Montréal CMA

CANADA MORTGAGE AND HOUSING CORPORATION

Date Released: December 2012

Montréal metropolitan area housing starts in November 2012

According to the results of the latest starts survey conducted by Canada Mortgage and Housing Corporation (CMHC), 2,068 dwellings were started in the Montréal census metropolitan

area (CMA) in November 2012, compared to 2,450 during the same month in 2011.

In November, residential construction in the Montréal CMA posted a decrease of 16 per cent from the same month in 2011. The slowdown affected most housing types. Only semi-detached and row home construction recorded an increase, as such starts climbed by 14 per cent

over a year earlier. Condominium construction, for its part, fell by 18 per cent but accounted for more than half of all housing starts enumerated in the area. Demand for condominiums has been fuelled in part by a shift in demand from single-detached houses to the more affordable options on the market. Starts sustained drops of 21 per cent for single-detached homes and 6 per cent for rental units¹.

In the different geographic sectors of the CMA, the results revealed that housing starts rose only on the North Shore (+11 per cent) and that this increase extended to all market

segments. Elsewhere, overall activity decreased on the Island of Montréal (-3 per cent), in Laval (-53 per cent), on the South Shore (-30 per cent) and in Vaudreuil-Soulanges (-26 per cent).

From January to November 2012, total housing starts decreased by 8 per cent compared to the same period in 2011. Condominium housing starts declined slightly, falling by 1 per cent. In the case of freehold homes, starts sustained decreases of 15 per cent for single-detached homes and 2 per cent for semi-detached and row houses. Lastly, rental housing activity was down by 15 per cent.

Job market

In November 2012, the number of jobs in the Montréal CMA posted a gain (+0.2 per cent), for a third straight month. Even with this increase, the unemployment rate remained relatively stable from one month to the next, edging up from 8.2 per cent in October to 8.3 per cent in November, as the increase in the labour force was slightly greater than the rise in employment.

¹ In this report, the data presented on the rental segment exclude co-operative housing starts.

ZONE DESCRIPTIONS - MONTRÉAL CMA	
Zone 1	Downtown Montréal (bordered on the east by Amherst Street, on the west by Guy Street and on the north by Chemin Remembrance and Des Pins Avenue), Île-des-Soeurs.
Zone 2	Dorval, L'Île-Dorval, Montréal (Lachine, LaSalle, Le Sud-Ouest, Verdun).
Zone 3	Côte-Saint-Luc, Hampstead, Montréal (Côte-des-Neiges, Notre-Dame-de-Grâce, Outremont), Montréal-Ouest, Mont-Royal, Westmount.
Zone 4	Montréal (Parc-Extension, Plateau Mont-Royal, Rosemont (including La Petite-Patrie), Saint-Michel, Villeray).
Zone 5	Montréal (Mercier, Hochelaga-Maisonneuve, Centre-Sud).
Zone 6	Montréal (Anjou, Saint-Léonard).
Zone 7	Montréal (Ahuntsic, Cartierville, Montréal-Nord).
Zone 8	Montréal (Saint-Laurent).
Zone 9	Beaconsfield, Baie-d'Urfé, Dollard-des-Ormeaux, Kirkland, Pointe-Claire, Sainte-Anne-de-Bellevue, Senneville, Montréal (L'Île-Bizard, Pierrefonds, Roxboro, Sainte-Geneviève).

METHODOLOGY

Starts & Completions Survey Methodology

The Starts and Completions Survey is conducted by way of site visits which are used to confirm that new units have reached set stages in the construction process. Since most municipalities in the country issue building permits, these are used as an indication of where construction is likely to take place. In areas where there are no permits, reliance has to be placed either on local sources or searching procedures.

The Starts and Completions Survey is carried out monthly in urban areas with population in excess of 50,000, as defined by the 2006 Census. In urban areas with populations of 10,000 to 49,999, all Starts are enumerated in the last month of the quarter (i.e. four times a year, in March, June, September and December). In these centres with quarterly enumeration, Completion activity is modelled based on historical patterns. Monthly Starts and Completions activity in these quarterly locations are statistically estimated at a provincial level for single and multi categories. Centres with populations below 10,000 are enumerated on a sample basis, also in the last month of each quarter (i.e. four times a year, in March, June, September and December).

The Starts and Completions Survey enumerates dwelling units in new structures only, designed for non-transient and year-round occupancy.

Mobile homes are included in the surveys. A mobile home is a type of manufactured house that is completely assembled in a factory and then moved to a foundation before it is occupied.

