## **Transfer payments**

The following statement presents the total amount spent in 1999-2000 for each transfer payment. A transfer payment is a grant, contribution or other payment made by the Government for which no goods or services are received. This information is displayed by program under each ministry.

This statement also provides, for each class of recipients, a detailed listing, where applicable, of the aggregate of all payments (i.e. cash payments and accrual charges) to a recipient that totals \$100,000 or over. This detail shows the name and location of the recipient together with the total amount paid. In cases where certain organizations have more than one place of business, their Head Office location was used for reporting purposes. Amounts reported include both internal and external expenditures. Whereas external expenditures result from transactions between the Government and outside parties, internal expenditures result from transactions involving organizations that are part of the Government of Canada as a reporting entity.

Section 8 of Volume II (Part II) of the 1999-2000 Public Accounts of Canada presents the total amount spent as transfer payments in the current fiscal year by department and agency under each ministry.

Canada Health and Social Transfer (CHST) is a block-fund transfer to provinces and territories to provide financial support for the provision of health, post-secondary education, social assistance and social services. The contributions are a combination of cash and tax point transfers. The tax contribution of \$15.0 billion is the current value of a legislatively prescribed number of tax points (and the Fiscal Equalization associated with them). Cash payments of \$15.9 billion include base cash of \$12.4 billion and the Budget 1999 CHST Supplement Trust for Health Care of \$3.5 billion. The equalization associated with the tax transfer is paid under the Fiscal Equalization Program administered by the Department of Finance. The amount of these tax and cash transfers in 1999-2000 is shown in the above table.

The cash portion of the contributions is also subject to various provisions of the Federal-Provincial Fiscal Arrangements Act and the Canada Health Act. In order that a full cash contribution may be made, provinces must satisfy program criteria respecting public administration, comprehensiveness, universality, portability and accessibility throughout the fiscal year, and must agree to provide the Minister of Health with required information and must give recognition to the contributions and payments made by Canada under the Canada Health Act. Also, the Federal-Provincial Fiscal Arrangements Act requires provinces to provide social assistance without any minimum residency requirements on social assistance applicants. Under both Acts, a process for deductions from cash contributions is described for violations of the program criteria.

The Canada Health Act additionally requires that the provinces must not permit extra-billing by a medical practitioner or a dentist (for surgical dental services requiring hospitalization) nor user charges. Should a province fail to comply with these latter conditions, the Act provides for automatic deductions from cash contributions. Newfoundland was reimbursed \$42,570 and Nova Scotia had deductions totalling \$61,110 during 1999-2000 for extra-billing. Deductions for extra-billing are administered by the Department of Health Canada.

A full or partial basic Old Age Security pension is payable at age 65 or later to everyone who has met certain residence requirements.

A Guaranteed Income Supplement is an additional amount payable to pensioners who have little or no other income apart from the Old Age Security pension. Entitlement is normally based on income in the preceding calendar year, computed in accordance with the Income Tax Act. Where a married couple is concerned, each is considered to have one half of their combined income.

Spouse's Allowance is payable to the spouse of a pensioner if the spouse is aged 60 to 64 and to widows and widowers aged 60 to 64. All recipients must meet certain residence requirements. Entitlement is based on income.

All benefits under the Old Age Security program are subject to change in January, April, July and October of each year based on increases in the Consumer Price Index.

The benefits in effect as at April 1, 1999 were as follows:

Monthly benefits	\$
OAS (basic)	420.34
GIS (maximum)	
Single person or a married person whose spouse is not in receipt of OAS or SPA	499.55
Married couple, both pensioners — Each	325.39
Spouse's Allowance (maximum)	745.73
Widowed recipients	823.29

In March 2000, there were 3,755,173 Old Age Security pensioners, of whom 1,375,318 or 36.62 percent were also receiving a Supplement; the average Supplement paid was \$301. In addition, there were 97,621 spouses of pensioners in receipt of Spouse's Allowance. The average Spouse's Allowance benefit was \$335.

The legislation provides for annual escalation of the allowance in July of every year in accordance with increases in the Consumer Price Index in excess of 3 percent.
