Professional and special services

The following statement presents the total amount spent in 1994-95 for each type of professional and special services. This information is displayed by program under each ministry.

This statement also provides, for each type of services, a detailed listing, where applicable, of the aggregate of all payments (i.e. cash payments and accrual charges) to one individual or one organization that totals \$100,000 or over. This detail shows the name and location of the payee, together with the total amount paid. In cases where certain organizations have more than one place of business, their Head Office location was used for reporting purposes. Amounts reported include both internal and external expenditures. Whereas external expenditures result from transactions between the Government and outside parties, internal expenditures result from transactions involving organizations that are part of the Government of Canada as a reporting entity.

Section 5 of Volume II (Part II) of the 1994-95 Public Accounts presents the total amount spent for each type of professional and special services, allocated by department and agency under each ministry.
