
Corrections and Conditional Release Statistical Overview

December, 2003

This document was produced by the Solicitor General Portfolio Corrections Statistics Committee which is composed of representatives of the Department of the Solicitor General, the Correctional Service of Canada, the National Parole Board and the Canadian Centre for Justice Statistics (Statistics Canada).

PREFACE

This document provides a statistical overview of corrections and conditional release within a context of trends in crime and criminal justice. A primary consideration in producing this overview was to present general statistical information in a “user friendly” way that will facilitate understanding by a broad audience. Accordingly, there are a number of features of this document that make it different from typical statistical reports.

- First, the visual representation of the statistics is simple and uncluttered, and under each chart there are a few key points that will assist the reader in extracting the information from the chart.
- Second, for each chart there is a table of numbers corresponding to the visual representation. In some instances, the table includes additional numbers, e.g., a five-year series, even though the chart depicts the data for the most recent year (e.g., Figure A2).
- Third, rather than using the conventional headings for statistics (e.g., “police-reported crime rate by year by type of crime”) the titles for each chart and table inform the reader about the matter at hand (e.g., “Police-reported crime rate has decreased since 1991”).
- Fourth, notes have been kept to a minimum, that is, only where they were judged to be essential for the reader to understand the statistics.
- Finally, the source of the statistics is indicated under each chart so that the interested reader can easily access more information if desired.

This is the sixth issue of the Corrections and Conditional Release Statistical Overview. Readers are advised that in some instances figures have been revised from earlier publications. Also, the total number of offenders will vary a little depending on characteristics of the data set.

It is hoped that this document will serve as a useful source of statistical information on corrections and conditional release and assist the public in gaining a better understanding of these important components of the criminal justice system.

TABLE OF CONTENTS

SECTION A. CONTEXT - CRIME AND THE CRIMINAL JUSTICE SYSTEM

1. Police-reported crime rate has decreased since 1991	1
2. Crime rates are higher in the west and are highest in the north.....	3
3. Canada's incarceration rate is high relative to other western countries	5
4. The rate of adults charged has declined since 1980	7
5. Administration of justice charges account for 20% of charges in adult courts.....	9
6. Victimization rates for theft of personal property have increased.....	11
7. The majority of victims of violent crime are under 30	13
8. Most adult custodial sentences ordered by the court are short.....	15
9. Relatively few crimes result in sentences to federal penitentiaries	17
10. The rate of youth charged peaked in 1991	19
11. The most common youth court case is theft	21
12. Probation is the most common youth court disposition	23

SECTION B. CORRECTIONS ADMINISTRATION

1. Federal expenditures on corrections have increased	25
2. CSC employees are concentrated in custody centres	27
3. The cost of keeping an inmate in penitentiary has increased	29
4. The number of National Parole Board employees has increased.....	31

SECTION C. OFFENDER POPULATION

1. Federal offenders under the jurisdiction of Correctional Service of Canada	33
2. The number of incarcerated federal offenders has declined	35
3. Admissions to federal jurisdiction increased in 2002-03	37
4. The number of women admitted from the courts to federal jurisdiction stabilized in 2002-03.....	39
5. The majority of federal offenders admitted are in their 20s and 30s	41
6. The average age of admission is lower for Aboriginal offenders than for non-Aboriginal offenders	43
7. 14% of the federal incarcerated offender population is age 50 or over.....	45
8. 71% of federal offenders are Caucasian	47
9. The religious identification of the offender population is diverse.....	49
10. The proportion of Aboriginal offenders incarcerated is higher than for non-Aboriginal offenders	51
11. The majority of federal incarcerated offenders are classified as medium security risk	53
12. The number of life and indeterminate sentences has decreased	55
13. Seventy percent of federal offenders are serving a sentence for a violent offence.....	57

TABLE OF CONTENTS (CON'T)

SECTION C. OFFENDER POPULATION

1. The number of incarcerated Aboriginal offenders is increasing	59
2. The number of escapes has decreased	61
3. The supervised federal offender population in the community is decreasing.....	63
4. Provincial / territorial probation counts are relatively stable	65
5. The number of offenders on provincial parole has declined	67

SECTION D. CONDITIONAL RELEASE

1. The federal parole grant rate is relatively stable	69
2. The federal parole grant rate for Aboriginal offenders is increasing	71
3. Offenders granted full parole serve about 40% of their sentence prior to starting full parole	73
4. Aboriginal offenders serve a higher proportion of their sentences before being released on parole	75
5. Women serve a lower proportion of their sentences than men before being released on parole	77
6. A large majority of federal day paroles are successfully completed	79
7. The majority of federal full paroles are successfully completed	81
8. The majority of statutory releases are successfully completed.....	83
9. Supervised offenders are being convicted of fewer violent offences	85
10. The number of unescorted temporary absences has decreased since 1999-2000.....	87

SECTION E. STATISTICS ON SPECIAL APPLICATIONS OF CRIMINAL JUSTICE

1. The number of detention reviews has increased since 1999-2000	89
2. 80% of judicial review hearings result in earlier parole eligibility.....	91
3. The number of dangerous offender designations decreased in 2002	93
4. Most long term supervision orders are for a 10-year period	95
5. The number of pardon applications processed has increased.....	97

SECTION A.

CONTEXT - CRIME AND THE CRIMINAL
JUSTICE SYSTEM

POLICE-REPORTED CRIME RATE HAS DECREASED SINCE 1991

Figure A1.

Source: Uniform Crime Reporting Survey, Canadian Centre for Justice Statistics, Statistics Canada.

- The crime rate increased during the 1980's, but has decreased slightly every year since 1991.
- Violent crime decreased from 1992 to 1999, increased slightly in 2000, and decreased in 2002.
- The property crime rate in 2002 was 27% lower than in 1980.

Note:

Violent crimes include homicide, attempted murder, assault, sexual offences, abduction and robbery.

Property crimes include break and enter, motor vehicle thefts, other thefts, possession of stolen goods, and fraud.

These crime statistics are based on crimes that are reported to the police. Since not all crimes are reported to the police, these figures underestimate actual crime. See Figure A6 for rates based on victimization surveys (drawn from the *General Social Survey*), an alternative method of measuring crime.

POLICE-REPORTED CRIME RATE HAS DECREASED SINCE 1991

Table A1.

Year	Type of Offence			Total
	Property	Violent	Other CCC	
1980	5,444	636	2,263	8,343
1981	5,759	654	2,322	8,736
1982	5,840	671	2,262	8,773
1983	5,608	679	2,182	8,470
1984	5,501	701	2,185	8,387
1985	5,451	735	2,227	8,413
1986	5,550	785	2,392	8,727
1987	5,552	829	2,575	8,956
1988	5,438	868	2,612	8,919
1989	5,289	911	2,691	8,891
1990	5,611	973	2,900	9,484
1991	6,160	1,059	3,122	10,342
1992	5,902	1,084	3,051	10,036
1993	5,571	1,081	2,879	9,531
1994	5,250	1,046	2,817	9,114
1995	5,283	1,007	2,702	8,993
1996	5,264	1,000	2,650	8,914
1997	4,867	990	2,596	8,453
1998	4,555	979	2,602	8,137
1999	4,261	955	2,509	7,725
2000	4,067	981	2,593	7,641
2001	3,992	981	2,660	7,633
2002	3,960	965	2,664	7,590

Source: Uniform Crime Reporting Survey, Canadian Centre for Justice Statistics, Statistics Canada.

Note:

Rates are based on incidents reported per 100,000 population.

Due to rounding, rates may not add to Totals.

CRIME RATES ARE HIGHER IN THE WEST AND ARE HIGHEST IN THE NORTH

Figure A2.

Source: Uniform Crime Reporting Survey, Canadian Centre for Justice Statistics, Statistics Canada.

- Crime rates are higher in the west and highest in the Territories.
- The Canadian rate has decreased in the last five years.
- These general trends have been stable over time.

CRIME RATES ARE HIGHER IN THE WEST AND ARE HIGHEST IN THE NORTH

Table A2.

Province/Territory	Crime Rate				
	1998	1999	2000	2001	2002
Newfoundland	5,791	5,563	5,733	5,656	5,832

Nunavut	20,471	18,194	20,943	25,399	28,786
Canada	8,137	7,725	7,641	7,633	7,590

Source: Uniform Crime Reporting Survey, Canadian Centre for Justice Statistics, Statistics Canada.

Note:

Rates are based on 100,000 population.

Rates exclude federal and provincial/territorial statutes and traffic offences.

CANADA'S INCARCERATION RATE IS HIGH RELATIVE TO OTHER WESTERN COUNTRIES

Figure A3.

Source: Solicitor General Canada; World Prison Population List, Research Findings No. 166, Home Office Research, United Kingdom.

- In 2001, the incarceration rate in Canada was 116 per 100,000 general population.
- Canada's incarceration rate is higher than the rates in most Western European countries but much lower than the United States, which had an incarceration rate of 700 per 100,000 general population in 2001.
- The incarceration rate decreased in Canada throughout the last five years.

Note:

The incarceration rate, in this figure, is a measure of the number of people (i.e., adults and youth) in custody per 100,000 people in the general population.

Different practice and variations in measurement in different countries limit the comparability of these figures.

CANADA'S INCARCERATION RATE IS HIGH RELATIVE TO OTHER WESTERN COUNTRIES

Table A3.

Note:

Rates are based on 100,000 population.

*Figures for the United States are for incarcerated adults only (i.e., youths are excluded).

**Canadian youth custody figures for 1997 to 2001 were adjusted to represent 100% survey coverage. Canadian rates are reported on a fiscal year basis (April 1 through March 31).

-- Figures not available.

THE RATE OF ADULTS CHARGED HAS DECLINED SINCE 1980

Figure A4.

Source: Uniform Crime Reporting Survey, Canadian Centre for Justice Statistics, Statistics Canada.

- The rate of adults charged declined from 1991 to 1999, increased slightly in 2000 and 2001, and decreased in 2002. This trend was similar for men and women.
- The rate of adult men charged for violent crimes decreased from 1993 to 2000, increased slightly in 2001 and decreased in 2002. This trend was similar for men and women (refer to the *Uniform Crime Reporting Survey* for more detailed information).

Note:

Violent crimes include homicide, attempted murder, assault, sexual offences, abduction, and robbery.

Property crimes include break and enter, motor vehicle thefts, other thefts, possession of stolen goods and fraud.

Total charged includes adults charged under the *Criminal Code* as well as adults charged under other Federal Statutes such as the *Controlled Drugs and Substances Act*, the *Fisheries Act*, the *Customs Act*, the *Indian Act* and the *Employment Insurance Act*.

THE RATE OF ADULTS CHARGED HAS DECLINED SINCE 1980

Table A4.

	<i>Criminal Code</i>			Total CCC	<i>Federal Statutes</i>		Total Charged*

Note:

Rates are based on 100,000 population, 18 years of age and older.

