### HOUSING MARKET INFORMATION

# HOUSING NOW Montréal CMA

Date Released: February 2013

## Montréal metropolitan area housing starts in January 2013

According to the results of the latest starts survey conducted by Canada Mortgage and Housing Corporation (CMHC), 668 dwellings were started in the Montréal census metropolitan area (CMA) in January 2013, compared to 957 during the same period in 2012.

The slowdown in the starts trend recorded in January echoed the decline observed in recent months on the resale market. In January, housing starts in the Montréal CMA fell in all market segments, with the exception

of rental housing<sup>1</sup>, for which they more than doubled, reaching 91 units. In the freehold home segment, single-detached housing starts registered a drop of 21 per cent, while the number of new semi-detached and row homes fell by 58 per cent. In the condominium segment, construction recorded a decrease of 35 per cent.

In the different geographic sectors of the CMA, the results revealed that housing starts rose only on the North Shore (+35 per cent) and that this increase extended to all market segments. Elsewhere, overall activity decreased on the Island on Montréal (-32 per cent), in Laval (-39 per cent), on the South Shore (-53 per cent) and in Vaudreuil-Soulanges (-70 per cent).

### Job market

In January 2013, the number of jobs in the Montréal CMA posted a gain (+0.4 per cent), for a fifth straight month. Employment growth outpaced the increase in the labour force, resulting in a lower unemployment rate. This rate reached 7.8 per cent in January, down from 7.9 per cent the month before.

<sup>&</sup>lt;sup>1</sup> In this report, the data presented on the rental segment exclude co-operative housing starts.

	ZONE DESCRIPTIONS - MONTRÉAL CMA
Zone I	Downtown Montréal (bordered on the east by Amherst Street, on the west by Guy Street and on the north by Chemin Remembrance and Des Pins Avenue), Île-des-Soeurs.
Zone 2	Dorval, L'Île-Dorval, Montréal (Lachine, LaSalle, Le Sud-Ouest, Verdun).
Zone 3	Côte-Saint-Luc, Hampstead, Montréal (Côte-des-Neiges, Notre-Dame-de-Grâce, Outremont), Montréal-Ouest, Mont-Royal, Westmount.
Zone 4	Montréal (Parc-Extension, Plateau Mont-Royal, Rosemont (including La Petite-Patrie), Saint-Michel, Villeray).
Zone 5	Montréal (Mercier, Hochelaga-Maisonneuve, Centre-Sud).
Zone 6	Montréal (Anjou, Saint-Léonard).
Zone 7	Montréal (Ahuntsic, Cartierville, Montréal-Nord).
Zone 8	Montréal (Saint-Laurent).
Zone 9	Beaconsfield, Baie-d'Urfé, Dollard-des-Ormeaux, Kirkland, Pointe-Claire, Sainte-Anne-de-Bellevue, Senneville, Montréal (L'Île-Bizard, Pierrefonds, Roxboro, Sainte-Geneviève).
Zone 10	Montréal-Est, Montréal (Pointe-aux-Trembles, Rivière-des-Prairies).
Zone II	Laval (Chomedey, Sainte-Dorothée, Laval-sur-le-Lac).
Zone I2	Laval (Auteuil, Duvernay, Laval-des-Rapides, Pont-Viau, Saint-François, Saint-Vincent-de-Paul, Vimont).
Zone 13	Laval (Fabreville, Laval-Ouest, Sainte-Rose).
Zone I4	MRC Deux-Montagnes (Deux-Montagnes, Oka, Pointe-Calumet, Saint-Eustache, Saint-Joseph-du-Lac, Sainte-Marthe-sur-le-Lac).
Zone I5	Mirabel, Saint-Placide
Zone 16	MRC Thérèse-de-Blainville (Blainville, Boisbriand, Bois-des-Filion, Lorraine, Rosemère, Sainte-Anne-des-Plaines, Sainte-Thérèse).
Zone I7	MRC Les Moulins (Terrebonne, Mascouche).
Zone 18	Charlemagne, Lavaltrie, L'Assomption, Repentigny, Saint-Sulpice, L'Épiphanie
Zone 19	Gore, Saint-Colomban, Saint-Jérôme.
Zone 20	Longueuil.
Zone 21	Boucherville, Saint-Amable, Sainte-Julie, Varennes, Verchères
Zone 22	Beloeil, McMasterville, Mont-Saint-Hilaire, Otterburn Park, Saint-Basile-le-Grand, Saint-Bruno-de-Montarville, Saint-Mathieu-de-Beloeil.

### **METHODOLOGY**

### **Starts & Completions Survey Methodology**

The Starts and Completions Survey is conducted by way of site visits which are used to confirm that new units have reached set stages in the construction process. Since most municipalities in the country issue building permits, these are used as an indication of where construction is likely to take place. In areas where there are no permits, reliance has to be placed either on local sources or searching procedures.

The Starts and Completions Survey is carried out monthly in urban areas with population in excess of 50,000, as defined by the 2006 Census. In urban areas with populations of 10,000 to 49,999, all Starts are enumerated in the last month of the quarter (i.e. four times a year, in March, June, September and December). In these centres with quarterly enumeration, Completion activity is modelled based on historical patterns. Monthly Starts and Completions activity in these quarterly locations are statistically estimated at a provincial level for single and multi categories. Centres with populations below 10,000 are enumerated on a sample basis, also in the last month of each quarter (i.e. four times a year, in March, June, September and December).