Trailers or any other movable dwelling (the larger often referred to as a mobile home) with no permanent foundation are excluded from the survey.

Conversions and/or alterations within an existing structure are excluded from the surveys as are seasonal dwellings, such as: summer cottages, hunting and ski cabins, trailers and boat houses; and hostel accommodations, such as: hospitals, nursing homes, penal institutions, convents, monasteries, military and industrial camps, and collective types of accommodation such as: hotels, clubs, and lodging homes.

Market Absorption Survey Methodology

The Market Absorption Survey is carried out in conjunction with the Starts and Completions Survey in urban areas with populations in excess of 50,000. When a structure is recorded as completed, an update is also made as units are sold or rented. The dwellings are then enumerated each month until such time as full absorption occurs.

STARTS AND COMPLETIONS SURVEY AND MARKET ABSORPTION SURVEY DEFINITIONS

A “**dwelling unit**”, for purposes of the Starts and Completions Survey, is defined as a structurally separate set of self-contained living premises with a private entrance from outside the building or from a common hall, lobby, or stairway inside the building. Such an entrance must be one that can be used without passing through another separate dwelling unit.

A “**start**”, for purposes of the Starts and Completions Survey, is defined as the beginning of construction work on a building, usually when the concrete has been poured for the whole of the footing around the structure, or an equivalent stage where a basement will not be part of the structure.

The number of units “**under construction**” as at the end of the period shown, takes into account certain adjustments which are necessary for various reasons. For example, after a start on a dwelling has commenced construction may cease, or a structure, when completed, may contain more or fewer dwelling units than were reported at start.

A “**completion**”, for purposes of the Starts and Completions Survey, is defined as the stage at which all the proposed construction work on a dwelling unit has been performed, although under some circumstances a dwelling may be counted as completed where up to 10 per cent of the proposed work remains to be done.

The term “**absorbed**” means that a housing unit is no longer on the market (i.e. has been sold or rented). This usually happens when a binding contract is secured by a non-refundable deposit and has been signed by a qualified purchaser. The purpose of the Market Absorption Survey is to measure the rate at which units are sold or rented after they are completed, as well as collect prices.

DWELLING TYPES:

A “**Single-Detached**” dwelling (also referred to as “**Single**”) is a building containing only one dwelling unit, which is completely separated on all sides from any other dwelling or structure. Includes link homes, where two units may share a common basement wall but are separated above grade. Also includes cluster-single developments.

A “**Semi-Detached (Double)**” dwelling (also referred to as “**Semi**”) is one of two dwellings located side-by-side in a building, adjoining no other structure and separated by a common or party wall extending from ground to roof.

A “**Row (Townhouse)**” dwelling is a one family dwelling unit in a row of three or more attached dwellings separated by a common or party wall extending from ground to roof.

The term “**Apartment and other**” includes all dwellings other than those described above, including structures commonly known as stacked townhouses, duplexes, triplexes, double duplexes and row duplexes.

INTENDED MARKET:

The “**intended market**” is the tenure in which the unit is being marketed. This includes the following categories:

Freehold: A residence where the owner owns the dwelling and lot outright.

Condominium (including Strata-Titled): An individual dwelling which is privately owned, but where the building and/or the land are collectively owned by all dwelling unit owners. A condominium is a form of ownership rather than a type of house.

Rental: Dwelling constructed for rental purposes regardless of who finances the structure.

GEOGRAPHICAL TERMS:

A census metropolitan area (CMA) or a census agglomeration (CA) is formed by one or more adjacent municipalities centred on a large urban area (known as the urban core). The census population count of the urban core is at least 10,000 to form a census agglomeration and at least 100,000 to form a census metropolitan area. To be included in the CMA or CA, other adjacent municipalities must have a high degree of integration with the central urban area, as measured by commuting flows derived from census place of work data. CMAs and CAs contain whole municipalities or Census Subdivisions.

A “**Rural**” area, for the purposes of this publication, is a centre with a population less than 10,000.

All data presented in this publication is based on Statistics Canada’s 2006 Census area definitions.

CMHC—HOME TO CANADIANS

Canada Mortgage and Housing Corporation (CMHC) has been Canada's national housing agency for more than 65 years.

Together with other housing stakeholders, we help ensure that the Canadian housing system remains one of the best in the world. We are committed to helping Canadians access a wide choice of quality, environmentally sustainable and affordable housing solutions that will continue to create vibrant and healthy communities and cities across the country.