Due to rounding, rates may not add to Totals.

*Examples of other Federal Statutes include: the *Controlled Drugs and Substances Act*, the *Fisheries Act*, the *Customs Act*, the *Indian Act* and the *Employment Insurance Act*.

**Total charged excludes provincial statute offences and municipal by-laws.

ADMINISTRATION OF JUSTICE CHARGES ACCOUNT FOR 20% OF CHARGES IN ADULT COURTS

Figure A5.

Source: Adult Criminal Court Survey, Canadian Centre for Justice Statistics, Statistics Canada.

- Administration of justice charges (offences related to case proceedings such as failure to appear in court, failure to comply with a court order, breach of probation, and unlawfully at large) account for 20% of charges.
- Apart from charges of administration of justice, impaired driving is the most frequent federal statute charge in adult provincial criminal courts.

Note:

Data from this survey are not nationally comprehensive as Manitoba and Nunavut are not included. These data do not include data from superior courts.

ADMINISTRATION OF JUSTICE CHARGES ACCOUNT FOR 20% OF CHARGES IN ADULT COURTS

Table A5.

Source: Adult Criminal Court Survey, Canadian Centre for Justice Statistics, Statistics Canada.

Note:

Due to rounding, percentages may not add to 100 percent.

Data from this survey are not nationally comprehensive as they do not include New Brunswick, Manitoba, British Columbia and Nunavut for 1999-00 and 2000-01, and do not include Manitoba and Nunavut for 2001-02. These data do not include data from superior courts.

VICTIMIZATION RATES FOR THEFT OF PERSONAL PROPERTY HAVE INCREASED

Figure A6.

Source: General Social Survey, Statistics Canada, 1993 and 1999*.

- Victimization rates for theft of personal property were higher in 1999 than in 1993.
- In 1999, 25% of Canadians aged 15 or older were victims of at least one crime in the previous year. This was up from 23% in 1993.
- In all, there were an estimated 8.3 million victimization incidents in 1999.

Note:

*The next *General Social Survey* that will include a victimization component is expected in 2005. Rates are based on 1,000 population, 15 years of age and older.

VICTIMIZATION RATES FOR THEFT OF PERSONAL PROPERTY HAVE INCREASED

Table A6.

Type of Incident	Year	
	1993	1999
Theft of Personal Property	52	75
Sexual Assault	16	21
Robbery	10	9
Assault	56	51
Total % of Victimization	23%	25%

Source: General Social Survey, Statistics Canada, 1993 and 1999*.

Note:

*The next *General Social Survey* that will include a victimization component is expected in 2005. Rates are based on 1,000 population, 15 years of age and older.

THE MAJORITY OF VICTIMS OF VIOLENT CRIME ARE UNDER 30

Figure A7.

Source: Revised Uniform Crime Reporting Survey, Canadian Centre for Justice Statistics, Statistics Canada.

- More than half (53.6%) of all victims of violent crime are under the age of 30, whereas 39.0% of the population is under the age of 30.
- Older Canadians (aged 65 and older) have low levels of violent victimization (1.8%), and account for 12.7% of the population.
- Females aged 10 to 19 years were less likely to be victims of violent crime than males of the same age, while females aged 20 to 44 years were more likely than males of that age to be victims of a violent crime.

Note:

Violent crimes include homicide, attempted murder, assault, sexual offences, abduction and robbery. These data were reported by 123 police services representing 59% of the national volume of crime. The data are not nationally representative.

THE MAJORITY OF VICTIMS OF VIOLENT CRIME ARE UNDER 30

Table A7. 2002

Age of Victim	Males		Females		Total	
	Number	%	Number	%	Number	%
1 to 4 years	1,112	1.0	1,281	1.2	2,393	1.1
5 to 9 years	3,154	2.8	2,883	2.6	6,037	2.7

Note:

Excludes 5,317 cases where age was unknown, 564 cases where sex was unknown and 218 cases where both age and sex were unknown.

MOST ADULT CUSTODIAL SENTENCES ORDERED BY THE COURT ARE SHORT

Figure A8.

Source: Adult Criminal Court Survey, Canadian Centre for Justice Statistics, Statistics Canada.

- Over half (53.7%) of all custodial sentences imposed by adult provincial courts are less than one month.
- Prison sentences for men tend to be longer than for women. About two-thirds (69.9%) of women and half of men (52.5%) who are incarcerated upon conviction receive a sentence of one month or less, and 93.7% of women and 87.0% of men receive a sentence of six months or less.
- Of all convictions that result in custody, only 4.1% result in federal jurisdiction (i.e., a sentence of two years or more).

Note:

Excludes cases where length of prison sentence was not known.

Due to rounding, totals may not add to 100 percent.

Excludes cases where length of prison sentence was not known.

Data from this survey are not nationally comprehensive as not all provinces and territories have participated each year.

RELATIVELY FEW CRIMES RESULT IN SENTENCES TO FEDERAL PENITENTIARIES

Figure A9.

Source: ¹Uniform Crime Reporting Survey, Adult Criminal Court Survey and Adult Corrections Survey, Canadian Centre for Justice Statistics, Statistics Canada; ²Correctional Service Canada.

- There were about 2.6 million crimes reported to police in 2002.
- During 2001-02, 4,127 offenders were sentenced to federal jurisdiction (i.e., two years or more).

Note:

Police data are reported on a calendar year basis whereas court and prison data are reported on a fiscal year basis (April 1 through March 31).

*Data have been estimated in this report to represent 100% survey coverage (from an estimated 90% actual coverage in 2001-02 and 80% coverage in previous years), rounded to the nearest thousand. This figure only includes provincial court convictions.

THE RATE OF YOUTH CHARGED PEAKED IN 1991

Figure A10.

Source: Uniform Crime Reporting Survey, Canadian Centre for Justice Statistics, Statistics Canada.

- Overall, the rate of youth charged increased during the period from 1987 to 1991, decreased from 1991 to 1999, increased slightly in 2000 and 2001, and decreased in 2002.
- Charges for violent crime by males decreased from 1995 to 1999, increased in 2000 and 2001, and decreased again in 2002. For females, the rate increased from 1994 to 1998, decreased in 1999, and is now increasing again.
- The rate of youth charged with property offences decreased each year between 1991 and 2002. The rate for male youth charged with property offences has decreased since 1991, while the rate for female youth decreased from 1991 to 1999 and has remained stable during the last four years.

Note:

Violent crimes include homicide, attempted murder, assault, sexual offences, abduction, and robbery.

In 2002, half of all youths charged with violent crimes were charged with assault level 1 (minor assault).

Property crimes include break and enter, motor vehicle thefts, other thefts, possession of stolen goods and fraud.

THE RATE OF YOUTH CHARGED PEAKED IN 1991

Source: Uniform Crime Reporting Survey, Canadian Centre for Justice Statistics, Statistics Canada.

Note:

Rates for "Total" are based on 100,000 youth population (12 to 17 years).

Rates for "Females" are based on 100,000 female youth population (12 to 17 years) and rates for "Males" are based on 100,000 male youth population (12 to 17 years).

THE MOST COMMON YOUTH COURT CASE IS THEFT

Figure A11.

Source: Youth Court Survey, Canadian Centre for Justice Statistics, Statistics Canada.

- Theft is the most common case in youth court.
- Murders, homicides and related offences account for 0.04% of all youth court cases.
- Female young offenders account for 21.6% of all cases, but for 32.0% of common assaults (*Youth Court Survey*, Statistics Canada).

Note:

**Young Offenders Act* offences include failure to comply with a disposition or undertaking, contempt against youth court, assisting a youth to leave a place of custody, and harbouring a youth unlawfully at large.

**The Administration of Justice category includes the offences failure to appear, failure to comply, breach of recognizance, escape and unlawfully at large.

Source: Youth Court Survey, Canadian Centre for Justice Statistics, Statistics Canada.

Note:

*"Other Administration of Justice" includes the offences failure to appear, failure to comply, and breach of recognizance.

**The *Controlled Drugs and Substances Act*, which replaced both the *Narcotic Control Act* and the *Food and Drugs Act*, came into effect in May 1997.

****Young Offenders Act* offences include failure to comply with a disposition or undertaking, contempt against youth court, assisting a youth to leave a place of custody, and harbouring a youth unlawfully at large.

PROBATION IS THE MOST COMMON YOUTH COURT DISPOSITION

Figure A12.

Source: Youth Court Survey, Canadian Centre for Justice Statistics, Statistics Canada.

- The use of probation for young offenders consistently accounted for over one-half of youth court dispositions during the period from 1994-95 to 2001-02.
- The use of open custody dispositions has decreased slightly since 1994-95, while the use of secure custody dispositions increased.
- Community service order dispositions remained stable, between 6% and 7%, since 1994-95.
- Female young offenders are more likely to receive a community disposition whereas males are more likely to receive a custody disposition.

Note:

*"Other" includes community service order, compensation, pay purchaser of stolen goods, compensation in kind, absolute discharge, detain for treatment (until 1995-96), conditional discharge (as of 1997-98), restitution, prohibition/seizure/forfeiture, essays, apologies and counseling programs.

Custodial facilities for young offenders may be designated as either "open" or "secure". Open custody facilities closely monitor the actions and whereabouts of young offenders, but residents are allowed to leave the facility for reasons such as attending school. In secure custody facilities, often called Youth Detention Centres, the premises are secured and the movement of young offenders is strictly controlled.

When a case has more than one charge, it is categorized according to the "most serious disposition" that results from the charges.

PROBATION IS THE MOST COMMON YOUTH COURT DISPOSITION

SECTION B.

CORRECTIONS ADMINISTRATION

FEDERAL EXPENDITURES ON CORRECTIONS HAVE INCREASED

Figure B1.

Source: Correctional Service Canada; National Parole Board; Statistics Canada Consumer Price Index.

- In 2002-03, expenditures on federal corrections in Canada totalled about \$1.57 billion.
- Federal expenditures on corrections, in current dollars, increased 23% from 1998-99 to 2002-03, while in constant dollars the increase over this time period was 11%.
- Federal correctional expenditures represent less than 1% of the total federal government budget.
- Provincial/territorial expenditures totalled just over \$1.18 billion in 2001-02 (see *Adult Correctional Services Survey*, Statistics Canada).

Note:

Federal expenditures on corrections include the spending by the Correctional Service Canada (CSC) and the National Parole Board (NPB). The expenditures for the CSC include both operating and capital costs. CSC expenditures exclude CORCAN (a Special Operating Agency that conducts industrial operations within penitentiaries).

Constant dollars represent dollar amounts calculated on a one-year base that adjusts for inflation allowing the yearly amounts to be directly comparable. The Consumer Price Index (1992 = 100) was used to calculate constant dollars over a base year of 1998-98, using annual fiscally adjusted Consumer Price Index values.

Source: Correctional Service Canada; National Parole Board; Statistics Canada Consumer Price Index.

