

Migratory Birds Hunting Regulations, 2012–2013

Watch for this loon on blue signs marking National Wildlife Areas and Migratory Bird Sanctuaries.

Summary

The information presented here is a summary of the law. For complete information on fines, general prohibitions, permitted hunting methods and equipment, the requirement to have adequate means to retrieve birds immediately, restrictions on the use of bait, the description of hunting zones and other restrictions on hunting, please refer to the *Migratory Birds Convention Act, 1994* and *Migratory Birds Regulations*. These, along with other useful information for hunters, can be found on the Environment Canada website (www.ec.gc.ca) on the Migratory Birds page in the Nature section, or you may contact:

Hunting Zones

Zone No. 1

Saint John County south of No. 1 Highway and west of Saint John Harbour, that part of Charlotte County lying south of No. 1 Highway, and the Grand Manan Islands and Campobello Island, except the following area, which is closed to hunting: the area in the Bay of Fundy known as The Wolves, including the surrounding waters.

Zone No. 2

The remainder of the Province of New Brunswick, except the following, which are closed to hunting: the estuary of the Tabusintac River, Bathurst Basin and most of Bathurst Harbour (two islands remain open and signs have been posted to indicate their locations), and the Dalhousie shoreline from the eastern tip of Dalhousie Island to the mouth of the Miller Brook and extending one kilometre offshore.

You are required to possess a valid federal Migratory Game Bird Hunting Permit with a Canadian Wildlife Habitat Conservation Stamp to hunt migratory birds in Canada. This permit and stamp are valid in all provinces and territories. Most provinces and territories have additional licence requirements for hunting migratory birds and/or to carry firearms. To know what you require, and if there are further restrictions for hunting migratory birds, please verify the applicable regulations for the province/territory where you will be hunting. Note that all required permits and licences must be in your possession while you are hunting.

Check your permit and provincial hunting regulations for additional restrictions, such as Sunday closures, minimum required distances from residences and businesses, the 1:00 p.m. closure for Tabusintac and Tracadie lagoons, and the requirement to use a dog while hunting woodcock during September.

Barrow's Goldeneye is listed in Schedule I of the federal *Species at Risk Act* as a species of special concern. For conservation purposes, as well as to account for the possible unintentional shooting of a Barrow's Goldeneye, the daily bag and possession limit for this species has been set at one. Hunters who take more than one Barrow's Goldeneye are in contravention of the law.

In National Wildlife Areas located in New Brunswick, the following regulations apply. Refer to notices posted at entrances for area-specific rules.

- Vehicles, ATVs and snowmobiles are prohibited unless otherwise posted.
- Vegetation may not be cut or damaged. Fires are not permitted. Camping is not permitted.
- The construction and use of tree stands is prohibited.
- Domestic animals may not be allowed to run at large.
- Outboard motors greater than 9.9 horsepower are not permitted.

Waterfowler Heritage Day provides young hunters under the age of majority with the opportunity to practice hunting and outdoor skills, learn about wildlife conservation, and reinforce safety training in a structured, supervised environment. Licensed adult hunters who serve as mentors have an opportunity to pass on their considerable skills and knowledge by offering guidance and advice to younger hunters. The following rules are in effect:

- to participate, young hunters under the age of majority do not require the federal Migratory Game Bird Hunting Permit;
- young participants must comply with all existing safety and licensing requirements found in the *Firearms Act* and provincial hunting regulations;
- participants must be accompanied by a licensed mentor over the age of majority; and
- mentors may not hunt or carry a firearm, and may accompany no more than two young hunters.

Non-toxic shot must be used in **all** areas of Canada to hunt migratory game birds, except for woodcock, Band-tailed Pigeons and Mourning Doves. Within National Wildlife Areas, the possession of lead shot is prohibited for all hunting, including the hunting of migratory birds and upland game birds. Hunters should consult provincial or territorial regulations for additional restrictions. For those birds still hunted with lead shot, remove the lead shot before cooking whenever possible in order to reduce your exposure to contaminants. As well, remove the skin and fat from fish-eating birds before cooking them

HELPFUL TIP

Canadians may be exposed to avian-borne viruses when hunting or handling migratory birds and other wild game. Environment Canada recommends the following website, maintained by the Public Health Agency of Canada, for information about minimizing the risk of exposure: www.phac-aspc.gc.ca

CRIME STOPPERS

Environment Canada Wildlife Enforcement has joined forces with New Brunswick Crime Stoppers to address offences concerning migratory birds. Anyone wishing to report illegal hunting activities, illegal selling of birds or other offences related to migratory birds is asked to call Crime Stoppers at 1-800-222-TIPS (8477). Your call is anonymous, and you may be eligible for a cash reward.
