available to all customers due to age limits or other conditions that may apply. Check with your credit card issuer for more details.

${ }^{3}$ The grace period is part of the interest－free period．It represents the number of days between the statement date and the payment due date，during which new purchases are interest－free if you meet the conditions of the method（Method 1 ［M1］or Method 2 ［M2］）used by the issuer．The actual interest－free period could be longer，depending on the date of purchase of the item．See pages 9 to 10 for more information on the interest－free period and the conditions set out by M1 and M2．
${ }^{4}$ This is not a complete list of all rewards and benefits offered by credit card issuers．If a specific benefit is not included as part of a credit card package，it may still be available at an additional cost．In addition，some insurance coverage may not be available to all customers due to age limits or other conditions that may apply．Check with your credit card issuer for more details．

|  | Basic Features |  | Annual Interest Rates |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Low-rate platinum credit card issuer <br> Low-rate platinum credit card name | Minimum personal income required (\$) | Minimum credit limit (\$) | Purchases ${ }^{1}$ <br> (\%) | Cash advances ${ }^{2}$ (\%) | Balance transfers ${ }^{2}$ (\%) |

| MBNA Canada <br> Low Rate Platinum MasterCard with fee | Not specified | 2,500 | 9.99 | 9.99 | 9.99 |

${ }^{1}$ If the grace period does not apply, interest on purchases is calculated from the date of purchase of the item - or, in some cases, the date the item is posted to your account.
${ }^{2}$ For cash advances or balance transfers, interest is always calculated from the date funds are borrowed. There is no grace period.

## Low-Rate Platinum Credit Cards

Spring 2003

| Grace Period on New Purchases ${ }^{3}$ |  | Annual Fees |  | Rewards and Benefits ${ }^{4}$ |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

${ }^{3}$ The grace period is part of the interest-free period. It represents the number of days between the statement date and the payment due date, during which new purchases are interest-free if you meet the conditions of the method (Method 1 [M1] or Method 2 [M2]) used by the issuer. The actual interest-free period could be longer, depending on the date of purchase of the item. See pages 9 to 10 for more information on the interest-free period and the conditions set out by M1 and M2.
${ }^{4}$ This is not a complete list of all rewards and benefits offered by credit card issuers. If a specific benefit is not included as part of a credit card package, it may still be available at an additional cost. In addition, some insurance coverage may not be available to all customers due to age limits or other conditions that may apply. Check with your credit card issuer for more details.

## Service Fees for Visa, MasterCard, and American Express

To choose a credit card that is best suited to your needs, you should examine your credit card agreement and understand all the terms and conditions of the credit card, including all of the fees related to various transactions you make inside and outside Canada.

Depending on how you use your credit card, these fees could add up substantially. Just as the annual percentage rates, annual fees and interest-free periods vary from one issuer to another, so do the fees for the services they offer. Know your credit card habits and shop around for a card that has reasonable fees for the services you use the most.

Some issuers may offer additional services free of charge that are not listed in the table below. The "-" symbol indicates that there is no fee.

| Credit card issuer <br> Credit card name | Cash advance fee (in Canada) ${ }^{1}$ | Cash advance fee (outside Canada) ${ }^{2}$ | Over-the-limit fee | Handling a dishonoured cheque or cash advance ${ }^{3}$ |
| :---: | :---: | :---: | :---: | :---: |
| American Express | \$2.75 | \$2.75 | \$20 | \$25 |
| BMO Bank of Montreal | $\$ 1.50$ to $\$ 2.75$ at an ABM, \$3 to \$4 in-branch | $\$ 3.50$ to $\$ 4.50$ at an ABM, $\$ 5$ to $\$ 6$ in-branch | \$20 | \$22 |
| Canadian Tire Options MasterCard | \$3 | \$4 | - | \$25 |
| Capital One Bank | $\begin{gathered} 1 \% \text { of amount } \\ (\min . \$ 5, \text { max. } \$ 10) \\ \hline \end{gathered}$ | $\begin{gathered} 1 \% \text { of amount } \\ (\min . \$ 5, \text { max. } \$ 10) \\ \hline \end{gathered}$ | \$20 | \$20 |
| CIBC | \$2.50 | \$5 | - | \$25 |
| Citibank | \$3 | \$3 | \$20 | \$25 |
| CS Alterna Bank | $\$ 1.50$ to $\$ 2.75$ at an ABM, \$3 to \$4 in-branch | $\$ 3.50$ to $\$ 4.50$ at an ABM, $\$ 5$ to $\$ 6$ in-branch | \$20 | \$22 |
| CS Co-Op | $\$ 1.50$ to $\$ 2.75$ at an ABM, $\$ 3$ to $\$ 4$ in-branch | $\$ 3.50$ to $\$ 4.50$ at an ABM, $\$ 5$ to $\$ 6$ in-branch | \$20 | \$22 |
| Fédération des caisses Desiardins du Ouébec | \$1 to \$1.25 | \$2.50 to \$3.50 | - | \$20 |
| Home Trust | \$2 | \$4.50 to \$5.50 | \$29 | \$39 |