Note:

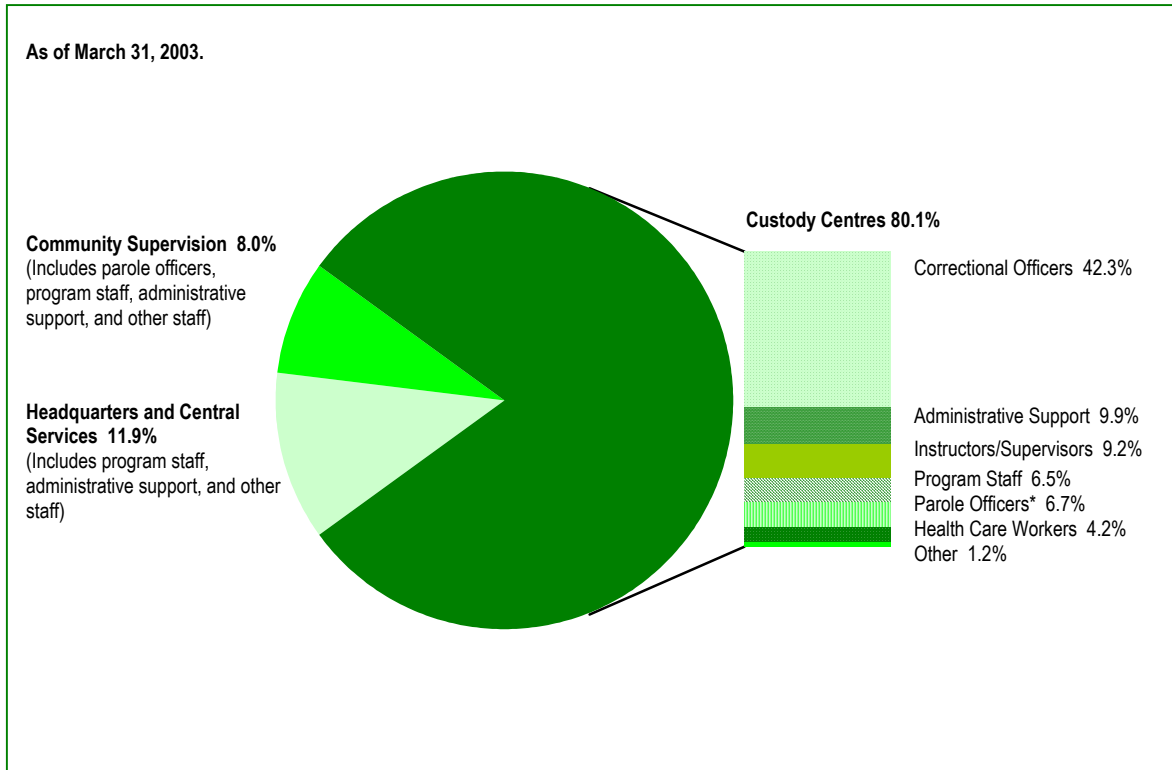

Due to rounding, constant dollar amounts may not add to "Total".

Per capita cost is calculated by dividing the total expenditures by the total Canadian population and thus represents the cost per Canadian for federal correctional services.

Constant dollars represent dollar amounts calculated on a one-year base that adjusts for inflation allowing the yearly amounts to be directly comparable. The Consumer Price Index (1992 = 100) was used to calculate constant dollars over a base year of 1998-99, using annual fiscally adjusted Consumer Price Index values.

CSC EMPLOYEES ARE CONCENTRATED IN CUSTODY CENTRES

Figure B2.

Source: Correctional Service Canada.

- The Correctional Service of Canada (CSC) has a total staff of about 16,000.
- Approximately 80% of CSC staff work in institutions.
- Staff employed in community supervision account for 8% of the total.

Note:

*These parole officers are situated within institutions, with the responsibility of preparing offenders for release.

*These parole officers are situated within institutions, with the responsibility of preparing offenders for release.

Due to rounding, percentages may not add to 100.

THE COST OF KEEPING AN INMATE IN PENITENTIARY HAS INCREASED

Figure B3.

Source: Public Accounts of Canada, Correctional Service Canada.

- The federal average daily inmate cost has increased from \$185.44 in 1999-00 to \$221.31 in 2001-02.
- In 2001-02, the annual average cost of keeping an inmate in penitentiary was \$80,780 per year, up from \$67,685 per year in 1999-00. In 2001-02, the annual average cost of keeping a male inmate in penitentiary was \$79,538 per year, whereas the annual average cost for maintaining a woman in penitentiary was \$155,589.
- In 2001-02, the daily cost of keeping an inmate in penitentiary was much higher for female offenders than for male offenders (\$426.27 and \$217.91, respectively).
- It costs substantially less to maintain an offender in the community than in a penitentiary (\$18,678 per year versus \$80,780 per year).

Note:

The average daily inmate cost includes those costs associated with the operation of the institutions such as salaries, and employee benefit plan contributions, but excludes capital expenditures and expenditures related to CORCAN (a Special Operating Agency that conducts industrial operations within penitentiaries).

In 2001-2002, the cost allocation methodology was refined to better reflect expenditures directly related to offenders. In addition, the cost of maintaining a woman in penitentiary now includes the cost of maximum security units for women, co-located within institutions for men.

THE COST OF KEEPING AN INMATE IN PENITENTIARY HAS INCREASED

Table B3.

Categories	Annual Average Costs per Offender		
	1999-00	2000-01	2001-02
	\$	\$	\$
Incarcerated Offenders			
Maximum Security (males only)	96,740	98,904	108,277

SECTION C.

OFFENDER POPULATION

FEDERAL OFFENDERS UNDER THE JURISDICTION OF CORRECTIONAL SERVICE OF CANADA

Figure C1.

Source: Correctional Service Canada.

Definitions:

Total offender population includes male and female federal offenders who are incarcerated (serving their sentences in federal or provincial institutions and those on temporary absence), offenders who are on community supervision, on bail, escaped, unlawfully at large and those that have been deported.

On Bail includes offenders on a judicial interim release; they have appealed their conviction or sentence and have been released to await the results of a new trial.

Incarcerated includes male and female federal offenders serving their sentences in federal or provincial institutions.

Actively Supervised includes federal offenders on day parole, full parole or statutory release, as well as those who are in the community on long-term supervision orders.

Community supervision includes federal offenders on day parole, full parole or statutory release, as well as those who are temporarily detained or paroled for deportation.

Temporarily Detained includes offenders who are physically held in a provincial detention center or a federal institution after being suspended for a breach of a parole condition or to prevent a breach of parole conditions.

Deported includes offenders for whom a deportation order has been issued and executed by Immigration Canada.

Escaped includes offenders who have absconded from either a correctional facility or while on a temporary absence and whose whereabouts are unknown.

Unlawfully at Large includes offenders who have been released to the community on day parole, full parole, statutory release, or a long term supervision order for whom a warrant for suspension or revocation has been issued, but has not yet been executed.

FEDERAL OFFENDERS UNDER THE JURISDICTION OF CORRECTIONAL SERVICE OF CANADA

Table C1. As of April 13, 2003.

Status	Federal Offenders	
	#	%
Incarcerated	12,653	58.0
On Bail	76	0.3
Actively Supervised	6,992	32.0
Day Parole	1,041	4.8
Full Parole	3,735	17.1
Statutory Release	2,186	10.0
Long Term Supervision Order	30	0.1
Temporarily Detained, while on:	920	4.2
Day Parole	161	0.7
Full Parole	154	0.7
Statutory Release	601	2.7
Long Term Supervision Order	4	0.02
Deported	459	2.1
Escaped	155	0.7
Unlawfully At Large	575	2.6
Total	21,830	100.0

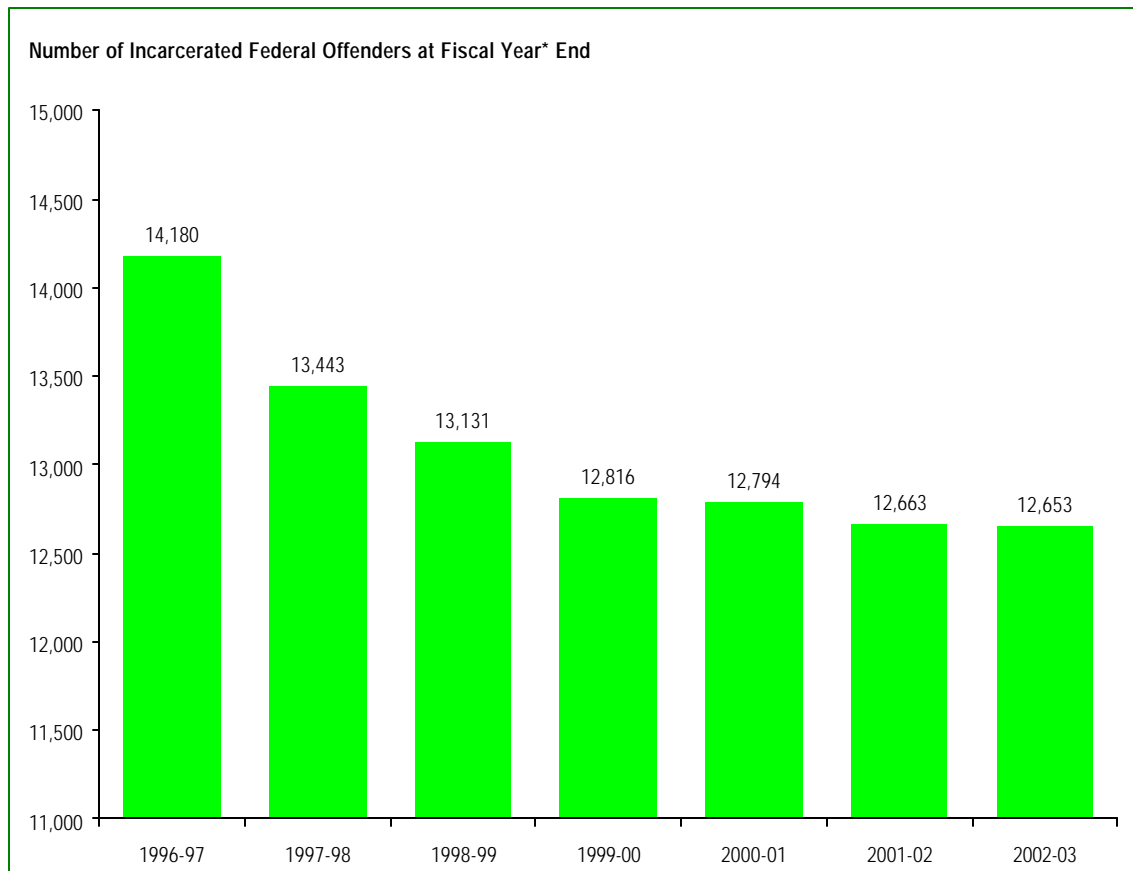

Source: Correctional Service Canada.