The Starts and Completions Survey enumerates dwelling units in new structures only, designed for non-transient and year-round occupancy.

Mobile homes are included in the surveys. A mobile home is a type of manufactured house that is completely assembled in a factory and then moved to a foundation before it is occupied.

Trailers or any other movable dwelling (the larger often referred to as a mobile home) with no permanent foundation are excluded from the survey.

Conversions and/or alterations within an existing structure are excluded from the surveys as are seasonal dwellings, such as: summer cottages, hunting and ski cabins, trailers and boat houses; and hostel accommodations, such as: hospitals, nursing homes, penal institutions, convents, monasteries, military and industrial camps, and collective types of accommodation such as: hotels, clubs, and lodging homes.

### **Market Absorption Survey Methodology**

The Market Absorption Survey is carried out in conjunction with the Starts and Completions Survey in urban areas with populations in excess of 50,000. When a structure is recorded as completed, an update is also made as units are sold or rented. The dwellings are then enumerated each month until such time as full absorption occurs.

# STARTS AND COMPLETIONS SURVEY AND MARKET ABSORPTION SURVEY DEFINITIONS

A "dwelling unit", for purposes of the Starts and Completions Survey, is defined as a structurally separate set of self-contained living premises with a private entrance from outside the building or from a common hall, lobby, or stairway inside the building. Such an entrance must be one that can be used without passing through another separate dwelling unit.

A "start", for purposes of the Starts and Completions Survey, is defined as the beginning of construction work on a building, usually when the concrete has been poured for the whole of the footing around the structure, or an equivalent stage where a basement will not be part of the structure.

The number of units "under construction" as at the end of the period shown, takes into account certain adjustments which are necessary for various reasons. For example, after a start on a dwelling has commenced construction may cease, or a structure, when completed, may contain more or fewer dwelling units than were reported at start.

A "completion", for purposes of the Starts and Completions Survey, is defined as the stage at which all the proposed construction work on a dwelling unit has been performed, although under some circumstances a dwelling may be counted as completed where up to 10 per cent of the proposed work remains to be done.

The term "absorbed" means that a housing unit is no longer on the market (i.e. has been sold or rented). This usually happens when a binding contract is secured by a non-refundable deposit and has been signed by a qualified purchaser. The purpose of the Market Absorption Survey is to measure the rate at which units are sold or rented after they are completed, as well as collect prices.

### **DWELLING TYPES:**

A "Single-Detached" dwelling (also referred to as "Single") is a building containing only one dwelling unit, which is completely separated on all sides from any other dwelling or structure. Includes link homes, where two units may share a common basement wall but are separated above grade. Also includes cluster-single developments.

A "Semi-Detached (Double)" dwelling (also referred to as "Semi") is one of two dwellings located side-by-side in a building, adjoining no other structure and separated by a common or party wall extending from ground to roof.

A "Row (Townhouse)" dwelling is a one family dwelling unit in a row of three or more attached dwellings separated by a common or party wall extending from ground to roof.

The term "Apartment and other" includes all dwellings other than those described above, including structures commonly known as stacked townhouses, duplexes, triplexes, double duplexes and row duplexes.

### INTENDED MARKET:

The "intended market" is the tenure in which the unit is being marketed. This includes the following categories:

Freehold: A residence where the owner owns the dwelling and lot outright.

**Condominium (including Strata-Titled):** An individual dwelling which is privately owned, but where the building and/or the land are collectively owned by all dwelling unit owners. A condominium is a form of ownership rather than a type of house.

Rental: Dwelling constructed for rental purposes regardless of who finances the structure.

### **GEOGRAPHICAL TERMS:**

A census metropolitan area (CMA) or a census agglomeration (CA) is formed by one or more adjacent municipalities centred on a large urban area (known as the urban core). The census population count of the urban core is at least 10,000 to form a census agglomeration and at least 100,000 to form a census metropolitan area. To be included in the CMA or CA, other adjacent municipalities must have a high degree on integration with the central urban area, as measured by commuting flows derived from census place of work data. CMAs and CAs contain whole municipalities or Census Subdivisions.

A "Rural" area, for the purposes of this publication, is a centre with a population less than 10,000.

All data presented in this publication is based on Statistics Canada's 2006 Census area definitions.

### CMHC—HOME TO CANADIANS

Canada Mortgage and Housing Corporation (CMHC) has been Canada's national housing agency for more than 65 years.

Together with other housing stakeholders, we help ensure that the Canadian housing system remains one of the best in the world. We are committed to helping Canadians access a wide choice of quality, environmentally sustainable and affordable housing solutions that will continue to create vibrant and healthy communities and cities across the country.

For more information, visit our website at www.cmhc.ca or follow us on Twitter, YouTube and Flickr.

You can also reach us by phone at I-800-668-2642 or by fax at I-800-245-9274. Outside Canada call 613-748-2003 or fax to 613-748-2016.

Canada Mortgage and Housing Corporation supports the Government of Canada policy on access to information for people with disabilities. If you wish to obtain this publication in alternative formats, call 1-800-668-2642.

The Market Analysis Centre's (MAC) electronic suite of national standardized products is available for free on CMHC's website. You can view, print, download or subscribe to future editions and get market information e-mailed automatically to you the same day it is released. It's quick and convenient!