Note:

It is possible for an offender under federal jurisdiction to serve his or her sentence in a provincial institution. The data presented include these offenders as they are still under federal jurisdiction.

THE NUMBER OF INCARCERATED FEDERAL OFFENDERS HAS DECLINED

Figure C2.

Source: Correctional Service Canada.

- The federal incarcerated offender population in custody decreased 10.8% from 1996-97 to 2002-03.
- The provincial/territorial sentenced offender population in custody decreased from 1996-97 to 2000-01 while the remand population increased during this period.

Note:

Incarcerated includes male and female federal offenders serving their sentences in federal or provincial institutions.

*The data reflect the number of offenders active at the end of each fiscal year. A fiscal year runs from April 1 to March 31 of the following year.

THE NUMBER OF INCARCERATED FEDERAL OFFENDERS HAS DECLINED

Table C2.

Year	Incarcerated Offenders					Total
	Federal ¹	Provincial/Territorial ²				
		Sentenced	Remand	Other/Temporary Detention	Total	
1996-97	14,180	13,878	5,734	249	19,861	34,041
1997-98	13,443	12,573	6,109	274	18,956	32,399
1998-99	13,131	12,478	6,472	271	19,221	32,352
1999-00	12,816	11,438	6,665	548	18,651	31,467
2000-01	12,794	10,806	7,428	432	18,666	31,460
2001-02	12,663	10,931	7,980	351	19,262	31,926
2002-03	12,653	--	--	--	--	--

Source: ¹Correctional Service Canada; ²Adult Correctional Survey, Canadian Centre for Justice Statistics, Statistics Canada.

Note:

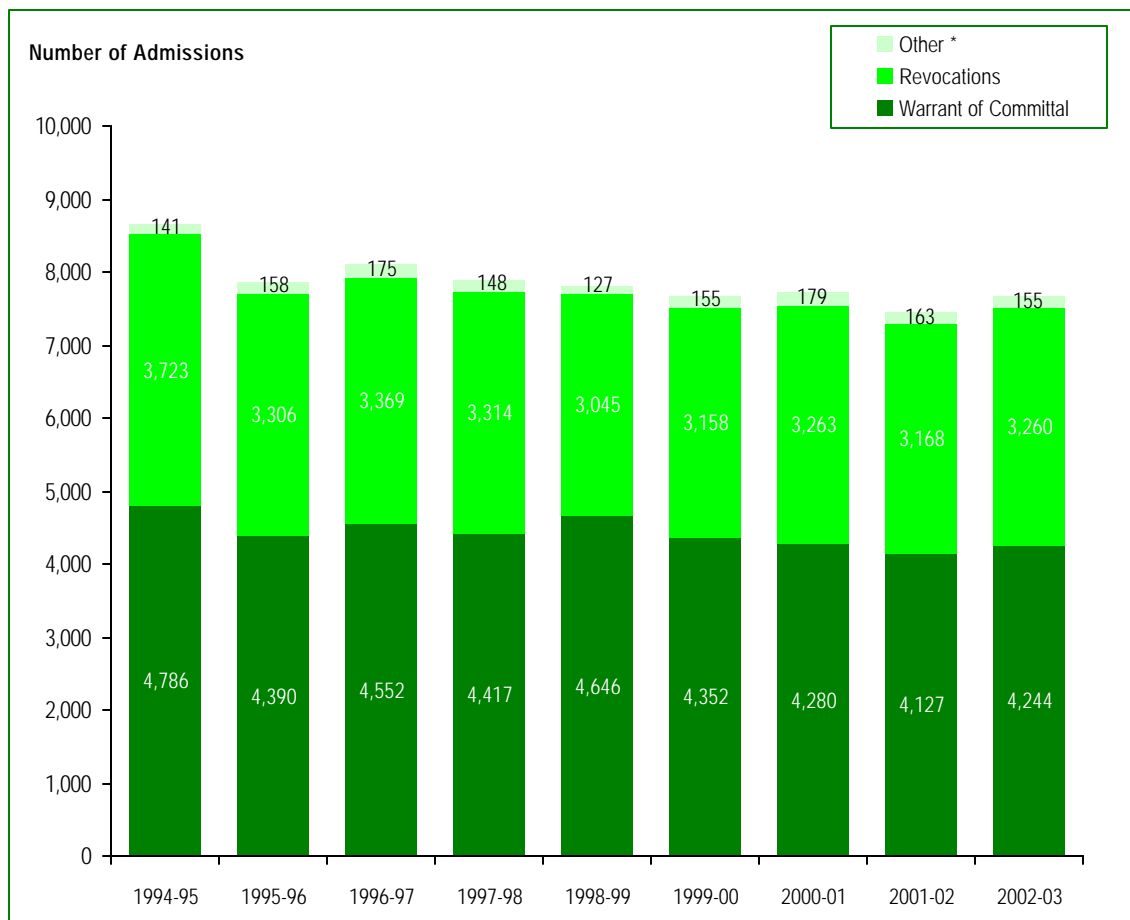

Incarcerated includes male and female federal offenders serving their sentences in federal or provincial institutions.

The figures for federal offenders reflect yearly snapshots as of the last day of each fiscal year, whereas previous editions of the Statistical Overview presented monthly averages. A fiscal year runs from April 1 to March 31 of the following year. The figures for provincial and territorial offenders reflect annual average counts.

-- Data not available.

ADMISSIONS TO FEDERAL JURISDICTION INCREASED IN 2002-03

Figure C3.

Source: Correctional Service Canada.

- The number of total admissions to federal jurisdiction has decreased by 11% since 1994-95.
- The number of warrant of committal admissions to federal jurisdiction has decreased overall since 1994-95 but increased in the most recent year.
- The number of women admitted to federal jurisdiction has decreased in the last two years.

Note:

These numbers refer to the federal jurisdiction admissions during each fiscal year and may be greater than the actual number of offenders admitted, since an individual offender may be admitted more than once in a given year. A fiscal year runs from April 1 to March 31 of the following year.

**Other* includes transfers from other jurisdictions (exchange of services), terminations, transfers from foreign countries, and admissions where a release is interrupted as a consequence of a new conviction.

Total Admissions	7,818		7,665		7,722		7,458		7,659	

Source: Correctional Service Canada.

Note:

*In June 2000, a new admission type "revocation with outstanding charges" was established. Previously, these cases would have been categorized as "revocation without offence". The "revocation with outstanding charges" is an interim designation until the charges are resolved in the courts, at which point the case will be re-categorized as "revocation with offence" or "revocation without offence".

**"Other" includes transfers from other jurisdictions (exchange of services), terminations, transfers from foreign countries, and admissions where a release is interrupted as a consequence of a new conviction.

THE NUMBER OF WOMEN ADMITTED FROM THE COURTS TO FEDERAL JURISDICTION STABILIZED IN 2002-03

Figure C4.

Source: Correctional Service Canada.

- Admissions were 35.1% higher for women in 2002-03 than in 1994-95. The number increased from 151 in 1994-95 to 232 in 1998-99, remained relatively steady until 2000-01, and then decreased to 204 in the last two years.
- Overall, women continue to represent a small proportion of the total number of admissions (i.e., 4.8% in 2002-03).
- As of April 13, 2003, there were 371 women incarcerated in Canada under federal jurisdiction.

Note:

A warrant of committal applies to offenders admitted at the beginning of a federal sentence.

THE NUMBER OF WOMEN ADMITTED FROM THE COURTS TO FEDERAL JURISDICTION STABILIZED IN 2002-03

Table C4.

Year	Warrant of Committal Admissions				Total Admissions

Source: Correctional Service Canada.

THE MAJORITY OF FEDERAL OFFENDERS ADMITTED ARE IN THEIR 20S AND 30S

Figure C5.

Source: Correctional Service Canada.

- In 2002-03, 35.8% of offenders admitted to federal jurisdiction were between the ages of 20 and 29, and 35.1% were between 30 and 39 years of age.
- The median age of the population upon admission has been 32 years of age since 2000-01, up from 31 years of age in 1997-98.
- The distribution of age upon admission is similar for both men and women.

Note:

A warrant of committal applies to offenders admitted at the beginning of a federal sentence.

14% OF THE FEDERAL INCARCERATED OFFENDER POPULATION IS AGE 50 OR OVER

Figure C7.

Source: Correctional Service Canada.

- In 2002-03, 13.6% of incarcerated offenders were above the age of 50 compared to 11.5% in 1997-98.
- In 2002-03, 40.7% of the incarcerated federal offender population was between the ages of 35 and 49 while 33% of the Canadian population was within this age group.
- The community federal offender population was older than the incarcerated population; 23.4% of offenders in the community were over 50, compared to 13.6% of the incarcerated offenders in this age group.

Note:

Incarcerated includes male and female federal offenders serving their sentences in federal or provincial institutions, as well as those on temporary absence.

Incarcerated includes male and female federal offenders serving their sentences in federal or provincial institutions, and those on temporary absence.

Community supervision includes federal offenders on day parole, full parole or statutory release, as well as those who are temporarily detained or paroled for deportation.

The data presented is a snapshot of the offender population as of April 13, 2003.

Due to rounding, percentages may not add to 100.0.

*Annual Demographic Statistics 2002, Statistics Canada.

71% OF FEDERAL OFFENDERS ARE CAUCASIAN

Figure C8.

Source: Correctional Service Canada.

- The federal offender population is diverse; however, 70.5% of offenders identify themselves as Caucasian.
- These proportions have changed little in the last two years.

Note:

These data are self-identified by offenders while they are incarcerated, and the categories are not comprehensive; therefore, the reader should interpret these data with caution.

"Aboriginal" includes offenders who are Inuit, Innu, Métis and North American Indian. "Asian" includes offenders who are Arab, West Indian, Asiatic, Chinese, East Indian, Filipino, Japanese, Korean, South East Asian and South Asian. "Hispanic" includes offenders who are Hispanic and Latin American.

The data reflects the total offender population, which includes male and female federal offenders who are incarcerated (serving their sentences in federal or provincial institutions, and those on temporary absence), offenders who are on community supervision, on bail, escaped and unlawfully at large. Community supervision includes federal offenders on day parole, full parole or statutory release, as well as those who are temporarily detained or paroled for deportation.

Source: Correctional Service Canada.

Note:

The data reflects the total offender population, which includes male and female federal offenders who are incarcerated (serving their sentences in federal or provincial institutions and those on temporary absence), offenders who are on community supervision, on bail, escaped and unlawfully at large. Community supervision includes federal offenders on day parole, full parole or statutory release, as well as those who are temporarily detained or paroled for deportation.

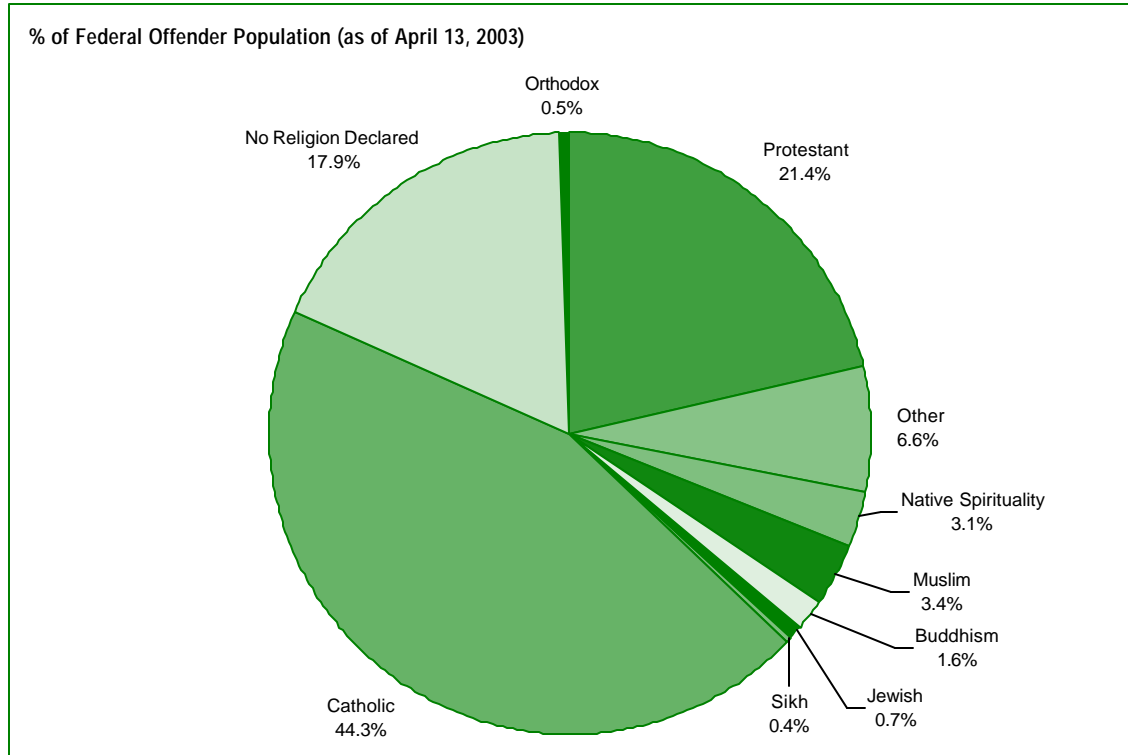

These data are self-identified by offenders while they are incarcerated, and the categories are not comprehensive; therefore, the reader should interpret these data with caution.

The data presented is a snapshot of the offender population as of April 13, 2003.

Due to rounding, percentages will not add to 100.0.

THE RELIGIOUS IDENTIFICATION OF THE OFFENDER POPULATION IS DIVERSE

Figure C9.

Source: Correctional Service Canada.

- The religious identification of the current federal offender population is diverse. The two most frequently declared religions are Catholic (44.3%), and Protestant (21.4%). Eighteen percent of offenders declare no religion.
- These proportions have changed little in the last year, with the exception of a slight change for both Native Spirituality and Muslim religious identifications.

Note:

These data are self-declared by offenders while they are incarcerated, and the categories are not comprehensive; therefore, the reader should interpret these data with caution.

"Catholic" includes offenders who are Catholic, Roman-Catholic, Greek-Catholic, Native-Catholic, and Ukrainian-Catholic. "Orthodox" includes offenders who are Greek Orthodox, Russian Orthodox, and Ukrainian Orthodox. "Protestant" includes offenders who are Anglican, Baptist, Christian Missionary, Christian Reform, Hutterite, Lutheran, Mennonite, Moravian, Native Spirit Protestant, Pentecostal, Presbyterian, Protestant, Salvation Army, Seventh Day Adventist, United Church and Worldwide Church. "Other" includes other declared identifications such as Agnostic, Atheist, Baha'i, Christian Science, Hindu, Jehovah's Witness, Mormon, Rastafarian, Scientology, Siddha Yoga, Taoism, Wicca and Zoroastrian.

The data reflects the total offender population, which includes male and female federal offenders who are incarcerated (serving their sentences in federal or provincial institutions, and those on temporary absence), offenders who are on community supervision, on bail, escaped and unlawfully at large. Community supervision includes federal offenders on day parole, full parole or statutory release, as well as those who are temporarily detained or paroled for deportation.

THE PROPORTION OF ABORIGINAL OFFENDERS INCARCERATED IS HIGHER THAN FOR NON-ABORIGINAL OFFENDERS

Figure C10.

Source: Correctional Service Canada.

- As of March 31, 2003, the proportion of offenders incarcerated was about 12% greater for Aboriginal offenders (70.0%) than for non-Aboriginal offenders (58.4%).
- Aboriginal women represent 29.2% of all incarcerated women while Aboriginal men represent 18.0% of incarcerated men.
- Aboriginal offenders represent 18.3% of the incarcerated population and 11.9% of the community population. Aboriginal adults represent 2.7% of the Canadian adult population.

Note:

Incarcerated includes male and female federal offenders serving their sentences in federal or provincial institutions. Community supervision includes federal offenders on day parole, full parole or statutory release, including those temporarily detained and those paroled for deportation.

The data reflect the number of offenders active at the end of each fiscal year. A fiscal year runs from April 1 to March 31 of the following year.

Note:

Incarcerated includes male and female federal offenders serving their sentences in federal or provincial institutions.

Community supervision includes federal offenders on day parole, full parole or statutory release, including those temporarily detained and those paroled for deportation.

The data reflect the number of offenders active at the end of each fiscal year. A fiscal year runs from April 1 to March 31 of the following year.

THE MAJORITY OF FEDERAL INCARCERATED OFFENDERS ARE CLASSIFIED AS MEDIUM SECURITY RISK

Figure C11.

Source: Correctional Service Canada.

- 63% of federal offenders are classified as medium security risk.
- A lower percentage of Aboriginal offenders are classified as minimum security risk compared to non-Aboriginal offenders (15.6% and 22.5%, respectively).
- 18.9% of Aboriginal offenders are classified as maximum security risk compared to 15.0% of non-Aboriginal offenders.

THE MAJORITY OF FEDERAL INCARCERATED OFFENDERS ARE CLASSIFIED AS MEDIUM SECURITY RISK

Table C11.

Security Risk Level	Aboriginal		Non-Aboriginal		Total	
	#	%	#	%	#	%
Minimum	350	15.6	2,201	22.5	2,551	21.3
Medium	1,466	65.5	6,095	62.4	7,561	63.0

Not yet determined*	75	3.2	575	5.6	650	5.1
Total	2,313		10,340		12,653	

Source: Correctional Service Canada.

Note:

The data represent the security level of the offender, as of April 13, 2003.

*The "not yet determined" category includes offenders who have not yet been classified.

Incarcerated offenders include male and female federal offenders serving their sentences in federal or provincial institutions, as well as those on temporary absence.

These figures are based on the offender population as of April 13, 2003.

THE NUMBER OF LIFE AND INDETERMINATE SENTENCES HAS DECREASED

Figure C12.

Source: Correctional Service Canada.

- From 1994-95 to 2002-03, the number of admissions to federal jurisdiction with a life* sentence has decreased by 28.4%. In comparison, the number of admissions overall has decreased by 11% since 1994-95.
- In 1994-95, the average age at admission for an offender who received a life* sentence was 33. In 2002-03, the average age was 35.
- Currently, there are a total of 2,772 offenders incarcerated with a life or indeterminate sentence. Of these, 2,705 are men and 67 are women. 463 are Aboriginal and 2,309 are non-Aboriginal. Women represent 4% on average of the indeterminate sentence admissions. Women represent 3% of our life* population of which 48% are incarcerated. Aboriginal offenders represent 14% of the life* population; 72% of them are incarcerated.
- The indeterminate population represents 20% of CSC's active offender population, 63% of this population is incarcerated. As of April 13, 2003, there were 14 active indeterminate offenders who escaped and 24 who are unlawfully at large.

Note:

*A life sentence includes sentences of imprisonment for life as well as indeterminate sentences.

Although *life sentences* and *indeterminate sentences* both may result in imprisonment for life, they are different. A *life sentence* is a sentence of life imprisonment, imposed by a judge at the time of sentence, for example for murder. An *indeterminate sentence* is a result of a designation, where an application is made to the court, for example to declare an offender a Dangerous Offender, and the consequence of this designation is imprisonment for an indeterminate period.

THE NUMBER OF LIFE AND INDETERMINATE SENTENCES HAS DECREASED

Table C12.

Year	Aboriginal Offenders			Non-Aboriginal Offenders			Total

SEVENTY PERCENT OF FEDERAL OFFENDERS ARE SERVING A SENTENCE FOR A VIOLENT OFFENCE

Figure C13.

Source: Correctional Service Canada.

- A greater proportion of Aboriginal offenders than non-Aboriginal offenders are serving a sentence for a violent offence (81.8% versus 67.5%, respectively).
- Almost 80% (78.3%) of Aboriginal women offenders are serving a sentence for a violent offence compared to 48.2% of non-Aboriginal women offenders.
- 65.5% of all Aboriginal offenders are serving a sentence for a Schedule I offence compared to 49.8% of non-Aboriginal offenders.
- 5.6% of Aboriginal offenders are serving a sentence for a Schedule II offence compared to 17.1% of non-Aboriginal offenders.
- Of those offenders serving a sentence for Murder, 3.5% are women and 14.5% are Aboriginal.

Note:

Violent offence includes Murder I, Murder II, and Schedule I offences.

Schedule I is comprised of sexual offences and other violent crimes excluding first and second degree murder (see the *Corrections and Conditional Release Act*).

Schedule II is comprised of serious drug offences, or conspiracy to commit serious drug offences (see the *Corrections and Conditional Release Act*).

These figures reflect the most serious category of offence committed by offenders.

In cases where the offender is serving a sentence for more than one offence, the data reflects the most serious offence.

SEVENTY PERCENT OF FEDERAL OFFENDERS ARE SERVING A SENTENCE FOR A VIOLENT OFFENCE

Table C13. 2003

Offence Category	Aboriginal			Non-Aboriginal			Total

Total	3,394			18,436			21,830		

Source: Correctional Service Canada.

Note:

Schedule I is comprised of sexual offences and other violent crimes excluding first and second degree murder (see the *Corrections and Conditional Release Act*).

Schedule II comprises serious drug offences, or conspiracy to commit serious drug offences (see the *Corrections and Conditional Release Act*).

The data reflects the total offender population, which includes male and female federal offenders who are incarcerated (serving their sentences in federal or provincial institutions, and those on temporary absence), offenders who are on community supervision, on bail, escaped and unlawfully at large. Community supervision includes federal offenders on day parole, full parole or statutory release, as well as those who are temporarily detained or paroled for deportation. These figures are based on the offender population as of April 13, 2003.

THE NUMBER OF INCARCERATED ABORIGINAL OFFENDERS IS INCREASING

Figure C14.

Source: Correctional Service Canada.

- The number of incarcerated Aboriginal offenders under federal jurisdiction in Canada has increased in the last two years.
- The number of incarcerated Aboriginal women is steadily increasing, from 62 in 1996-97 to 104 in 2002-03, a change of 67.7% in the last six years. The increase for incarcerated Aboriginal men was 9.7% for the same period, increasing from 2,014 to 2,209.
- The number of Aboriginal offenders on community supervision increased from 1996-97 to 2000-01 but has decreased since 2001-02. The Aboriginal community population is 11.8% of the total community population.

Note:

Incarcerated includes male and female federal offenders serving their sentences in federal or provincial institutions. Community supervision includes federal offenders on day parole, full parole or statutory release, including those temporarily detained and those paroled for deportation.

THE NUMBER OF INCARCERATED ABORIGINAL OFFENDERS IS INCREASING

THE NUMBER OF ESCAPES HAS DECREASED

Figure C15.

Source: Security, Correctional Service Canada.

- Inmates who escaped from federal institutions in 2002-03 represented less than 0.5% of the inmate population.
- In 2002-03, all escapes occurred from minimum security facilities.
- In 2002-03, there were 43 escape incidents involving a total of 48 inmates. Of these 48 escapees, 45 have been recaptured. Twelve of the escapees were Aboriginal. There were no escapes by women.

THE NUMBER OF ESCAPES HAS DECREASED

Table C15.

Type of Escapes	1998-99	1999-00	2000-01	2001-02	2002-03
Escapes from Multi-level Institutions	3	1	0	3	0
Escapes from Maximum Security Level Institutions	0	1	0	0	0

Escapes from Minimum Security Level Institutions	106	96	80	56	48
Total	114	101	82	65	48

Source: Security, Correctional Service Canada.

Note:

The data represent the number of escape incidents from federal facilities during each fiscal year. A fiscal year runs from April 1 to March 31 of the following year.

THE SUPERVISED FEDERAL OFFENDER POPULATION IN THE COMMUNITY IS DECREASING

Figure C16.

Source: Correctional Service Canada.

- The federal offender population in the community under active supervision increased from 1996-97 to 1999-00 but has decreased in the last three years.
- The pattern of decrease held for day parole and full parole.
- The statutory release population remained stable.

Note:

Day parole is a type of conditional release granted by the National Parole Board whereby offenders are permitted to participate in community-based activities in preparation for full parole or statutory release. The conditions require offenders to return nightly to an institution or half-way house unless otherwise authorized by the National Parole Board.

Full parole is a type of conditional release granted by the National Parole Board whereby the remainder of the sentence is served under supervision in the community.

Statutory release refers to a conditional release that is subject to supervision after the offender has served two-thirds of the sentence.

The data presented above does not include offenders whose conditional release has been suspended, offenders who are on long term supervision orders, or offenders who have been deported.

*A fiscal year runs from April 1 to March 31 of the following year.

THE SUPERVISED FEDERAL OFFENDER POPULATION IN THE COMMUNITY IS DECREASING

Table C16.

Year	Supervision Type of Federal Offenders									Percent Change
	Day Parole		Full Parole		Statutory Release		Totals			
	Women	Men	Women	Men	Women	Men	Women	Men	Both

Note:

Probation count data are not available for Nunavut in 1999-00 and 2000-01 and for New Brunswick in 2000-01 and 2001-02. Data are not available from the Northwest Territories for any of the above years.

*Percent change was not calculated for 1999-00, 2000-01 and 2001-02 because data was not available for New Brunswick and Nunavut for these years.

THE NUMBER OF OFFENDERS ON PROVINCIAL PAROLE HAS DECLINED

Figure C18.

Source: Adult Corrections Survey, Canadian Centre for Justice Statistics, Statistics Canada.

- The number of offenders on provincial parole decreased from 1993-94 to 2001-02.
- The greatest decline of offenders on provincial parole has occurred in Ontario.

Note:

Provincial parole boards operate in Quebec, Ontario and British Columbia. The National Parole Board has jurisdiction over granting parole to provincial offenders in the Atlantic and Prairie provinces and to territorial offenders in the Yukon, Nunavut, and Northwest Territories.

THE NUMBER OF OFFENDERS ON PROVINCIAL PAROLE HAS DECLINED

Table C18.

Source: Adult Corrections Survey, Canadian Centre for Justice Statistics, Statistics Canada.

Note:

*The data represent the number of provincial offenders who are released from custody on the authority of the National Parole Board and supervised by the Correctional Service of Canada.

Provincial parole boards operate in Quebec, Ontario and British Columbia. The National Parole Board has jurisdiction over granting parole to provincial offenders in the Atlantic and Prairie provinces and to territorial offenders in the Yukon, Nunavut, and Northwest Territories.

SECTION D.

CONDITIONAL RELEASE

THE FEDERAL PAROLE GRANT RATE IS RELATIVELY STABLE

Figure D1.

Source: National Parole Board.

- In 2002-03, the grant rates for day parole and full parole were 71.5% and 42.6%, respectively.
- The grant rate for day parole and full parole increased from 1994-95 to 1998-99 and has since remained relatively stable.
- Federal day parole and full parole grant rates are higher for female offenders than for male offenders.

Note:

The grant rate represents the percentage of pre-release reviews resulting in a grant by the National Parole Board. Not all offenders apply for parole, and some apply more than once before being granted parole.

Day parole is a type of conditional release granted by the National Parole Board in which offenders are permitted to participate in community-based activities in preparation for full parole or statutory release. The conditions require offenders to return nightly to an institution or half-way house unless otherwise authorized by the National Parole Board.

Full parole is a type of conditional release granted by the National Parole Board in which the remainder of the sentence is served under supervision in the community.

THE FEDERAL PAROLE GRANT RATE IS RELATIVELY STABLE

Table D1.

Note:

The grant rate represents the percentage of pre-release reviews resulting in a grant by the National Parole Board. Not all offenders apply for parole, and some apply more than once before being granted parole.

Day parole is a type of conditional release granted by the National Parole Board in which offenders are permitted to participate in community-based activities in preparation for full parole or statutory release. The conditions require offenders to return nightly to an institution or half-way house unless otherwise authorized by the National Parole Board.

Full parole is a type of conditional release granted by the National Parole Board in which the remainder of the sentence is served under supervision in the community.

THE FEDERAL PAROLE GRANT RATE FOR ABORIGINAL OFFENDERS IS INCREASING

Figure D2.

Source: National Parole Board.

- The day parole grant rate for Aboriginal offenders decreased slightly from 2001-02 to 2002-03. In 2002-03, the rate was 2.6% higher than that for non-Aboriginal offenders.
- The full parole grant rate for Aboriginal offenders decreased slightly in 2002-03, following an increase from 1994-95 to 2001-02. The rate was 8.7% lower than that for non-Aboriginal offenders in 2002-03.

Note:

The grant rate represents the percentage of pre-release reviews resulting in a grant by the National Parole Board. Not all offenders apply for parole, and some apply more than once before being granted parole.

Day parole is a type of conditional release granted by the National Parole Board in which offenders are permitted to participate in community-based activities in preparation for full parole or statutory release. Note:

The grant rate represents the percentage of pre-release reviews resulting in a grant by the National Parole Board. Not all offenders apply for parole, and some apply more than once before being granted parole.

Day parole is a type of conditional release granted by the National Parole Board in which offenders are permitted to participate in community-based activities in preparation for full parole or statutory release. The conditions require offenders to return nightly to an institution or half-way house unless otherwise authorized by the National Parole Board.

Full parole is a type of conditional release granted by the National Parole Board in which the remainder of the sentence is served under supervision in the community.

OFFENDERS GRANTED FULL PAROLE SERVE ABOUT 40% OF THEIR SENTENCE PRIOR TO STARTING FULL PAROLE

Figure D3.

Source: National Parole Board.

- The percentage of time served until first full parole was 39.3% in 2002-03. The percentage of time served until first full parole has fluctuated very little since 1994-95.
- In 2002-03, women served an average of 1.6% less of their sentences before first federal full parole and 5.1% less before first federal day parole than men (37.8% compared to 39.4% and 27.2% compared to 32.3%, respectively).

Note:

Timing of parole in the sentence refers to the percentage of the sentence served at the time the first day parole or full parole starts during the sentence. In most cases a full parole is preceded by a day parole.

These calculations are based on sentences under federal jurisdiction excluding life sentences and indeterminate sentences. Offenders (other than those serving life or indeterminate sentences or subject to judicial determination) normally become eligible for full parole after serving 1/3 of their sentence or seven years, whichever is less. Eligibility for day parole is normally at 6 months before full parole eligibility or at 1/6 of the sentence for cases that meet the accelerated parole review criteria (see Section 125 of the *Corrections and Conditional Release Act*).

OFFENDERS GRANTED FULL PAROLE SERVE ABOUT 40% OF THEIR SENTENCE PRIOR TO STARTING FULL PAROLE

Table D3.

Year	Type of Release					
	First Day Parole			First Full Parole		
	Women	Men	Total	Women	Men	Total

1994-95	27.0	35.6	35.3	38.4	39.6	39.6
1995-96	27.2	37.7	37.2	35.9	39.5	39.3
1996-97	27.5	38.3	37.6	35.8	39.5	39.2
1997-98	27.9	34.1	33.7	36.1	40.1	39.8
1998-99	26.2	32.5	32.1	39.2	40.3	40.2
1999-00	24.8	32.2	31.7	37.8	40.6	40.3
2000-01	27.4	32.1	31.7	37.6	40.0	39.8
2001-02	28.1	32.7	32.4	37.1	39.7	39.4
2002-03	27.2	32.3	31.8	37.8	39.4	39.3

Source: National Parole Board.

Note:

Timing of parole in the sentence refers to the percentage of the sentence served at the time the first day parole or full parole starts during the sentence. In most cases a full parole is preceded by a day parole.

These calculations are based on sentences under federal jurisdiction excluding life sentences and indeterminate sentences. Offenders (other than those serving life or indeterminate sentences or subject to judicial determination) normally become eligible for full parole after serving 1/3 of their sentence or seven years, whichever is less. Eligibility for day parole is normally at 6 months before full parole eligibility or at 1/6 of the sentence for cases that meet the accelerated parole review criteria (see Section 125 of the *Corrections and Conditional Release Act*).

ABORIGINAL OFFENDERS SERVE A HIGHER PROPORTION OF THEIR SENTENCES BEFORE BEING RELEASED ON PAROLE

Figure D4.

Source: National Parole Board.

- In 2002-03, the percentage of time served until full parole was lower for non-Aboriginal offenders than for Aboriginal offenders (39.0% versus 42.2%, respectively).
- In 2002-03, the percentage of time served until first day parole was less for non-Aboriginal offenders than it was for Aboriginal offenders (30.9% versus 36.8%, respectively).
- Of the 108 Aboriginal offenders released on a first federal full parole in 2002-03, 46.3% of them were released on accelerated full parole compared to 64.7% of non-Aboriginal offenders.
- Of the 253 Aboriginal offenders released on a first federal day parole in 2002-03, 30.0% of them were released on accelerated day parole compared to 50.6% of non-Aboriginal offenders.

Note:

Timing of parole in the sentence refers to the percentage of the sentence served at the time the first day parole or full parole starts during the sentence. In most cases a full parole is preceded by a day parole.

These calculations are based on sentences under federal jurisdiction excluding life sentences and indeterminate sentences.

Offenders (other than those serving life or indeterminate sentences or subject to judicial determination) normally become eligible for full parole after serving 1/3 of their sentence or seven years, whichever is less. Eligibility for day parole is normally at 6 months before full parole eligibility or at 1/6 of the sentence for cases that meet the accelerated parole review criteria (see Section 125 of the *Corrections and Conditional Release Act*).

ABORIGINAL OFFENDERS SERVE A HIGHER PROPORTION OF THEIR SENTENCES BEFORE BEING RELEASED ON PAROLE

Note:

Timing of parole in the sentence refers to the percentage of the sentence served at the time the first day parole or full parole starts during the sentence. In most cases a full parole is preceded by a day parole.

These calculations are based on sentences under federal jurisdiction excluding life sentences and indeterminate sentences. Offenders (other than those serving life or indeterminate sentences or subject to judicial determination) normally become eligible for full parole after serving 1/3 of their sentence or seven years, whichever is less. Eligibility for day parole is normally at 6 months before full parole eligibility or at 1/6 of the sentence for cases that meet the accelerated parole review criteria (see Section 125 of the *Corrections and Conditional Release Act*).

WOMEN SERVE A LOWER PROPORTION OF THEIR SENTENCES THAN MEN BEFORE BEING RELEASED ON PAROLE

Figure D5.

Source: National Parole Board.

- In 2002-03, men served more of their sentences than women prior to beginning their first full parole supervision period (39.4% compared to 37.8%).
- In 2002-03, the percentage of time served until first day parole was less for female offenders than it was for male offenders (27.2% versus 32.2%, respectively).
- Of the 1,023 female offenders released on full parole since 1994-95, 65.8% of them were released on accelerated full parole compared to 58.7% of the 12,646 male offenders released on full parole.
- Of those offenders released on a first federal day parole since 1997-98, female offenders were released on accelerated day parole more often than the male offenders (59.1% versus 41.7%, respectively).

Note:

Timing of parole in the sentence refers to the percentage of the sentence served at the time the first day parole or full parole starts during the sentence. In most cases a full parole is preceded by a day parole.

These calculations are based on sentences under federal jurisdiction excluding life sentences and indeterminate sentences. Offenders (other than those serving life or indeterminate sentences or subject to judicial determination) normally become eligible for full parole after serving 1/3 of their sentence or seven years, whichever is less. Eligibility for day parole is normally at 6 months before full parole eligibility or at 1/6 of the sentence for cases that meet the accelerated parole review criteria (see Section 125 of the *Corrections and Conditional Release Act*).

A LARGE MAJORITY OF FEDERAL DAY PAROLES ARE SUCCESSFULLY COMPLETED

Figure D6.

Source: National Parole Board.

- The percentage of offenders who successfully completed day parole has been over 80% since 1995-96.
- Based upon the year of completion of the supervision period, the total number of federal day paroles completed was 2,982 in 2002-03, decreasing since 1999-00.
- In 2002-03, 3.2% of day paroles ended with a non-violent offence, and 0.4% with a violent offence.
- In 2002-03, the percentage of successful day paroles was higher for men than for women (84.6% versus 81.2%, respectively).

Note:

A day parole is considered successful if it was completed without a return to prison for a breach of conditions or for a new offence.

*Revocation for a Breach of Condition also includes revocation with outstanding charges.

A LARGE MAJORITY OF FEDERAL DAY PAROLES ARE SUCCESSFULLY COMPLETED

Table D6.

Source: National Parole Board.

Note:

*Revocation for a Breach of Condition also includes revocation with outstanding charges.

**Violent offences include murder and Schedule I offences (listed in the *Corrections and Conditional Release Act*) such as assaults, sexual offences, arson, abduction, robbery and some weapon offences.

Day parole is a type of conditional release in which offenders are permitted to participate in community-based activities in preparation for full parole or statutory release. The conditions require offenders to return nightly to an institution or half-way house unless otherwise authorized by the National Parole Board.

Eligibility for day parole release normally occurs 6 months prior to full parole. Eligibility for accelerated parole review cases occurs after the offender serves 6 months or 1/6 of the sentence, whichever is greater.

THE MAJORITY OF FEDERAL FULL PAROLES ARE SUCCESSFULLY COMPLETED

Figure D7.

Source: National Parole Board.

- The percentage of offenders who successfully completed full parole has increased since 1994-95.
- Based on the year of completion of the supervision period, the number of federal full paroles completed increased from 1998-99 to 2000-01 and has decreased in the last two years.
- In 2002-03, 8.3% of full paroles ended with a non-violent offence and 1.1% with a violent offence.
- In 2002-03, the percentage of successful full paroles was higher for women (80.6%) than for men (71.8%).

Note:

A full parole is considered successful if it was completed without a return to prison for a breach of conditions or for a new offence.

These data do not include offenders serving life or indeterminate sentences as these offenders, by definition, remain under supervision for life.

*Revocation for a Breach of Condition also includes revocation with outstanding charges.

Source: National Parole Board.

Note:

*Revocation for a Breach of Condition also includes revocation with outstanding charges.

**Violent offences include murder and Schedule I offences (listed in the *Corrections and Conditional Release Act*) such as assaults, sexual offences, arson, abduction, robbery and some weapon offences.

Full parole is a type of conditional release granted by the National Parole Board in which a portion of the sentence is served under supervision in the community. Offenders (other than those serving life or indeterminate sentences or subject to judicial determination) normally become eligible for full parole after serving 1/3 of their sentence or seven years, whichever is less.

THE MAJORITY OF STATUTORY RELEASES ARE SUCCESSFULLY COMPLETED

Figure D8.

Source: National Parole Board.

- The percentage of offenders who successfully completed statutory release ranged from 56.5% to 60.3% over the past nine years.
- In 2002-03, 9.4% of statutory releases ended with a non-violent offence and 2.4% with a violent offence.
- In 2002-03, the percentage of successful statutory releases was higher for women (61.3%) than for men (57.7%).

Note:

A statutory release is considered successful if it was completed without a return to prison for a breach of conditions or for a new offence.

Statutory release refers to a conditional release that is subject to supervision after the offender has served two-thirds of the sentence.

*Revocation for a Breach of Condition also includes revocation with outstanding charges.

THE MAJORITY OF STATUTORY RELEASES ARE SUCCESSFULLY COMPLETED

Table D8.

Statutory Release Outcome	1998-99		1999-00		2000-01		2001-02		2002-03	
	#	%	#	%	#	%	#	%	#	%

Note:

*Revocation for a Breach of Condition also includes revocation with outstanding charges.

**Violent offences include murder and Schedule I offences (listed in the *Corrections and Conditional Release Act*) such as assaults, sexual offences, arson, abduction, robbery and some weapon offences.

SUPERVISED OFFENDERS ARE BEING CONVICTED OF FEWER VIOLENT OFFENCES

Figure D9.

Source: National Parole Board.

- The rate of reconviction for violent offences* while under community supervision has declined since 1994-95.
- Those offenders under discretionary release (full parole and day parole) are less likely to be convicted of a violent offence while under supervision than those on statutory release.

Note:

*Violent offences include murder and Schedule I offences (listed in the *Corrections and Conditional Release Act*) such as assaults, sexual offences, arson, abduction, robbery and some weapon offences.

The dotted line between 2001-02 and 2002-03 is intended to signify that due to delays in the court process, these numbers underrepresent the actual number of convictions, as verdicts may not have been reached by year-end.

Supervised offenders include offenders who are on parole, statutory release, those temporarily detained in federal institutions, and those who are unlawfully at large.

SUPERVISED OFFENDERS ARE BEING CONVICTED OF FEWER VIOLENT OFFENCES

Table D9.

Year	# of Offenders Convicted for Violent Offences				Rate per 1,000 Supervised Offenders		
	Day Parole	Full Parole	Statutory Release	Total	Day Parole	Full Parole	Statutory Release
1994-95	77	99	165	341	58	20	83
1995-96	63	64	185	312	53	14	83
1996-97	38	54	160	252	37	13	67
1997-98	36	48	154	238	29	12	62
1998-99	35	36	137	208	23	9	55
1999-00	52	41	157	250	33	9	56
2000-01	34	36	166	236	24	8	60
2001-02	22	33	142	197	17	8	50
2002-03	13	19	129	161	10	5	44

Source: National Parole Board.

Note:

Violent offences include murder and Schedule I offences (listed in the *Corrections and Conditional Release Act*) such as assaults, sexual offences, arson, abduction, robbery and some weapon offences.

Supervised offenders include offenders who are on parole, statutory release, those temporarily detained in federal institutions, and those who are unlawfully at large.

Full parole includes those offenders serving determinate and indeterminate sentences.

THE NUMBER OF UNESCORTED TEMPORARY ABSENCES HAS DECREASED SINCE 1999-2000

Figure D10.

Source: Correctional Service Canada.

- The number of unescorted temporary absences increased from 1996-97 to 1999-00 but has decreased since that time.
- The number of escorted temporary absences increased from 1996-97 to 1999-00, decreased between 1999-00 and 2001-02, and increased in the most recent year.
- The completion rates for escorted and unescorted temporary absences are consistently over 99%.

Note:

A temporary absence is permission given to an eligible offender to be away from the normal place of confinement for medical, administrative, community service, family contact, personal development for rehabilitative purposes, or compassionate reasons, including parental responsibilities.

These numbers exclude temporary absences granted for medical purposes.

THE NUMBER OF UNESCORTED TEMPORARY ABSENCES HAS DECREASED SINCE 1999-2000

Table D10.

Year	Escorted Temporary Absences				Unescorted Temporary Absences			
	Number Completed	Number Not Completed	Total	Percent Completed	Number Completed	Number Not Completed	Total	Percent Completed
1994-95	25,217	9	25,226	99.96	2,825	16	2,841	99.44
1995-96	25,394	8	25,402	99.97	3,648	15	3,663	99.59

1999-00	40,524	33	40,557	99.92	7,312	41	7,353	99.44
2000-01	34,129	11	34,140	99.97	6,511	48	6,559	99.27
2001-02	29,954	9	29,963	99.97	5,111	31	5,142	99.40
2002-03	33,729	13	33,742	99.96	4,788	26	4,814	99.46

Source: Correctional Service Canada.

Note:

These numbers represent the number of permits that begin in a month and shows the final outcomes. The offenders are counted based on the number of permits started. The monthly totals will add to fewer than the quarterly and annual totals as an offender is only counted once now per month, per quarter, per year. One offender may have many absences.

These numbers exclude temporary absences granted for medical purposes.

"Not completed" include temporary absences where offenders have gone unlawfully at large or have been detained by police.

SECTION E.

STATISTICS ON SPECIAL APPLICATIONS OF CRIMINAL JUSTICE

THE NUMBER OF DETENTION REVIEWS HAS INCREASED SINCE 1999-2000

Figure E1.

Source: National Parole Board.

- The number of initial detention reviews reached a peak in 1995-96, then declined until 1999-00 and has increased in the last three years.
- Out of 3,816 initial detention reviews since 1991-92, 90.5% have resulted in a decision to detain.
- Since 1998-99, 18 women have been referred for detention and 15 were detained.
- Since 1998-99, Aboriginal offenders have accounted for 31.8% of all offenders detained. During this period, Aboriginal offenders accounted for an average of 15.7% of the total federal offender population, and 18.3% of the incarcerated federal offender population.

Note:

According to the *Corrections and Conditional Release Act*, an offender entitled to statutory release after serving two-thirds of the sentence may be held in custody until warrant expiry if it is established that the offender is likely to commit, before the expiry of sentence, an offence causing death or serious harm, a serious drug offence or a sex offence involving a child.

THE NUMBER OF DETENTION REVIEWS HAS INCREASED SINCE 1999-2000

Note:

According to the *Corrections and Conditional Release Act*, an offender entitled to statutory release after serving two-thirds of the sentence may be held in custody until warrant expiry if it is established that the offender is likely to commit, before the expiry of sentence, an offence causing death or serious harm, a serious drug offence or a sex offence involving a child.

80% OF JUDICIAL REVIEW HEARINGS RESULT IN EARLIER PAROLE ELIGIBILITY

Figure E2.

Source: Correctional Service Canada, National Parole Board.

- Since the first judicial review hearing in 1987, there have been a total of 134 court decisions.
- Of these cases, 79.9% of the court decisions resulted in a reduction of the period that must be served before parole eligibility.
- Of offenders eligible to apply for a judicial review, 20.6% have had decisions rendered by the courts.
- Of the 107 offenders who have had their parole eligibility date moved closer, 104 have reached their revised eligibility date. Of these offenders, 87 have been granted parole, and 68 are currently being actively supervised in the community*.
- A higher percentage of second degree than first degree murder cases have resulted in a reduction of the period required to be served before parole eligibility.

Note:

*Of the 87 offenders who have been granted parole, 16 offenders have been returned to custody, three offenders are deceased, and two offenders have been deported.

Judicial review is an application by an offender convicted of murder to the Court for a reduction in the time required to be served before being eligible for parole. Offenders can apply when they have served at least 15 years of their sentence. Judicial review procedures apply to offenders convicted of first degree murder, who are required to serve 25 years prior to being eligible for parole, and to offenders who have been sentenced to life imprisonment for second degree murder, with parole eligibility set at 15 years or more.

80% OF JUDICIAL REVIEW HEARINGS RESULT IN EARLIER PAROLE ELIGIBILITY

Table E2.

Province of Judicial Review	Parole Ineligibility Reduced by Court		Reduction Denied by Court		Total

Total	107		27		134	

Source: Correctional Service Canada.

Note:

These numbers represent total decisions as of June 8, 2003.

Judicial reviews are conducted in the province where the conviction took place. This does not always correspond to the administrative region in charge of the case.

THE NUMBER OF DANGEROUS OFFENDER DESIGNATIONS DECREASED IN 2002

Figure E3.

Source: Correctional Service Canada.

- As of June 15, 2003, there have been 387 Dangerous Offender designations since 1978.
- Approximately 81% of all Dangerous Offenders (DOs) have at least one current conviction for a sexual offence.
- As of June 15, 2003, there were 334 active DOs. Of these, 321 were incarcerated (representing slightly more than 2% of the total federal inmate population), one has been deported and 12 were being supervised in the community.
- Of the 334 DOs, 9 offenders have determinate sentences, whereas 325 have indeterminate sentences.
- There are currently no female Dangerous Offenders.
- Aboriginal offenders account for 20.7% of Dangerous Offenders and 15.7% of the total inmate population.

Note:

Dangerous Offender legislation came into effect in Canada on October 15, 1977, replacing the Habitual Offender and Dangerous Sexual Offender provisions that were abolished. A Dangerous Offender (DO) is an individual given an indeterminate sentence on the basis of a particularly violent crime or pattern of serious violent offences where it is judged that the offender's behaviour is unlikely to be inhibited by normal standards of behavioural restraint (see section 752 of the *Criminal Code of Canada*). Until August 1997, a determinate sentence was possible for those designated as DOs. In addition to the DOs, there remain within federal jurisdiction 48 Dangerous Sexual Offenders and 8 Habitual Offenders.

*The number of Dangerous Offenders designated per year does not include overturned decisions.

Offenders who have died since receiving designations are no longer classified as "active"; however, they are still represented in the above graph which depicts the total number of offenders "designated".

THE NUMBER OF DANGEROUS OFFENDER DESIGNATIONS DECREASED IN 2002

Table E3.

Province or Territory of Designation	All Designations (# designated since 1978)	Active Dangerous Offenders		Total
		# of Indeterminate Offenders	# of Determinate Offenders	
Newfoundland	12	8	0	8
Nova Scotia	14	13	0	13
Prince Edward Island	0	0	0	0
New Brunswick	5	4	0	4
Quebec	23	21	0	21
Ontario	153	130	3	133
Manitoba	10	9	0	9
Saskatchewan	27	22	2	24
Alberta	29	22	1	23
British Columbia	109	91	3	94
Yukon	0	0	0	0

Nunavut	0	0	0	0
Total	387	325	9	334

Source: Correctional Service Canada.

Note:

Numbers presented are as of June 15, 2003.

The number of Dangerous Offenders declared per year does not include overturned decisions.

Offenders who have died since receiving designations are no longer classified as "active"; however, they are still represented in the total number of offenders "designated".

MOST LONG TERM SUPERVISION ORDERS ARE FOR A 10-YEAR PERIOD

Figure E4.

Source: Correctional Service Canada.

- As of April 13, 2003, the courts have imposed 193 long term supervision orders. Of these, 68.4% were for a period of 10 years.
- There are currently 186 offenders with long term supervision orders, and of these, 150 (80.6%) have at least one current conviction for a sexual offence.
- There are three women with long term supervision orders.
- There are currently 37 offenders being supervised in the community on their long term supervision order.

Note:

Long Term Supervision Order (LTSO) legislation, which came into effect in Canada on August 1, 1997, allows the court to impose a sentence of two years or more for the predicate offence and order that the offender be supervised in the community for a further period not exceeding 10 years.

Three offenders under these provisions have died, one offender has had two LTSOs imposed, and three offenders are serving provincial sentences.

MOST LONG TERM SUPERVISION ORDERS ARE FOR A 10-YEAR PERIOD

Table E4.

Province or Territory of Order	Length of Supervision Order (years)								Current Status			
	3	4	5	6	7	8	10	Total	Incarcerated	Supervised on DP, FP or SR*	LTSO period	Total
Newfoundland	0	0	0	0	0	0	4	4	3	1	0	4
Nova Scotia	0	1	0	0	0	0	7	8	6	1	1	8

Alberta	0	0	4	0	0	0	17	21	14	0	5	19
British Columbia	0	0	0	1	2	2	22	27	22	1	4	27
Yukon	0	0	0	0	1	0	1	2	1	0	1	2
Northwest Territories	0	0	0	0	0	0	2	2	2	0	0	2
Nunavut	0	0	0	0	0	0	0	0	0	0	0	0
Total	1	3	24	8	16	9	132	193	134	15	37	186

Source: Correctional Service Canada.

Note:

These numbers are as of April 13, 2003.

Current Status applies to the current sentence of federal offenders only.

Three offenders under these provisions have died, one offender has had two LTSOs imposed, and three offenders are serving provincial sentences.

Four of the offenders being supervised on their long term supervision orders are currently temporarily detained.

*This category includes offenders whose current status is either supervised on day parole, supervised on full parole, or supervised on statutory release.

THE NUMBER OF PARDON APPLICATIONS PROCESSED HAS INCREASED

Figure E5.

Source: National Parole Board.

- The National Parole Board received 16,989 pardon applications in 2002-03.
- Over 98% of the accepted applications for pardons were granted last year.
- The number of pardon applications processed decreased in 2002-03.
- Over three million (3,282,193) Canadians have a criminal record* but less than 10% of people convicted have received a pardon. Since 1970, when the pardon process began, 291,392 pardons have been granted or issued.

Note:

Pardons allow people who were convicted of a criminal offence but have completed their sentence and demonstrated that they are law-abiding citizens to have their criminal record sealed. A person convicted of a summary offence may apply for a pardon three years after the completion of the sentence, and a person convicted of an indictable offence may apply after five years.

*Source: Royal Canadian Mounted Police Criminal Records Division, 2001.

THE NUMBER OF PARDON APPLICATIONS PROCESSED HAS INCREASED

Table E5.

Cumulative Revocations / Cessations**	6,730	7,373	7,915	8,378	9,280

Source: National Parole Board.

Note:

*Revocations in 2000-01 and 2001-02 were lower than usual due to resource re-allocation.

**Cumulative data reflects pardon activity since 1970, when the pardon process was established under the *Criminal Records Act*.

Pardons are issued for summary offences, upon application, following a three-year conviction-free period after the completion of the sentence. In cases of indictable offences, pardons are granted at the discretion of the National Parole Board (NPB) following a five-year period of good conduct after the completion of the sentence. The cessation of a pardon automatically occurs following a subsequent conviction for an indictable offence, or hybrid offence, with some exceptions, including impaired driving, driving with more than 80 mg of alcohol in the blood or fail to provide a breath sample. Revocations are at the discretion of the NPB following a subsequent summary conviction, or for lack of good conduct. The Board may also render a decision of cessation when it is convinced by new information that the person was not eligible for a pardon at the time it was awarded.

QUESTIONNAIRE

In order to improve the *Corrections and Conditional Release Statistical Overview*, we are asking our readers to complete the following voluntary questionnaire:

1. Where did you obtain this copy of the *Corrections and Conditional Release Statistical Overview*?

2. How did you become aware of it?

3. Did you experience any difficulties in obtaining or accessing the document? ☐ Yes ☐ No
Please elaborate.

4. Have you found the *Corrections and Conditional Release Statistical Overview* to be a useful document? ☐ Yes ☐ No Please elaborate.

5. Are there any tables, figures or bullets that are not clear?

6. Are there any topics you would like to see addressed in future publications of the *Corrections and Conditional Release Statistical Overview* that are not currently included?

7. Any further comments?

(See over for return address)

Please return completed questionnaires to:
